**Research, Retrieval, and Assembling of Documents**

**A minimum fee of \$10.00 per personnel hour (or the actual cost if greater), in excess of ONE (1) hour, for staff time and overhead for the research, retrieval, assembling, and organizing of documents in response to a valid request for copies of public records. This charge is in addition to the basic charge for copying of documents set forth elsewhere in this Schedule of Fees and Charges.**

**Assessment petitions.**

**A \$50.00 fee charges for all applications for assessment petitions.**

**(FEE TO BE REFUNDED IF PROJECT IS APPROVED BY THE CITY COUNCIL.)**

**FINANCE**  
**FEES & CHARGES**  
**FISCAL YEAR 2012 – 2013**

**Miscellaneous Fees:**

Computer printout, per page	\$	0.25
Duplicate utility bill	\$	0.25
Duplicate miscellaneous bill	\$	0.25
Duplicate 1099's	\$	3.00
Returned check, each check, each time presented for payment	\$	25.00

Sale of leaf bags \$ 4.00 - 10 bags

The charge for leaf bags is subject to change due to circumstances at the landfill and costs associated with service.

**Service charges**

	Weekdays 8 a.m.-5 p.m.	After 5:00 p.m./ holidays/ weekends
Connect Electric Service	\$ 35.00	\$ 75.00 ( * )
Connect Water Service	\$ 35.00	\$ 75.00 ( * )
Restore service delinquent	\$ 35.00	\$ 75.00 ( * )
(Due and payable even if services have not been interrupted at time of payment)		
Administrative After Hours Charge	N / A	\$ 50.00
Interrupt service @ pole or transformer, delinquent	Actual cost	Actual cost
Restore service @ pole or transformer, delinquent	Actual cost	Actual cost
Meter testing: Single phase	\$ 25.00	N / A
Three phase	\$ 50.00	N / A
Late fees	Greater of \$8.50 or 1 ½ % of unpaid balance	
Meter tampering, each meter	\$ 100.00	\$ 100.00
Temporary electric service and/or utility pole	\$ 50.00	N / A

( \* ) Administrative After Hours Charge, charged for any after normal business hours service. This fee is in addition to any other fees that may be due and payable.

**Customer Deposits**

Residential	Inside		Outside	
	<u>Electric</u>	<u>Water &amp; Sewer</u>	<u>Electric</u>	<u>Water &amp; Sewer</u>
Homeowner	Exempt	Exempt	Exempt	Exempt
Renters	* \$250.00	* \$ 70.00	* \$250.00	* \$140.00
Mobile Homes	* \$250.00	* \$ 70.00	* \$250.00	* \$140.00
	** Exempt if own home and lot		** Exempt if own home and lot	

\* The sum of the two (2) deposits shall not exceed \$320.00 for inside and \$390.00 for outside.

\*\* Considered home owner if own both mobile home and lot. Considered renter if just own mobile home.

**Customer Deposit Alternatives: Any applicant who must pay a deposit for utility service may:**

- a. Supply a letter of credit demonstrating good credit with another electric, water and/or sewer utility providing the same type of services being requested. Example: Customer requesting Electric, Water, and Sewer services can not use a letter of credit from a water utility only to satisfy deposit requirements.
- b. Have a guarantee agreement signed by a current City utility customer who has good credit with the City. The guarantor will be responsible for an amount up to the amount of the deposit, if the customer does not pay its bill. The guarantor will be notified by the City of an impending disconnection. Additionally, Grantor must have same type of services with the City that he/she is guaranteeing. If Grantor does not have electric service, he/she can not guarantee such services. Further, Grantor will be limited to two (2) active guarantees at any one time. The agreement will remain in effect for three (3) years from the date of agreement unless the applicant establishes "good credit" (as defined elsewhere in this policy) with the City of Newton. Should the applicant fail to establish "good credit" at the end of the three (3) years, he/she or they must place an appropriate cash deposit. Further, a minimum of twelve (12) billing months is required for the applicant to establish "good credit" with the City of Newton.
- c. Any applicant who must pay a deposit may show that he/she is a utility customer with good credit.
- d. Any homeowner shall be required to place a cash deposit by appearing on the City's cut-off list three (3) times in a running twelve (12) month period regardless of whether actually cut-off or not. This deposit shall be two times the average monthly bill.

**HUMAN RESOURCES**

**FEES & CHARGES  
FISCAL YEAR 2012 – 2013**

<b>Duplicate W-2's</b>	<b>\$ 3.00</b>

Assessments

- |                              |   |
|------------------------------|---|
| 1. Paving                    |   |
| 2. Paving with curb & gutter |   |
| 3. Adding curb & gutter      |   |
| 4. Sidewalk                  |   |
| 5. Water                     |   |
| 6. Sewer                     |   |
|                              | All assessments are<br>based on the actual<br>cost of the project |

**Brush pick-up**

One load equivalent to a 1-ton pick-up truck load (10 ft X 10 ft pile X 4 ft high) per week per residence will be collected without charge on each cycle. (A cycle is defined as one complete service for the entire city)

Additional brush will be collected at the rate of \$50.00 for each 30 minutes (or fraction thereof) of work done by City crews contracted by the City.

