CARTER COUNTY ADA TRANSITION PLAN

June 2021

Introduction:

The Americans with Disabilities Act (ADA) was signed into law in 1990. Specifically, www.ada.gov states:

“The Americans with Disabilities Act (ADA) was signed into law on July 26, 1990, by President George H.W. Bush. The ADA is one of America's most comprehensive pieces of civil rights legislation that prohibits discrimination and guarantees that people with disabilities have the same opportunities as everyone else to participate in the mainstream of American life -- to enjoy employment opportunities, to purchase goods and services, and to participate in State and local government programs and services. Modeled after the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, religion, sex, or national origin – and Section 504 of the Rehabilitation Act of 1973 -- the ADA is an "equal opportunity" law for people with disabilities.

To be protected by the ADA, one must have a disability, which is defined by the ADA as a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment. The ADA does not specifically name all of the impairments that are covered.”

The Department of Justice (DOJ) Title II regulations address ADA regulations for local and state governments. Therefore, the Title II regulations are the primary areas addressed in this Transition Plan.

The Carter County ADA Transition Plan discusses the evaluation process used to identify potential deficiencies, program evaluation, and the processes Carter County will utilize in the coming years to modify facilities and public rights-of-way to ensure accessibility to all programs and activities.

Goals:

Carter County seeks to provide the highest quality service to every citizen and visitor. Carter County's employees have traditionally gone above and beyond to meet their customers' needs. However, as with most programs, there are opportunities to provide citizens and guests with better access and service. Therefore, Carter County is committed to improving access to all buildings and facilities, especially for those individuals with disabilities. This Transition Plan is the primary guiding document that will be utilized by Carter County to improve overall accessibility for all County facilities.

Community Outreach Efforts:

Carter County has reached out to the Northeast Tennessee Chapter of the Deaf and Hard of Hearing to solicit feedback on how to better serve this population. The members of this association provided vital feedback on how Carter County can better serve the members' needs.

Carter County has also reached out to residents who are confined to wheelchairs to find out the concerns and suggestions this segment of the County's residents have and are awaiting feedback.

Carter County's efforts to get feedback from disabled residents and visitors will be an ongoing process. A survey has been added to the Carter County website to help garner vital information on the needs and desires of disabled individuals.

Duration of This Transition Plan:

Most of Carter County's current buildings were built before ADA standards were developed. The average age for Carter County's buildings and facilities is approximately 50 years old.

The oldest Carter County Government building was originally built in 1861. Additionally, many of the County's current facilities were built between the 1940's and 1970's. Therefore, the Carter County leadership will need to carefully review each building to determine the best course of action. That will be done as part of the overall assessment of the deficiencies identified for each building.

Because of the age of Carter County's buildings and facilities, along with Carter County's limited funds, this plan will remain in effect for up to 35 years. The Carter County ADA Coordinator will be responsible for working with the Buildings and Grounds Committee, Budget Committee, and Carter County Commission to continually move Carter County forward in reaching compliance with ADA laws, rules, and regulations in all programs and facilities.

The Carter County Commission will approve the ADA Transition Plan and each of the corrective actions recommended by the Buildings and Grounds and Budget Committees.

Evaluation Process:

In July 2018, Carter County hired *Meeting the Challenge* to conduct a comprehensive review of Carter County's facilities. This review identified many areas that require future program evaluation and/or corrective action. The initial evaluation by *Meeting the Challenge* could not determine if any of the identified deficiencies were covered under Safe Harbor because the evaluators did not have information regarding the remodel history for each of the County's buildings and facilities. As part of the County's continued evaluation efforts, a history of renovation activities will be sought for each building or facility to determine if Safe Harbor applies. Whether Safe Harbor applies or not, a concerted effort will be made to ensure Carter County's facilities and programs are fully accessible to all residents and visitors.

Starting in 2020, each Carter County office or activity will need to do a thorough program evaluation to determine if the needs of individuals with disabilities are being met by each department or agency.

As each office or activity discovers deficiencies in their ability to fully serve individuals with disabilities, those deficiencies will be combined with results from the previous evaluation by *Meeting the Challenge* and referred to the ADA Coordinator and the Buildings and Grounds Committee for consideration and action.

If the ADA Coordinator and Buildings and Grounds Committee determine that the identified deficiencies will require structural corrections or the expenditure of County funds, those items will be prioritized by the Buildings and Grounds Committee.

Once the Buildings and Grounds Committee determines potential courses of action, there will be a cost analysis for each course of action. Then, the course(s) of action will be referred to the Budget Committee for funding consideration.

Once the Budget Committee has determined potential funding options, the suggested course(s) of action will be referred to the Carter County Commission for consideration. Once a project is approved, it will be scheduled for completion.

Beginning in 2021, the Budget Committee will determine how much money is available for the upcoming fiscal year to correct identified ADA deficiencies. This process will continue until the ADA Transition Plan has been completed.

All projects will be funded in accordance with Carter County's procurement process. For example: Current procurement policies require that any project that is expected to cost over \$25,000 will require solicitation of bids. If a project is expected to cost under \$25,000, the Buildings and Grounds Committee and/or ADA Coordinator will attempt to secure at least three quotes for the project.

