

MEMORANDUM

TO: Peter Brixius, City Manager
City Council

FROM: Trevor Campbell, R & B Director

DATE: June 9, 2020

SUBJECT: Approval to Spend 2020 Capital Drainage Funds

There is \$60,000 budgeted for drainage in the Capital Projects Fund for 2020. We would like approval to use these funds to replace the drainage pipe in the alley between Yampa Avenue and Russell Street from 5th to 6th Street. After completion of the drainage pipe replacement, we would then repave the alley. The cost for the drainage pipe replacement and paving is under the budgeted amount.

See the attached pictures of the compromised road surface of the described alley. This alley has continued drainage and icing issues. The new storm drain will capture rain gutters from each business directly adjacent to the alley to help mitigate future ponding rain water. It will be the responsibility of each business to tie their downspout into the City provided stub outs.

All storm inlets and SDR35 drain pipe will be installed by the City. Asphalt paving will piggy back off of the previous asphalt bid that was awarded to United Companies. A full width asphalt replacement will be installed the full length once drainage work is completed.

Location: Alley between Yampa St & Russell St from 5th St to 6th St
