## The story behind the REAL Georgia Girl

(Chef Debbie aka as "Mama D")

Once upon a time a spunky brown eyed, brown haired little Georgia girl went a rompin' in the kitchen. This was her playground you see and she was ready to play.

Creatin', cookin', tastin' and experimentin' went on for hours, days and years until this little girl grew up and became a chef.

Traveling all through the deep South and learning from culinary masters, spunky chef became ready to share her passion for food and family with the world (well, a little piece of it anyway).

Georgia Girl Cafe was created to bring the vision and dreams of this little Georgia Girl to life. Her dedication to family and friends is like no other and bringing people back to the table with fresh home-cookin' means the world to Chef Debbie.

So come on in and get a good Hey Y'all from Mama D, enjoy some Redneck with a Flair and good ole' southern company.