Limitations on Corrective Actions:

Because of the age and design of many of Carter County's buildings and limited financial means of the County, some corrective actions may be deemed to put an

undue burden on the County. Where a deficiency has been determined to place an undue burden on the citizens of Carter County, the County Mayor, ADA Coordinator, and County Commission will work with other offices and agencies within the County to find a suitable method of accommodating disabled individuals.

Plan Priority Categories:

The following Priority Categories will be used to determine the order of correcting existing deficiencies:

- ***Priority A: Deficiencies that can be corrected within two years at low or minimal cost***
- ***Priority B: Deficiencies that will require between two and five years and require low to moderate levels of funding***
- ***Priority C: Deficiencies that will require between five and 10 years and require moderate to major levels of funding***
- ***Priority D: Deficiencies that require between 10 and 15 years and require very significant levels of funding***
- ***Priority E: Deficiencies that require between 15 and 25 years and require major levels of funding***
- ***Priority F: Deficiencies that require major renovations and require a full evaluation to determine if it is more advantageous to the County to do the renovations or build new facilities***

Note: The Priority of **any** project may change due to new individuals with different disabilities requiring service or availability of other facilities for programs that were previously determined to require attention.

Completed or In-Progress Actions:

Carter County has already begun working on some deficiencies that were identified by the *Meeting the Challenge* assessment. The parking lot around the Carter County Courthouse had several deficiencies noted. The parking lot was resurfaced in the Spring of 2018 and restriped according to the provisions of the

2010 ADA Standards. Several handicap parking spaces were added to accommodate individuals with disabilities.

Carter County also replaced the sound system in the main courtroom of the Old Courthouse in the Summer of 2018. This action was taken because one member of the County Commission and several members of the audience could not hear the discussions during County Commission meetings. The new system interfaces with portable devices that help ensure individuals who are hard of hearing can hear the discussions.

In early 2019, Carter County installed a fire alarm with flashing lights in the Finance Department to ensure the safety of a deaf employee in the Finance Department.

Additionally, objects such as soap or sanitizer dispensers that protrude more than four inches into the hallways of the Carter County Courthouse are being removed or replaced by dispensers that comply with the current ADA standards.

RE: Americans with Disabilities Act Program Coordinator

Dear Sir or Madam:

This letter is to provide you with the name and contact information of the Americans with Disabilities Act Coordinator for Carter County. Carter County's ADA Coordinator is:

Mr. Billy Harrell
801 E. Elk Avenue, Suite 214
Elizabethton, TN 37643
Telephone: 423-542-1888
E-mail: harrellb@cartercountyttn.gov

If you have any questions regarding this matter, please contact me at 423-542-1801 or via e-mail at patty.woodby@cartercountyttn.gov.

Kindest regards,

A handwritten signature in blue ink that reads "Patty Woodby".

Patty Woodby
Mayor

**Carter County
Americans with Disabilities Act Coordinator
525 South Sycamore St
Elizabethton, TN 37643**

AMERICANS WITH DISABILITIES ACT COMPLAINT FORM

Please use this form to file a complaint based on disability in the provision of services, activities, programs, or benefits. Please submit this form to the ADA Coordinator, Mr. Billy Harrell, at the Carter County Emergency Management Agency.

If you need assistance to complete this form, you may contact the ADA coordinator at 423-542-1888 or via email at harrellb@cartercountyttn.gov.

COMPLAINANT INFORMATION:

Name: _____ Home Phone: (____) _____

Home Address, City, State: _____

Email: _____

2. Location(s) and date(s) of the circumstances giving rise to your complaint:

Are the circumstances of your complaint continuing?

Yes ☐ No ☐

3. Please describe the alleged denial of services, activities, programs or benefits and your reason(s) for concluding that the conduct was discriminatory. Please include the name(s) of witness, if any, and attach supporting date is available. (Continue on back if more space is needed)

2. Location(s) and date(s) of the circumstances giving rise to your complaint:

Are the circumstances of your complaint continuing?

Yes ☐ No ☐

3. Please describe the alleged denial of services, activities, programs or benefits and your reason(s) for concluding that the conduct was discriminatory. Please include the name(s) of witness, if any, and attach supporting date is available. (Continue on back if more space is needed)

4. Have you filed a claim regarding this complaint with a federal, state, or local government agency?

Yes ☐ No ☐

(a) Have you hired an attorney with respect to the allegations in the complaint?

Yes ☐ No ☐

(b) Have you instituted a legal suit or court action regarding this complaint:

Yes ☐ No ☐

5. This complaint for was completed by:

ADA Coordinator ☐ Complainant ☐

Signature: _____ Date: _____

CARTER COUNTY
Grievance Procedure under
the Americans with Disabilities Act

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 ("ADA"). It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by Carter County. Carter County's Personnel Policy govern employment-related complaints of disability discrimination.

