

On February 23, we hosted a Town Hall meeting regarding Penfield Pavilion with representatives from the Town and FEMA to answer questions surrounding the Notice of Violation on the pavilion and the contaminated soil beneath the building.

Linked below is the slide deck presentation and a recording of the entire meeting. There were an estimated 200 people who attended or tuned in remotely and many questions were submitted.

Residents asked for a centralized location for all information on Penfield. In addition to information on the town hall meeting, linked below are critical documents referenced, as well as past town meetings and updates.
