Resolution No. 21-28 – BAR #9

Fiscal Year 2021

WHEREAS, the Board of County Commissioners of the County of Cibola is the duly constituted governing body of the County and serves *ex officio* as the County Board of Finance with authority for establishing, monitoring, and adjusting the County's budget; and

WHEREAS, budget adjustments are required to establish correct beginning cash balances; allow for new transfers; to allow for budget increases and decreases to revenues and expenditures to offset any unanticipated revenues and/or expenditures; and to correct amounts when required; and

WHEREAS, the budget adjustments and the associated line items with amounts stated on the **attached**, *Schedule of Budget Adjustments 21-28A* is essential.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS of the COUNTY OF CIBOLA, STATE OF NEW MEXICO, ex officio COUNTY BOARD OF FINANCE that the adjustments included in this document are deemed necessary to the operations of the County for the 2021 fiscal year ending June 30, 2021.

PASSED, APPROVED and ADOPTED by the governing body at a regular meeting on the 27th day of May 2021.

THE BOARD OF COUNTY COMMISSIONERS:

Daniel Torrez, Chairman

Martha Garcia, 1st Vice-Chair

Dr. Christina Lowery, 2nd Vice-Chair

Robert Windhorst, Commissioner

Ralph Lucero, Commissioner

Transportation Project Fund Application-CR-1

**BOARD OF COUNTY COMMISSIONERS
RESOLUTION 21-29**

**DECLARING THE ELIGIBILITY AND INTENT OF THE COUNTY TO SUBMIT AN
APPLICATION TO THE NEW MEXICO DEPARTMENT OF TRANSPORTATION
(NMDOT) FOR FISCAL YEAR 22 (FY22) FOR LOCAL GOVERNMENT
TRANSPORTATION PROJECT FUNDS (TPF)**

WHEREAS, the Cibola County Board of Commissioners met upon notice of meeting duly published at the Cibola County Administration Building, 700 East Roosevelt Ave., Suite 50, Grants, NM 87020, on May 27, 2021, at 5:00 p.m. as required by law; and,

WHEREAS, the Board of County Commissioners possesses the powers of the county as body politic and corporate, NMSA 1978, Section 4-38-1, granting it the legal authority to apply for, receive, and administer state funds; and,

WHEREAS, Cibola County is submitting an FY22 application for New Mexico funds in the amount of **\$1.25M** as set forth by State legislation; and,

WHEREAS, the CR-1 Bridge Replacement and Roadway Improvements Project named in the TPF application is an eligible project under the New Mexico TPF requirements; and,

WHEREAS, Cibola County acknowledges availability of the required local match of five percent (5%) for the State of New Mexico; and,

WHEREAS, Cibola County agrees to pay any costs that exceed the project amount if the application is selected for funding; and,

WHEREAS, Cibola County agrees to maintain the project constructed with LGTPF monies for the useable life of the project.

NOW, THEREFORE BE IT RESOLVED by the Board of County Commissioners of Cibola County that:

1. The County authorizes **Kate Fletcher, County Manager** or her designee to submit an application for FY20 New Mexico LGTPF monies in the amount of **\$1.25M** from the New Mexico Department of Transportation (NMDOT) on behalf of the County.
2. Cibola County assures the NMDOT that if TPF funding is awarded, sufficient funding for the local match is available, and that any costs exceeding the requested project amount will be paid for by Cibola County.

3. Cibola County assures the NMDOT that if awarded LGTPF, sufficient funding for the operation and maintenance of the LGTPF project will be available for the life of the project.
4. That **Kate Fletcher, County Manager** or her designee is authorized to enter into a Cooperative Project Agreement with the NMDOT for the LGTPF project using these funds as set forth the by state legislation on behalf of the residents of the County. **Kate Fletcher, County Manager** is also authorized to submit additional information as may be required and act as the official representative of the County in this and subsequent related activities.

RE: Cibola County's Transportation Project Fund (TPF) Application for Cibola County-County Road 1/Marquez Road

Dear Mr. Larry Maynard,

Cibola County is submitting a Transportation Project Funding (TPF) Application for County Road-1/Marquez Bridge and Road Rehabilitation Project. This project is located approximately 4.1 miles east from the Junction of NM 279 and CR-1(Marquez Road). The existing major structure (bridge) is subject to large drainage shed flows with an estimated 10-mile flow path upstream of the major structure inlet. The "bridge" has suffered damage and is being undermined by repeated heavy water flows. The right shoulder of the roadway is being eroded and the "bridge exhibits undermining on the outlet side of the structure with a 53-foot drop into the drainage path below.

The design for this project is 20%-30% complete. Cibola County is requesting \$1.25 Million for the first phase of this project which would include completion of Design, Planning, Right-of-Way Construction Maintenance Easement (ROW-CME), permitting and clearances, off-roadway construction & construction management & testing of stream stabilization and channel morphology analysis. The second phase would be for full roadway construction, construction management and permanent signage. Cibola County does have right of away clearances on CR-1 but would need to obtain (CME) and may require additional ROW easements. This project includes securing right-of-way, the project does not include Federal Funds.

Cibola County has allocated funds in our FY22 budget to meet the required match amount of 5% of overall project costs. On May 27th, 2021 Cibola County Commission approved Resolution 21-29 Sponsorship for this application. The resolution is included in the application documentation.

