1. Introduction and Background

This report summarizes the tax forecast and impact on Moffat County (hereafter, the "County") of the proposed redevelopment of the Craig URA #2 Urban Renewal Area (hereafter, the "Urban Renewal Area" or "URA #2") in the City of Craig ("City"), as described in the Craig URA #2 Urban Renewal Plan (hereafter, the "Urban Renewal Plan" or "Plan") and other materials provided to the City about potential development with the proposed Urban Renewal Area.

The Craig URA #2 Urban Renewal Area Tax Forecast and County Impact Report (hereafter, "Tax Forecast and County Impact Report") was prepared by DGC Consulting (hereafter, "DGC") for the City of Craig on behalf of the to-be-formed Craig Urban Renewal Authority (hereafter, "CURA" or "Authority") under a contract dated October 26, 2020.

This Tax Forecast and County Impact Report includes a summary of forecasted property and sales tax revenues for all taxing entities in the proposed Craig URA #2 Urban Renewal Area, as well as Moffat County fiscal and service impacts associated with development in accordance with the Urban Renewal Plan. Specifically, this report is intended to:

1. Provide a detailed property and sales tax projection for all taxing entities over a 25-year period.

2. Respond to the requirements outlined in the State of Colorado Statutes for Urban Renewal Authorities (Colo. Rev. Stat. § 31-25-101, et seq.) specifically related to the requirements of a County Impact Report (Colo. Rev. Stat. § 31-25-107 (3.5)). These requirements are excerpted as follows:

(3.5) (a) At least thirty days prior to the hearing on an urban renewal plan or a substantial modification to such plan, the governing body or the authority shall submit such plan or modification to the board of county commissioners, and, if property taxes collected as a result of the county levy will be utilized, the governing body or the authority shall also submit an urban renewal impact report, which shall include, at a minimum, the following information concerning the impact of the plan:

- I. The estimated duration of time to complete the urban renewal project;
- II. The estimated annual property tax increment to be generated by the urban renewal project and the portion of such property tax increment to be allocated during this period to fund the urban renewal project;
- III. An estimate of the impact of the urban renewal project on county revenues and on the cost and extent of additional county infrastructure and services required to serve development within the proposed urban renewal area, and the benefit of improvements within the urban renewal area to existing county infrastructure;
- IV. A statement setting forth the method under which the authority or the municipality will finance, or that agreements are in place to finance, any additional county infrastructure and services required to serve development in the urban renewal area for the period in which all or any portion of the property taxes described in subparagraph (II) of paragraph (a) of subsection (9) of this section and levied by a county are paid to the authority; and
- V. Any other estimated impacts of the urban renewal project on county services or revenues.

2. Urban Renewal Plan

The Craig URA #2 Urban Renewal Area Plan, May 2021, by DGC Consulting, is provided separately.

3. Development Timing

Development character, magnitude, and timing within the Craig URA #2 Urban Renewal Area will be determined by market conditions. Development is currently envisioned to include a high-end home manufacturing facility, in the southern industrial area, an expansion of a game meat processing facility in the industrial area, and mixed-use commercial/residential buildings in downtown Craig. While the first two projects are currently under development and the mixed-use projects yet to be developed, together they represent the kind of development that might occur in the area.

The development program was used to forecast tax revenues over a 25-year timeframe for the County and other taxing bodies in the Craig URA #2 Urban Renewal Area. In addition, other impacts to the County are presented in this report.

The development program is summarized in Table 1. Construction is projected to occur in phases over several years as follows: 2023 (25,000 SF), 2024 (18,500 SF), 2025 (32,500 SF), and stabilizing in 2026 (7,500 SF) for a total of 83,500 SF. New development includes a manufactured home facility (constructed in two building phases), a game meat processing facility with a small retail outlet, and downtown development on three parcels (retail on the ground level and residential on the two floors above.) Site development of utilities, parking, sidewalks, driveways, landscaping, and open space are also anticipated.

