Neighborhood Block Party Permit Information

- Permit Application Fee: \$50
- Permit application must be submitted at least forty-five (45) calendar days before the event.
- Block parties may only be held between 7AM and 10PM. You must live on the street in which the block party will be held.

A block party IS:

- Open to all residents
- A single block closure that does not include cross streets.
- A one-time closure of a residential street or occupation of a sidewalk, where only single & multi-family homes will be impacted.

Apply to hold a Neighborhood Block Party

<u>Step 1 –</u> Consider using a neighborhood park, if no park is available make sure the street you want to close:

- Is a residential street of primarily single-family/duplex homes. While local access must be maintained, for safety purposes, vehicular traffic in and out of the closure should be limited. Residents should be allowed to leave and return to their residences as needed; however, every effort should be made to communicate with neighbors on the block to reduce vehicle traffic inside the street closure.
- Is a full, single block that:
 - Does not include alleys or intersections.
 - Can be closed at each cross street (is not a midblock closure).

B. Street Closure:

• A Street Closure Permit for a Block Party may be denied if the city's traffic engineer determines that closing the street would be too disruptive or would leave residents unable to leave or return to their homes (such as on a dead-end street). Requests for closures of major thoroughfares will not be approved.

- Street Closure Diagram A diagram of your block which shows barricade placement and items you wish to place on the street. Download and complete the template that matches your area:

 - Street Parking can only remain when the full clear with of 25' is in place.

Step 6 – Safely Close Your Street and Have Fun!

It's hard to have fun if you're worried about the safety of your children and friends, so make sure you close the street before you begin!

- Set up your barricades and signs.
- Place a vehicle in front of barricades to act as a hard barrier.
- Agree on which adult(s) will monitor the barricades.
 - Ensure you have an assigned monitor for each end of the street at all times. They will need to wear a high-visibility vest and are responsible for moving the barricades for emergency vehicles and access for residents inside the closure.
 - Remember Affected neighbors, deliveries, and emergency vehicles are allowed to enter the closure. The success of the program and safety of your neighbors relies on hosts being alert and responsive to their needs.

Ok, NOW it's time to have fun! We'd love to hear from you. If you'd like to share what went well, ideas for improvement, or photos from your event, please feel free to email specialevents@georgetown.org

Step 7 – Clean Up and Remove Barricades
