2024 ANNUAL REPORT
Affordable Housing Committee

The mission of the Affordable Housing Committee (AHC) is to promote a full range of housing choices for households of all incomes and ages in the Town of Fairfield.

Overview

The Affordable Housing Committee adopted its most recent Affordable Housing Plan in May of 2022, which satisfied the requirements of CGS 8-30j. The overall goals of the 2022-2027 Plan are to: (a) accumulate enough housing equivalency points to qualify for a moratorium; and (b) provide a broad range of housing options to meet the community's needs. The primary strategies include:

- Work with the Town Plan & Zoning Commission to increase the affordable set aside requirements;
- Engage the Town Plan & Zoning Commission to review and amend the Designed Residence District regulations;
- Support the Fairfield Housing Authority in its work to create additional affordable housing units in Town;
- Strengthen design guidelines to create more housing opportunities that are more compatible with existing neighborhoods;
- Identify opportunities to create “missing middle” housing.

In addition to pursuing these goals, the Affordable Housing Committee this past year:

- Celebrated a groundbreaking of two planned duplexes at 244 Greenfield Street with Habitat of Humanity for Coastal Fairfield, the first such collaboration with this non-profit group in Fairfield.
- Created a brochure on the Housing Trust Fund to encourage private donations.
- Examined parking utilization at commercial plaza of >100,000sf to analyze the potential for reducing parking minimums to create new development opportunities.
- Sponsored a workshop and panel discussion on accessory dwelling units (ADUs) to highlight recent changes to the Town's Zoning Regulations concerning accessory units.
- Evaluated additional opportunities for middle housing through purchase/repurposing of individual properties as well as potential zoning revisions.
- Studied inclusionary zoning requirements that will increase affordable housing unit production and strengthen Town regulations.

“In Progress” includes projects that are currently under construction or approved and that are expected to go forward. Projects that are in progress include three set aside developments (CGS 8-30g) under construction and nearing completion at 528 Black Rock Turnpike, 2-6 Beacon Square and 5545 Park Avenue. Upon completion in 2024, these projects are expected to furnish enough HUEP for the Town to submit its initial moratorium application. Only units constructed or newly deed restricted after July 1990 may count toward a moratorium application, and only after a certificate of occupancy has been issued. Several provisions of the 2017 Public Act that amended CGS 8-30g expired in 2022.

¹ Data is from the 2020 Census or from the most recent American Community Survey's 5-Year Estimates.

² This column measures the percentage change between 2023 and 2010.

³ In developing the Affordable Housing Appeals List, the Department of Economic & Community Development (DECD) counts only governmentally assisted housing, rental housing occupied by persons receiving rental assistance, housing financed by the CT Housing Finance Authority (CHFA) and deed-restricted properties. Why are you interested in serving on this Board and what can you contribute?

I moved to Southport in December of 2023 to a home built in 1876 and commenced a renovation which led me to learn more about the home's history and importance to the history of Southport/Fairfield. I first contacted the State Historic Commission to try to get my house recognized in June 2023 however learned in August 2023 about the UI proposal which would, if approved, take a 40 ft easement on my property's land. Since then, I have quickly tried to get up to speed regarding Southport and Fairfield history. I was raised in Norwalk and I was introduced to the conservation efforts made, specifically at Lockwood Mathews Mansion. Prior to living in Fairfield, I lived in an antique home in Bridgewater Connecticut built in the 1700s. By working to restore that house, my love and appreciation for the history and characteristics of old homes and the history they provide deepened. I bring not only a familiarity of historical residences, a love of their charm, and an appreciation of preservation efforts to the commission, I can also bring a common sense approach, analytical skills, as well as people skills needed to make a valuable contribution.

