Rachel Smolinski
City Manager

COUNCIL PROCEEDINGS

August 07, 2023

The Municipal Council of the City of Alpena met in regular session on the above date and was called to order at 6:00 p.m. by the Mayor.

Present: Mayor Waligora, Mayor Pro Tem Johnson, Councilmember Mitchell, Councilmember Nowak, and Councilmember Walchak.

Absent: None.

PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was recited.

APPROVAL OF THE AGENDA

Moved by Mayor Pro Tem Johnson, seconded by Councilmember Nowak, to approve the agenda.

Motion carried 5-0.

MODIFICATION TO THE AGENDA

Moved by Mayor Pro Tem Johnson, seconded by Councilmember Walchak, to add the appointment of a city representative to the Alpena County Land Bank Authority as "D" under New Business on the agenda.

Motion carried 5-0.

MINUTES

The minutes of the regular session of July 17, 2023, were approved as printed.

CONSENT AGENDA

Moved by Councilmember Nowak, seconded by Councilmember Mitchell, that the following Consent Agenda items be approved:

- A. Bills to be allowed, in the amount of \$719,192.32, and authorize Mayor Waligora and Clerk Soik to sign.
- B. Approval of City Manager Rachel Smolinski as the voting delegate and Mayor Matthew

Waligora as an alternate voting delegate for the Annual Michigan Municipal League Meeting on October 18, 2023.

- C. Mayoral reappointment of Todd Britton to the Downtown Development Authority for a 4-year term expiring on August 1, 2027.
- D. Renewal of auditing services with Straley Lamp & Kraenzlein P.C. for fiscal year 2023/24.
- E. Budget amendment request to carry over \$48,000 from the FY23 budget to FY24 for the demolition of 214 W. Lake Street in the General Fund.
- F. Budget amendment request to carry over \$19,050 from the FY23 budget to FY24 for functional fitness equipment and water rescue initiative projects in the General Fund.
- G. Approval of the grant agreement with the State Land Bank Authority and authorize City Manager Rachel Smolinski to sign.

Motion carried 5-0.

REQUEST TO CLOSE DOWN SECOND AVENUE BRIDGE

Moved by Councilmember Nowak, seconded by Mayor Pro Tem Johnson, to approve the closure of Second Avenue bridge from Fletcher Street to Chisholm Street for the Brendon Mac event on Saturday, September 02, 2023, and direct staff to work with the event organizers on the final details.

Motion carried 5-0.

MICH-E-KE-WIS SHORELINE RESTORATION PROJECT

Moved by Councilmember Nowak, seconded by Mayor Pro Tem Johnson, to approve the Huron Pines' request for the Mich-e-ke-wis shoreline restoration project.

Motion carried 5-0.

ELECTRICAL PERMIT FEE SCHEDULE REVISION

Moved by Councilmember Walchak, seconded by Councilmember Mitchell, to add the \$40 generator load calculation fee to the electrical permit fee schedule.

Motion carried 5-0.

APPOINTMENT TO THE ALPENA COUNTY LAND BANK AUTHORITY

Moved by Councilmember Nowak, seconded by Mayor Pro Tem Johnson, to nominate Mayor

Matthew Waligora to the Alpena County Land Bank Authority.

Motion carried 5-0.

ADJOURNMENT

On motion of Councilmember Nowak, seconded by Mayor Pro Tem Johnson, the Municipal Council adjourned at 6:14 p.m.

Matthew Waligora
Mayor

ATTEST:

Anna Soik
City Clerk

Dear TAXPAYER:

This is in response to your request of Apr. 16, 2009, regarding your tax-exempt status.

Our records indicate that a determination letter was issued in JUNE 1979, that recognized you as exempt from Federal income tax, and discloses that you are currently exempt under section 501(c)(03) of the Internal Revenue Code.

Our records also indicate you are not a private foundation within the meaning of section 509(a) of the Code because you are described in section(s) 509(a)(1) and 170(b)(1)(A)(vi).

Donors may deduct contributions to you as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for Federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

If you have any questions, please call us at the telephone number shown in the heading of this letter.

Sincerely yours,

Michele M. Sullivan, Oper. Mgr.

AGREEMENT REGARDING SCHOOL LIAISON OFFICER

This Agreement is entered into effective as of the 1st day of July, 2023, by and between the **CITY OF ALPENA**, a Michigan Municipal Corporation of 208 N. First Avenue, Alpena, Michigan, 49707, hereinafter referred to as “City”, and the **ALPENA PUBLIC SCHOOLS** of 2373 Gordon Road, Alpena, Michigan, 49707, hereinafter referred to as “School System”.

