The City of St. Marys is reaching out to its citizens to create a unifying Vision and a Masterplan for the future of the City. This Masterplan will guide future development and be a blueprint for City staff, elected official, civic organizations, business owners and residents to achieve the future Vision.

In order to reach out to St. Marys' youngest citizens, the City is hosting an "Art Contest" to get a better understanding of what the children of St. Marys love about their City, and what they hope the City will become over time. Selected art work will be featured in the Master Plan, and will be displayed on the One St. Marys Master Plan website and at City facilities. For more information on this art contest, and how to enter, please see the reverse side of this flyer.