**Tree trimming/Lawn Care Permits**

All Tree Trimming and Lawn Care businesses that provide services inside the City of Newton city limits are required to obtain an annual permit. A \$10.00 annual fee will be charged for issuance or renewal of the tree trimming/lawn care contractor permit.

**Tree Trimming/Lawn Care Contractors**

Any Tree Trimming or Lawn Care contractor who operates inside the City limits of Newton without the proper permit or in violation of the most current city policy may be subject to a fine of \$100 per violation. The contractor's permit may also be revoked at the discretion of the Director of Public Works.

**Tree Trimming Around City Electric Lines**

Tree trimming around primary power lines only by city staff - No Charge

Additional Tree trimming under primary power lines but outside 15 ft corridor from center of pole - \$75.00 per hour.

**PUBLIC WORKS – SANITATION  
FEES & CHARGES  
FISCAL YEAR 2012 – 2013**

**Residential Tipping Fees** \$ 4.00

**Refuse Collection Fees** \$ 6.00

**Commercial Dumpster Sales & Rental Charges**

The cost for dumpsters purchased from the city will be the city's direct cost plus 5%.

<b><u>Rental Fees Per Size</u></b>	<b><u>Four Yard</u></b>	<b><u>Six Yard</u></b>	<b><u>Eight Yard</u></b>
	\$10	\$15	\$20

- The fees shown, separate the tipping fees from the collection service.
- Tipping fees are charged to the City of Newton from Catawba County and are subject to change.
- Triple tipping fees will be charged to accounts which do not recycle their cardboard.

	<u>Haul Fee</u>	<u>Landfill Fee</u> (per ton)
15 Cubic Yard Hooklift Container	\$ 40.00	\$ 33.00
One Time Delivery Fee - \$40.00		

**Alcoholic Beverage Commission Recycling (dumpster customers only)** \$ 15.00 per month

**White goods collection fee** \$ 10.00 per item

**Cardboard collection fee rate** **Charge per month**

1 cubic yard or less	\$ 0.00
1 to 2 cubic yards	\$ 4.50
2 to 3 cubic yards	\$ 7.50
3 to 4 cubic yards	\$ 10.50
4 to 5 cubic yards	\$ 12.00
5 to 6 cubic yards	\$ 15.00
6 to 7 cubic yards	\$ 18.00
7 to 8 cubic yards	\$ 22.50
8 to 9 cubic yards	\$ 30.00
9 to 10 cubic yards	\$ 37.50
Over 10 cubic yards	\$ 45.00

**City of Newton Rollout Container Service Policy  
July 1, 2008**

- 1) Anyone receiving city rollout container service will be limited to the equivalent of two 96 gallon containers each week. Anyone receiving the service must have a least one city owned rollout (one container provided by the city with no charge for the cost of the rollout container) and pay a minimum of one tipping fee and one collection fee.
  
- 2) Anyone that consistently disposes of more than the equivalent of two 96 gallon containers of debris per week per account will be required to utilize additional approved containers and will be charged a rate equivalent to the current City Commercial Dumpster rates. For example – Six 96 gallon containers is equivalent to one 4 cubic yard dumpster. (See rate chart below)
  
- 3) Customers must use only city approved rollout containers that are compatible with the tippers on the city’s sanitation equipment and place overflow garbage up to the equivalent of a 96 gallon container beside the city rollout.
  
- 4) If more than two city containers are obtained by a customer then the monthly charge will be based on how many city rollout containers they have and not how many they use each week.

Number of City Rollouts	Equivalent Dumpster Size	Monthly Charge
Equivalent of 2 – (96 gallon rollouts)	N/A	\$ 10.00 * Total
3 – 60 gallon rollout		\$4.00 tipping + \$6.00 collection
3 – 96 gallon rollouts	½ of a 4 cubic yard dumpster	\$ 33.00 *
5 – 60 gallon rollouts		\$14.85 tipping + \$18.15 collection
4 – 96 gallon rollouts	2/3 of a 4 cubic yard dumpster	\$ 44.00 *
6 – 60 gallon rollouts		\$19.80 tipping + \$24.20 collection
5 – 96 gallon rollouts	5/6 of a 4 cubic yard dumpster	\$ 55.00 *
8 - 60 gallon rollouts		tipping + \$30.25
6 – 96 gallon rollouts	One 4 cubic yard dumpster	\$ 65.75 *
10- 60 gallon rollouts		\$29.75 tipping + \$36.00 collection
7 – 96 gallon rollouts	1-1/6 4 cubic yard dumpster	\$ 76.71 *
		\$34.68 tipping + \$42.03 collection
8 – 96 gallon rollouts	1-1/3 4 cubic yard dumpster	\$ 87.67 *
		\$39.63 tipping + \$48.04 collection

## PUBLIC UTILITIES - ELECTRIC

### FEES & CHARGES FISCAL YEAR 2012 – 2013

#### Connection Fees and Related Charges

All connection type fees shall be paid in advance. In those cases where the fee is determined by materials used and/or work performed, an advance deposit of the estimated cost as determined by the City is required.