The complaint should be in writing and contain information about the alleged discrimination such as name, address, phone number of complainant and location, date, and description of the problem. ***Alternative means of filing complaints, such as personal interviews or a recording of the complaint will be made available for persons with disabilities upon request.***

The complaint should be submitted by the grievant and/or his/her designee as soon as possible, but no later than 60 calendar days after the alleged violation to:

Billy Harrell
ADA Coordinator
525 South Sycamore St
Elizabethton, TN 37643

Within 15 calendar days of receipt of the complaint, the ***ADA Coordinator*** will meet with the complainant to discuss the complaint and the possible resolutions. Within ***15 calendar days*** of the meeting, the ***ADA Coordinator*** will respond in writing and where appropriate, in a format accessible to the complainant, such as large print, Braille, or audio tape. The response will explain the position of the ***Carter County*** and offer options for substantive resolution of the complaint.

If the response by ***Carter County's ADA Coordinator*** does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision within ***15 calendar days*** after receipt of the respond to the ***Carter County Mayor*** or her designee.

Within 15 calendar days after receipt of the appeal, the Carter County Mayor or her designee will meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, the Carter County Mayor or her designee will respond in writing, and where appropriate, in a format accessible to the complainant, with a final resolution of the complaint.

All written complaints received by ***Carter County's ADA Coordinator***, appeals to the ***Carter County Mayor*** or her designee, and responses from these two offices will be retained by ***Carter County*** for at least 3 years.

Appendix C

Glossary of ADA Terms

Glossary of ADA Terms

Taken from ADA National Network

www.adata.org/glossary-terms

A

- **Access Board** – Federal agency that develops and maintains design requirements for the built environment, transportation vehicles, telecommunications equipment, and information technology.
- **Accessible information technology** – Technology that can be used by people with a wide range of abilities and disabilities. It incorporates the principles of universal design, whereby each user is able to interact with the technology in ways that work best for him or her.
- **Adaptive technology** – Name for products which help people who cannot use regular versions of products, primarily people with physical disabilities such as limitations to vision, hearing, and mobility. See also: [Assistive Technology \(AT\)](#).
- **Additional requirements** – These are requirements that may not be imposed on people with disabilities if are not imposed on other people.
- **Alternative Dispute Resolution (ADR)** – means that the resolution is outside of the traditional legal setting; includes mediation and arbitration.
- **American Sign Language (ASL)** – The dominant sign language of the Deaf community in the United States, in the English-speaking parts of Canada, and in parts of Mexico.
- **American Standard Code for Information Interchange (ASCII)** – Usually pronounced as [ask-e], this term for character encoding is based on the English alphabet. ASCII codes represent text in computers, communications equipment, including assistive technology (AT) such as screen readers and telephone relay service (TRS) equipment.
- **Americans with Disabilities Act (ADA)** – Signed into law on July 26, 1990, the ADA is a wide-ranging civil rights law that prohibits, under certain circumstances, discrimination based on disability. It affords similar protections against discrimination to Americans with disabilities as the Civil Rights Act of 1964, which made discrimination based on race, religion, sex, national origin, and other characteristics illegal.
- **Americans with Disabilities Act Accessibility Guidelines (ADAAG)** – Guidelines drafted by the Access Board that describe the minimum requirements that a building should exhibit in order to be accessible.
- **Amicus brief** – Commonly known as a “friend of the court” brief. An amicus brief provides individuals or organizations (such as government agencies or disability organizations) without a direct stake in the lawsuit to provide information or legal arguments to the court.
- **Appeal** – A request that a higher court review the decision of a lower court. Either the plaintiff or the defendant in a case can appeal the ruling of a lower court.
- **Appellant** – The party that files an appeal. Either the plaintiff or the defendant can be an appellant.
- **Arbitration** – When a third party holds a formal meeting with both sides in a dispute to promote resolution of a grievance, a compromise, or a settlement of a lawsuit. The result of the arbitration may be binding on the parties. An arbitrator is usually court-appointed or chosen by the parties. Some union collective bargaining agreements require mandatory arbitration of employment grievances.

- **Architectural barriers** – Obstacles or other features in the built environment that impede individuals with disabilities from gaining full and complete access to the goods and services being provided.
- **Architectural Barriers Act (ABA)** – Addresses scoping and technical requirements for accessibility to sites, facilities, buildings, and elements by individuals with disabilities.
- **Assistive technology (AT)** – Any item, piece of equipment, or product system that is used to increase, maintain, or improve functional capabilities of individuals with disabilities. Examples include message boards, screen readers, refreshable Braille displays, keyboard and mouse modifications, and head pointers.
- **Association** – An entity may not discriminate against individuals or entities because of their relationship with a person with a disability.

