The Honorable Mayor
Members of the City Council
and Management
City of Elmhurst, Illinois

Ladies and Gentlemen:

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Elmhurst, Illinois (the City) as of and for the year ended December 31, 2017, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

This communication is intended solely for the information and use of the Mayor, City Council and management and is not intended to be, and should not be, used by anyone other than these specified parties.

Sikich LLP

Naperville, Illinois
July 25, 2018

OTHER INFORMATION

Future Accounting Pronouncements

The Governmental Accounting Standards Board has issued a number of pronouncements that may impact the City in the future.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments and replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as they relate to governments that provide benefits through OPEB plans administered as trusts or similar arrangements that meet certain criteria. Statement No. 75 requires governments providing defined benefit OPEB to recognize their long-term obligation for OPEB as a liability for the first time, and to more comprehensively and comparably measure the annual costs of OPEB benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI). The provisions in Statement No. 75 are effective for fiscal year beginning ending April 30, 2019.

GASB Statement No. 82, *Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73*, addresses issues regarding (1) the presentation of payroll-related measures in the required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this standard are effective for the fiscal year ending April 30, 2018 and 2019. Earlier application is encouraged.

GASB Statement No. 83, *Certain Asset Retirement Obligations*, addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this standard are effective for the fiscal year ending April 30, 2020.

GASB Statement No. 84, *Fiduciary Activities*, establishes criteria for identifying fiduciary activities. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. The requirements of this standard are effective for the fiscal year ending April 30, 2020.

OTHER INFORMATION (Continued)

Future Accounting Pronouncements (Continued)

GASB Statement No 85, *Omnibus 2017*, addresses a number of issues across a spectrum of topics including issues related to blending component units where the primary government is a business type activity that reports basic financial statements in a single column, accounting for goodwill, fair value measurement and application related to real estate held by insurance activities and measuring certain investments at cost or amortized cost, and various issues related to accounting and reporting for postemployment benefits (pensions and other postemployment benefits [OPEB]). Statement No 85 is effective for the fiscal year ending April 30, 2019.

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, is intended to improve accounting and financial reporting for in-substance defeasances of debt, prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The requirements of this statement are effective for the fiscal year ending April 30, 2019.

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset and aims to enhance comparability of financial statements among governments. This statement also requires additional notes to the financial statements related to the timing, significance, and purpose of a government's leasing arrangements. The requirements of this statement are effective for the fiscal year ending April 30, 2021.

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, was issued in March 2018 and provides guidance on improving disclosures in the notes to the financial statements related to debt, including direct borrowings and direct placements of debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. This statement is effective for the fiscal year ending April 30, 2020.

We will advise the City of any progress made by GASB in developing this and other future pronouncements that may have an impact on the financial position and changes in financial position of the City.
