

Town of Fairfield News

1/1/2022 - 1/2/22 COVID Test Kit & Mask Distribution

Happy New Year Fairfield,

Today, the CT Department of Emergency Management and Homeland Security has confirmed Fairfield will receive 32 cases of test kits totaling 9,216 kits. These are FlowFlex kits, each containing a single test. The amount of kits we are receiving is less than we were previously promised earlier this week.

The state has requested some of the kits be set aside for school staff in an effort to be sure in-person learning is not disrupted.

Tomorrow, Sunday January 2, from 12-4 PM, or until supplies last, the Town will distribute test kits at Roger Ludlowe Middle School, with all traffic entering at 440 Mill Plain Road, adjacent to Sturges Park.

- **Due to limited supply at this time, test kits are intended for residents that are symptomatic or that have a known exposure to someone who tested positive**
- **Proof of residency via your valid 2021 Fairfield beach or dump sticker, OR a driver's license**
- **4 kits & 4 masks will be distributed per household**

Residents must enter the site from Mill Plain Road. The Fairfield Police Department will be managing traffic, and I ask that you please follow the directional signs and cones to keep the flow of traffic moving quickly.

Further information on where additional masks can be picked up will be posted to the [Town website](#) this week.

I continue to encourage our residents to follow the CDC guidelines that recommend wearing a mask when indoors, especially when a six foot distance from others can't be maintained.

I've also provided more information below on vaccines, testing locations, CDC guidelines and other resources which may be helpful.

Sincerely,

Brenda L. Kupchick

If You Test Positive for COVID-19 (Isolate)

Everyone, regardless of vaccination status.

- Stay home for 5 days.
- If you have no symptoms or your symptoms are resolving after 5 days, you can leave your house.
- Continue to wear a mask around others for 5 additional days.

If you have a fever, continue to stay home until your fever resolves.

If You Were Exposed to Someone with COVID-19 (Quarantine)

If you:

Have been boosted

OR

Completed the primary series of Pfizer or Moderna vaccine within the last 6 months

OR

Completed the primary series of J&J vaccine within the last 2 months

- Wear a mask around others for 10 days.
- Test on day 5, if possible.

If you develop symptoms get a test and stay home.

If you:

Completed the primary series of Pfizer or Moderna vaccine over 6 months ago and are not boosted

OR

Completed the primary series of J&J over 2 months ago and are not boosted

OR

Are unvaccinated

- Stay home for 5 days. After that continue to wear a mask around others for 5 additional days.
- If you can't quarantine you must wear a mask for 10 days.
- Test on day 5 if possible.

If you develop symptoms get a test and stay home
