Title: Public Hearing to accept the unanticipated revenue in the amount of \$85,415.36

from the State of New Hampshire Highway Block Grant Aid in accordance with

RSA 31:95-b, III(a)

Meeting: Town Council - 13 Dec 2023

Department: Finance

Staff Contact: Christine Tewksbury, Finance Director

BACKGROUND INFORMATION:

The NH 2023 legislative session provided state aid to local governments. SB 270 was intended to provide one-time property tax relief through direct payments to cities and towns. This payment is through the Highway Block Grant Aid and will be distributed among the municipalities based on their population in proportion to the entire state's population and the other half is disbursed based on a municipality's Class IV and V road mileage in proportion to the total statewide Class IV and V mileage. The additional funds in the amount of \$85,415.36 were received in early November.

Public Hearing notice was in the December 4, 2023, edition of the Union Leader.

FINANCIAL IMPACT:

\$85,415.36 can be used to fund repairs, maintain, and construct class IV and V roads or acquire the equipment necessary to maintain class IV or V roads. These funds will "supplement not supplant" local budgets, meaning these funds must add to (supplement) and not replace (supplant) local budgets. Staff is recommending to Council, these funds be used towards the Martins Ferry Road reconstruction project.

POLICY IMPLICATIONS:

None

RE: Map 39, Lot 33-1

1134 Hooksett Road Release of surety

In 2011, the Town of Hooksett accepted a site bond in the amount of \$13,790.00. The funds were being held pending the installation of a clock and clock mechanism in the "tower" of the building and site signage. The signage is installed. Surety was accepted at 2011 labor and material rates. Prior Code Enforcement officials did not pursue the installation of the clock and mechanism and there has been a change in staff in both Code Enforcement and Planning. The aesthetics of the building are not significantly affected by the lack of installation of the clock.

Correspondence in 2015 from a prior Town Planner, indicates an intent to release the surety. Recently, the current staff was made aware surety was still being held for this project. It is recommended the Town Council release the \$13,790, plus accumulated interest.

All in favor 68 69 Andre we will get a schedule for the next available Town Council. Not is December but a 70 January 71 72 Water main installation on West Bank Road and Meadowcrest for \$400,000. 73 74 Bruce the project should be starting in the spring. We still do not have approval from the state for 75 some of the other property in the plan and DOT have not completed their review of the plans. 76 David B is that for an easement? 77 Bruce for a license to cross the property to run the water main. I believe they agreed but I have 78 79 not heard otherwise 80 David B is there anything the town needs to do to help this to happen. Bruce I don't think so. The process just takes a while 81 David S you said Park was going to start on the easement off Cross Rd 82 83 Mike Somers do you need anything for the approved easements from the state

Town of Hooksett WARRANT ARTICLE REQUEST FORM

Date of Request: October 2023 Date of Town Meeting: March 2024

Name of Department Submitting Request: DPW Union Teamsters Local 633

1. Please provide the wording of the proposed article.

To see if the town will vote to approve the cost items included in the collective bargaining agreement reached between the Hooksett Town Council and the Public Works' Employees Local 633, Teamsters which calls for the following increases in salaries and benefits at the current staffing level:

Fiscal Year	<u>Salaries</u>	<u>Benefits</u>	Estimated Increase
2024-25	\$164,462.00	\$40,227.00	\$204,689.00

and further to raise and appropriate **\$204,689.00** for the current fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits required by the new agreement over those that would be paid at current staffing levels. The estimated tax rate impact is \$0.10. Recommended by Town Council (7 Yes – 0 No);

2. What is the intent and purpose of the article?

This union has 23 full-time members and has negotiated a one-year contract to bring the employees and the union's pay scale in line with the market conditions. The average increase is 14%, includes a one-time bonus of \$500 and a paid 30-minute lunch break. Also negotiated in this contract is a change in work hours, working longer days, Monday through Thursday and a shorter day on Friday. Employees are still working 40 hours each week.

3. If this article is not passed at Town Meeting or approved by the Town Council, what affect would this have on your department goals and programs?

The current union contract will expire June 30, 2024, and the Town will be required to maintain the same level of cost benefits to the employees at the time the contract expires, until another contract is approved.

4. Estimated cost? \$204,689.00

5. Is any further information necessary for the deliberation?

As in example of Hooksett current situation, today the starting pay for a Truck Driver is \$17.75, under this new contract that starting pay would be \$20.06. The new starting pays are more competitive with other NH communities and should help attract and retain these critical service providers.