C

- **Cert** - An abbreviation that is sometimes used for the process by the Supreme Court known as [certiorari](#).
- **Certiorari**: The [Supreme Court](#) decides which cases to take through a process known as **certiorari**, sometimes abbreviated as “cert”. The Justices of the Court review every case appealed to the Supreme Court. If four or more Justices decide that the Supreme Court should issue an opinion on the case, the Supreme Court issues a *writ of certiorari*, or “grants cert”. If the Supreme Court decides not to hear the case, it “denies cert”. If the Supreme Court grants certiorari, the Justices will hear oral argument and issue a decision. If the Supreme Court denies certiorari, the opinion of the circuit court stands.
- **Certification of equivalency** – A final certification that a State or local building code meets or exceeds the minimum requirements of the Americans with Disabilities Act (ADA) Title III for accessibility and usability of facilities covered by that Title.
- **Class action** – A lawsuit brought on behalf of a large number of people with similar legal claims. For example, a lawsuit brought against a paratransit provider on behalf of all riders would be a class action lawsuit.
- **Collateral estoppel** – In certain circumstances, Americans with Disabilities Act (ADA) plaintiffs may experience difficulty if they have applied for Social Security benefits, long-term disability benefits, or made other formal statements about their level of disability. In some ADA employment cases, courts have ruled that a person could not claim that they were a “qualified person with a disability” if they received Social Security disability benefits.
 - Courts ruled that if a person stated on a benefits application that they were permanently and totally disabled, they could not argue (they were “collaterally estopped” from arguing) that they were “qualified” to perform their job. The Supreme Court, in the case of *Cleveland v. Policy Management*, ruled that, under certain circumstances, a plaintiff could argue that she met the Social Security definition of disability and was still a “qualified” employee under the Americans with Disabilities Act (ADA). A plaintiff has to introduce evidence that their statement on a benefits application is consistent with an argument that they are qualified to perform their job.
- **Commercial facilities** – Nonresidential facilities, including office buildings, factories, and warehouses, whose operations affect commerce.
- **Concurring opinion** – A judge on a panel may issue a concurring opinion that agrees with the opinion of the court. A concurring opinion agrees with the court's opinion on certain points but may differ in terms of reasoning or analysis.

- **Consent decree** – A formal settlement agreement between parties that is subject to judicial approval and supervision. A consent decree has the force of law.
- **Court decision** – If a case involves the Americans with Disabilities Act (ADA) case where the Department of Justice (DOJ) is a party or has submitted an amicus brief goes to trial or is appealed, a court may issue a decision on the merits of the case. These court decisions have the force of law.
- **Courts of appeal (circuit courts)** – There are twelve regional courts of appeals. Each court of appeals covers a "circuit" of states, and they are generally referred to as "circuit courts." The circuit courts hear appeals of decisions from the district courts. Decisions made by circuit courts can be used as precedent for all courts within that circuit.
 - Circuit courts generally have anywhere from ten to fifteen judges, more or less (depending on vacancies, etc.). Three-judge panels hear most cases at the circuit court level. Occasionally, a party may ask for all the circuit court judges to review a decision of a panel. If the circuit court agrees, it issues what is called an **en banc** ruling, with all the judges on the court participating.
 - The **twelve circuit courts** are listed below with the city where each court is located (in parenthesis) followed by the states that the court covers:
 1. First Circuit Court (Boston) – Maine, Massachusetts, New Hampshire, Rhode Island.
 2. Second Circuit Court (New York) – Connecticut, New Jersey, New York, Vermont.
 3. Third Circuit Court (Philadelphia) – Delaware, Pennsylvania, New Jersey.
 4. Fourth Circuit Court (Richmond) – Maryland, North Carolina, South Carolina, Virginia, West Virginia.
 5. Fifth Circuit Court (New Orleans) – Louisiana, Mississippi, Texas.
 6. Sixth Circuit Court (Cincinnati) – Kentucky, Ohio, Michigan, Tennessee.
 7. Seventh Circuit Court (Chicago) – Illinois, Michigan, Wisconsin.
 8. Eighth Circuit Court (St. Louis) – Arkansas, Iowa, Missouri, Nebraska, North Dakota, Minnesota, South Dakota.
 9. Ninth Circuit Court (San Francisco) – Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Washington.
 10. Tenth Circuit Court (Denver) – Colorado, Kansas, New Mexico, Oklahoma, Utah, Wyoming.
 11. Eleventh Circuit Court (Atlanta) – Alabama, Florida, Georgia.
 12. District of Columbia Circuit Court (Washington) – District of Columbia.
 - For more information and links to the different circuit courts: [Federal Courts Locator](#) (link is external) | [Federal Courts Websites](#) (link is external).

D

- **Damages** – Money awarded to one party based on injury or discrimination caused by the other. Money damages are not available to state employees under Americans with Disabilities Act (ADA) Title I or to all plaintiffs under ADA Title III.
- **Defendant** – The person, company, or organization that is defending a lawsuit brought by a plaintiff. In Americans with Disabilities Act (ADA) Title I litigation, the defendant is almost always an employer. In ADA Title II litigation, the defendant is a unit of state government. In ADA Title III litigation, the defendant is almost always a place of public accommodation.
- **Defenses** – Circumstances, specific to each Title of the Americans with Disabilities Act (ADA), under which the general nondiscrimination requirements do not apply.

