

MEMORANDUM

TO: Peter Brixius, City Manager
City Council

FROM: Trevor Campbell, Solid Waste Director

DATE: January 19, 2023

SUBJECT: Award of Bid: Refuse Dept Front Load Body

Bids were opened on January 10th, 2023 for the Refuse Department body for a new front load trash truck.

Two bids were received but only one meets specs. Please refer to the attached bid tab.

The front load trash truck is budgeted for \$375,000.00 in 2023. In November of 2022 Council approved the purchase of the cab & chassis for this front load truck for \$187,490.00 from Jackson Group Peterbilt due to shortage in availability of Peterbilt 520s.

If we keep the Peterbilt 520 cab & chassis from Jackson Group Peterbilt the lead time on the completed truck is extended by at least 6 months and may potentially not be received in 2023. Jackson Group Peterbilt has agreed to cancel our order for no fee upon our request.

We would like to recommend that the City of Craig purchase the New Way Mammoth front load trash truck body and Peterbilt 520 cab & chassis from Elliot Equipment in the amount of \$283,689.00 as they were the only bidder that met spec and the completed truck should be delivered in the first half of 2023. The purchase of the completed truck will be under budget thanks to the \$80,000.00 trade in Elliott is offering.

If you have any questions or concerns, please feel free to contact me at 824-4463.
