Grundy County Green Guide

The Grundy County Green Guide was developed by the Environmental and Resource Conservation Office to provide Grundy County residents with solutions to recycling and solid waste obstacles. The solutions provided in this guide focus on ways to reuse/recycle or dispose of items that should not be land filled due to their hazardous nature and IEPA laws.

If you have any questions or comments, please contact either Heidi Miller or Beth Skoff at the Grundy County Land Use Department
at (815) 941-3229; hmiller@grundyountyil.gov or (815) 941-3228; bskoff@grundycountyil.gov

Residents

If you live in an unincorporated area, it is your responsibility to obtain the services of a licensed waste hauler through subscription service. All municipalities have contracts with individual haulers to collect waste within their boundaries. To check on specifics within your municipal curbside waste/recycling program, call your village hall and/or hauler.

Braceville Village Hall
300 S. Mitchell Street

County—Licensed Waste Haulers

Residential waste haulers are required to collect, waste, and recyclables produced by the customers of either residents or commercial/industrial users. Haulers have the right to refuse collection of recyclables which are prepared incorrectly or contain garbage. Haulers are required to provide trash and recyclables collection. Any other specific questions in regard to the type of waste that is picked up, dates and times of that pick up, and general complaints should be directed to the city hall or the waste hauler directly.

Fire Extinguishers & Smoke Detectors

Fire Extinguishers:

EFR Fire Equipment
19418 97th Ave, Suite 3
Mokena, IL
708-479-1889
By appointment
*Also accepts Lead Acid Batteries—No fee

Integrity Fire Equipment
1931 Cherry Hill Road
Joliet, IL 60433
(815) 726-0503
Will take for recycle, Also refills/recharges call for prices

* To recycle an extinguisher –Discharge the extinguisher, remove the stem and drill a hole in the cylinder. Then it becomes recyclable.

Smoke Detectors:

FEMA's US Fire Administration recommends that smoke detectors be replaced every ten years, but what do you do with the smoke detector?

There are two types of smoke detectors—Ionization and photoelectric.

Photoelectric types may be disposed of in your regular trash as long as the battery is taken out.

Ionization types must be properly disposed of as there is a small amount of radioactive substance in the detector. Check with the manufacturer for a mail in program to properly dispose of them or the USPS website for phone numbers and address for return.

Flags

Flags are accepted for proper disposal at the following locations:

Whittmore Ace Hardware stores:

HHW— Naperville Regional Household Hazardous Waste Facility

Permanent HHW IEPA Drop Off Facility General Information

Naperville HHW — Free to all Illinois residents
Located at 156 Fort Hill Drive, Naperville, IL 60540
Hours Saturday and Sundays from 9:00 AM to 2:00 PM, excluding holidays
Www.naperville.il.us/hhw.aspx
(630) 420-6095

Accepted HHW Items:

- Oil based paint, stain, varnish, and solvents
- Automobile fluids such as oil, antifreeze, gas etc.
- Aerosol cans
- Household cleaners and pool chemicals
- Mercury
- Propane tanks (20 lb.)
- Poison, pesticides, fertilizer and insecticides
- Flammables
- Sealed fluorescent light bulbs, tubes and CFLs
- Hobby chemicals and unknowns
- Batteries (auto, sump pump, marine, non-alkaline)
- Asbestos materials that fit a 55 gal barrel
- Fire Extinguishers
- Prescription non-controlled and over the counter medications
- Peanut oil
- Solvents and strippers
- Thermostats
- Unknown hazardous substances
- Household batteries including car/sump
- Expired and unused prescription medications, non-controlled and over the counter

Not-Accepted Items:

- Ammunition
- Empty Spray cans
- Helium tanks
- Radioactive materials
- Smoke Detectors
- Paper, Glass, Metal, Wood, Styrofoam
- Trash and Non-hazardous Materials
- Unopened useable consumer products
- Sharps
- Tires
- Compressed Gas (not propane)
- Explosives
- Latex Paint
- Alkaline Batteries

Call the Naperville Department of Public Works at (630) 420-6095 for other disposal options.

NO BUSINESS WASTE WILL BE ACCEPTED.

Procedure for Drop off:

To safely transport hazardous materials, make sure containers are securely sealed. Materials should be left in their original containers with a legible label. Do not mix chemicals together. Place containers in a box lined with plastic and a layer of kitty litter as protection against a spill or leak. Transport items in the trunk of your car and have them clearly marked.