Whereas, the City and the School System recognize the need and benefit of having a school liaison officer assigned to Alpena High School and

Whereas, in recognition of the need and benefit of having a school liaison officer, the City and School System mutually agrees as follows:

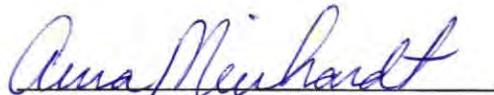

1. The City and School System agree to equally share and pay for the actual cost of a High School liaison officer said costs being described in attached Exhibit A.
2. The High School liaison officer shall work a minimum of forty hours per week, when school is in session, during the school year, except in instances of Police Department approved training, vacation or sick leave.
3. In consideration for the City’s providing a school liaison officer to the School System, the School System shall pay ½ of the actual cost of said officer, which ½ share is estimated to be \$52,890.58 which costs shall be billed by the City on a quarterly basis, as follows:
 - \$13,222.65 by August 15, 2023 (Jul/Aug/Sept)
 - \$13,222.65 on October 1, 2023 (Oct/Nov/Dec)
 - \$13,222.65 on January 1, 2024 (Jan/Feb/Mar)
 - \$13,222.63 on April 1, 2024 (Apr/May/Jun)
4. Upon receipt of the invoice from the City, the School System shall remit full payment to the City within fifteen days.
5. Within 60 days after the expiration date of this Agreement (or on or before September 1, 2024) the actual costs for the liaison officer shall be determined by the City as of June 30, 2024. This process shall be known as the Annual “True-Up”. If the actual costs of the liaison officers exceed or fall below the estimated annual costs, then the adjusted “True-Up” amount shall either be reimbursed by the City to the School System, or paid by the School System to the City, as the case may be, the intent of this agreement and “True-Up” process being that both parties desire to share equally in the actual annual costs of the school liaison officers, whatever those costs ultimately may be determined to be.

6. Either the City or the School System may terminate this agreement at any time with sixty days written notice to the other party.
7. The initial term of this agreement shall be one year from July 1, 2023 to June 30, 2024. This agreement may be renewed on an annual basis upon the mutual consent and agreement of the City and the School System.
8. The City and the School System agree that pursuant to the appropriate statutes regarding the conduct and activities of Police Officers, all the privileges and immunities from liability, exemptions from laws, ordinances and rules and regulations, when performing their respective functions for their respective agencies or employers shall apply to the same degree and extent to the performance of such functions and duties of such Police Officers under the provisions of this agreement.

In witness whereof the parties hereto by their respective representatives have executed this Contract on this _____ day of _____, 2023.

Memorandum

Date: August 17, 2023

To: Mayor and City Council Members

Copy: Anna Soik, City Clerk/Treasurer/Finance Director

From: Rachel Smolinski, City Manager

Subject: Alpena Area Lake Huron Forever Pledge

Earlier this year, I attended a meeting with Huron Pines to learn more about the Lake Huron Forever program, which was initiated in 2019 by shoreline community foundations and conservation partners from the US and Canada to advance water protection and healthy, sustainable communities on both sides of the lake. I've included a *Frequently Asked Questions document* and the *Alpena Area Lake Huron Forever Pledge* with this memo. Due to the proximity of our boundaries and communities, it is important that we partner with the Charter Township of Alpena and Alpena County to help encourage a collaborative approach to protecting Lake Huron. Through this collaborative effort, I am presenting the Alpena Area Lake Huron Forever Pledge which notes each partnering communities' commitments to protecting the resource and our community.

Patrick Heraghty, Executive Director for the Community Foundation of Northeast Michigan will attend our meeting in person to answer any questions.

Thank you for your consideration.

Recommended motion: Approve City of Alpena Resolution No. 2023-13 to adopt the Alpena Area Lake Huron Forever Pledge and authorize City Manager Rachel Smolinski to sign the Pledge.