- **De novo** – From the Latin word for "new." When an appeals court hears a case de novo, it looks at the record as if for the first time, and applies the same standards that the lower court used.
- **Department of Housing and Urban Development (HUD)** – Federal agency designated to enforce the Fair Housing Act (FHA).
- **Department of the Interior (DOI)** – Federal agency whose Civil Rights Division handles Title II of the Americans with Disabilities Act (ADA).
- **Department of Justice (DOJ)** – Federal agency that has the authority to enforce all provisions of the Americans with Disabilities Act (ADA), but focuses primarily on ADA Title II (public services by State and local government) and ADA Title III (public accommodations).
- **Department of Labor (DOL)** – Federal agency responsible for administering and enforcing the Family and Medical Leave Act (FMLA).
- **Department of Transportation (DOT)** – Federal agency which, in cooperation with the U.S. Access Board, develops standards for transportation vehicles, including over-the-road buses, under the Americans with Disabilities Act (ADA).
- **Direct threat** – Significant risk of substantial harm to the health or safety of the individual or others that cannot be eliminated or reduced by reasonable accommodation (as defined in Title I of the Americans with Disabilities Act (ADA)).
- **Disability** – A physical or mental impairment that substantially limits one or more major life activities, a record of such an impairment, or being regarded as having such an impairment.
- **Disability and Business Technical Assistance Centers (DBTACs)** – Former name for the ten regional centers on the Americans with Disabilities Act (ADA) in the ADA National Network funded by National Institute on Disability Rehabilitation and Research (NIDRR) to provide information, training and technical assistance on the ADA in all 50 U.S. States and surrounding territories.
- **Disability Rights Education and Defense Fund (DREDF)** – National law and policy center dedicated to protecting and advancing the civil rights of people with disabilities.
- **Dissenting opinion** – A judge on a panel may issue a dissenting opinion that disagrees with the opinion of the court. A dissenting opinion disagrees with the court's opinion and may present different reasoning or analysis. (An opinion may be both concurring and dissenting; agreeing with certain sections of a court's opinion but disagreeing with others.)
- **Distance learning** – Training from a remote location conducted by way of various options, including teleconference, streaming audio over the Internet, and/or real-time captioned over the Internet.
- **District courts** – Every state has at least one district court. District courts are the lowest level of the federal court system. Virtually all federal cases arise in the federal district courts. Decisions made by district courts can be used as precedent in other courts in that state.

E

- **Effective communication** – Communication with people with disabilities must be as effective as communication with others.
- **Equal Opportunity** – An opportunity for people with disabilities to participate and benefit from programs and services that is equal to and as effective as the opportunity provided to others.
- **Equal Employment Opportunity Commission (EEOC)** – Federal agency primarily responsible for enforcement of Title I of the Americans with Disabilities Act (ADA), which deals with employment discrimination.
- **Error** – An appeals court can only reverse the decision of a lower court if it finds that the lower court judge made an error. An appeals court will reverse an error that is prejudicial to a party, but will generally not reverse a "harmless" error that does not affect the outcome of the case.

- **Essential job function** – Fundamental job duties of the employment position the individual with a disability holds or desires. The term "essential functions" does not include the marginal functions of the position.
 - A job function may be considered essential for any of several reasons, including but not limited to the following:
 - The function may be essential because the reason the position exists is to perform that function;
 - The function may be essential because of the limited number of employees available among whom the performance of that job function can be distributed; and/or
 - The function may be highly specialized so that the incumbent in the position is hired for his or her expertise or ability to perform the particular function.
 - Evidence of whether a particular function is essential includes, but is not limited to:
 - The employer's judgment as to which functions are essential;
 - Written job descriptions prepared before advertising or interviewing applicants for the job;
 - The amount of time spent on the job performing the function;
 - The consequences of not requiring the incumbent to perform the function;
 - The terms of a collective bargaining agreement;
 - The work experience of past incumbents in the job; and/or
 - The current work experience of incumbents in similar jobs.
- **Estoppel** – A doctrine that allows the court to dismiss a frivolous argument before it goes to trial. For example, a plaintiff that loses a case at trial would be barred from arguing that same case again.

F

- **Federal Communications Commission (FCC)** – Federal agency that is responsible for enforcement of Title IV of the Americans with Disabilities Act (ADA), which covers telecommunications. The FCC address all types of consumer-related matters – from answering questions and responding to consumer complaints, to distributing consumer education materials and assuring consumer input in their policy making activities.
- **Federal Court** – All federal judges are nominated by the President and confirmed by the Senate. Once confirmed, a federal judge has a lifetime term. There are three levels of courts in the federal system: District Courts, Courts of Appeal, and the Supreme Court.
- **Friend of the Court Brief** – Commonly-referred term for an amicus brief, which provides individuals or organizations (such as government agencies or disability organizations) without a direct stake in the lawsuit to provide information or legal arguments to the court.
- **Fundamental alteration** – A modification that is so significant that it alters the essential nature of the goods, services, facilities, privileges, advantages, or accommodations offered. If a public entity can demonstrate that the modification would fundamentally alter the nature of its service, program, or activity, it is not required to make the modification. If a public accommodation (private entity) can demonstrate that a modification would fundamentally alter the nature of the goods, services, facilities, privileges, advantages, or accommodations it provides, it is not required to make the modification.