Catalyst Project	2023	2024	2025	2026	2027	Total
Manufactured home factory	25,000		25,000			50,000
Game processing facility		11,000				11,000
Downtown retail development		2,500	2,500	2,500		7,500
Downtown residential development		5,000	5,000	5,000		15,000
TOTAL	25,000	18,500	32,500	7,500	-	83,500
CUMULATIVE TOTAL	25,000	43,500	76,000	83,500	83,500	83,500

Table 1: Development Program (2023 - 2027)

Source: City of Craig

Retail development is summarized in Table 2. About 8,500 SF of retail space is envisioned for URA #2. Retail would be constructed in phases over several years as follows: 2023 (1,000 SF), 2024 (2,500 SF), 2025 (2,500 SF), and 2026 (2,500 SF), for a total of 8,500 SF.

Table 2: Retail Phasing (2023 - 2026)

Catalyst Project	2023	2024	2025	2026	Total				
Manufactured home factory					-				
Game processing facility	1,000				1,000				
Downtown retail development		2,500	2,500	2,500	7,500				
TOTAL	1,000	2,500	2,500	2,500	8,500				
CUMULATIVE TOTAL	1,000	3,500	6,000	8,500	8,500				

Source: City of Craig

The manufactured homes produced in the factory would be subject to sales tax in the County where they are sited, and if they were sited in Moffat County then the County could charge sales tax. Table 3 provides an estimate of

sales tax that the County might receive under conditions discussed below. Based on information provided by the Developer to the City, the factory would initially produce 12 units/year and increase to 24 units when production ramps up. The developers plan to draw upon Craig's location and skilled labor to produce the high-end units, and market them throughout the region. The sale value of each unit is assumed to be \$750,000 which is taxable in the destination County.

Moffat County charges 2% sales tax, which is used in the estimate in Table 3. Based on this and the assumptions summarized above, the factory might initially generate \$30,000/year in sales tax if two units are sold in the County, and twice that (\$60,000) if four units are sold in the County each year. Obviously, these results could vary considerably but the table is presented as an example of what could happen.

Description	2022	2023	2024	2025	2026	2027	2028			
Units manufactured/year	12	12	12	24	24	24	24			
Units sold in Moffat County	2	2	2	4	4	4	4			
Sale price (\$)/Unit	750,000	750,000	750,000	750,000	750,000	750,000	750,000			
Total sale (\$)	1,500,000	1,500,000	1,500,000	3,000,000	3,000,000	3,000,000	3,000,000			
Moffat County 2% Sales Tax (\$)	30,000	30,000	30,000	60,000	60,000	60,000	60,000

4. Property, Sales and Other Tax Revenue

This section presents a forecast for property and sales taxes generated within the proposed Urban Renewal Area. An annual inflation rate of 1% was used for the property tax forecast. Property tax districts, taxing authorities, and existing property taxes paid are also summarized. The forecast shows all future property and sales tax revenues anticipated to be generated within the proposed Urban Renewal Area. However, this is the "maximum case", meaning that this analysis projects the maximum capacity of incremental new revenues which could be generated by the anticipated new development.

In compliance with Colorado law, based on this information, the City and/or Authority will seek to negotiate incremental tax revenue sharing arrangements with all or some of the Taxing Authorities listed on Tables 4 - 7. Taxing Authorities are defined as those entities which levy a mill levy within the proposed Urban Renewal Area, according to the records of the Moffat County Assessor. Taxing Authorities are also referred to as Taxing Entities and Taxing Districts.

4.1 Current Property Taxes and Property Tax Districts

Each of the 197 parcels in the proposed Urban Renewal Area is classified as a 04 (IFG), 06 (IFJ), 08 (ICFG) or 09 (ICFJ) property Tax District, which are summarized in Tables 4, 5, 6, and 7. The 2020 mill levies (adopted December 2020) for property taxation are shown below.

Tax District - IFG (04)	Total mills:	59.237	
Authority Name	Mills	Tax Rate

Table 7: Property Tax District IFU (09) Detail

Tables 8 - 12 summarize information about the 197 private parcels within the proposed URA #2. The list includes Moffat County Assessor's data for:

- Tax Account
- Parcel Number
- Tax Area
- Property Code
- Actual (Market) Value
- Taxable (Assessed) Value
- Estimated Taxes Paid
- Parcel Area

Definitions of each of these data fields can be obtained from Assessor records. At the bottom of the table is a summary of each column including an estimate of property taxes due in the proposed Urban Renewal Area, which total \$479,858 for the 2020 levy year (payable in 2021). This includes tax exempt parcels which will become taxable if they are sold to private owners. Note that the third column for Tax Area uses numeric (04, 06, 08, 09) designations. These correspond directly to the Assessor lettered Tax Area designations summarized in Tables 4 - 7.

