Activity #4 Rental Apt Repair

Dear Donna Scanlon:

Thank you for requesting the comments of the New York State Historic Preservation Office (SHPO). We have reviewed the provided documentation in accordance with Section 106 of the National Historic Preservation Act of 1966. These comments are those of the SHPO and relate only to Historic/Cultural resources. They do not include other environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the National Environmental Policy Act and/or the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8).

We have reviewed the documents submitted with the with the initial proposal on March 14, 2022. We understand the proposal is for housing repairs for landlords renting to person receiving government subsidies and that the project locations have not been identified. To continue our review, we request that each housing repair project have a separate proposal submitted as an individual project at https://cris.parks.ny.gov/ with the following information:

1) Scope of work detailing the project area, current conditions, and proposed rehabilitation work.
2) Please submit clear, color, and labeled photos of the project area(s). If relevant, be sure to include photos of any windows and doors proposed for replacement as these are often character defining features of historic buildings. If submitting a large number of photos, we recommend combining them into a single document (PDF format) before uploading.

If you have any questions, please feel free to reach out via email.

Sincerely,

Wm Floyd