G

- **Grants cert** – see [certiorari](#).
- **Guidance** – Many agencies that enforce an Americans with Disabilities Act (ADA) issue informal statements of guidance. These statements do not have the force of law, but provide information about how the agency interprets the ADA.

H

- **Harassment** – Unwelcome conduct in the workplace based on an individual's disability that creates an environment that makes it difficult for that person to work.
- **Hearing Carry-Over (HCO)** – A call type method used by people who have difficulty speaking, but have no difficulty hearing voice. A less common call type than Voice Carry-Over (VCO), the HCO allows a speech-impaired person to type messages on a TTY (which are voiced by the relay operator) and then pick up the handset and listen to the other person's response.

I

- **Impairment** – A physical impairment is a physiological disorder or condition, cosmetic disfigurement or anatomical loss affecting one or more of the body systems. A mental impairment is any mental or psychological disorder.
- **Individual with a Disability** – A person who has a physical or mental impairment that substantially limits one or more of the major life activities of such individual or a record of such an impairment or is regarded as having such an impairment.
- **Injunction** – A court order that requires a party to either do something (i.e., build a curb cut) or stop doing something (i.e., stop denying rides to paratransit passengers).
- **Integration** – Individuals with disabilities must be integrated to the maximum extent appropriate.
- **Interactive Process** – An informal dialogue between the employer and employee used to identify the precise limitations resulting from the disability and determine potential reasonable accommodations that could overcome those limitations.

J

- **Jurisdiction** – The defined area of responsibility to which a law applies within and thereby has the authority to hear a case. Also, the practical authority granted to a formally constituted legal body or to a political leader to deal with and make pronouncements on legal matters and, by implication, to administer justice within a defined area of responsibility. For example, a Federal court may not have jurisdiction over a violation of a state law.

M

- **Major life activity** – An activity that an average person can perform with little or no difficulty.
- **Marginal functions** – Duties of a job that are not absolutely necessary for the job being performed.
- **Mediation** – When a third party holds an informal meeting with both sides in a dispute to promote resolution of a grievance, a compromise, or a settlement of a lawsuit. The result of the mediation, if any, is not binding on the parties. A mediator can be court-appointed or chosen by the parties.

- **Mitigating measures** – A measure utilized (such as medication or glasses) that eliminates or reduces the symptoms of an impairment so it is no longer substantially limiting.
- **Motion** – A request by a party to a judge to settle a procedural issue in litigation.

N

- **National Center on Accessibility (NCA)** – Organization that provides training, technical assistance and research on access to parks, recreation, and tourism.
- **National Council on Disability (NCD)** – Independent Federal agency making recommendations to the President and Congress on issues affecting Americans with disabilities.
- **National Institute on Disability and Rehabilitation Research (NIDRR)** – Under the U.S. Department of Education, this organization provides funding for various projects, including the ten regional centers in the ADA National Network that provide information, training, and technical assistance on the Americans with Disabilities Act (ADA).

O

- **Office of Disability Employment Policy (ODEP)** – Under the U.S. Department of Labor, provides national leadership by developing and influencing disability-related employment policies as well as practices that affect the employment of people with disabilities.
- **Office of Federal Contract Compliance Programs (OFCCP)** – Part of the U.S. Department of Labor's Employment Standards Administration, responsible for ensuring that employers doing business with the Federal government comply with the laws and regulations requiring nondiscrimination.

P

- **Party** – A term that applies to anyone directly involved in a lawsuit, whether that person is a plaintiff or defendant.
- **Path of travel** – A continuous, unobstructed way of pedestrian passage.
- **Per curiam** – Usually, opinions by judges are signed. Occasionally, a circuit court or the Supreme Court may issue an unsigned, or per curiam, opinion that expresses a view of the majority of judges or justices. Often, a per curiam opinion will be accompanied by various concurring or dissenting opinions.
- **Personal services or personal devices** – Public entities and public accommodations are not required to provide personal services or personal devices. Examples of personal devices that entities are not required to provide include wheelchairs, prescription eyeglasses, and hearing aids. Personal assistance service need not be provided in activities such as eating, toileting, and dressing unless the service is typically provided by the entity.
- **Plaintiff** – The person who filed the lawsuit. In ADA litigation, the plaintiff is almost always a person with a disability.
- **Portable Document Format (PDF)** – An open file format created and controlled by Adobe Systems for representing two-dimensional documents in a device independent and resolution independent fixed-layout document format. Unless properly tagged, these documents will be inaccessible to those with visual impairments.
- **Primary function areas** – Areas housing the major activities for which a facility was intended.

- **Program access** – A public entity's services, programs, or activities, when viewed in their entirety, must be readily accessible to and usable by individuals with disabilities.
- **Pro se** – A party who is acting on his or her own, without a lawyer to represent them.
- **Public accommodations** – Private entities that own, operate, lease, or lease to places of public accommodation. Places of public accommodation include places such as restaurants, hotels, theaters, convention centers, retail stores, shopping centers, dry cleaners, laundromats, pharmacies, doctors' offices, hospitals, museums, libraries, parks, zoos, amusement parks, private schools, day care centers, health spas, and bowling alleys.
- **Public entity** – A public entity covered by Title II of the Americans with Disabilities Act (ADA) is defined as:
 - Any State or local government,
 - Any department or agency of State or local government,
 - Certain commuter authorities,
 - AMTRAK.
- **Punitive damages** – The damages that are awarded on top of any other available damages to punish a losing party for misconduct.