Tax Account No.	Parcel No.	Tax Area	Property Code	Actual (Market) Value (\$)	Taxable (Assessed) Value (\$)	Estimated Taxes (\$)	Area (Acres)

Table 12: Property Tax Areas and Mill Levies (2020 levy, due in 2021) (cont'd 5/5)

Table 13 summarizes current sales taxes paid in the proposed Urban Renewal Area, based on the sales tax rate imposed by the three entities which collect sales taxes. The largest recipient of sales tax is the City of Craig, followed by the State of Colorado and Moffat County. According to the City, in 2020 sales taxes in the proposed URA #2 were: City \$415,000, Moffat County \$207,500, and State of Colorado \$300,875, for a total of \$923,375 (referred to as the sales tax Base.)

Tax Jurisdiction	Tax Rate (%)
State of Colorado	2.90
Moffat County	2.00
City of Craig	4.00
Total	8.90

Note: Moffat County refunds 37.5% (0.714 mills)

of County sales tax to City as processing fee

4.2 Property and Sales Tax Revenue Forecast

Table 14 summarizes assumptions about construction costs, phasing, and retail sales for the four catalyst projects.

Catalyst Project	Description	Phasing	Costs
1 - Manufactured housing factory	Two bldgs 25,000 SF each (2022 and 2025), pre-engineered building, materials purchased locally but finished units shipped throughout state	Bldg. A complete 2022 and Bldg. B 2025. For first three years sell 12 manufactured units/year (\$1M apiece), two of these in Moffat County. Sales production will double after first three years.	\$90/SF shell/interior construction value, business will purchase \$5-6M materials/services/year.
2 - Game processing facility	Two bldgs add'l 10,000 SF plus 1,000 SF retail shop	Construction complete 2024	\$150/SF construction value, \$2,000,000/year wholesale (not taxable) and \$100,000/year retail (taxable)
3 - Downtown retail development	500 block Yampa block, retail ground floor (2,500 SF) multiple bldgs, each 7,500 SF	Phased in three buildings - 2024, 2025, and 2026.	\$250/SF construction value
4 - Downtown residential development	Develop two levels residential (5,000 SF) above ground floor commercial, totaling 15,000 SF	same as above	same as above

Source: City of Craig and "Yampa Valley Adventure Center" developer

Property Tax Assumptions:

- 1) 2021 property taxes within the proposed Craig URA #2 are estimated to be \$479,858/year (referred to as the property tax Base).
- 2) Total new commercial space estimated to be 83,500 SF, developed in phases.
- 3) Uses will be warehouse, manufacturing, retail, and commercial/residential mixed-use.
- 4) Understanding that different commercial building types have different construction costs, this analysis uses a weighted average of \$117/SF across all commercial construction types (most of which are preengineered warehouse structures with minimal interior improvements). Residential multi-family construction is estimated to be \$250/SF.
- 5) Unincorporated parcels in the Urban Renewal Area will retain their current Tax District status and mill levy rates unless they are annexed to the City of Craig.
- 6) For purposes of estimating the maximum potential capacity, it is assumed that any unincorporated parcel

that is developed will be annexed to the City and be reclassified to add a City property tax levy.

- 7) All real property will be taxable, if developed (including parcels that are currently tax-exempt).
- 8) 2020 property tax information and mill levies provided by Moffat County Assessor and GIS.
- 9) Residential rate is 7.15% and commercial rate is 29%.
- 10) Personal Property taxes are not included in this analysis.
- 11) Analysis includes 1% annual inflation in property value.

Sales Tax Assumptions:

- According to the City of Craig, the most recent 2020 sales tax collected within the proposed Craig URA #2 are as follows: City \$415,000, Moffat County \$207,500, and State of Colorado \$300,875, for a total of \$923,375 (referred to as the sales tax Base.)
- 2) Total new retail space estimated to be 8,500 SF, developed in phases.
- 3) All future retail sales will be considered taxable.
- 4) Sales tax analysis does not include an annual inflation adjustment.

