Subject: Open Position for MEDA

I am writing to formally express my interest in serving as a voting member on the board of the Moffat Economic Development Authority (MEDA). As a resident of Craig and a committed member of the Moffat County community, I am very invested in the long-term economic vitality, job growth, and tax base stability of our area, particularly during this period of energy transition.

MEDA is vital to managing local economic transition funds to support sustainable development, attract new investment, and offset impacts from changes in the coal and energy sectors. I admire the Authority's focus on accountable, transparent investments that prioritize primary job creation, infrastructure enhancement, and community competitiveness. I believe my current role as the Plant Manager for Tri-State's - Craig Station creates a background and experience of leadership and working with local government that would enable me to contribute meaningfully to the board's decision making and strategic priorities.

I am eager to bring a business minded perspective that is committed to collaborative public and private partnerships with strong ties to the local business community. I respectfully request consideration for appointment as a voting member representing the City of Craig's and Moffat County's interests.

Please feel free to contact me at 970-629-0689 or travis.sondrol@tristategt.org at your convenience. I look forward to the possibility of serving our community in this important capacity.

Sincerely,

Travis Sondrol

Plant Manager – Craig Station
