Grant Street Opening

At 6 p.m. today, Tuesday, August 26, 2014, Grant Street from Hobbs Drive to Addison Street will be open to all thru traffic.

This new section of street continues the center-left turn lane, from Addison Street to Brooke Street, with sidewalk along the north side.

Between Hobbs Drive and Brooke Street, the street is still a two-lane section, but we have added a six foot wide bike lane on both sides of the street. These bike lanes are designed for travel in the same direction as vehicular traffic on their corresponding side of the road. (north-side is westbound and south-side is east-bound). Pavement markings and future signage will indicate the bike lane and the direction of travel. Crosswalks are provided at the Brooke Street intersection to allow for access to the sidewalk on the north-side of the street to the east of Brooke Street.

This project also included upgrades to the water and sanitary sewer systems along with the necessary storm sewer and drainage ditching over the length of the project.

The City of Alpena wishes to extend thanks to the residents living in this area and to the traveling public for their patience and consideration during this project.
