City of Craig - Gateway Signage Proposal
300 W. 4th Street
Craig, CO 81625

Re: Request for Qualifications

We are a licensed sign installation and fabrication company based out of Grand Junction CO. We have been in business since 1996 and currently employ 12 employees and have a little over 7000 sq ft of manufacturing facilities.

We are a UL approved facility and strive to build everything in our shop to the highest of safety standards.

In our day to day business we regularly deal with all municipalities on the western slope and around the state. We have established trust & good working relationships with all involved.

We offer a wide variety of services from surveys, permitting, installation, maintenance , and fabrication to name a few. We have in house large format printing, welders, cnc routing, neon plant, shears, brakes, and many other fabrication tools. Also in the field we have cranes and bucket trucks to hoist signs in the air with all of the proper safety training and equipment.

As far as years of experience, I have been raised in the business and a 4th generation sign craftsman and have learned tricks of the trade from every one of my predecessors. I have done sign work in Grand Junction and surrounding area for the last 32 years including every type of sign from a small decal, aluminum signs, kiosks, pole signs, wall signs, neon signs, large pylon sign to interior and exterior vinyl wraps. We would be considered a one stop sign shop that designs and fabricates everything in house. We also employ multiple people with over 20 years experience in installation and fabrication.

As it pertains to your individual job and experience, we have provided City of Grand Junction, as well as many other jurisdictions including your own with similiar project scopes.

References and Projects on following pages.

We strive to be the most reliable and honest sign company in western Colorado. Our business growth and practices prove that we are reliable, reputable, safe, and deliver when it counts.

Sincerely,

Mike Blackwelder Jr.

Project Manager

Mike Blackwelder Jr. Sales Manager mike@platinumsign.com Cell 970-985-0274

The following equipment may or may not be used in conjunction with this project.

1. L60 Elliott Crane 72' reach height, 5500 pound max lifting capacity.
Approximately 24000 lbs 30' x 16' with outriggers
2. Altec 38' reach height bucket truck, 500 pound max lifting capacity.
Approximately 15000 lbs 22' x 8' with no outriggers
3. Pickup Truck with 1 man, or with 18' trailer
4. Vacuum Truck Approximately 65000 lbs - Excavation

Our proposal is very distinctive for the following reasons: We are proposing a sign with all of the same design colors as the wayfinding project we completed for you last year. As well as a black base cover on the top of the existing rock bases to help minimize any more rock deterioration then has already happened. We are also proposing a media area that can be changed if you wanted to make your sign different from time to time.

Schedule:

Meetings with City and CDOT, Sketch approvals, applicable permitting, before Feb 3-4 weeks depending on sketch approvals.

Fabrication 4-6 weeks

Installation 3-4 weeks

All of these time frames are worst case scenarios, and some of the installation and fabrication times will over lap.

Change orders must be written and approved before proceeding. In the event the change order can not be approved in writing and a safety issue is of concern, we will move forward only after a verbal agreement is made between our project manager and owners representative. All change orders will be based on the task being performed and no previously agreed discussions. All change orders are billed at time and materials.

Sincerely,

Mike Blackwelder Jr.

Signs - Letters - Architectural Limited Warranty

Platinum Sign Company Inc. warrants equipment against any defects in material and workmanship, under normal use, for a period of 60 months from the date of installation of City of Craig Wayfinding project.

In the event your product is found by Platinum Sign Company to be defective within the warranty period, Platinum Sign Company's only obligation and your exclusive remedy shall be the repair and/or replacement of any defective parts, provided that a Platinum Sign Company representative do the service or repair. It is expressly understood that Platinum Sign Company shall furnish all labor, and not be obligated in any way to pay for the labor of any third parties, nor bear the expense of any such products for repair. This warranty shall not apply if Platinum Sign Company determines that the defects were caused by improper use, or damage caused to the equipment by others.

Thank you for the purchase of your signs and hopefully it will outlast your expectations. In the event that your sign is not performing correctly feel free to call 970-248-9677 and we will send one of our service technicians out in a timely manner to find and repair the issue.