Siren Activated Gate (SAG-M) Installation and Testing Instructions

A. General notes on SAG-M Siren Installation

- 1) Always observe local installation and safety regulations when installing the SAG-M sensor.
- 2) Install sensor 2 to 4 ft. above the ground level at a location away from any noisy area where it could interfere with the sensor recognizing the siren during an emergency.
- 3) Install sensor away from any known water puddles to prevent any water splashes on the unit during rain.
- 4) Install sensor with logo of the front cover of the unit facing upright. Signal and Power wire connection will face the ground.
- 5) Ensure that there is no interference or obstacle of any kind between the sensor and approaching vehicle.
- 6) Install the SAG-M sensor onto the wall of the fence with the 3 screws provided with the unit.
- 7) Install the labels provided with the unit onto the gate or fence or anywhere appropriate. The labels should be clearly visible to the emergency vehicle personnel so that they know to turn ON the YELP signal for the gate to OPEN during an emergency.
- 8) SAG-M unit has two options of routing power and signal wires to the unit. Option 1 is to route the wires through a conduit. A 3/4" hole is located at the bottom of the unit to route wires through a conduit. Option 2 is to route the signal and power wires through the 1/4" hole located besides the conduit hole. Once the wires are routed, use silicone to plug the hole to prevent any water ingress.

Figure 2: SAG-M Circuit Board

B. Power Installation, Setup and Operation

- 1) Open the front housing of the SAG-M enclosure.
- 2) Connect 12-24 V AC/DC power wires to connector at PWR (+) & PWR (-). Refer to Figure 2 for connector location.
- 3) Connect the Gate operator relay signal wire to the connector at SW1. Refer to Figure 2 for connector location.
- 4) Set "YLP/YDT" switch to the desired position.
 - If the "YLP/YDT" switch is in the "YLP" position, the unit will listen for a "yelp" siren and if detected will activate the gate.
 - If the "YLP/YDT" switch is in the "YDT" position, the unit will listen for any loud sound for more than 4 seconds and if detected will activate the gate.
- 5) When Power is applied, the "PWR/SOUND" LED will initially blink a few times immediately followed by blinks every 4 seconds. When this happens, the SAG-M unit is now in "Listen Mode".
- 6) Set the desired "Gate relay closure time period" by momentarily pressing the "UP" or "DOWN" buttons on the SAG-M circuit board. Refer to "Gate Relay closure time setup (Mode Select)" for more details.
- 7) Set the "Sensitivity Selector" to the desired position. Perform instructions in "Sensitivity Selector setting" before continuing

8) The SAG-M unit is now ready for operation.

When SAG-M unit detects the desired sound, the unit will close the output relay. The relay will stay ON per the pre-selected time period. The LED's 1,2,3 or 4 on the circuit board will remain lit until the selected time expires and the relay is opened.

Pressing the "RESET" button will reset (OPEN) the relay. The LED's displaying the programmed time period will turn OFF and the unit will return back to the "Listen Mode".

C. GATE RELAY CLOSURE TIME SETUP (Mode Select):

(Time period for gate to latch Open)

- 1) By momentarily pressing the "UP" or "DOWN" buttons on the circuit board, the user can select one of 14 different pre-programmed time-periods from 0.5 seconds to 2 hour. During this time-period, the gate relay will stay closed once the SAG-M unit detects the yelp siren. Each new pre-programmed time-periods are indicated by LED's 1,2,3,4 light pattern as shown in table 1 below. Table 1 shown below is also installed on the inner side of the front cover for user convenience. If the "UP" or "DOWN" buttons are not pressed within 5 seconds, the "lighted" LEDs will go off and the last setting displayed will be saved.

LED 4	LED 3	LED 2	LED 1	Mode Select
				Sleep/ Rest Mode
				MT – Momentary toggle.
				5S – Gate OPEN for 5 seconds.
				15S – Gate OPEN for 15 seconds.
				30S – Gate OPEN for 30 seconds.
				1M – Gate OPEN for 1 minute.
				2M – Gate OPEN for 2 minutes.
				5M – Gate OPEN for 5 minutes.
				10M – Gate OPEN for 10 minutes.
				15M – Gate OPEN for 15 minutes.
				30M – Gate OPEN for 30 minutes.
				45M – Gate OPEN for 45 minutes.
				60M – Gate OPEN for 60 minutes.
				90M – Gate OPEN for 90 minutes.
				120M – Gate OPEN for 120 minutes.
				LAT – Gate remains OPEN continuously.

