4/9/2021 - 4.9 TOWN UPDATE

Dear Fairfielders,

As you may have read, the Connecticut General Assembly is considering many bills ([HB 6107](#), [HB 6611](#), [HB 6612](#), [HB 6613](#), [SB 1024](#), [SB 1026](#), [SB 1027](#), [RB 1068](#)) that would fundamentally change our local decision making on zoning and land-use. Based on the language in these proposals and my experience as the former ranking member of the Housing Committee in the state legislature, I have real concerns about the impact these proposed bills would have on our community.

Fairfield's State Senator Tony Hwang, who serves as the ranking member on the Planning & Development Committee, in a recent newsletter, also expressed concern with the proposed bills and their impact on the Town of Fairfield. Specifically, he shared the following points:

- Eliminate local control over certain types of housing (location-based, accessory, 2+ units) and allow certain developments to occur without a local public hearing
- Impose new, potentially costly, unfunded mandates - including training staff, assimilating local regulations and shouldering new costs
- Affect the environment and drinking water statewide by ignoring the responsibilities of municipalities who host waterways, open space.
- Impact traffic flow, parking demands
- Drive up residency at a rate which outpaces the capacities of local resources/services - Police, Fire, Schools
- Overburden the public water and sewer infrastructure

Any legislation that would result in over development, impact environmentally sensitive areas, and overburden Fairfield's already strained infrastructure, such as roads, schools, sewers, water, etc., worries me as the leader of our Town. Fairfield

has been the target of many set aside developments under 8-30g for the last 10 years, which has negatively affected our Town's ability to plan appropriately.

We as a community value and understand the importance of providing a wide range of housing options, and the welcome diversity they bring, but I believe that this can be accomplished without forfeiting local control. Since Fairfield's most recent Affordable Housing Plan was adopted, we have made considerable strides and created more than 100 affordable housing units. The Town has enacted an inclusionary zoning regulation which requires developments with ten or more housing units to deed restrict ten percent of those units as below market rate housing, and adopted an inclusionary zoning fee on new construction and building addition projects to help fund our Housing Trust Fund (used to preserve and create more affordable housing). More recently, the Town Plan & Zoning Commission worked with the Affordable Housing Committee and others to update the Town's accessory apartment regulations to create more housing options. You can review a copy of the Town's Affordable Housing Plan [here](#) and read more about the progress being made in achieving our affordable housing goals in the Affordable Housing Committee's most recent annual report [here](#).

I think it is important for our residents to know that over the last several years our Town Plan & Zoning Commission has already approved well over the required amount of affordable housing units, that once built and given a certificate of occupancy will allow the Town of Fairfield to apply for a moratorium under the 8-30g statute. At present, we are unable to count these units until they are built and occupied, nor are we able to count the units built before July 1990, leaving us short of the points needed to apply for and receive the temporary moratorium under State law. My administration will continue to work with the Affordable Housing Committee, Town Plan & Zoning Commission and others to close this gap.

The Board of Selectmen recently tasked the Affordable Housing Committee with updating Fairfield's Affordable Housing Plan, as required by law. The Affordable Housing Committee is meeting with a planning consultant to review the scope of this work. I will send an update when you can participate and take part in this effort.

I recently submitted [testimony](#) in opposition to many of these proposed bills. State Representative Laura Devlin also testified before the Planning and Development Committee, if you'd like to watch her testimony click [here](#).

COVID-19 UPDATE:

For the most up-to-date information from the State of Connecticut on COVID-19, residents can visit ct.gov/coronavirus. You can also subscribe to text message alerts from the state by texting the keyword **COVIDCT** to **888-777**.

I am so encouraged that our Fairfield Health Department as of today, has administered 18,184 vaccines to those eligible and the department has an additional 3,451 appointments scheduled over the next 3 weeks. We are proud to say that not one vaccine has been wasted or unused since the Health Department's clinics opened in January.

The Fairfield Health Department's vaccine clinic continues to fill up their appointments. The department can only schedule as many appointments as vaccines are provided by the State. Please keep in mind Fairfield residents are able to book appointments at clinics throughout the State.

VACCINE INFORMATION:

ALL adults in Connecticut over the age of 16 are eligible to schedule a vaccination appointment.

*Please note, Pfizer is currently the only vaccine that is approved for individuals under the age of 18 years, and the Fairfield Health Department DOES NOT administer the Pfizer vaccine.

Moderna and Johnson & Johnson are only approved for those over the age of 18 years.

If you fall under Phase 1a, an Educator/Staff in pre-K-12, or a Childcare Provider, you should receive information from your employer or school administrators on how to register for vaccine appointments. For those in the Phase 1b category of 16 and older, you should complete the State form below:

State Form - 16 & Older

- Hartford HealthCare - Hartford HealthCare is taking vaccination appointments for their locations at Sacred Heart University and St. Vincent's Hospital in Bridgeport. For more information, you can find it [here](#).

