

ATTENTION

**Residents of the City of South Haven and
Townships of Casco and South Haven
SOUTH HAVEN AREA EMERGENCY
SERVICES PERSONNEL**

**Will start flushing the water system and fire
hydrants beginning on
June 13, 2017**

**And continue until the all hydrants have been
inspected, and flushed. This is necessary to
clean particulates and sediment from the
system.**

**If you have discolored water at your
residence, run the water until it clears and
also run your washing machine through one
cycle to clear water from the lines and the
machine.**

Thank you,

**Ronald Wise, Executive Director
South Haven Area Emergency Services**