Table 1: LED pattern for Gate Relay Closure Time

D. Sensitivity Selector setting:

- 1) Sensitivity selector position 10 provides maximum range and position 1 provides minimum range.
- 2) To properly set the desired range/distance, it is recommended that the SAG-M unit be tested with a CD test and then with a live siren test. Follow the CD test before calling in the emergency responders.

CD Test

- 1) A CD recorded with a "yelp siren" is provided with the unit to conduct a quick functional test.
- 2) Set the YLP/YDT switch on the circuit board to the "YLP" mode.
- 3) Set the "Sensitivity" selector all the way to position 10 (maximum range setting).
- 4) Verify power is ON by observing the "PWR/SOUND" LED blink every 4 seconds.
- 5) Place the CD into a portable CD player and set it to its loudest setting. Turn the CD player ON. The yelp siren should be heard playing.
- 6) Hold the CD player close to the SAG-M unit.
- 7) The gate should OPEN once the yelp siren is heard. This concludes that the unit is functional and ready for the live siren test.

Live Siren Test

- 1) Verify if the YLP/YDT switch is set to the "YLP" mode.
- 2) Set the "Sensitivity" selector to position 1.
- 3) Request the Emergency Responder to park the vehicle at the desired distance. Request them to turn ON their yelp siren.
- 4) With the "yelp" siren ON, verify if the gate OPENS at the desired distance. If the gate does not OPEN, increment the "Sensitivity" selector setting to the next position.
- 5) Consider false activations. If the gate is close to a major road, "Sensitivity" should be lowered or false activations may occur.

Note: If an Emergency Responder is not available to conduct a live siren test, set the "Sensitivity Selector" to position 5.

Maintenance

It is recommended to check the system performance every 3 months with a Live Siren Test.

B680H: new 24V hydraulic barrier.
Innovation in action.

The first of its kind.

Intertek
UL 325 Compliant

Switching power supply

The switching power supply, with high energy efficiency and extended range, ensures operation of barriers from 100 Vac to 240 Vac.

Integrated speed sensor

The speed sensor allows precise control of the movement and reversing of the barrier arm when an obstacle is detected.

“Everlasting” springs

The springs of the B680H have been tested for over 2 million cycles.

24V Hybrid technology

Request for Proposed additional funding for Perry's Green= \$ 600,000

If transferring from other ARPA funds, 14 points weren't required.

Request being made due to higher contract bids received than funding secured in 2021 ARPA program. As project developed there were permit conditions for mitigation and there was a change in materials- steel sheeting to timber bulkhead (highly recommended by Southport Conservancy, Sasquanaug Association, Fairfield Historic District Commission and general public/Southport residents). The Add alternates in the project should be constructed as well. Also Construction administration and inspection duties will be split between Consultant (\$ 34,760 fee) and Town (in kind services).

Introduction

Scan-Optics Document Imaging Services is used by State agencies, political subdivisions, municipalities, non-profits and the private sector. This involves services for the conversion of paper records, as well as an overall migration into a digital environment for all document and data processing. These objectives support digital initiatives and will help free up valuable real estate space, and resources, while also allowing our clients to serve the needs of its staff and clients more efficiently.

Services to be Provided:

Our process begins with an initial kickoff meeting to confirm all services and solutions **Town of Fairfield** has outlined. Case Study

City of Springfield Police Department
130 Pearl St., Springfield, MA 01105

Contact: Lisa Willis, Procurement Director
Email: LWillis@springfieldpolice.net

Description of Service Provided:

Time Period of Engagement: March 1st, 2020 – Active

Approximate Volume: ~4.5-5mm images

Project Cost: \$300K+

Application: Case Files, Academy, Internal Investigations, FID licensing, etc.

Time Constraints: Records accessed and pulled daily, requiring minimal out-of-office time

Digital File Delivery: Transfer of Data & Images electronically via SFTP

Project & Solution: Springfield PD was looking to improve accessibility of files via digital conversion to accommodate remote employees who cannot access filing cabinets, while also preserving documents and freeing up valuable office space.

Because arrest records are critical to daily procedure and require access at-all-times, Scan-Optics implemented a cadence for picking up boxes on an ongoing basis. Scan-Optics also guaranteed a 24-hour window during which any file requested would be scanned and returned electronically same-day to the requesting officer(s).

