

# City of Alpena

News Release of  
March 7, 2024

## Fireworks Location Changed

The City will be moving forward with the Clearwell Replacement Project at the water treatment plant this summer which will expand into the area that is currently the youth skate park next to the plant located at Mich-e-kiwis Park. This location has been used for many years as the launch site for the City's fireworks display. The Clearwell Replacement Project will make it necessary to move the location of the fireworks launch for 2024 and future years.

City staff have been working with Wolverine, our fireworks contractor on an alternate plan. The company will utilize barges that will launch fireworks from a location offshore from Bayview Park. This will allow for a safer fireworks display for the public and staff but will be more centrally located for the City of Alpena.