#### Electrical Service Connection

All new connections: residential, commercial, industrial (overhead)	No Charge
New underground service to dwelling	No Charge
Any existing overhead service changed to underground service to serve new load shall increase by at least 50%	No Charge
Any existing overhead service changed to underground service from pole without load increase	\$500.00 or actual cost whichever is greater.
New underground to serve security light	\$ 2.00 per ft.

#### Sale and Disposition of surplus utility poles and cross arms

Surplus Utility Poles (per usable foot)	\$ 0.50
Surplus Cross Arms	\$ 1.00

These materials would be surplus by means of replacement due to repairs or age. An example would be an automobile accident wherein a 35' pole is damaged. There might possibly be as much as 20 to 25 feet of usable pole left. At present, all damaged poles and / or crossarms are stored at the Public Works Facility. These materials are an asset and should be treated accordingly and disposed in a manner to show where the asset went and any cost recouped.

#### Miscellaneous Charges

Electronic KYZ output for three phase services upon written request.	\$ 25.00 per month
--	--------------------

**COINCIDENT PEAK RATE – 98 – 1  
ELECTRIC RATE SCHEDULE CP – 98 – 1  
(July 1, 1998 through June 30, 2012)**

**Availability**

Available only to new commercial or industrial loads which begin receiving service between July 1, 1998 and June 30, 2012. The demand of the new load must equal or exceed 100 kW but be less than 500 kW during at least three months of a twelve-month period.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on a single contiguous site or premises.

This Schedule is not available for auxiliary or breakdown service and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing and retaining all necessary rights-of-ways, privileges, franchises, and permits for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event the City is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchises, and/or permits.

**Type of Service**

The City will furnish 60-Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase, 3 wire, 240, 480, 575, or 2400 volts, or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's load and the duration of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the city's specifications.

The type of service supplied will depend upon the voltage available at or near the Customer's location. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

**Monthly Rate**

Basic Utilities Charge	\$ 71.47	
Demand Charge		
Monthly Billing Demand		
Summer (June – Sept)	\$ 22.63	kW
Winter (Oct – May)	\$ 6.12	kW
Excess Demand (All months)	\$ 2.15	kW
Energy Charges		
Summer (June – Sept)	On-Peak \$ 0.05042	per kWh
	Off-Peak \$ 0.04710	per kWh
Winter (Oct – May)	On-Peak \$ 0.04773	per kWh
	Off-Peak \$ 0.04649	per kWh

**Definition of “Month”**

The term “month” as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

**Determination of Billing Demand**

**Billing Demand**

Billing Demand shall be the average of the integrated clock hour kW demands measured during the hours of the On-Peak Period on the day identified as the Peak Management Day used by the North Carolina Power Municipal Power Agency Number 1 (NCMPA1) for wholesale billing purposes during the corresponding month of Customer’s billing.

**On-Peak Periods**

On-peak periods are non-holiday weekdays during the following times:

June – September	2pm – 6pm
December – February	7am – 9am
All other months	7am – 9am and 2pm – 6pm

**Holidays**

The following days of each calendar year are considered holidays: New Years Day, Martin Luther King’s Birthday, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the Friday following Thanksgiving Day, and Christmas Day. In the event that any of the foregoing Holidays falls on a Saturday, the preceding Friday shall be deemed to be the Holiday. In the event any of the foregoing Holidays falls on a Sunday, the following Monday shall be deemed to be the Holiday.

**Peak Management Days**

Peak Management Days are the days on which NCMPA1 notifies its Participants to activate their peak management programs during On-Peak periods. The Peak Management Day used to establish the city’s wholesale billing demand is the one Peak Management Day during the month on which NCMPA1 experienced the greatest average load (determined as the average of NCMPA1’s integrated hourly loads during the hours of the On-Peak Period).

**Minimum Bill**

The minimum bill shall be the bill calculated on the Rate above including the Basic Facilities Charge, Demand Charge, and Energy Charge, but the bill shall not be less than the amount determined as shown below:

**Monthly Minimum Bill**

**\$1.77 per KW per month of Contract Demand**

If the Customer's measured demand exceeds the Contract Demand, the City may, at any time, establish the minimum based on the maximum integrated demand in the previous 12 months including the month for which the bill is rendered, instead of the Contract Demand.

**Excess Demand**

Excess demand shall be the difference between the maximum integrated clock hour kW demand recorded during the current billing month and the Billing Demand for the same billing month.

**Notification by City**

The City will use diligent efforts to provide advance notice to the Customer of Peak Management Days if requested. However, the City does not guarantee that advance notice will be provided. Notification by the City will be provided to the Customer by direct telephone communications or automatic signal, as mutually agreed. The Customer will hold the City harmless in connection with its response to notification.

**Determination of Energy**

The kWh of energy shall be the sum of all energy used during the current billing month as indicated by watt-hour meter readings.