City of Alpena

RESOLUTION NO. 2023-13

RESOLUTION TO ADOPT THE ALPENA AREA LAKE HURON FOREVER PLEDGE

WHEREAS, Lake Huron is a valued and defining feature of our region;

WHEREAS, a healthy Lake Huron means a healthy, strong, and vibrant future for local communities;

WHEREAS, the well-being and economic prosperity of our communities are tied to Lake Huron;

WHEREAS, access to healthy natural resources like fresh air and clean water improve the health and wellness of our entire community;

WHEREAS, protecting the health of Lake Huron means considering forest, water, and wildlife conservation in our decision-making, planning efforts and resource allocation;

WHEREAS, the Lake Huron Forever Pledge is a way for our community to celebrate and show our support for sustaining the health of Lake Huron;

WHEREAS, the Alpena Area Lake Huron Forever Pledge celebrates our work to protect Lake Huron and identifies action steps unique to our community to continue our good work;

WHEREAS, the goals of the Alpena Area Lake Huron Forever Pledge align with our goals for the City of Alpena;

WHEREAS, working together with the Charter Township of Alpena and Alpena County to protect local natural resources will mean stronger, longer-term protection for Lake Huron;

WHEREAS, we pledge to protect Lake Huron Forever;

NOW, THEREFORE, BE IT RESOLVED that the City of Alpena supports adopting the Alpena Area Lake Huron Forever Pledge.

Councilmember ____ moved to adopt the above resolution, seconded by_____.

Ayes:

Nays:

Absent:

Resolution declared adopted.

I, Anna Soik, City Clerk of the City of Alpena, **DO HEREBY CERTIFY** that the above is a true copy of a resolution adopted by the Municipal Council at a regular meeting held on August 21, 2023.

Anna Soik City Clerk

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

Lake Huron Forever Pledge

Charter Township of Alpena, the City of Alpena and Alpena County know that a healthy Lake Huron means a healthy, strong and vibrant future for our communities. As a result, we are committed to keeping the protection of Lake Huron at the forefront of our planning, decision making and resource allocation.

Our community well-being and economic prosperity are tied to Lake Huron. We understand that access to healthy natural resources like fresh air, clean water and public land improve the health and wellness of our entire community.

We must work together to protect the forests, wetlands and waterways to address threats of pollution and flooding caused by stormwater, proactively plan for the impacts of a changing climate, support native plant restoration and provide corridors for wildlife.

We are committed to understanding the unique connections our residents and visitors have to the Alpena area and incorporating their priorities and concerns into our decision making as we continue to lead natural resources protection efforts in our region. We pledge to protect Lake Huron forever.

Our Lake Huron Forever Pledge

- We pledge to create, implement and update a Lake Huron Forever Community Road Map.
- We promise to serve as an example of how to proactively protect Lake Huron by sharing our work with other Lake Huron communities.
- We will allocate resources (time, money, people) to understanding emerging needs and opportunities to protect Lake Huron forever.
- We will commit to and encourage all community organizations and residents to take their own actions to protect Lake Huron, forever.
- We will give back to Lake Huron by examining management practices across municipal departments to identify strategies to improve land and water resource protection efforts.
- We will share our pledge with neighboring community leaders, as well as state, provincial and federal representatives to generate more conversation and positive action for Lake Huron and Lake Huron communities.

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

Our Lake Huron Forever Community Road Map

Charter Township of Alpena, City of Alpena and Alpena County have identified several specific issues that are imperative to protecting the health of the Thunder Bay River, Thunder Bay and Lake Huron. With the support of the Lake Huron Forever network, the Township, City and County will work cooperatively to address these issues with the following goals and action steps.

Goals

- **Support and maintain current programs.** To best serve our communities, the Township, City and County must take a strategic and pragmatic approach to supporting economic, environmental and social programs to ensure the long-term sustainability of our efforts. We aim to ensure current and future programs are within our capacity to sustain.
- **Curb Stormwater Runoff.** To improve and protect water quality, the three governments have prioritized reducing and improving the quality of stormwater runoff, which can carry pollutants such as road salt, nutrients and sediment to nearby waters. Our common goal is to increase the use of nature-based solutions and innovative approaches to manage stormwater on municipal property while balancing the maintenance needs and aesthetic considerations of the community. We will explore ways to educate, incentivize and empower private landowners to manage their stormwater.
- **Improve understanding and protection of sensitive areas.** By integrating natural habitats into Alpena area planning, we can support biodiversity, wildlife, and enhance urban resilience. Our citizens will benefit from cleaner air and water as well as health benefits associated with being in nature. Future mapping, climate adaptation plans and zoning amendments will consider best management practices for protection of these unique areas and water quality.
- **Strengthen communication and coordination across local partners and organizations.** The Alpena area has active organizations dedicating time and investment to programs that educate, protect and enhance the community's natural and cultural assets. Lake Huron's history, ecology, beauty and eco-tourism potential is woven into the fabric of community life through art, events, volunteer opportunities and place-based stewardship learning offerings for youth. The Township, City and County understand the need to coordinate messaging, share resources and leverage opportunities collectively - working toward stronger coordination and communication across programs to amplify positive impact and storytelling is important.
- **Provide a strong and comprehensive recycling program.** The benefits of recycling go beyond keeping trash out of our landfills, it reduces air and water pollution, conserves energy and helps keep our waterways clean. Recycling uses less energy, creates less waste and conserves our natural resources in comparison to sourcing, processing and transporting raw materials. These impacts go far beyond our city limits. The Township, City and County are founding members of the Northeast Michigan Materials Management Authority (NMMMA) and are