When you arrive at the drop off facility, please stay within your vehicle. You will need to provide the technician with information verifying the county in which you reside.

PROPER Latex Paint Disposal

How to Properly Dispose of Latex Paint:

- Steel Cans with less than one inch of material may be opened and dried. Once the paint is dried keep the lid off of the can and dispose of in regular trash.
- Larger quantities may be reused or recycled. Please store the paint in an area where they will not be frozen at any time. Contact neighbors, friends, non-profits who may take the material as a donation.
- Larger quantities take additional drying time. Cat litter, oil dry, sand or sawdust is recommended as a low cost absorbent material that may be mixed with the latex paint to speed the drying process. The can and material must be placed in the refuse when complete: due to the absorbent and quantity of paint, this cannot be placed in the recycling program.

Paint Recycling Programs:

- Check Grundy County Events Calendar. Grundy County holds a Paint Recycling Event, March-October. Fees will be applied. Please call 815-941-3228 to set up an appointment.

Household Medical Waste

Medical waste generated in households is not regulated like medical waste produced by hospitals and other health care facilities. Pharmaceuticals can enter the water supply via sink, toilets, or trash disposal. Hence, there is great potential for these harmful chemicals ending up in our lakes, rivers, and ground water. Effects of improper disposal of this waste has already be shown to have negative effects on aquatic ecosystem. Trace amounts of certain medications have also been found in drinking water.

Used "sharps," such as hypodermic or intravenous needles, also pose a danger of accidental exposure to blood born pathogens. All sharps should be recapped and placed in rigid plastic containers such as detergent bottles. The lid should be placed back on these containers and they should be clearly labeled "sharps" or "needles".

Below is a listing of locations that will take unwanted sharps and medications that once collected will be properly disposed of through incineration under IEPA standards.

Grundy County Administration Building
1320 Union Street
Morris, IL
(815)941-3360
May drop off M-F from 8A-4:30P
To the Coroner's Office

2840 E. 13th Road, Ottawa, IL (815)434-1808
Accepts municipal, non-hazardous and special waste.
Accepts clean recyclables at no charge.
wastes. Call for details.

Oil Recycling (see Automotive also)

Since oil is banned from landfills those who change their own oil must dispose of it properly. The following local merchants will accept your used motor oil. It is advisable to contact the following vendors prior to bringing your used oil to their facility. Do not leave or dump your oil containers outside a facility. Doing so may jeopardize future program alternatives for residents.

See Page 9 for Automotive Recycling Opportunities.

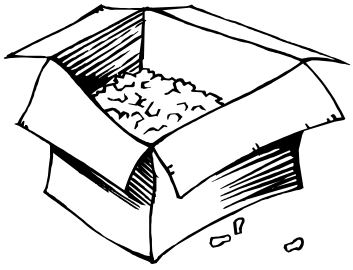

Packing Peanuts / Bubble Wrap - Reuse or Recycling

Peanuts can be made from plastic, vegetable, or cellulose. If they dissolve under water, they are biodegradable and can be composted. If they are plastic they can be added to the bottom of planters to improve water drainage or mixed into hard packed soil for improved drainage in the garden.

Target
1111 Brookforest
Shorewood, IL
(815) 609-6800

Most major grocery stores accept plastic grocery bags and newspaper wrappers. They usually have containers near the entrance of the store for collection. Businesses ask that only clean and dry bags be placed into the containers and all other materials, like receipts, be removed. Check with local dry cleaners to see if they accept used dry cleaning bags and hangers.

Use Reusable Grocery Bags

Reusable bags save trees
Reusable bags save water
Reusable bags save gas and oil
Reusable bags help air pollution
Reusable bags help our oceans
Reusable bags help our sea creatures
Reusable bags save 700+ bags over the span of their lifetime!
Reusable bags help our families!

Polystyrene Recycling/Reuse

There are limited options for block or expanded polystyrene - EPS. Encourage companies to take the recycling possibilities into consideration when deciding upon packaging options.

Ship N' Mail Business Services, (815)941-4140, 601 N. Division in Morris will accept block and expanded polystyrene (EPS) for use in their packing and shipping operations. Please call first.

Will take empty and partial tanks for a charge ($10.00) per tank in them for a charge. Call first.

