

NOTICE

IMPLEMENTATION OF GIS FEE INCREASE COLLECTED BY THE GRUNDY COUNTY RECORDER'S OFFICE

The Grundy County Board has determined that increasing the Geographic Information System (GIS) fee from \$31 to \$41 is necessary to cover the cost of maintaining a Geographical Information System. This increase is justified by a previous cost study which was performed in 2017, and the need to ensure the proper amount of revenue is available to cover expenditures for the foreseeable future.

The Grundy County GIS data, online maps, aerials, topographic data, software, and services are relied upon in several areas of County business/operations such as assessments, land use, emergency management, public safety, county infrastructure, and the ongoing collaboration with state and local jurisdictions.

The Grundy County Board placed on file the approved fee increase at the October 10, 2023 County Board meeting and will approve amending the fee increase, by Ordinance, at the November 14, 2023 County Board meeting.

The fee schedule will be in effect for all eligible documents presented for recordation on or after December 1, 2023.

If you should have any questions, please contact the GIS Department at 815-941-6778, or the Recorder's Office at 815-941-3224.