4.3 Moffat County Property Tax Revenue Forecast

The forecast of future property tax revenues was calculated using a spreadsheet. For purposes of clarity, information from the spreadsheet has been excerpted and is presented in the more concise tables and narrative included in this report.

Tables 15 and 16 summarize total property taxes collected, existing property taxes (referred to as the "Base"), and projected future property taxes due to urban renewal activity (referred to as the "Increment"). Table 15 summarizes the short-term period (eight years) of the project (2021-2028), which covers the period of construction through project stabilization. The complete spreadsheet for the property tax analysis is included as Exhibit A.

Table 13. Short Term Monat County Hoperty Tax Revenue (2021 2020)													
	2021	2022	2023	2024	2025	2026	2027	2028					
Property Taxes (Total)	\$ 141,757	\$ 143,175	\$ 165,709	\$ 167,366	\$ 182,933	\$ 210,969	\$ 217,588	\$ 219,764					
Property Tax (Base)	\$ 141,757	\$ 143,175	\$ 144,607	\$ 146,053	\$ 147,513	\$ 148,988	\$ 150,478	\$ 151,983					
Net Property Tax Revenues (Increment)	\$-	\$-	\$ 21,103	\$ 21,314	\$ 35,419	\$ 61,980	\$ 67,110	\$ 67,781

Source: Moffat County Assessor parcel data and GIS Note: 2021 payable, 2020 levy year

Table 16 summarizes the cumulative County property tax revenue in five-year increments 2020-2045 (25-year analysis period).

Table 16: Cumulative Moffat County Property Tax Revenue (2020-2045)

	2021	20	20-2025	20	020-2030	2	020-2035	2	021-2040	20	020-2045
Property Taxes (Total)	\$ 141,757	\$	941,295	\$	2,035,759	\$	3,190,745	\$	4,404,646	\$	5,680,469
Property Taxes (Base)	\$ 141,757	\$	863,459	\$	1,623,450	\$	2,422,208	\$	3,261,711	\$	4,144,037
Net Property Tax Revenues (Increment)		\$	77,835	\$	412,309	\$	768,536	\$	1,142,935	\$	1,536,432

Source: Moffat County Assessor parcel data and GIS Note: 2021 payable, 2020 levy year If all of the County portion of the incremental property taxes were allocated to the Authority during this period, the County would experience a fiscal impact of \$21,103/year in 2023 (the first year of development-induced revenues), growing to approximately \$80,273/year in 2045 (the end of the 25-year tax increment financing period), resulting from the inclusion of the developed parcels in the proposed Urban Renewal Area and after accounting for the Base. The total property tax allocated to the Authority by the County during this period would be approximately \$1,536,432.

4.4 Moffat County Sales Tax Revenue Forecast

The County collects 2% on taxable sales in the taxing district which applies to the proposed Urban Renewal Area. This is included in the overall 8.9% sales tax levy within the proposed Urban Renewal Area. Tables 17 and 18 show total County sales taxes collected, existing sales taxes (referred to as the "Base") which are estimated to be \$207,500 (2020), and future net sales taxes from new development (referred to as the "Increment")¹.

Table 17 summarizes the short-term (2021-2028) incremental County sales tax revenue. Table 18 summarizes cumulative incremental County sales tax revenue in five-year increments 2020-2045 (25-year analysis period). The complete spreadsheet used for the sales tax analysis is included as Exhibit B.

Table 17. Short-Term Monat County Sales Tax Nevenue (2021-2028)														
	22.47%	2	2021	2022	2023		2024		2025		2026		2027	2028

Table 3: Cumulative Moffat County Sales Tax Revenue (2020-2045)

	2020		2	2020-2025		2020-2030		2021-2035	1	2021-2040	2021-2045		
Total Sales Tax	\$	207,500	\$	1,272,753	\$	2,442,916	\$	3,619,846	\$	4,803,889	\$	5,995,407	
Existing Sales Tax (Base)	\$	207,500	\$	1,245,000	\$	2,282,500	\$	3,320,000	\$	4,357,500	\$	5,395,000	
New Sales Tax (Increment)	\$	-	\$	27,753	\$	160,416	\$	299,846	\$	446,389	\$	600,407	

Source: DGC using information provided by the City of Craig

If all of the County portion of incremental sales taxes were allocated to the Authority during this period, the County would experience a fiscal impact of \$9,985/year in 2024 (the first year of development-induced revenues), growing to approximately \$31,420/year in 2045 (the end of the 25-year tax increment financing period). The total sales tax allocated to the Authority by the County during the 25-year period would be approximately \$600,407.