Cibola County is ready and able to start expending grants funds roughly 3 months after the grant agreement has been fully executed.

Thank-you for your consideration of Cibola County's Grant Application for County Road 1. We look forward to working with NMDOT staff and NWNMRTPO on this critical need project.

Sincerely,

Kate Fletcher
Cibola County Manager

How this Project for CR-1/Marquez Road meets the listed National Safety Goals:

System Reliability:

The bridge provides the only access to the Marquez Community and several large ranches as well as access to the Wind Farm Array and Solar Power field operated by PNM atop the nearby Mesa. This improvement will also allow for reliable emergency response by medical services or law enforcement should they be needed to the east of this "bridge". By providing a reconstructed crossing and by stabilizing the eroding stream bank which is cutting into the roadway, system reliability for the users of this roadway will be better attained with the needed repairs to the roadway and the "bridge" through the planned repairs needed to stabilize the "bridge" and provide for roadside safety appurtenances across the "bridge". Repairing the current deficiencies maintains access for commercial, family, emergency services, and development needs for Marquez Road.

Freight Movement & Economic Vitality:

This roadway is a farm to ranch road. The ranchers need access to take their cattle to market. This roadway and bridge crossing is the access to the Wind Farm and Solar Array operated by PNM in this area. This sustainable energy supply requires maintenance and repair and assuring the ability to cross the bridge aids in Cibola County and New Mexico Freight and Economic Vitality by supporting the movement of farm and ranch good to market and by supporting the continued operation of the PNM Wind Farm and Solar Array energy supply for public energy consumption and public energy supply.

Enhance Integration and Connectivity:

Marquez Road or Cibola County Road 1 is a Farm and Ranch to Market Roadway with access to recreational areas. The roadway also allows for access from a very rural area into the more urban areas of New Mexico in a reasonable amount of time. Assuring the continued and improved safe capacity of this "bridge" ensures system connectivity or access for ranchers, emergency responders, clean energy supply, recreational use of the Marquez Wilderness Area and potential future economic development using a staple of the Cibola County economic portfolio which is mining and uranium asset utilization.

Infrastructure Condition:

Systemic problems with geometry exist at this location. Current geometry presents high, unprotected fills with slopes that are steep and greater than 10 feet in embankment height with exposure to a 55 foot drop on the exit or downstream side of the crossing. Current roadside slopes over the structure are unprotected. The slopes are not traversable or recoverable. Fall for an errant vehicle on the downstream side of the roadway crossing is over 55 feet and is over 10 feet on the upstream side of the roadway crossing of this major structure or bridge. Roadside geometry and existing physical environmental conditions clearly indicate that any crash at this location will be a high severity index crash. The protection of life and property through the incorporation of roadside safety features like guardrail and crash attenuators and structural pipe and slope stabilization will reduce the opportunity for a high severity index crash or crashes at this large (over 20 feet in length) structural plate crossing. Incorporating energy dissipaters and stabilizing the stream and stream channel will help preserve the roadway from embankment failure in the oxbow. The proposed roadway work preserves the sustainability of Marquez Road and maintains access for emergency services users, school buses, recreational uses, and economic development of points farther east of the crossing.

The current large structural plate pipes are two, 17'-6" S by 11'-6"R. The combined span length exceeds 20 feet in width and would qualify this major structure as a bridge. The existing major structure (bridge) is subject to large drainage shed flows with an estimated 10 mile flow path upstream of the major structure inlet. The "bridge" has suffered damage and is being undermined by repeated heavy water flows. The right shoulder of the roadway is being eroded and the "bridge exhibits undermining on the outlet side of the structure with a 53 foot drop into the drainage path below. The road side slopes over this structure need guardrail as the roadside slopes are unprotected and are steeper than 3:1 with a non-recoverable and non-traversable slopes that need to be protected. The new guardrail and end-sections will allow vehicles less opportunity to run-off the road and tumble to the bottom of the 53 foot deep

arroyo on the south side of the roadway. Improvements are needed to help prevent road embankment failure and to provide guard rails and crash end section attenuators for improved roadway and roadside safety.

Environmental Sustainability:

The alternative energy source operated by PNM fills the bill here as the power generated and sold from the Wind Farm is part of the clean energy operating energy portfolio of PNM. Use of this clean renewable energy source enhances the quality of life of the Citizens of New Mexico by contributing to a cleaner air profile which in turn enhance the health of all New Mexicans. Quality of life is then improved through being able to enjoy the benefits of the Marquez Wilderness area and enjoy other outdoor benefits of clean New Mexico air.

Submit to:

Project: Lobo Canyon Water Project
Cantina Acrestt, Cibola 19 Cantina Road, NM
Date: April 12, 2021

Description of work:

Dirt work:

- * Prep pad 70' x 30'
- * Over excavate 2'
- * Backfill and tamp 1' lifts with process on site dirt
- * Lay down 4" basecourse

Form work:

- * Set form, set steel 16" each way
- * Pour concrete @ 6000 PSI with air
- * Control joints 15' each way
- * Broom finish

(NOTE: Without a geotechnical engineering report, I would recommend doing some test holes before the dirt work starts, just to be sure we don't hit rock and have to move the designated site)

* Material, Labor and equipment (excludes all testing)