**On-Peak Energy**

For billing purposes in any month, On-Peak Energy, in kWh, shall be the metered energy during the On-Peak Energy Period, whereby the On-Peak Energy period is defined as non-holiday weekdays from 7:00am to 11:00pm.

**Off-Peak Energy**

For billing purposes in any month, Off-Peak Energy, in kWh, shall be the metered total monthly energy less the amount of energy billed in that month under On-Peak Energy.

**Power Factor Correction**

When the average monthly power factor of the Customer's power requirements is less than 90 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 90 percent and dividing by the average power factor in percent for that month.

**Contract Period**

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days prior notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

**Sales Tax**

**Applicable North Carolina sales tax shall be added to the customer's total charges for each month, determined in accordance with the above electric rates.**

**Effective for all billing rendered on or after July 1, 2012**

**COINCIDENT PEAK RATE – 98 – 2  
ELECTRIC RATE SCHEDULE CP – 98 – 2  
(July 1, 1998 through June 30, 2012)**

**Availability**

Available only to new commercial or industrial loads which begin receiving service between July 1, 1998 and June 30, 2012. The demand of the new load must equal or exceed 500 kW but be less than 3,000 kW during at least three months of a twelve-month period.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on a single contiguous site or premises.

This Schedule is not available for auxiliary or breakdown service and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing and retaining all necessary rights-of-ways, privileges, franchises, and permits for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event the City is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchises, and/or permits.

**Type of Service**

The City will furnish 60-Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase, 3 wire, 240, 480, 575, or 2400 volts, or

3 phase 4160Y/2400, or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customers load and the duration of the Customers contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the city's specifications.

The type of service supplied will depend upon the voltage available at or near the Customer's location. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

**Excess Demand**

Excess demand shall be the difference between the maximum integrated clock hour kW demand recorded during the current billing month and the Billing Demand for the same billing month.

**Notification by City**

The City will use diligent efforts to provide advance notice to the Customer of Peak Management Days if requested. However, the City does not guarantee that advance notice will be provided. Notification by the City will be provided to the Customer by direct telephone communications or automatic signal, as mutually agreed. The Customer will hold the City harmless in connection with its response to notification.

**Determination of Energy**

The kWh of energy shall be the sum of all energy used during the current billing month as indicated by watt-hour meter readings.

**On-Peak Energy**

For billing purposes in any month, On-Peak Energy, in kWh, shall be the metered energy during the On-Peak Energy Period, whereby the On-Peak Energy period is defined as non-holiday weekdays from 7:00am to 11:00pm.

**Off-Peak Energy**

For billing purposes in any month, On-Peak Energy, in kWh, shall be the metered total monthly energy less the amount of energy billed in that month under On-Peak Energy.

**Power Factor Correction**

When the average monthly power factor of the Customer's power requirements is less than 90 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 90 percent and dividing by the average power factor in percent for that month.

**Contract Period**

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days prior notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

**Sales Tax**

Applicable North Carolina sales tax shall be added to the customer's total charges for each month, determined in accordance with the above electric rates.

Effective for billing rendered on or after July 1, 2012.

**ECONOMIC DEVELOPMENT RIDER NO. 1  
(July 1, 1998 through June 30, 2012)**

**Availability**

This rider is available in conjunction with service under the City's Electric Rate Schedule CP-98-2 ("CP-98-2") or Electric Rate Schedule CP-98-3 ("CP-98-3") for those customers with a monthly demand of 1,000 kW or greater. The availability of credits under this Rider is contingent upon the Customer maintaining a minimum demand of 1,000 kW or greater and meeting the other requirements for service under the then effective CP-98-2 or CP-98-3 rates.

Any Customer desiring to receive service under this Rider shall provide written notification to the City of such desire. Such notice shall provide the City with information concerning the load to be served and the Customer's facilities and shall provide the basis of the City representation that the characteristics of the load will meet the minimum eligibility requirements.

All terms and conditions of the CP-98-2 or CP-98-3 rate, whichever is applicable to the Customer, shall apply to service supplied to the Customer except as modified by this Rider.

**Monthly Credit**

For any month that the Customer billing demand is 1,000 kW or greater the Customer will receive a Monthly Credit on the bill calculated on the then effective CP-98-2 or CP-98-3 rate, whichever is applicable to the Customer. The schedule of Monthly Credits will be calculated as described below under the heading "Application of Credit".

**Application of Credit**

Beginning with the date on which service under the then effective CP-98-2 or CP-98-3 rate is to commence for the eligible load, a Monthly Credit based on the following schedule will be applied to the total electrical billing, including Basic Facilities, On-Peak Demand Charge, Excess Demand Charge, Annual Demand Charge, Energy Charge, or Minimum Bill, excluding other applicable riders and special charges, if any.

<u>Period</u>	<u>Discount</u>
Months 1-12	20%
Months 13-24	15%
Months 25-36	10%
Months 37-48	5%
After Month 48	0%

**Contract Period**

Customers receiving service under this Rider will be subject to a ten year contract period.