- Stamford Hospital - You can check your eligibility and schedule an appointment with Stamford Hospital. For more information, please click [here](#).
- Walgreens - There are limited Walgreens Pharmacies who are offering COVID-19 vaccinations throughout CT. For more information and a list of their locations, please see their [website](#).

- [Veteran's Affairs VA CT](#) - Eligibility includes anyone who served in the military, spouses of veterans, and caregivers of veterans. Hosting several walk-in clinics. No appointment necessary.

Please be aware of two COVID-19 vaccine scams circulating. One scam is a phone call, email, or letter from a vaccine manufacturer (Pfizer, Johnson & Johnson, or Moderna) asking for:

1. Social Security Number to help you get a vaccine appointment.

You should NEVER give out your Social Security number for the vaccine.

2. Offering cash rewards or gift cards in exchange for completing a survey. The survey asks for personal information, such as your date of birth and insurance information.

The vaccine manufacturers will never contact you directly to gather information.

CDC's Guidance for Fully Vaccinated Individuals:

Individuals are considered fully vaccinated for COVID-19 = 2 weeks after they have received the second dose in a 2-dose series (Pfizer or Moderna), or = 2 weeks after they have received a single-dose vaccine (Johnson & Johnson).

Fully vaccinated people can:

- Visit with other fully vaccinated people indoors without wearing a mask or physical distancing.
- Visit with unvaccinated people from a single household who are at low risk for severe COVID-19 disease indoors without wearing a mask or physical distancing.
- Refrain from quarantine and testing following a known exposure if asymptomatic.

Dogs on Leashes:

After careful consideration with the Town's Director of Health, I have decided to lift restrictions requiring all dogs remain on leashes at our open spaces effective immediately. The Rules and Regulations for Open Space Properties will be restored to their pre-pandemic limits. Specifically dogs will be allowed off-leash pursuant to Section 14 (e), which requires all dogs to be kept under voice command or leash control at all times on open space areas and 14(f) All dogs shall be kept on leash if the animals are within 100 ft. of parking lots or picnic areas. Note: Effective April 1 dogs are not allowed on public beaches. Click [here](#) for a list of open spaces on page 11.

Note: Pets that cannot be controlled by voice commands must be kept on leash.

The decision to return to pre-pandemic rules and regulations is consistent with the State of CT Sector Rules and CDC guidance. State guidance allows low and moderate risk activities.

CDC Guidance (excerpted)

- Based on the limited information available to date, the risk of animals spreading COVID-19 to people is considered to be low.
- Treat pets as you would other human family members – do not let pets interact with people outside the household.

COVID-19 Relief Program Updates:

SBA Extends Deferment Period for all COVID-19 EIDL and Other Disaster Loans until 2022:

The U.S. Small Business Administration announced extended deferment periods for all disaster loans, including the COVID-19 Economic Injury Disaster Loan (EIDL) program, until 2022.

- All SBA disaster loans made in calendar year 2020, including COVID-19 EIDL, will have a first payment due date extended from 12-months to 24-months from the date of the note.
- All SBA disaster loans made in calendar year 2021, including COVID-19 EIDL, will have a first payment due date extended from 12-months to 18-months from the date of the note.

Existing SBA disaster loans approved prior to 2020 in regular servicing status as of March 1, 2020, received an automatic deferment of principal and interest payments through December 31, 2020. This initial deferment period was subsequently extended

through March 31, 2021. An additional 12-month deferment of principal and interest payments will be automatically granted to these borrowers. Borrowers will resume their regular payment schedule with the payment immediately preceding March 31, 2022, unless the borrower voluntarily continues to make payments while on deferment. It is important to note that the interest will continue to accrue on the outstanding balance of the loan throughout the duration of the deferment.

Questions on SBA COVID-19 EIDL and disaster loan payments can be answered by email at DisasterCustomerService@sba.gov or by calling SBA's Customer Service Center at 1-800-659-2955 (TTY: 1-800-877-8339).

COVID-19 RELIEF FUND

Use of the funds must be directly related to the effects of the virus. Donate to the fund or apply for relief by clicking below.

COVID CONTACT TRACING

One of the key tools we have to contain the spread of COVID-19 is Contact Tracing. For this initiative to be successful, the Health Department needs the cooperation of residents who test positive for COVID-19. Both Universities were trained and assisted by our Health Department to manage their own contact tracing for their respective campuses.

The primary purpose of contact tracing is to identify and notify direct contacts of confirmed cases as quickly as possible and to ensure those exposed are self-quarantining. The information provided in the interviews with confirmed cases helps reduce the potential spread of the virus in our community.

Any Fairfield resident who tests positive for COVID-19 and has not received a phone call from the Fairfield Health Department or the Connecticut COVID Tracing system within 24 hours of receiving their result is urged to contact the Fairfield Health Department at 203-256-3022. Calls received after hours or on weekends, will be returned by the next business day.