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

dedicated to providing residents with a comprehensive, accessible recycling program. They will also support efforts to build a circular economy.

- **Control the spread of invasive species.** Invasive plant and animal species spread aggressively and cause ecological and economic harm. These species outcompete native species, strain fisheries, obstruct lake views, hinder recreational activities such as swimming and boating and can decrease property values. In the Alpena area, invasive plants such as Phragmites, baby's breath and European frog-bit have taken over many sensitive coastal, lake, wetland and riparian habitats. The Township, City and County commit to continuing current efforts and to staying vigilant to new and emerging threats in order to effectively manage negative impacts.
- **Identify and develop opportunities for public education and engagement.** With new programs like recycling and opportunities to elevate natural resources in local planning and decisions, the City, County and Township recognize the need to support these initiatives with public education and engagement. Understanding and support from residents and visitors is important to sustaining investments and positive impact. Public education and engagement opportunities will be part of program planning with opportunities for active volunteer organizations, area businesses, the local school district and youth programs to be involved in design and delivery of the information.
- **Prioritize skill development and training for governmental staff and officials.** We will increase emphasis on environmental education and training programs for our staff and officials. There are many programs, tools, trainings and offerings through the Lake Huron Forever network and elsewhere that can have a meaningful impact on our communities. Deeper learning on coastal resilience planning, invasive species identification and removal, sustainable development, green cities initiatives and other related topics will directly strengthen and sustain efforts advanced through our Lake Huron Forever Pledge.

Action Steps

Charter Township of Alpena, City of Alpena and Alpena County, in coordination and collaboration will collectively;

1. Work across boundaries and programs to protect our shared resources. We will review our Lake Huron Forever (LHF) road map during regular meetings and participate in peer-to-peer learning opportunities.
2. Incorporate review and updating of the Pledge with onboarding of new staff/elected officials.
3. Install visual representation(s) showcasing the commitment to become a Lake Huron Forever community. This could include signage, storm drain stamps, business window decals, etc..
4. Continue to expand recycling in government operations and for Alpena Area citizens by actively participating with other members of NMMMA. This will include expanded services to

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

- both urban and rural residents, as well as an increase in the types and quantities of recyclables collected.
5. Work with education partners, such as the Northeast Michigan Great Lakes Stewardship Initiative (NEMIGLSI) and Alpena Public Schools, to engage youth, identify place-based stewardship projects that advance pledge activities and foster opportunities to pilot a Lake Huron Forever school-based Pledge program.
 6. Support education and training opportunities for staff and officials that increase awareness of local natural resource issues, as well as the available tools and skills to prioritize protection of water quality and natural resources in planning, design and decision making.
 7. Engage with local ecotourism initiatives such as the Viking Cruises, Thunder Bay River Center, Great Lakes Maritime Heritage Trail, US 23 Heritage Route and others, to balance ecotourism opportunities and promotion in ways that proactively protect and steward local natural resources on a long-term basis.
 8. Tell the LHF story through various media outlets and share LHF connections at local gatherings, meetings and programs. Update web pages to highlight efforts to protect our water, promote on social media and explore radio and print opportunities.
 9. Discuss and identify opportunities to raise or allocate funding for LHF programming and projects including incorporating these goals into grant applications and budgetary considerations for the various stakeholder departments.

Charter Township of Alpena

1. The Charter Township of Alpena will incorporate Sensitive Features Overlay and LHF Pledge goals into the current Master Planning and Recreation Planning efforts and future planning processes. These efforts can help prioritize chapters within these plans dedicated to natural resource protection and will inform new or improved zoning ordinances that balance the protection of natural resources with area development.
2. Evaluate and update current zoning practices to include low-impact development, green infrastructure, sensitive area protection, naturalized lawn opportunities and improved parking lot practices.
3. Explore incentive programs that promote green infrastructure on private property.
4. Continue our partnership with Huron Pines to conduct coastal inventories and invasive controls on Township held coastal properties and privately held parcels.
5. Work with Huron Pines and stewardship partners to develop a guidance resource for utilizing native plants and native species in development projects as an alternative to non-native grasses and ground cover. The Township will coordinate with the City and County in development of this resource so it can be used across the Alpena Area.
6. Promote educational outreach to agricultural producers along sensitive riparian areas.