Q

- **Qualified individual with a disability** – A person with a disability who satisfies the requisite skill, experience, education and other job-related requirements of the employment position such individual holds or desires, and who, with or without reasonable accommodation, can perform the essential functions of such position.

R

- **Readily achievable** – Easily accomplished and able to be carried out without much difficulty or expense. Public accommodations are required to remove barriers when it is readily achievable to do so.
- **Reasonable accommodation** – A modification or adjustment to a job, the work environment, or the way things usually are done that enables a qualified individual with a disability to enjoy an equal employment opportunity. For example:
 1. Modifications or adjustments to a job application process that enable a qualified applicant with a disability to be considered for the position such qualified applicant desires; or
 2. Modifications or adjustments to the work environment, or to the manner or circumstances under which the position held or desired is customarily performed, that enable a qualified individual with a disability to perform the essential functions of that position; or
 3. Modifications or adjustments that enable a covered entity's employee with a disability to enjoy equal benefits and privileges of employment as are enjoyed by its other similarly situated employees without disabilities.
- **Reasonable modification** – A public entity must modify its policies, practice, or procedures to avoid discrimination unless the modification would fundamentally alter the nature of its service, program, or activity.
- **Regulations** – Regulations are issued by government agencies and have the force of law. Regulations provide more detailed interpretation of statutes. Federal regulations can be found in the Code of Federal Regulations.

- **Relay Service** ♦ Also known as Telecommunication Relay Service, or IP-Relay, this is an operator service that allows individuals who are deaf, hard-of-hearing, speech-impaired, and speech-disabled to place calls to standard telephone users via TDD, TTY, personal computer or other assistive telephone device.
- **Remand** – The act of a higher court returning a case to a lower court. When a circuit court or the Supreme Court rules that a lower court has made an error in the law, the court remands the case back to a lower court. The lower court then corrects its error and proceeds with the case.
- **Respondent** – The party against who an appeal is filed. Either the plaintiff or the defendant can be a respondent. Some courts use the term "appellee" instead of respondent.
- **Retaliation** – Individuals who exercise their rights under that Americans with Disabilities Act (ADA) are protected from those who would take steps to "pay them back" for their actions.

S

- **Settlement agreement** – An agreement between parties to settle a lawsuit before it goes to trial. The parties agree to settle their dispute and to dismiss the lawsuit. Settlement agreements do not have the force of law.
- **Speech-To-Speech (STS)** – A relay service available to any telephone callers with a speech disability and to those who wish to talk with them.
- **Standing** – The legal doctrine that only those individuals who are qualified to assert or enforce legal rights or duties have access to a court.
 - In any lawsuit, the plaintiff has to show that he or she has "standing," or the legal right to sue. One element of "standing" is the concept of "redressability" – the doctrine that the court must have the authority to implement whatever remedies that the plaintiff seeks. In some Americans with Disabilities Act (ADA) Title III cases, courts have ruled that plaintiffs with disabilities do not have standing to sue defendants, even when those defendants violate ADA Title III. The majority of these cases involve individuals who are deaf that sue hospitals that do not provide interpreters. Even though hospitals that do not provide interpreters violate the ADA, courts have ruled that plaintiffs do not have standing because they will not experience further discrimination, either because the plaintiff stated he or she would not return to that hospital or because the hospital has taken steps to ensure future ADA compliance.
- **Statute** – A law made by a legislature, such as the United States Congress. Federal statutes can be found in the United States Code.
- **Substantial limitation** – An individual who is unable to perform, or is significantly limited in the ability to perform, a major life activity that the average person in the general population can perform.
- **Summary judgment** – A ruling by a court that one party in a lawsuit is entitled to win as a matter of law before the case goes to trial. The court has to find that there are no set of facts that would allow the losing party to win.
- **Supreme Court** – hears cases appealed from the circuit courts, and which generally raise novel questions of law. For example, the Supreme Court will generally choose to hear cases where a "split" has occurred among the different circuits, with one circuit deciding a case one way and another circuit deciding a case the other way. Decisions made by the Supreme Court are binding on all lower courts. The Supreme Court decides which cases to take through a process known as [certiorari](#), sometimes abbreviated as "cert". For more information, visit the [Supreme Court website \(link is external\)](#) for its schedule and past opinions and the FindLaw.com website for detailed set resources on [upcoming Supreme Court decisions \(link is external\)](#).

- **Surcharges** – Surcharges for provision of auxiliary aids and services, barrier removal, alternatives to barrier removal or other modifications to provide an equal opportunity to people with disabilities are prohibited.