Grainco FS
202 W. Route 71
Newark, IL 60541
(815) 695-1067
Will take 20gal grill tanks
Free of charge for recycling

Rain Barrels

Water conservation is important for our planet! Many areas in drought conditions put watering restrictions in place to conserve.

Rain barrels are a good method of collecting water to be used specifically for the watering of gardens and houseplants. All rain barrels should be constructed such that there is a netting to prevent insects, especially mosquitos, from breeding in the water.

Rain barrels are made in many different colors and shapes to add to the décor of your garden areas.

Places in which you may purchase a rain barrel include but are not limited to:
Home improvement stores: Menards, Walmart, Home Depot, and Lowes etc.
Upcycle Products Inc. (815)735-9583, located 570 W. Gore Rd. in Morris

Refrigerators/Freezers/Washers/Dryers

* Will also take Steel, Copper, Brass, Stainless Steel, Aluminium *

Important Information on Open Burning in Grundy County

Within City or Village Limits:

If you live within an incorporated city or village of Grundy County, please check with your local municipalities for local regulations.

Unincorporated Grundy County areas:

The following are the open burning allowances for areas in unincorporated Grundy County:

- Open burning is allowed only for dry landscape waste.
- Dry landscape waste includes tree trunks, branches, shrubs, and plants from gardens. Also includes all dry grass.
- Dry landscape waste the is burned must be generated from the parcel in which it is burned.
- Burning is allowed from October 15 to May 1.
- Time for burning Monday through Friday is 10:00 AM to 7:00 PM and weekends from 9:00 AM to 7:00 PM.
- No burning should take place when the wind speed is greater than ten (10) miles per hour.
- Burning shall occur such that the burn pile is greater than twenty (20) feet from any building, structure and greater than twenty (20) feet from any property line.
- Proper supervision by an adult should be continuous during the burn until the fire is completely extinguished.
- A fire extinguisher or water source shall be available at all times during the burning and to completely and thoroughly extinguish the fire.
- Garbage, construction materials., tires or lumber are prohibited to be burned during an open burn.

Exceptions to the open burning requirements:

- Recreational fire is an outdoor fire for warmth, cooking, where the fire is not larger than three feet by three feet by three feet.
- Fire Department control burns that have IEPA permits.
- Agricultural control fires.
- IDNR or state licensed contractors who are completing landscape or prairie control burns.

Thank you for your continued cooperation and please call my office if you should have questions concerning these regulations.

Heidi H. Miller
Land Use Director
(815) 941-3229
hmiller@grundycountyil.gov

County Recycling and Garbage Requirements

The Land Use Department's Environmental and Resource Conservation Office or ERCO regulates the waste haulers, improper garbage disposal, and open dumping issues for the unincorporated areas of Grundy County.

Below is a brief description of how our office may be able to assist you better:

Open Dumping:

As open dumping is a hazard not only for people but also negatively effects species of the water, land and air, it is prohibited and violators are required to comply with County and IEPA state requirements for cleaning the property until compliance is met. Failure to comply will cause the case to be sent to the States Attorney's office.

Rental and Mobile Home Units:

Owners of rental units or managers of mobile home parks are required to provide both garbage and recycling services to their tenants. The garbage and recycling receptacles shall be large enough to serve all of the tenants and be kept in a clean and orderly manner.

Waste Haulers:

All waste haulers whether service communities in unincorporated or incorporated areas of the county are required to hold an annual waste hauler license with our office. By receiving the insurance statements, our office ensures that if any public portion is damaged based on their trucks or dumpsters, the company has the means to correct those damages.

We also ask each hauler how much in tons of solid waste and recyclables that they collect from Grundy County. This helps us to see how much is created within our county and also what our recycling rate is at present. Our office provides outreach in many ways through our different recycling events throughout the year and also this document to help residents/children learn how to recycle and follow the other three Rs of reducing, reusing, and respecting the earth.

Nuisance Ordinance:

This office enforces one portion of the nuisance ordinance in regard to junk or refuse accumulated on a property. As this not only causes aesthetic problems for the neighborhood, it also may create other health and safety issues by allowing rodents, insects, and mosquitos to thrive.

The complaints that our office investigates are always generated from a call or complaint that we receive in the office in regard to the conditions. We will investigate and take photos to ensure that there is a violation before sending a letter to the owner of the property.

Failure to comply with the ordinance will cause the case to be forwarded to the States Attorney's office for further action.
