

NOTICE

Sewer System Televising (CCTV) Weekdays from mid-May to early July 2023

Vortex Services, on behalf of the Town of Fairfield Water Pollution Control Facility and Wright-Pierce Engineering, will be conducting closed-circuit television (CCTV) inspections of the Town of Fairfield's sanitary sewer system starting the week of May 22nd through early July 2023. The purpose of this fieldwork is to identify leaks or other defects in the sanitary sewer system for future remediation.

HOW THIS AFFECTS YOU: Most of the work will be performed on public property, usually in the street right-of-way. However, some of these activities may involve accessing manholes on residential property where the town has an easement.

If you would like to verify the identification of a specific contractor observed in the field, please contact Wright-Pierce at (860) 852-1924 or the Town of Fairfield Water Pollution Control Facility at (203) 256-3140.

Thank you in advance for your cooperation, it is greatly appreciated!

Field work to be performed by:
