Section 2. New fees. Fees; rates; deposits, fines and other charges are hereby adopted as follows:

Section 3. Effective date. June 1, 2015

Land Use Fees and Deposits-General.

- A. **Fees and Deposits.** Fees are intended to cover the normal, recurring administrative costs associated with said action, such as secretarial staff time, advertising, mailings, file distribution, etc. and project review. Fees are non-refundable. Deposits are intended to cover reviews, by City Staff or Consultants, which exceed normal costs, and any remaining deposit, at the conclusion of the review and/or permit process, will be refunded to the payee. The applicant is responsible for costs incurred for any portion of project/permit

reviewed by a consultant hired by the City for such review. If reviews go above and beyond fees and deposits specified, the City shall notify the applicant and provide an estimate of the amount necessary to complete the permit processing, and the applicant shall pay for any additional costs upon invoicing by the City.

- B. Payment Due. Fees and deposits are due at the time the action is requested (e.g., at time of application) or occurs (e.g., prior to a specific action). An applicant may pay all fees and deposits of a multi-phased project in advance; however, doing so does not vest the amount of the applicable fees due. Fees due are those in effect at the time the specific action or phase of an action is requested or occurs.
- C. Late Payment Penalties. If payment is not received within 30 days of the due date specified on the invoice, the amount due shall accrue interest at the rate of 1.5 percent per month from the date the fee became due until the date payment is actually made.
- D. Waivers. Upon petition by the applicant, the City Council may waive any of the fees or portions thereof, for any non-profit organization that provides services for the necessary support of the poor or infirm.
