Please anticipate your water needs before water is shut off.

When water is restored refrain from drinking, doing laundry, washing dishes or food preparation until water runs clear.

When water is restored there **may** be a boil water notice until two consecutive bacteria samples have been approved. This will take at least two days. **You will be notified if a boil water is required.**

Signage and barricades will be present to guide traffic around the construction site, but motorists are advised to seek alternate routes.
