When water is restored there may be a boil water notice until two consecutive bacteria samples have been approved. This will take at least two days. **You will be notified if a boil water is required.**

Signage and barricades will be present to guide traffic around the construction site. Motorists are advised to use alternate routes.

This work will require the complete closure of the street until Friday, October 4, 2019, unless weather or construction delays occur. Temporary closures should be anticipated over the following two (2) weeks for street repairs to be completed.
