## Ambulance Services

A correction to the Ambulance Services section of Chapter 7 (Public Facilities and Services) is included to indicate that the Ivesdale FPD provides Advanced Life Support (Paramedic) level non-transport services.

### Ambulance Services

Three ambulance service providers operate within the County: Gibson City, Arrow and Pro Ambulance.

Gibson City Ambulance only responds to Brown Township through an agreement with the Sangamon Valley Fire Protection District, whereas Arrow and Pro ambulances respond to anywhere within the County based on agreements they have with individual fire protection districts or by citizen request.

Within the city limits of Champaign and Urbana, Arrow and Pro are required to achieve a response within 12 minutes of the time the call was received by the ambulance service on Alpha and Bravo response calls and within 8 minutes on Charlie, Delta or Echo response calls. These times must be met on at least 90% of the calls received. Both Champaign and Urbana utilize the same "Ambulance Ordinance" to set the standards listed above. Arrow, Pro and METCAD all utilize Priority Dispatch Emergency Medical Dispatch Protocols to determine the response level of each call, as well as to give pre-arrival instructions such as CPR to callers. All other entities within Champaign County do not have an Ordinance to control ambulance services and have no minimum response time restrictions in place.

Though both Arrow and Pro will provide services to anywhere within the County, most fire protection districts have entered into agreements with one of the providers to be exclusively dispatched on any medical call in their district. Levels of care start at First Responder, Emergency Medical Technician Basic, EMT-Intermediate, and EMT-Paramedic, with each level listed providing a higher amount of care offered. All of the fire departments and Fire Protection Districts (FPDs) provide either a First Responder EMS care or EMT-B care; the City of Urbana Fire Department, St. Joseph-Stanton FPD, and Homer FPD provide EMT-I level of patient care non-transport. Cornbelt FPD provides Advanced Life Support (ALS) service at the EMT-P level of patient care non-transport. This is provided for through a contractual agreement with Arrow Ambulance. Ivesdale FPD provides non-transport Advanced Life Support at the Paramedic level.

Some other fire departments and FPDs provide space in their facilities for an ambulance service to house one of their manned units. Rantoul Fire Department and Savoy Fire Department have this agreement with Pro. This aids in providing a faster response time for their fire protection districts. Ivesdale FPD and Sadorus FPD have one unmanned ambulance provided by Arrow in the Sadorus station. Within the Cities of Champaign and Urbana, the incorporated area is divided east and west along Neil Street in Champaign. On the 15<sup>th</sup> of each month, Arrow and Pro Ambulance switch their coverage area.<sup>9</sup>

Within the Champaign-Urbana incorporated area, ambulance crews from both Arrow and Pro Ambulance are required by Ordinance to provide Advanced Life Support (ALS or paramedic-level service) on each call. In other areas of the County, both services provide ALS service on all calls, even though no Ordinance requires them to do so. Air Life helicopter is housed at Carle Hospital and when available and weather conditions permit, is automatically dispatched to critical calls. Helicopter responses are primarily outside of the Champaign-Urbana area due to the ability to obtain quick response times from ground crews. Appropriate landing sites are also of concern.

For more information, please visit the service provider's website (last accessed 3/25/2010):