The records were an average of 1-2 pages per document, each requiring up to 13 Index fields. Many of the arrest records and reference cards were handwritten, so the Scan-Optics' data-entry clerks performed double-pass, blind keying to ensure accuracy.

All digital files have since been ingested into a Content Management System, and formerly manual processes have been turned automatic. Previous file-pulls that required an individual to walk the building to locate file folders now have instant access to files with mere keystrokes and mouse clicks.

Urban Aid Grant from CT DEEP

100% Grant= \$2.5 based on State award. Part of Rooster River master Plan.

This entire grant project can be divided into components: supplementing Detention Areas costs, some Villa Ave/Algonquin open space parcel improvements, Sediment Removal in section of Rooster River and select implementation of Green infrastructure- near Woodside Circle, if funding permits.

1. BACKGROUND – Rep. Cristin McCarthy Vahey was able to secure a state grant for Rooster River Flood mitigation for an amount of \$ 2.5 Million. Engineering filed application and worked with CT DEEP on scope of work- see attached agreement.
2. PURPOSE AND JUSTIFICATION – The purpose of this project is to mitigate or reduce flooding potential in the Rooster River watershed. This project will help reduce flooding potential by implementing various improvements to reduce peak runoff, detain waterflows, increase storage/conveyance capacity within the Rooster River channel and provide environmental benefits and improve water quality. Over 3000 people in Fairfield and Bridgeport suffered damage due to recent flood events. Reference: public meeting documents from October 2023.
3. DETAILED DESCRIPTION OF PROPOSAL – See scope of services included in the back up documentation.
4. RELIABILITY OF COST ESTIMATE - The grant amount is fixed at \$ 2.5 Million. Any overages are the responsibility of the Town and requests for further funding would be required. The Town may also apply for additional funding through the State but is NOT guaranteed. The grant amount is to supplement or reduce Town share for the overall project. 100% reimbursable of eligible costs.
5. INCREASED EFFICIENCY AND PRODUCTIVITY - This project is expected to provide some flood protection for residents, businesses along Rooster River. Some areas will experience significant improvements and others moderate improvements.
6. ADDITIONAL LONG RANGE COSTS – Typical Maintenance cost of detention areas, parks and open spaces and drainage structures. Note that Daily maintenance for Fairchild Wheeler Golf Course will be bourn by City of Brdgeport. Other Long term maintenance costs (approximately 20 -30 years out)will be split 50-50. For Tunxis Hill detention area- generaremoving sediments from outfalls and cleaning catch basins. Typically Pipes have service life of over 40 plus years.

7. ADDITIONAL USE OR DEMAND -general maintenance. See # 6.
8. ALTERNATIVES – Besides doing nothing, another alternative is to build up dike which would have severe impacts on all adjacent properties. Flooding will most likely continue at a more frequent occurrence.
9. SAFETY AND LOSS CONTROL – Will help mitigate flooding issues in the Roster River watershed. Any structures will have periodic/annual inspections as required by permits.
10. ENVIRONMENTAL CONSIDERATION – Project components require Inland wetland, CT Department of Environmental Protection and US Army Corps of Engineers review and permits. Mitigation will be listed within permit approvals.
11. INSURANCE – Any Consultants and Contractors will meet Purchasing Department requirements for insurance as listed in request for proposals, contracts or bid documents.
12. FINANCING – This is 100% reimbursable grant and typically reimbursements are distributed electronically within 30 days of invoice submission. Approval for spending project costs is required but bonding appears to be unnecessary.
13. OTHER CONSIDERATIONS - Seek additional funding opportunities for other components of the Rooster River Master Plan. This may include Bridgeport cost share or additional future grants.
14. APPROVALS -