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

City of Alpena

1. The City of Alpena, in partnership with Huron Pines, will identify and implement green infrastructure projects at priority sites in order to capture and treat stormwater before entering the Thunder Bay River and Lake Huron.
2. Evaluate and update current zoning practices to include low-impact development, green infrastructure, sensitive area protection, naturalized lawn opportunities and improved parking lot practices.
3. Integrate LHF Pledge goals in updates and development of relevant city plans, such as Recreation and Master Plans.
4. Share LHF Pledge adoption and local importance with Economic and Community Development organizations working to promote Alpena, and the local outdoor recreation economy.
5. Support implementation of the Forests to MI Faucets program to increase local awareness of local resident drinking water sources and how to ensure safe, clean drinking water at the community level through healthy forests. Help to identify opportunities for urban tree canopy implementation and other associated drinking water protection projects.
6. Continue to prioritize the renaturalization of coastal parks in order to improve user experience, improve wildlife habitat and increase coastal resilience.
7. Explore incentive programs that promote green infrastructure on private property.

Alpena County

1. The County will work with community, trails and conservation partners to plan, design and implement trail and pathways projects that enhance local outdoor recreation opportunities for varying abilities and mobilities, strengthen community health and incorporate stewardship considerations to protect local natural resources.
2. Support information sharing and implementation related to the County-Wide Invasive Species Assessment completed by Huron Pines to better inform high priority needs for invasive species removal and native plant restoration. The County may explore cost-share options for removal and help connect technical partners to landowners with high priority species.
3. Work with the City of Alpena and Charter Township of Alpena to strategically protect sensitive habitat, balance undeveloped land and green space with development opportunities/community needs and identify potential green infrastructure projects to reduce water quality impacts across the county.
4. Integrate LHF Pledge goals in updates and development of relevant county plans, such as the active Recreation and Master Plans update process.

**LAKE
HURON
FOREVER**

THE PLEDGE

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

Signature

Date

Nathan Skibbe, Charter Township of Alpena Supervisor

Rachel Smolinski, Alpena City Manager

Mary Catherine Hannah, Alpena County Administrator

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

What is Lake Huron Forever?

Lake Huron Forever is a partnership that was initiated in 2019 by shoreline community foundations and conservation partners from the United States and Canada to advance water quality protection and healthy, sustainable communities on both sides of the lake. As a multinational initiative, Lake Huron Forever encourages collaborative approaches to strengthening protection for water, land and people that build upon the abundant care and enthusiasm of people in the Lake Huron Basin.

Lake Huron Forever is a collective and supportive network of “doers” who are funders, educators, technical experts, community leaders, advocates, and others. We are:

- (1) Expanding the connections and amplifying the relationship between philanthropy and conservation across the Lake Huron Basin.
- (2) Increasing readiness of communities to prioritize watershed health & environmental stewardship.
- (3) Developing and disseminating resources that promote the adoption of nature-based solutions.
- (4) Unifying a message around the value and importance of a clean & a healthy Lake Huron
- (5) Realizing tangible results on the ground that demonstrate commitment to sustained improvement of the Lake Huron watershed.

Lake Huron Forever is guided by the following values in all of our projects, relationship-building, and collaborative opportunities:

- Elevating community-led efforts
- Encouraging meaningful collaboration
- Advancing equitable solutions in Lake Huron’s diverse communities
- Promoting Indigenous & Traditional Ecological Knowledge
- Cultivating awareness and appreciation of freshwater resources

What is the Lake Huron Forever Pledge?

The Lake Huron Forever Pledge represents a community’s commitment to the protection of Lake Huron and a call to action to plan and implement projects that ensure clean water, robust local economies and vibrant communities. The Pledge includes a framework of broad steps and goals that can be shared across all communities taking the pledge - as well as actions specific to each community. These community specific actions are identified through input from elected officials, residents and local stakeholders. The goal is to use the Pledge as a guide for municipal leaders to clarify, understand and identify specific tools they can use to protect the natural resources on which their communities rely.

Engage communities and activate local solutions to sustain a healthy Lake Huron Forever.