Effective for billing rendered on or after July 1, 2008.

## SCHEDULE RS RESIDENTIAL SERVICE

### Availability

Available only to residential customers in residences, condominiums, mobile homes, or individually-metered apartments which provide independent and permanent facilities complete for living, sleeping, eating, cooking, and sanitation.

### Type of Service

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single phase, 120/240 volts; or

3 phase, 208Y/120 volts; or other available voltages at the City's option.

Motors in excess of 2 H.P., frequently started, or arranged for automatic control, must be of a type to take the minimum starting current and must be equipped with controlling devices approved by the City.

Three phase service will be supplied, if available. Where three-phase service is supplied through the same meter, it will be billed on the rate below. Where three phase service is supplied through a separate meter, it will be billed on the applicable General Service schedule.

### Rate

Basic Facilities Charge per Month	\$ 11.79	
Energy Charges		
For the first 350 kWh used per month, per kW	\$ 9.9505	cents per kW
For the next 950 kWh used per month, per kW	\$ 11.1835	cents per kW
For all over 1300 kWh used per month, per kW	\$ 10.0668	cents per kW

### Payment

All bills are due and payable when rendered. However, each customer has twenty days from the billing date to remit payment in full without penalty. If any balance is remaining after the twenty days from the billing date, he/she or they shall incur a late penalty of 1½% of the unpaid balance or \$8.50 which ever is greater. The minimum late penalty to be assessed shall be \$8.50. The customer shall have ten additional days to remit payment or have services involuntarily terminated for non-payment.

**SCHEDULE RE  
RESIDENTIAL SERVICE – ENERGY EFFICIENT**

**Availability**

Available only to residential customers in residences, condominiums, mobile homes, or individually-metered apartments which provide independent and permanent facilities complete for living, sleeping, eating cooking, and which are certified to meet the standards of the Energy Star program of the United States Department of Energy and Environmental Protection Agency.

To qualify for service under this schedule compliance with the Energy Star standards must be verified by a third party independent Home Energy Rating System (HERS) rater working for an approved HERS provider.

Power delivered under this schedule shall not be used for resale or exchange or in parallel with other electric power or as a substitute for power contracted for or which may be contracted for, under any other schedule of the city, except at the option of the city.

Energy Star Home Certification criteria may vary based on geographical location of the residence. There is a list of independent HERS rater are available from the city or on the Energy Star web site at [www.energystar.gov](http://www.energystar.gov).

**Type of Service**

The city will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, where available:

- Single-phase, 120/ 240 volts; or
- 3-phase, 208Y/120 volts; or other available voltages at city option.

Motors in excess of 2 H.P., frequently started, or arranged for automatic control, must be of a type to take the minimum starting current and must be equipped with controlling devices approved by the city.

Three phase service will be supplied, if available. Where three-phase and single-phase service is supplied through the same meter, it will be billed on the rate below. Where three-phase service is supplied through a separate meter, it will be billed on the applicable General Service schedule.

**Rate:**

Basic Facilities Charge per Month	\$ 11.79	
Energy Charges		
For the first 350 kWh used per month, per kW	\$ 9.4528	cents per kW
For the next 950 kWh used per month, per kW	\$ 10.6244	cents per kW
For the first 1300 kWh used per month, per kW	\$ 9.5636	cents per kW

**Requirements:**

The All-Electric rate above is applicable to residences where the Energy Star standards are met and all energy required for all water heating, cooking, clothes drying, and environmental space conditioning is supplied electrically, except that which may be supplied by non-fossil such as solar.

1. Water heaters shall be of the automatic insulated storage type, of not less than 30-gallon capacity and may be equipped with only a lower element or with a lower element and upper element.
2. Water heaters having only a lower element may have wattages up to but not exceeding the wattages shown below for various capacities.

<u>Tanks Capacity in Gallons</u>	<u>Maximum Single Element Wattage</u>
30-49	4500
50-119	5500
120 and larger	Special approval

3. The total wattage of the elements in a water heater with a lower element and a upper element may not exceed the specific wattage above unless the water heater has interlocking thermostats to prevent simultaneous operation of the two elements such that the maximum wattage is not exceeded during operation.

Billing of service under this schedule will begin after the Customer has provided the city with certification that the residence meets the Energy Star standards. The city at all reasonable times shall have the right to periodically inspect the premises of the Customer for compliance with the requirements, subsequent to the initial inspection.

**Payment:**

All bills are due and payable when rendered. However, each customer has twenty days from the billing date to remit payment in full without penalty. If any balance is remaining after the twenty days from the billing date, he/she or they shall incur a late penalty of 1½ % of the unpaid balance or \$8.50 which ever is greater. The minimum late penalty to be assessed shall be \$8.50. The customer shall have ten additional days to remit payment or have services involuntarily terminated for non-payment.

**Contract Period**

The original terms of this contract shall be one year and thereafter until terminated by either party on thirty days' written notice.

## SCHEDULE I INDUSTRIAL SERVICE

### Availability

Available only to establishments classified as "Manufacturing Industries" by the Standard Industrial Classification Manual published by the United States Government, and where more than 50% of the electric energy consumption of such establishment is used for its manufacturing processes.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single, contiguous premises.

