

City of Alpena

News Release of May 10, 2022

Portable Toilets Vandalized

Some of the portable toilets placed throughout the City of Alpena for public use have recently been vandalized and/or tipped over.

We are asking for your help! If you observe vandalism in progress, please call 911. If you notice that a unit is in an unusable state, tipped over, broken, etc., please use the phone number displayed on the unit to call for service.

When the portable toilets need to be fixed or righted, it costs the City and the taxpayers additional money to keep the units in service. If vandalism continues, some units may have to be removed from certain locations.

Please note, there will be an increased police presence in some of the areas that were found vandalized.