5. Impact on Moffat County Services

Municipal and public service providers for the subject property are summarized on Table 19. The proposed Urban Renewal Area is located within the City of Craig and unincorporated Moffat County. Municipal

¹ It should be noted, however, that incremental County sales tax revenues are not considered increment under the Statute, and their allocation to the Authority is subject to annual appropriation.

government services and municipal services (streets, environmental, potable water, sanitary sewer, storm sewer/drainage, public safety, and parks) are provided by the City. Some water services are provided the Craig Rural Water (CRW) District. If and when properties in the southern portion of the URA are annexed to the City, then municipal and public services will be provided by the City, if that is not already the case.

All permitting, plan review, inspections, and planning and zoning services for the City of Craig are provided by the Craig/Moffatt County Regional Building Department. Fire and emergency services are provided by the City of Craig, Craig Fire District, and Moffat County. The proposed Urban Renewal Area is within the Moffat County School District RE-1 and the Colorado Northwest Community College District.

Moffat County provides General Government Services which include: County Attorney, County Sheriff, County Courts, Social Services, Assessor's Office, Coroner's Office, and the Clerk and Recorder's Office. The County also proves the public library in Craig. It is likely that County General Governmental Services will be continue to be required during and after construction in the proposed Urban Renewal Area.

Municipal Service	Provider
Municipal Government Services	City of Craig
Planning, Zoning and Building Safety	Craig/Moffatt County Regional Building Department
Streets, Environmental, and Potable Water	City of Craig, Craig Rural Water District (CRW)
Sanitary Sewer	City of Craig
Regional Storm Drainge	City of Craig
Fire and Emergency Services	City of Craig, Moffat County, Craig Fire District
Public Safety	City of Craig
City Parks	City of Craig
Library	Moffat County
County Governmental Services	Moffat County
Schools	Moffat County School District RE-1
Colleges	Colorado Northwestern Community College District
Electrical Power	Yampa Valley Electrical Association
Natural Gas	Atmos Energy
Telecommunications	Various private utilities

Table 19: Service Providers for URA #2

Source: City of Craig and utility provider websites

6. Impact on Moffat County Infrastructure

Construction of new infrastructure, such as roads and utilities within the Urban Renewal Area will be the responsibility of the developing party, although partial funding may be contributed by the City or financing structures such as metropolitan districts, special improvement districts, or the Authority. It is our opinion, based on information provided by City staff, that the projected development of the proposed Urban Renewal Area will not impact County infrastructure.

7. Financing of NewInfrastructure

It is anticipated that new infrastructure serving the Urban Renewal Area will be provided by property developers, the City, metropolitan districts, or other special districts. Infrastructure will be financed by property

developers, tax increment revenue and/or a combination of tax increment revenue, general fund revenue, and special district revenue (assuming the creation of a special district). Maintenance of infrastructure will be provided primarily by the City and/or existing and future special districts.

8. County Impact Report Conclusions

The anticipated uses within the proposed Urban Renewal Area are consistent with uses in the City of Craig Zoning and Subdivision Regulations and Comprehensive Plan. If necessary, properties may be rezoned, as appropriate, to allow redevelopment that is in conformance with these regulations.

