News Release of November 6, 2018

Utility Work & Water Shut Off Notice

Beginning Thursday, November 8, 2018, the intersection of Miller Street and Walnut Street will be closed to all traffic due to utility repairs. Due to this work, water will be shut off on Thursday, November 8, 2018, from 8:00 AM until approximately 4:00 PM.

The following areas will be affected:

Johnson St. from Railroad Tracks to Miller St.
Miller St. from Walnut to Johnson St.
Walnut St. from 9th Av. to Long Lake Av.
Oldfield St. from Walnut St. to Cedar St.
Cedar St. from Oldfield St. to Miller St.
Beech St. from Oldfield St. to Miller St.

Please anticipate your water needs before water is shut off. When water is restored refrain from drinking, doing laundry, washing dishes, or food preparation until water runs clear.

When water is restored there may be a boil water notice until two consecutive bacteria samples have been approved. This will take at least two days. **You will be notified if a boil water is required.**

Signage and barricades will be present to guide traffic around the construction site. Motorists are advised to use Lake Street, Beech Street, and Oldfield Street to go around this closure. Motorists needing to access Johnson Street should then continue on Ninth Avenue, to Chisholm Street back to Johnson Street.

It is anticipated that this work will take one (1) week to complete unless weather or construction delays occur.
