

Dear Mayor and City Council,

Memo 10-29-2020

I'm sorry for the rush in getting this bid to you. I have been trying to get this done all summer, and was only able to get one bid. This work will stop substantial damage to roof and brick work at the museum this winter.

Shrock Seamless Gutter was unable to perform the work, since he only installs residential gutter and the museums are substantially larger and need to be custom made.

I was also unable to have Masterworks get me a bid since they have been so busy this year.

I received the name for Wilson Roofing from Roy Tipton with Moffat County. Wilson roofing had performed work on the Colorado Welcome center at Dinosaur.
