

**Policy For Separately Metering Water
Used For Lawn Sprinkling Systems Connected
To Municipal Water System**

1. This policy only applies to installations of underground lawn sprinkling systems or water used outside of buildings which is not discharged into the city's sanitary sewer system.
2. A separate water meter shall be installed (at the customer's expense) on the customer's water service line ahead of the buildings water meter.
3. The portion of the customer's utility bill for lawn sprinkling will only include the water meter fee and water consumption charges.
4. The lawn sprinkling water meter shall be installed to City specifications (see attached installation sketch) including meter valve and approved dual check backflow preventer.
5. No chemicals shall be fed through the sprinkling system.
6. Water department personnel must inspect and approve the final installation prior to usage. There will be a \$10.00 hook up charge to the utility customer for the lawn watering meter and a \$30.00 remote installation fee.

Approved by the Estherville City Council : April 20, 1992