Why is the LHF Pledge important for my community?

A healthy Lake Huron means a strong and vibrant future for your community. Access to healthy natural resources like fresh air, clean water and public land improve the health and wellness of people, sustain and encourage business and tourism investment and provide natural and local resilience when faced with increased storm events and natural disasters. The Pledge will serve as a tool to coordinate efforts across and within municipal boundaries to mitigate the effects of polluted stormwater runoff, protect sensitive habitats and increase educational and outreach opportunities.

Lake Huron Forever's network of partners are devoted to supporting communities through technical assistance, collaborative planning, communications support and the sharing of success and challenges across the Lake Huron basin. Taking the Pledge connects you to this network of experts, resources and learning opportunities.

Who are the Lake Huron Forever partners?

Lake Huron Forever has a network of over 50 community and conservation organizations from Ontario and Michigan, who meet regularly to identify local projects, build partnerships and leverage resources to protect Lake Huron. This network includes organizations and partners like Community Foundation for Northeast Michigan, Huron Pines, Northeast Michigan Great Lakes Stewardship Initiative, Michigan Sea Grant, Thunder Bay National Marine Sanctuary and The Alpena Wildlife Sanctuary. By taking the Pledge, you will join two other Lake Huron Forever Communities - Au Gres and Bay City - in their commitment to work across sectors to protect local water, land and community assets.

What happens when we adopt the Pledge?

- You celebrate! Lake Huron Forever has tools and resources to help promote and celebrate your commitment through local opportunities and partnership as well as regionally and internationally. Share it with your community members and fellow community leaders.
- You connect! Lake Huron Forever organizes and hosts annual learning, training and engagement programs. When you adopt the Pledge your community leaders will have access to participating and in some cases leading these programs to showcase your amazing work. You can also work with the network to bring specific training, education programs and resources to your community to achieve your specific pledge goals.
- You get to work! The tailored road map of actions formalized in your Pledge solidifies commitment to continuing or growing already successful projects and programs while also identifying where new steps can be taken. Follow the road map to move your Pledge forward.

What if I still have questions?

- Visit lakehuronforever.org to learn more about partners, current projects and other Lake Huron Forever communities
- Contact Abigail Ertel, Huron Pines Community Program Director and Lake Huron Forever Coordinator - abby@huronpines.org

Memorandum

Date: August 21, 2023

To: Mayor and City Council Members

Copy: Anna Soik, City Clerk/Treasurer/Finance Director

From: Rachel Smolinski, City Manager

Subject: 2023 Canada Goose Management

Throughout the year, it is common to see Canada geese in and around the parks and various other areas of the City. These geese thrive in urban areas in large part because of the landscapes brought about by human development. Their presence in some locations may result in conflicts with some area residents and uses. It is common for City staff to receive complaints about goose droppings in certain areas, especially during the summer months and excessive droppings may lead to health problems for humans and animals.

While it is not our intent to eliminate the Canada goose population, it is important to manage the population to limit issues and conflicts within the City. When determining goose management methods for an area, we must consider several things including size of the area and feasibility of chosen control methods. Although harassment techniques (decoys, cracker shells, dogs, repellents) and exclusion techniques (fences, vegetative barriers) may be used in select areas; these techniques must be implemented consistently to be successful; and are not always feasible given conditions and limited resources. According to the Michigan Department of Natural Resources, when attempting to manage a large area; general hunting is one of the recommendations for management.

Over the past seven years, goose hunts have taken place in the City at the Fairgrounds adjacent to the Wildlife Sanctuary, and at Mich-e-ki-wis Beach as part of the effort to control the goose population in and around the City. Last year, the hunt removed a total of 99 geese. As another control measure, the City's Department of Public Works (DPW) is permitted through the USDA APHIS Wildlife Services program to oil Canada goose eggs within the Alpena Wildlife Sanctuary (Lake Besser) each spring. This method has transitioned in 2022/23 from egg collection to oiling the eggs with a vegetable-based oil, which prevents the geese from reneating. In April of this year, the DPW oiled 95 eggs from 20 nests, which is an increase from last year.