T

- **Telecommunications Device for the Deaf (TDD)** – An electronic device for text communication via a telephone line, used when one or more of the parties has hearing or speech difficulties.
- **Telecommunication Relay Service (TRS)** – Also known as a Relay Service, or IP-Relay, this is an operator service that allows individuals who are deaf, hard-of-hearing, speech-impaired, and speech-disabled to place calls to standard telephone users via TDD, TTY, personal computer or other assistive telephone device.
- **Teletypewriter (TTY)** – Also known as a Teletype, or text telephone, this is a device for text communication via a telephone line, used when one or more of the parties has hearing or speech difficulties.
- **Title** – A section of a statute. For example, the Americans with Disabilities Act (ADA) has five titles.
- **Title I** – Of the five titles of the Americans with Disabilities Act (ADA), Title I of the ADA pertains to Employment. Under ADA Title I, covered entities shall not discriminate against a qualified individual with a disability. This applies to job application procedures, hiring, advancement and discharge of employees, worker's compensation, job training, and other terms, conditions, and privileges of employment.
- **Title II** – Of the five titles of the Americans with Disabilities Act (ADA), Title II of the ADA pertains to State and Local Government (public entities). ADA Title II requires agencies to comply with regulations similar to Section 504 of the Rehabilitation Act. These rules cover access to all services, programs, or activities offered by the public entity, and extends coverage to public transportation entities. Access includes physical access described in the Uniform Federal Accessibility Standards or the ADA Standards for Accessible Design and access that might be obstructed by discriminatory policies or procedures of the entity.
- **Title III** – Of the five titles of the Americans with Disabilities Act (ADA), Title III of the ADA pertains to Public Accommodations (private entities). Under ADA Title III, no individual may be discriminated against on the basis of disability with regards to the full and equal enjoyment of the goods, services, facilities, or accommodations of any place of public accommodation by any person who owns, leases (or leases to), or operates a place of public accommodation.
- **Title IV** – Of the five titles of the Americans with Disabilities Act (ADA), Title IV of the ADA pertains to Telecommunications. ADA Title IV addresses telephone and television access for individuals with hearing and speech disabilities. Specific requirements under Title IV include: closed captioning of Federally funded public service announcements (PSA), and telephone companies must establish in-state and state-to-state telecommunications relay services (TRS) 24 hours a day, 7 days a week.
- **Title V** – Of the five titles of the Americans with Disabilities Act (ADA), Title V of the ADA pertains to miscellaneous provisions, most of which apply to all titles of the ADA.

U

- **Undue burden** – Significant difficulty or expense. A public accommodation is not required to provide any auxiliary aid or service that would result in an undue burden.

- **Undue hardship** – An action that requires "significant difficulty or expense" in relation to the size of the employer, the resources available, and the nature of the operation. The concept of undue hardship includes any action that is unduly costly, extensive, substantial, disruptive, or would fundamentally alter the nature or operation of the business. Accordingly, whether a particular accommodation will impose an undue hardship must always be determined on a case-by-case basis.
- **Undue financial and administrative burden** – A public entity does not have to take any action that it can demonstrate would result in an undue financial and administrative burden. This applies in program accessibility, effective communication, and auxiliary aids and services. The determination of a undue financial and administrative burden must be:
 1. Made by the head of the public entity or his/her designee.
 2. Accompanied by a written statement of the reasons.
 3. Based on all resources available for use in the program.
- **Universal design (UD)** – Also known as "inclusive design" and "design for all," this is an approach to the design of products, places, policies and services that can meet the needs of as many people as possible throughout their lifetime, regardless of age, ability, or situation.

V

- **Voice Carry-Over (VCO)** – A call type method that allows an individual who is deaf or hard of hearing to use his or her voice while receiving responses from a hearing person via text typed by the relay operator (also known as communication assistant or relay agent). VCO, a more common call type than Hearing Carry-Over(HCO), has many variations, including 2-Line VCO.
- **Video Relay Services (VRS)** – allows an individual who uses sign language to be able to place a phone call by signing instead of typing. The VI (video interpreter) uses a web cam or videophone to voice the signs of the individual who is deaf or has a hearing or speech disability to the person who has hearing and sign the words of the person who has hearing to the individual who is deaf or has a hearing or speech disability.

W

- **Web Accessibility Initiative (WAI)** – This is the effort of the World Wide Web Consortium (W3C) that pursues accessibility of the Web through technology, guidelines, tools, education and outreach, and research and development.
- **Writ of certiorari** – see [certiorari](#).
- **Working** – Americans with Disabilities Act (ADA) plaintiffs can argue that they have substantial limitations in one or more major life activities. The major life activity of "working" is considered to be the major life activity of "last resort." Plaintiffs who argue that they have an impairment that affects their ability to work must show that their impairment limits their ability to work in a "broad range" of jobs, rather than in just one job or class of jobs. Courts usually require plaintiffs to submit detailed evidence (usually from a vocational rehabilitation agency) of their ability to do certain types of jobs that are available in the community. Plaintiffs who argue a limitation in "working" usually are not able to prove that they meet the ADA definition of disability.
- **World Wide Web Consortium (W3C)** – An organization that develops interoperable technologies (specifications, guidelines, software, and tools) to lead the Web to its full potential. The W3C is a forum for information, commerce, communication, and collective understanding.