This Schedule is not available for auxiliary or breakdown service. Power delivered under this schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing and retaining all necessary rights-of-ways, privileges, franchises and permits, for the delivery of such power. The City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure secure and retain such rights-of-way, rights, privileges, franchise, and permits.

### Type of Service

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, were available:

- Single-phase, 120/240 volts; or
- 3- phase, 208Y/120 volts, 480Y/277 volts; or
- 3- phase, 3 wire, 240, 480, or 2300 volts, or
- 3- phase 4160Y/2400, 24940Y/14400 volts; or

3-phase voltages other than those listed above may be available at the City's option if the size of the Customer's contract warrants a substation solely to serve that Customer, and if the Customer furnishes suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should determine the available voltage by contacting the City's Electric Utilities Department before purchasing equipment.

Motors of less than 5 H.P. may be single-phase. All motors of more than 5 H.P. must be equipped with starting compensators. The City reserves the right, when in its opinion the installation would not be detrimental to the service of the Company, to permit other types of motors.

**Rate**

Basic Facilities Charge	\$ 23.67	
Demand Charge		
For the first 30 KW of Billing Demand per month	No Charge	
For all over 30 KW of Billing Demand per month	\$ 7.63	per kW
Energy Charge		
For the first 3,000 kWh per month	\$ 13.4868	cents per kW
For the next 9,000 kWh per month	\$ 7.3744	cents per kW
For all over 12,000 kWh per month	\$ 6.4624	cents per kW

**Definition of “Month”**

The term “month” as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing. Readings are taken once a month at intervals of approximately thirty (30) days.

**Determination of Billing Demand**

The Billing Demand each month shall be the largest of the following:

1. The maximum integrated fifteen-minute demand in the previous 12 months including the month for which the bill is rendered.
2. Fifty percent (50%) of the Contract Demand.
3. 30 kilowatts (KW)

The City will install a permanent demand meter when the monthly usage of the Customer equals or exceeds 3,000 kWh per month, or when tests indicate a demand of 15 KW or more. The City may, at its option, install a demand meter for any customer served under this Schedule.

**Minimum Bill**

The minimum bill shall be the bill calculated on the Rate above including the Basic Facilities Charge, Demand Charge, and Energy Charge, but the bill shall not be less than the amount determined as shown below:

**Monthly Minimum Bill**

**\$1.77 per KW per month of Contract Demand**

If the Customer’s measured demand exceeds the Contract Demand, the City may, at any time, establish the minimum based on the maximum integrated demand in the previous 12 months including the month for which the bill is rendered, instead of the Contract Demand.

**Power Factor Correction**

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

**Payment**

All bills are due and payable when rendered. However, each customer has twenty days from the billing date to remit payment in full without penalty. If any balance is remaining after the twenty days from the billing date, he/she or they shall incur a late penalty of 1½ % of the unpaid balance or \$8.50 which ever is greater. The minimum late penalty to be assessed shall be \$8.50. The customer shall have ten additional days to remit payment or have services involuntarily terminated for non-payment.

**Contract Period**

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter by giving at least sixty (60) days' previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

## **SCHEDULE G GENERAL SERVICE**

### **Availability**

Available to the individual or business customer.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on single contiguous premises.

This Schedule is not available to the individual who qualifies for a residential or industrial schedule not for auxiliary or breakdown service. Power delivered under this schedule shall not be used for resale or exchange or in parallel with other electric power or as a substitute for power contracted for or which may be contracted expressed in writing in the contract with the customer.

The obligations of the City in regard to supplying power are dependent upon its securing and retaining all necessary right of ways, privileges, franchises and permits, for the delivery of such power. The City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from, furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchise, and permits.

### **Type of Service**

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, were available:

Single-phase, 120/240 volts; or

3- phase, 208Y/120 volts, 480Y/277 volts; or

3- phase, 3 wire, 240, 480, or 2300 volts, or

3- phase 4160Y/2400, 24940Y/14400 volts; or

3-phase voltages other than those listed above may be available at the City's option if the size of the customer's contract warrants a substation solely to serve that customer, and if the customer furnishes suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should determine the available voltage by contacting the City's Electric Utilities Department before purchasing equipment.

Motors of less than 5 H.P. may be single-phase. All motors of more than 5 H.P. must be equipped with starting compensators. The City reserves the right, when in its opinion the installation would not be detrimental to the service of the Company, to permit other types of motors.

**Rate**

Basic Facilities Charge	\$ 15.82	
Demand Charge		
For the first 30 KW of Billing Demand per month	No Charge	
For all over 30 KW of Billing Demand per month	\$ 8.6285	per kW
Energy Charge		
For the first 3,000 kWh per month	\$ 13.9802	cents per kW
For the next 9,000 kWh per month	\$ 7.3421	cents per kW
For all over 12,000 kWh per month	\$ 6.6218	cents per kW

**Definition of "Month"**

The term "month" as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing. Readings are taken once a month at intervals of approximately thirty (30) days.