In response to citizen concerns surrounding the annual goose hunt, I formed a Goose Management Committee (GMC) in 2022 consisting of City staff, a representative from the Wildlife Sanctuary Board, two Council members, and two community members to explore the

various options for management of the goose population within the City. The GMC continues to evaluate the various control methods listed above for feasibility of implementation, cost/benefit, and likelihood of success along with identification of problem areas within the City. Specifically, a Bird-X Goose Buster, was deployed in June 2022/23 at the Marina. This system repels geese by utilizing distress calls played at various intervals. The device is effective, but the number of geese at the Marina and the frequency of the distress calls needed to repel the geese causes conflict with some Marina users, so we have seen limited success. The GMC recognizes that documentation of data related to the goose population and management efforts needs improvement and therefore has focused its efforts this year on better data collection and documentation. Through a search of past data, field notes, and documents; a volunteer GMC member put together past data dating back to 2016. I've included a summary and notes with this memo, although we realize there are some missing data points. We recognize that data collection and documentation must be a priority in the future to determine the effectiveness of various control measures implemented each year.

As fall approaches, the local goose population (estimated at 169) will be joined by early migrating geese from the surrounding area and the success in reducing our local goose population lies in the reduction of the local *nesting* goose population. The GMC will continue to evaluate and implement various management strategies and document their effectiveness; however, a 2023 Goose Hunt must be considered at this meeting if one is to occur this year. The majority of the GMC felt that we should move forward with the 2023 Goose Hunt and evaluate the results to determine effectiveness; however, some felt that there should be no hunt this year.

S

It is my recommendation as City Manager that the Alpena Municipal Council approve the 2023 Goose Hunt with the stipulation that there is an expanded program for goose egg oiling in Spring 2024 with no goose hunt to occur in 2024.

I've also included a USDA fact sheet on preventing and managing Waterfowl Damage for your reference. Thank you for your consideration.

Recommended motions:

- Approve the 2023 Goose Hunt for the dates of September 7th, 14th, and 21st, 2023.
- Approve the 2023 Goose Hunt for the dates of September 7th, 14th, and 21st, 2023 with the stipulation that there is an expanded program for goose egg oiling in Spring 2024 with no goose hunt in 2024.
- Deny the 2023 Goose Hunt.

**Animal and Plant Health
Inspection Service**

Wildlife Services

Factsheet

August 2016

**Preventing and Managing
Waterfowl Damage**

Wildlife Services, a program within the U.S. Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS), provides Federal leadership and expertise in managing conflicts between people and wildlife to help protect the Nation's agricultural and natural resources, property and infrastructure, and public health and safety.

Wildlife Services biologists help individuals, local governments, businesses, and others manage waterfowl to achieve a balance between the positive values and the conflicts the birds may present.

Birdwatchers and the general public enjoy watching Canada geese, ducks, and other waterfowl. In many areas of the country, however, nonmigrating, or resident, populations of ducks and Canada geese are increasing dramatically, leading to overpopulation of these birds in some cities.

Waterfowl need fresh water for resting and nesting, and tender young grass and other succulent vegetation for food. The plentiful, well-manicured lawns of residential neighborhoods, corporate business areas, parks, airports, and golf courses offer excellent habitat. Geese, especially, can easily become accustomed to people and residential areas.

Although most people find a few birds acceptable, problems quickly develop as bird numbers increase. These problems include overgrazing of grass and ornamental plants; accumulation of droppings and feathers; attacks on people by aggressive birds; and the fouling of reservoirs, swimming areas, docks, lawns, and recreational areas. Because fouling contaminates water used for drinking, bathing, and cleaning, it can pose a disease threat to humans. Flocks of geese and other waterfowl also feed on a variety of crops, including corn, soybeans, rice, lettuce, winter wheat, barley, and rye. Birds can even endanger aircraft on or near airports. In fact, one goose or duck can seriously damage an aircraft.

Know Before You Act

You can undertake some techniques on your own to manage waterfowl populations, but in most cases, wildlife management professionals should carry out this work.

The Migratory Bird Treaty Act of 1918 and State laws protect all native waterfowl in the United States, including migratory and resident Canada geese. Under these laws, it is illegal to hunt, kill, sell, purchase, or possess migratory birds except in certain cases. For example, you can obtain a permit from the U.S. Department of the Interior's Fish and Wildlife Service (FWS) to remove otherwise protected birds if they are damaging agriculture, property, or natural resources or threatening human health and safety. These "depredation" permits allow the permit holder to remove a limited number of birds from a specific area. However, FWS tightly controls how many permits it issues and in what situations they're used.

Before taking any action to manage waterfowl populations, consult with Wildlife Services or a State wildlife agency. You can reach your State's Wildlife Services office by calling 1-866-4USDA-WS (1-866-487-3297).