- Development program New development in proposed Urban Renewal Area #2 includes a manufactured home facility (constructed in two building phases), a game meat processing facility with a small retail outlet, and mixed-use development on three downtown parcels (retail on the ground level and residential on the two floors above.)
- Construction is projected to occur in phases between 2023 (25,000 SF), 2024 (18,500 SF), 2025 (32,500 SF), and stabilizing in 2026 (7,500 SF) for a total of 83,500 SF. A total of 8,500 SF of retail is included in the planned development.
- 3. Development of utilities, parking, sidewalks, driveways, landscaping, and open space is also anticipated.
- 4. If all of the County portion of the incremental property taxes were allocated to the Authority during this period, the County would experience an impact of \$21,103/year in 2023 (the first year of development-induced revenues), growing to approximately \$80,273/year in 2045 (the end of the 25-year tax increment financing period), resulting from the inclusion of the developed parcels in the proposed Urban Renewal Area and after accounting for the Base. The total property tax allocated to the Authority by the County during this period would be approximately \$1,536,432.
- 5. After the 25-year period is completed, the County's share of net new property tax revenues (after subtracting the Base) will increase gradually from \$80,273/year, which is forecast in 2045.
- 6. The amount of County incremental property tax revenue to be allocated to the Authority for Urban Renewal Area #2 amounts to less than 1/1000th of the Moffat County budget (.00065). This is based on a 2021 County adopted budget of \$102.5 million and estimated incremental County property taxes of \$67,110 in 2027 (year of project stabilization). Even though county budgets are expected to drop significantly in the future, the fiscal impact will remain very small, as a percentage of budget.
- The impact of allocating incremental property taxes to the Authority on the Moffat County School District RE-1 would be of a similar magnitude. Estimated incremental School District property taxes are \$89,339 in 2027, which is less than 4/1000th (.00385) of the adopted 2020 - 2021 Moffat County School District budget (\$23.152 million).
- 8. If all of the County portion of incremental sales taxes were allocated to the Authority during this period, the Authority would experience an increase of \$9,985/year in 2024 (the first year of development-induced revenues), growing to approximately \$31,420/year in 2045 (the end of the 25-year tax increment financing period). The total sales tax allocated to the Authority by the County during the 25-year period would be approximately \$600,407.
- 9. After the 25-year period is completed, the County's share of net new sales tax revenues (after subtracting the Base) will increase gradually from \$31,420/year, which is forecast in 2045.

- 10. If the manufactured homes constructed in the proposed facility are sold and sited within Moffatt County, such sales will generate additional sales tax. For example, each \$750,000 unit would generate approximately \$15,000 in County sales tax.
- 11. Moffat County governmental services Current County services will be continued and it is not expected that Moffat County will need to provide significant additional services to the proposed Urban Renewal Area.
- 12. The City of Craig will continue to provide municipal services, including public safety, to parcels already within City boundaries, and will extend services to parcels currently outside City boundaries that are annexed to the City.
- 13. Special districts such as the Craig Fire Protection District will continue to provide services to the proposed URA.
- 14. Moffat County infrastructure Based on the economic impact analysis, it is not expected that development of the proposed Urban Renewal Area will negatively impact existing County infrastructure. Further, the County will not need to provide additional infrastructure to serve future development. The City of Craig, Craig Urban Renewal Authority, property developers, and/or special districts (including metropolitan districts) will plan, finance, construct, and maintain any required new infrastructure for the Urban Renewal Area. On a commercial basis, private utilities mentioned previously will continue to provide services, and if required, new infrastructure to serve the Urban Renewal Area.

9. Property Taxes for Taxing Authorities

An eight-year snapshot of property taxes generated within the proposed URA #2 Urban Renewal Area is presented in Table 20. Exhibit A presents the complete property tax analysis spreadsheet.

11. Use Taxes

Use taxes resulting from development within the proposed Urban Renewal Area were also estimated. Collection of use taxes is a one-time event coinciding with the issuance of a building permit by the Craig/Moffatt County Regional Building Department. See Table 24 below for information on the use tax calculation.

Costs used to estimate construction value were summarized in the development program and exclude land and soft costs. Materials were estimated to be 50% of construction value (the remainder being labor, fees, and other "soft" costs). The current City sales tax (4.0%) is also assumed to be the use tax rate. Based on these assumptions, the City of Craig would receive approximately \$235,500 in use taxes for building materials used for taxable construction within the proposed Urban Renewal Area.

Table 24: Use Tax Calculation

Catalyst Project	Description	Area (SF)	Cost (\$/SF)	Extended Cost (\$)
Manufactured home factory	Manufactured home factory	50,000	90	4,500,000
Game processing facility	Game processing facility	11,000	150	1,650,000
