News Release of May 4, 2021

Fish Cleaning Station & Boater's Restroom

The Fish Cleaning Station & Boater's Restroom at the City Marina are open today, May 4, 2021. The boards are currently on the windows to prevent the water from freezing inside the fish cleaning station. The facility will be open 24 hours. All users are asked to be respectful to others and help keep the facility clean and operational.

Fishermen are reminded to follow the instructions when using the facility. It is important to turn the grinders on as soon as you start cleaning fish to give the drains a chance to clear out. It is also important to let the grinders run until they shut themselves off. The red shut-off buttons are for emergencies only. When finished, please remove any garbage and clean up behind yourself.

Please use the facility properly and report violations to the Harbormaster.
