Santa will be ditching his trusty old sleigh for a shiny red fire engine! He will be hitching a ride with your local firefighters and making his rounds throughout the city over 3 nights.

Starting at 6pm on Monday the 21st, Santa will be making his first appearance on the North side of town, before moving over towards the Island View subdivision, with drive-by appearances near Besser Senior Living, Medilodge of Alpena, and Turning Brook.

At 6pm on Tuesday the 22nd, Santa will be visiting between Campbell St. and the Thunder Bay River.

On Wednesday, the 23rd Santa will be making his last appearance in town between Campbell St. and Old Washington Ave. Keep an eye and an ear out for Ol' St. Nick!

Santa will be riding in the fire truck and will be happily waving at everyone, but will not be stopping to getting off of the fire apparatus. Santa and the firefighter-paramedics will be wearing masks and maintaining appropriate social distancing.