Managing Waterfowl: An Integrated Approach

In general, Wildlife Services professionals recommend an integrated approach to discourage waterfowl from residing in areas where overabundant flocks cause problems. Using a combination of techniques is the most effective way to prevent and manage waterfowl damage. These birds quickly become accustomed to any single approach, so using only one tool will not have a long-term impact.

Below are some of the management techniques we may use or recommend:

- **Discontinue feeding.** Wild birds can find their own food and will survive without handouts. Once people stop feeding them, waterfowl will revert to better-quality natural foods. In many cases, the birds will leave.
- **Modify landscaping.** Geese and ducks, in particular, are grazers and need short, green grass for food. Allow grass to grow longer so it is unattractive to the birds. Along water edges, plant less-attractive vegetation, such as pachysandra, periwinkle, and euonymus. Waterfowl prefer nesting on islands, peninsulas, and undisturbed grounds. When landscaping, do not create small islands or peninsulas; where these features already exist, consider changes to make them unavailable to waterfowl.
- **Install barriers.** Waterfowl prefer to land on water and walk onto adjacent grassy areas to feed and rest. The most effective tools for controlling waterfowl movement are fences, hedgerows, and other physical barriers.
- **Use scaring devices.** Large helium-filled balloons, strobe lights, scarecrows with movable parts, bird-scaring reflecting tape, Mylar flags, screamer sirens, whistle bombs, shell crackers, and automatic

A Wildlife Services biologist applies corn oil to a goose egg. This treatment prevents eggs from developing and reduces the potential for re-nesting.

exploders will help keep geese and other waterfowl from feeding and resting on property. Move these items periodically. Before using noisemakers or pyrotechnics, check local and State regulations for permit requirements and any other limits on using firearms and pyrotechnics.

- **Use dogs to keep geese out of hay, grain crops, and parks.** Most effective are free-ranging dogs trained to chase birds as soon as they land. However, be aware of local leash laws, which may prevent such use of dogs. Some communities have enlisted volunteer human/canine teams of trained and reliable pets for harassing waterfowl in parks.
- **Remove domestic ducks and geese.** Domestic ducks and geese serve as decoys to wild waterfowl, since birds may learn to locate food sources by watching other birds. Removing domestic waterfowl may make the area less attractive. While you don't need a Federal permit, you do need to check with local law enforcement about State, county, and municipal laws and regulations before removing domestic waterfowl. Removal techniques must comply with all applicable laws, regulations, and policies.

- **Prevent nesting.** It can help control local populations of waterfowl if property owners keep them from nesting. Nest treatment usually involves manipulating eggs so they do not develop. Methods include adding (shaking), oiling with corn oil, puncturing, chilling, or replacing eggs. Returning treated eggs to the nest encourages adult birds to remain on the nest beyond the expected hatching date, which reduces or prevents the potential for re-nesting. Waterfowl are protected by State and Federal laws, so property owners must register with FWS before carrying out nest treatment work. To register, go to <https://epermits.fws.gov/eRCGR/geSI.aspx>.
- **Hunting.** Where it is safe and legal, hunting can help control some species of residential waterfowl. Your State wildlife management agency can advise you on local laws and regulations.

Other Options

Depredation Permits

After using some of these management techniques over an extended period with little to no success, a depredation permit can be requested. Shooting a few birds each day may improve the effectiveness of harassment. However, shooting may be impractical and/or prohibited in urban damage situations, due to safety concerns, local noise and discharge ordinances, and adjacent land uses. Federal and/or State permits are always required.

Capture and Relocation or Removal

Under certain circumstances, Wildlife Services may capture urban waterfowl using live traps or tranquilizers and relocate them. Many State wildlife agencies

discourage the relocation of waterfowl within their borders because of the potential to create problems elsewhere in the State. Since Canada geese instinctively try returning to areas where they were born and raised, they should be moved at least 200 miles away from their nesting site.

Capturing and removing birds by humane euthanasia can enhance the effectiveness of other management methods. It can successfully reduce the local waterfowl population, particularly resident Canada geese. Federal and some State regulations may allow the capture and removal of resident Canada geese between April 1 and August 31. Geese are most easily corralled during the molting period when they lose their primary flight feathers, leaving them flightless. From mid-June through early July, the waterfowl can be captured with netted panel traps. Where allowed, euthanized geese may be donated as a food source to charitable organizations.

Only trained professionals, including Wildlife Services biologists, with the required permits should carry out capture and removal work. Community input is also important in any decision to use this approach, as it can be a sensitive issue.

Learn More