- b. Commissioner The Commissioner of Energy and Environmental Protection or the Commissioner's designated agent.
- c. Parties The Department of Energy and Environmental Protection (DEEP or Agency) and the Contractor.
- d. Contractor Parties Contractor Parties shall be defined as a Contractor's members, directors, officers, shareholders, partners, managers, principal officers, representatives, agents, servants, consultants, employees or any one of them or any other person or entity with whom the Contractor is in privity of oral or written contract and the Contractor intends for such other person or entity to Perform under the Contract in any capacity. To the extent that any Contractor Party is to participate or Perform in any way, directly or indirectly in connection with the Contract, any reference in the Contract to the "Contractor" shall also be deemed to include "Contractor Parties", as if such reference had originally specifically included "Contractor Parties" since it is the Parties' intent for the terms "Contractor Parties" to be vested with the same respective rights and obligations as the terms "Contractor."
- e. Contract This agreement, as of its Effective Date, between the Contractor and the State for any or all goods or services as more particularly described in Appendix A.
- f. Execution This contract shall be fully executed when it has been signed by authorized representatives of the parties, and if it is for an amount of Twenty-five thousand dollars (\$25,000.00) or more, by the authorized representative of the state Attorney General's office.
- g. Exhibits All attachments, appendices or exhibits referred to in and attached to this Contract are incorporated in this Contract by such reference and shall be deemed to be a part of it as if they had been fully set forth in it.
- h. Records For the purposes of this Contract, records are defined as all working papers and such other information and materials as may have been accumulated by the Contractor in performing the Contract, including but not limited to, documents, data, plans, books, computations, drawings, specifications, notes, reports, records, estimates, summaries and correspondence, kept or stored in any form.
- i. Confidential Information Confidential Information shall mean any name, number or other information that may be used, alone or in conjunction with any other information, to identify a specific individual including, but not limited to, such individual's name, date of birth, mother's maiden name, motor vehicle operator's license number, Social Security number, employee identification number, employer or taxpayer identification number, alien registration number, government passport number, health insurance identification number, demand deposit account number, savings account number, credit card number, debit card number or unique biometric data such as fingerprints, voice print, retina or iris image, or other unique physical representation. Without limiting the foregoing, Confidential Information shall also include any information that the Department classifies as "confidential" or "restricted." Confidential Information shall not include information that may be lawfully obtained from publicly available sources or from federal, state, or local government records which are lawfully made available to the general public.

Both parties agree that it is fair and reasonable for the validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.

4. Termination

- a. Notwithstanding any provisions in this Contract, the Agency, through a duly authorized employee, may Terminate the Contract whenever the Agency makes a written determination that such Termination is in the best interests of the State. - c. Upon request by the Agency, the Contractor shall assign to the Agency, or any replacement contractor which the Agency designates, all subcontracts, purchase orders and other commitments, deliver to the Agency all Records and other information pertaining to its Performance, and remove from State premises, whether leased or owned, all of Contractor's property, equipment, waste material and rubbish related to its Performance, all as the Agency may request.

- g. Upon Termination of the Contract, all rights and obligations shall be null and void, so that no party shall have any further rights or obligations to any other party, except with respect to the sections which survive Termination. All representations, warranties, agreements, and rights of the parties under the Contract shall survive such Termination to the extent not otherwise limited in the Contract and without each one of them having to be specifically mentioned in the Contract.
- h. Termination of the Contract pursuant to this section shall not be deemed to be a breach of contract by the Agency.
5. Tangible Personal Property.
- a. The Contractor on its behalf and on behalf of its Affiliates, as defined below, shall comply with the provisions of Conn. Gen. Stat. §12-411b, as follows:

For the term of the Contract, the Contractor and its Affiliates shall collect and remit to the State of Connecticut, Department of Revenue Services, any Connecticut use tax due under the provisions of Chapter 219 of the Connecticut General Statutes for items of tangible personal property sold by the Contractor or by any of its Affiliates in the same manner as if the Contractor and such Affiliates were engaged in the business of selling tangible personal property for use in Connecticut and had sufficient nexus under the provisions of Chapter 219 to be required to collect Connecticut use tax;
 2. A customer's payment of a use tax to the Contractor or its Affiliates relieves the customer of liability for the use tax;

