

# City of Alpena

News Release of March 4, 2024

## **SPECIAL NOTICE for AVAILABILITY of UNREGULATED CONTAMINANT MONITORING DATA**

**City of Alpena Water Plant (PWSID MI0000160)  
EPA Unregulated Contaminant Monitoring Rule (UCMR)  
Sampling was completed during 2023.**

The UCMR involves sampling for substances which the EPA requires monitoring but has yet to establish standards. Monitoring helps the EPA determine where these contaminants occur and whether regulation is warranted in the future. These monitoring events are known as unregulated contaminant monitoring rule monitoring (UCMR events). The UCMR5 event was conducted during the year which involved quarterly sample collection and analysis of 29 Perfluorinated Chemicals using EPA Methods 533 and 537.1 and Lithium using Method 200.7.

*All results were non-detect for these unregulated contaminants, meaning they were not found in your drinking water.*

The results of this sampling can be found on the EPA's national database:

[www.epa.gov/dwucmr/occurrence-data-unregulated-contaminant-monitoring-rule](http://www.epa.gov/dwucmr/occurrence-data-unregulated-contaminant-monitoring-rule)

Alternatively, you can call the City Water Plant at (989) 356-0757 for results.

Additional information about unregulated contaminants can be found at: [www.epa.gov/dwucmr](http://www.epa.gov/dwucmr)

Thank you,  
City of Alpena - Water Utility  
Operated by Veolia
