Alpena Welcomes New Harbor Master– Parks Coordinator

The City of Alpena welcomed new Harbor Master – Parks Coordinator to the staff on December 12th.

Born and raised in Metro-Detroit, Kevin found himself in the Upper Peninsula pursuing his passion for the outdoors, earning a B.S. of Outdoor Recreation, Leadership, and Management from Northern Michigan University in 2021. Shortly after graduation, Kevin and his fiancé found themselves looking for a place to settle down and build their life together. They found that place in Northeastern Michigan. Having been a visitor to this beautiful area his entire life, he knew he wanted to make it home, and would consider themselves incredibly lucky to do so.

Kevin states “I am very passionate about creating and improving equitable and inclusive recreation opportunities for communities. As the new Harbormaster and Parks Coordinator for the City of Alpena, I am very excited to be able to further develop the City Marina and its Parks system into something Alpena residents will be proud of. I believe that exceptional recreation is capable of inspiring, encouraging, and strengthening a community at large, and will work tirelessly to bring that to this great city, its residents, and its visitors. Thank you for having me, Alpena. I am eternally grateful and look forward to making you proud.”