**Determination of Billing Demand**

The Billing Demand each month shall be the largest of the following:

1. The maximum integrated fifteen-minute demand in the previous 12 months including the month for which the bill is rendered.
2. Fifty percent (50%) of the Contract Demand.
3. 30 kilowatts (KW).

The City will install a permanent demand meter when the monthly usage of the Customer equals or exceeds 3,000 kWh per month, or when tests indicate a demand of 15 KW or more. The City may, at its option, install a demand meter for any customer served under this Schedule.

**Minimum Bill**

The minimum bill shall be the bill calculated on the Rate above including the Basic Facilities Charge, Demand Charge, and Energy Charge, but the bill shall not be less than the amount determined as shown below:

**Monthly Minimum Bill**

\$1.77 per KW per month of Contract Demand

If the Customer's measured demand exceeds the Contract Demand, the City may, at any time, establish the minimum based on the maximum integrated demand in the previous 12 months including the month for which the bill is rendered, instead of the Contract Demand.

**Power Factor Correction**

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

**Payment**

All bills are due and payable when rendered. However, each customer has twenty days from the billing date to remit payment in full without penalty. If any balance is remaining after the twenty days from the billing date, he/she or they shall incur a late penalty of 1½% of the unpaid balance or \$8.50 which ever is greater. The minimum late penalty to be assessed shall be \$8.50. The customer shall have ten additional days to remit payment or have services involuntarily terminated for non-payment.

**Contract Period**

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter by giving at least sixty (60) days' previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

**North Carolina Municipal Power Agency Number 1  
Participant Rate Schedule  
Renewable Energy Portfolio Standards (REPS) Charge  
Rider No. 15**

**Effective Date**

This Rate rider shall be effective on and after July 1, 2011, and shall remain effective until modified by the governing boards in accordance with N.C. General Statute 159B-10(b).

**Applicability**

The REPS Charge set forth in this Rider is applicable to all Participants receiving All Requirements Bulk Power Supply service, as provided by Power Agency.

**Billing**

The monthly bill computed under Power Agency's applicable Wholesale Power Service Schedule will be increased by an amount equal to each Participant's customer count as reported by each Participant on its EIA-861 Report for Calendar Year 2009 multiplied by the Total REPS Charge shown below.

<u>(\$/Customer)</u>	<u>Monthly Charges</u>		
	<u>Renewable Resources</u>	<u>DSM/Energy Efficiency</u>	<u>Total REPS Charge</u>
<u>Residential Customer Account</u>	\$0.47	\$0.00	\$0.47
<u>Commercial Customer Account*</u>	\$2.31	\$0.13	\$2.31
<u>Industrial Customer Account*</u>	\$23.82	\$0.00	\$23.82

\*Participants will be charged only the Renewable Resource Rate for those customers that have elected to not participate in DSM/Energy Efficiency Programs.

**City of Newton  
Renewable Energy Credit Rider  
Electric Rate Rider RECR-1**

**AVAILABILITY**

This optional rate rider is available to customers on any City of Newton rate schedule who operate solar photovoltaic, wind powered, or biomass-fueled generating systems, without battery storage, located and utilized at the customer's primary residence or business where a part or all of the electrical requirements of the customer can be supplied from the customer's generating system. To qualify for this rate rider, the customer must have complied with the City's Interconnection Standards and have an approved Interconnection Request Form. As part of the Interconnection Request Form approval process, the City retains the right to limit the number and size of renewable energy generating systems installed on the City's System. The generating system that is in parallel operation with service from the City and located on the customer's premises must be manufactured, installed and operated in accordance with all governmental and industry standards, in accordance with all requirements of the local code official, and fully conform with the City's applicable renewable energy interconnection interface criteria. Customers with qualified systems may also apply for NCGreenPower credits or North Carolina Municipal Power Agency 1 ("NCMPA1") Renewable Energy Certificate ("REC") credits.

The Fixed Long-Term Rates on this Rider are available only to customers who have executed a Power Purchase Agreement with the City on or before July 1, 2011 (or other date determined by City) for delivery of power beginning on or before the earlier of thirty (30) months from the date of execution of the Power Purchase Agreement.

Notwithstanding the above, all qualifying facilities have the option to sell energy to the City on an "as available" basis and receive energy credits only calculated using the Variable Rates identified in this Rider for the delivered energy.

**MONTHLY CREDIT**

Monthly credits are paid according to the type of renewable generation.

**WIND AND BIOMASS ENERGY CREDIT (\$ Per kWh):**

	<u>Variable</u>	<u>Fixed Long-term Rate</u>		
		<u>5 Years</u>	<u>10 Years</u>	<u>15 Years</u>
On-peak energy *	\$0.0332	\$0.0343	\$0.0372	\$0.0396
Off-peak energy	\$0.0098	\$0.0103	\$0.0109	\$0.0113

**Solar Photovoltaic Energy Credit (\$ Per kWh):**

	<u>Variable</u>	<u>Fixed Long-term Rate</u>		
		<u>5 Years</u>	<u>10 Years</u>	<u>15 Years</u>
All energy*	\$0.0355	\$0.0366	\$0.0394	\$0.0418

\* These energy credits include a capacity component.