- b. "Voting security" includes a general partnership interest.
- c. The Contractor represents and warrants that each of its Affiliates has vested in the Contractor plenary authority to so bind the Affiliates in any agreement with the State of Connecticut. The Contractor on its own behalf and on behalf of its Affiliates shall also provide, no later than 30 days after receiving a request by the State's contracting authority, such information as the State may require to ensure, in the State's sole determination, compliance with the provisions of Chapter 219 of the Connecticut General Statutes, including, but not limited to, §12-411b.
6. Indemnification.
- a. The Contractor shall indemnify, defend and hold harmless the State and its officers, representatives, agents, servants, employees, successors and assigns from and against any and all (1) Claims arising, directly or indirectly, in connection with the Contract, including the acts of commission or omission (collectively, the "Acts") of the Contractor or Contractor Parties, and (2) liabilities, damages, losses, costs and expenses, including but not limited to, attorneys' and other professionals' fees, arising, directly or indirectly, in connection with Claims, Acts or the Contract. c. The Contractor shall reimburse the State for any and all damages to the real or personal property of the State caused by the Acts of the Contractor or any Contractor Parties. The State shall give the Contractor reasonable notice of any such Claims.

d. The Contractor's duties under this section shall remain fully in effect and binding in accordance with the terms and conditions of the Contract, without being lessened or compromised in any way, even where the Contractor is alleged or is found to have merely contributed in part to the Acts giving rise to the Claims and/or where the State is alleged or is found to have contributed to the Acts giving rise to the Claims.

e. The Contractor shall carry and maintain at all times during the term of the Contract, and during the time that any provisions survive the term of the Contract, sufficient general liability insurance to satisfy its obligations under this Contract. The Contractor shall cause the State to be named as an additional insured on the policy and shall provide (1) a certificate of insurance, (2) the declaration page and (3) the additional insured endorsement to the policy to the State and the Agency all in an electronic format acceptable to the State prior to the Effective Date of the Contract evidencing that the State is an additional insured. The Contractor shall not begin Performance until the delivery of these three documents to the Agency. Contractor shall provide an annual electronic update of the three documents to the Agency and the State on or before each anniversary of the Effective Date during the Contract term. State shall be entitled to recover under the insurance policy even if a body of competent jurisdiction determines that State is contributorily negligent.

f. This section shall survive the Termination of the Contract and shall not be limited by reason of any insurance coverage.

7. **Sovereign Immunity.** The parties acknowledge and agree that nothing in the Solicitation or the Contract shall be construed as a modification, compromise, or waiver by the State of any rights or defenses of any immunities provided by Federal law or the laws of the State of Connecticut to the State or any of its officers and employees, which they may have had, now have or will have with respect to all matters arising out of the Contract. To the extent that this section conflicts with any other section, this section shall govern.

8. **Confidential Information.** The Agency will afford due regard to the Contractor's request for the protection of proprietary or confidential information which the Agency receives. However, all materials associated with the Bid and the Contract are subject to the terms of the Connecticut Freedom of Information Act ("FOIA") and all corresponding rules, regulations and interpretations. In making such a request, the Contractor may not merely state generally that the materials are proprietary or confidential in nature and not, therefore, subject to release to third parties. Those particular sentences, paragraphs, pages or sections that the Contractor believes are exempt from disclosure under the FOIA must be specifically identified as such. Convincing explanation and rationale sufficient to justify each exemption consistent with the FOIA must accompany the request. The rationale and explanation must be stated in terms of the prospective harm to the competitive position of the Contractor that would result if the identified material were to be released and the reasons why the materials are legally exempt from release pursuant to the FOIA. To the extent that any other provision or part of the Contract, especially including the Bid, the Records and the specifications, conflicts or is in any way inconsistent with this section, this section controls and shall apply and the conflicting provision or part shall not be given effect. If the Contractor indicates that certain documentation is submitted in confidence, by specifically and clearly marking said documentation as "CONFIDENTIAL," the Agency will endeavor to keep said information confidential to the extent permitted by law. The Agency, however, has no obligation to initiate, prosecute or defend any legal proceeding or to seek a protective order or other similar relief to prevent disclosure of any information that is sought pursuant to a FOIA request. The Contractor shall have the burden of establishing the availability of any FOIA exemption in any proceeding where it is an issue. In no event shall the Agency or the State have any liability for the disclosure of any documents or information in its possession which the Agency believes are required to be disclosed pursuant to the FOIA or other requirements of law.

9. **Protection of Confidential Information.**
