

Haverhill Post-Flood Damage Information Form

As you know, due to flooding caused by the major rain event on August 8, 2023, some homes and businesses were affected and damaged. The city of Haverhill is actively working with the State and the Massachusetts Emergency Management Agency (MEMA) in an effort to have the city authorized to receive disaster assistance programs from the State and federal government. Part of seeking that designation includes understanding the value of property damage to the community. We are asking residents and businesses to keep an accounting of their losses and expenses and to submit this form by 08/17/23 to meet MEMA filing deadlines. **At this time, we do not know if the city, residents, and businesses will qualify for assistance.**

- This is a fillable pdf form which you may complete, save, and email back to adurkee@haverhillpolice.com no later than 08/17/23.