**Monthly Energy**

Monthly Energy shall be the total kWh of energy delivered by the Customer's renewable energy generating system to the City during the current calendar month.

**On-Peak Energy**

On-Peak Energy shall be the metered energy during the On-Peak Energy Period of the current calendar month, whereby the On-Peak Energy Period is defined as non-holiday weekdays from 7:00 AM to 11:00 PM EPT.

**Off-Peak Energy**

Off-Peak Energy shall be the Monthly Energy less the amount of energy billed as On-Peak Energy.

**Contract Period**

Prior to receiving service under this Rider, the City and the customer shall have entered either an Interconnection Agreement or executed a Certificate of Completion (inverter-based generators less than 10kW) and a Power Purchase Agreement which covers the special terms and conditions for the customer's requirements related to the interconnection of the customer's renewable energy generating system.

Each of these agreements shall have a minimum term of one (1) year. Either party may terminate the agreements after one year by giving at least thirty (30) days previous notice of such termination in writing.

**General**

Service under this Rider is subject to the provisions of the Service Regulations of the City contained in the City Fees and Charges Manual.

**Special Conditions**

The customer's service shall be metered with two meters, one of which measures all energy provided by the City and used by the customer, and the other measures the amount of energy generated by the customer's renewable energy generator which is provided by the City.

In the event that the City determines that it is necessary to install any additional equipment to protect the safety and adequacy of electric service provided to other customers, the customer shall pay for the cost of such equipment in accordance with the terms of its Power Purchase Agreement.

Effective July 1, 2011.

**NCMPA1**  
**Standard Purchase Offer for Renewable Energy Certificates (“RECs”)**

All offers to sell RECs to NCMPA1 under this Standard Purchase Offer must be associated with a Power Purchase Agreement with NCMPA1 that has a 5, 10, or 15 year term.

REC Prices will be set at the current Standard Purchase Offer Fixed Long-term Rate associated with the same term in the Power Purchase Agreement.

The owner of each renewable generation energy facility must register the facility and receive the approval of the North Carolina Utilities Commission (“NCUC”) as a certified renewable energy facility in accordance with NCUC Rule R8—66, must notify NCMPA1 in writing of the NCUC’s acceptance of the facility as a renewable energy facility and provide NCMPA1 the Docket Number under which the NCUC approval was issued, must subsequently maintain its registration as a renewable energy facility for the term of the associated Power Purchase Agreement, and must provide all required certifications and reports to the NCUC on an annual basis, or as otherwise requested.

The owner of each renewable energy facility must also certify that its renewable energy generation facility is a “new renewable energy facility,” as defined by the Renewable Energy and Energy Efficiency Portfolio Standard legislation (Session Law 2007-397) enacted by the North Carolina General Assembly in 2007, and that it was placed in service after January 1, 2007.

The owner of each renewable energy facility must be either an NCMPA1 municipality or a retail electric customer of an NCMPA1 municipality, and the facility must be interconnected with the distribution system of an NCMPA1 municipality.

The owner of each renewable generation energy facility must establish an account with NC-RETS through which it can transfer the RECs created by its facility to NCMPA1’s NC-RETS account.

RECs purchased must be generated after execution of the PPA, must be issued a Renewable Energy Certificate through NC-RETS, and may be purchased up to 3 years after generation.

The Standard Purchase Offer for General RECs will be limited to a maximum of 2,000 RECs per year. Projects greater than 2,000 RECs per year are not eligible for this Standard Purchase Offer and owners of such projects should contact Andrew Fusco, at (919) 760-6219, for information as to NCMPA1’s interest in a separate REC Purchase Agreement.

The Standard Purchase Offer for Solar RECs will be limited to a maximum capacity of 200 kW (approximately 350 RECs per year). Projects greater than 200 kW are not eligible for this Standard Purchase Offer and owners of such projects should contact Andrew Fusco, at (919) 760-6219, for information as to NCMPA1’s interest in a separate REC Purchase Agreement.

REC pricing will be reviewed at least annually by July 1<sup>st</sup>, and is subject to change as determined by NCMPA1.

Payment for RECs will occur on a quarterly basis.

The quarterly purchase price will equal the applicable price per REC times the quantity of RECs delivered (i.e., transferred into NCMPA1’s NC-RETS account) in the applicable quarter.

NCMPA1’s renewable energy generation program and this standard offer may close at any time based on NCMPA1’s need for RECs.

	<u>Fixed Long-term Rate</u>		
	<u>5 Years</u>	<u>10 Years</u>	<u>15 Years</u>
General REC Price <sup>1</sup>	\$ 2.00	\$ 3.00	\$ 4.00
Solar REC Price <sup>1</sup>	\$ 10.00	\$ 10.00	\$ 10.00

<sup>1</sup> Effective February 1, 2013.
