

Volunteer Gleaning Opportunities and Resources

CVSan organizes Independent Tree Fruit Gleaning events each February during Zero Waste Week. It's easy to join the event on your own or to organize a group to go gleaning together. Go to CVSan's [Zero Waste Week](#) page for details on the next event.

[ForestR](#) is a local group that organizes gleaning groups and they are located right here in Castro Valley. CVSan volunteer and Director of Gleaning at ForestR, Grazyna Fedorowicz, organizes many gleaning and harvest efforts throughout the year and is always looking for more volunteers. Read about how Grazyna started gleaning and how her efforts grew into an even larger project that continues to give back to the community on our [gleaning](#) page.

To find a group to glean with and learn more about gleaning all over the United States, go to the [Association of Gleaning Organizations](#).
