## OVERVIEW OF FUND STRUCTURE

### BUDGET BY FUND

#### Understanding the Flow of Funds

Readers and users of governmental budgets and financial statements are frequently confused by what they see. This confusion stems from the style of accounting (namely “Fund accounting”) which is required for all governmental jurisdictions in order to segregate and account for restricted or non restricted resources.

The budget is organized on the basis of funds, each of which is considered a separate budgeting and accounting entity. Government resources (revenues) are allocated to, and accounting for, in individual funds based upon the purpose for which they are to be spent as the means by which spending activities are controlled.

To understand why “funds” are established, the reader needs to have some understanding of the special concepts used.

#### TYPES OF FUNDS:

##### GOVERNMENTAL FUNDS

General Fund

Special Revenue Funds

Capital Project Funds

##### PROPRIETARY FUNDS

Enterprise Funds

Internal Service Funds

#### GOVERNMENTAL FUND TYPES:

General Fund – Accounts for all resources of revenues not designated or restricted as to expenditures.

##### Established Fund:

**General Fund** - It accumulates all revenues that are general revenues and not restricted as to expenditures. The general fund is made up of fourteen (14) departments that run the general operations of the city. Each department controls their own expenditures and therefore develops their own budget requests

Special Revenue Funds – Accounts for the proceeds of specific revenue sources (other than those from expendable trusts or for major capital projects) that are restricted legally to expenditure for specified purposes.

##### Established Fund:

**ACET Fund** – This fund was formed in October of 2005 to account for the activities of ACET and the Criminal Justice Grant.

Capital Projects Funds – These funds account for capital improvements from designated revenues.

**Capital Projects Fund** – The Council set this fund up in 1990 to accumulate moneys for construction or replacement of curbs, gutters and drainage on streets. The revenues are from a two (2) mill levy property tax. This is a self contained fund and any carryovers are to be used for future construction or replacement of curbs, gutters and drainage on streets.

## PROPRIETARY FUND TYPES:

**Enterprise Funds** – These funds are self supporting through fees and charges for services performed. Accounting for these funds is the same as an industrial business would be reported. Capital assets are not treated as expenses for financial reports, but they are depreciated over their estimated life and shown as depreciation expenses. For budget purposes there is a departure from this treatment of capital outlay because we are showing that the money received is sufficient to cover proposed expenditures (a balanced budget).

### **Established Funds:**

**Water Fund** – This fund furnishes water to the city of Craig and charges fees sufficient to cover the annual operating expense and to cover capital outlay and improvements. This is a self sustaining fund and is treated like a separate business entity for accounting and budget purposes.

**Wastewater Fund** – This fund furnishes sewer services to the city of Craig and charges fees sufficient to cover the annual operating expense and to cover capital outlay and improvements. This is a self sustaining fund and is treated like a separate business entity for accounting and budget purposes.

**Solid Waste Fund** – This fund furnishes garbage services to the city of Craig and charges fees sufficient to cover the annual operating expense and to cover capital outlay and improvements. This is a self sustaining fund and is treated like a separate business entity for accounting and budget purposes.

**Internal Service Funds** - Accounts for the financing of goods or services provided by one department to other departments on a cost-reimbursement basis.

**Medical Benefits Fund** - This fund is used to pay premiums that provide medical, dental, vision and life insurance coverage to employees of the city. The city belongs to the Colorado Employers Benefit Trust (CEBT) which is a self-funded multiple employer trust for health, dental, vision and life insurance coverage. The plan is funded with contributions from each department in the general fund and each of the enterprise funds based on number of employees enrolled in the plan. The employees also contribute to cover spouses and other dependents.

The monthly amount of Sales Tax received will reflect prior months collections due to delinquent filings, and also don't reflect those that have not yet filed. Therefore, the amount and percentage change between current and prior year totals, only represents the amount and percentage collected. It is not a reflection of an increase or decrease in sales activities.

**Capital Project:** Replace Transformers/Underground Wire    **New** X    **Ongoing** x

**Description:**    This project would be for the purchase and installation of all of the water plant's main duty transformers and underground electrical wiring.

**Which goal is addressed with this project? How?**    The main goal behind this project is replacing infrastructure. The water plant's transformers are nearing the end of their useful life. The water plant can not function without the transformers and the present ones are 35 years old. It is imperative that the transformers and wiring are replaced before they would fail.

**Other related costs? Savings?**    By planning ahead and removing the transformers and wire before a critical failure of this equipment would occur and prevent the water plant from producing drinking water.