There is \$12,651 available in the account as of August 31, 2023. This project is to set aside funds for the next revaluation anticipated in 2028. The 2009 cost was \$161,231, the cost in 2013 was \$137,300; the cost in 2018 was \$114,000; and in 2023 was \$124,000+/-.

Every five years the Town is required to reappraise all property values for assessment equity property tax purposes per NH State Constitution Article 6.

The Town has done a 'Statistical Update' the past 3 cycles (2013, 2018, 2023); the funds will be used for a 'Full Revaluation'. The difference being: a 'Full Revaluation' includes a fresh measure/list, whereas a Statistical Update uses the current data in the CAMA system.

3. If this article is not passed at Town Meeting or approved by the Town Council, what affect would this have on your department goals and programs?

The town would have to fund the project in a one-year span, causing a spike in expenses/tax rate.

4. Is any further information necessary for the deliberation?

March 2023 Ballot: Failed 382 to 436 or 53% disapproval.

Town of Hooksett WARRANT ARTICLE REQUEST FORM

Revised 10/25/2023

Date of Request: 7/13/23 Date of Town Meeting: March 2024

Name of Department Submitting Request: Police Department

1. Please provide the wording of the proposed article.

To see if the town will vote to raise and appropriate the sum of **\$175,645.00** to purchase Body Worn Cameras with accessories for the Police Department. The estimated tax rate impact is \$0.08. Recommended by Town Council (7 Yes – 0 No);

2. Voters' Guide Explanation.

This will pay the sum of a five-year with one payment. Two and a half years into the contract the body camera company provides completely new equipment. There is strong support for Police Departments to be equipped with body-worn cameras. Nationwide studies have reported that police departments are seeing that the presence of body-worn cameras often improves officer performance as well as the conduct of the community members who are recorded. The Capital Improvement Plan Committee voted to support this request and recommended funding a warrant article in FY 2024-2025 for this project.

3. If this article is not passed at Town Meeting or approved by the Town Council, what affect would this have on your department goals and programs?

The Department would continue to function, however, to provide the Community of Hooksett with the best possible service, the addition of these cameras will bring another level of transparency for the public. Instead of reading a report to see what happened the event will be able to be viewed and listened to for better clarity when fielding complaints or providing more accurate information to the courts or even if it requested by a member of the public as a right to know request.

4. Is any further information necessary for the deliberation?

No further information.

Town of Hooksett WARRANT ARTICLE REQUEST FORM

Date of Request: December 13, 2023 **Date of Town Meeting:** March 12, 2023

Name of Department Submitting Request: Community Development Department

1. Please provide the wording of the proposed article.

To see if the town will vote to raise and appropriate the sum of \$1,500,000 (gross budget) for the reconstruction of the intersection of Martins Ferry Road and North River Road including roadway realignment and construction of a new bridge ("the Project"); of that amount, to appropriate \$375,923.00 from the State of NH highway block grants and bridge aid; to appropriate \$385,000.00 of that amount from Roadway Impact Fees; to appropriate \$89,077.00 of that amount from Federal Local Fiscal Recovery Funds; and to authorize the issuance of bonds or notes of not more than \$650,000.00 of that amount in accordance with the provisions of the Municipal Finance Act (RSA 33) and to authorize the Town Council to fix the date, maturities, denominations, interest rate and other details of said bonds or notes; to authorize the Town Council to apply for, accept and expend any federal, state, or private funds that are available in respect of the Project to reduce the amount that must be bonded or to pay debt service on such bonds or notes; and furthermore to raise and appropriate the sum of \$20,000.00 from taxation for the bond issuance costs and first years debt service payments on such bonds or notes?

2. What is the intent and purpose of article?

To reconstruct the intersection of Martins Ferry Road and North River Road including roadway realignment, realignment of Messer Brook and construction of a new bridge. The purpose of the project will address speed concerns and will eliminate the risk of flooding and erosion and redirect the stream to its natural course. It will also eliminate significant maintenance concerns regarding the existing guardrails and drainage culvert.

3. If this article is not passed at Town Meeting or approved by the Town Council, what affect would this have on your department goals and programs?

If the warrant article is not passed, the Town will spend significant funds replacing guard rails and performing other repairs of the existing culvert including

FINANCE/Forms/Warrant Articles Request Form Latest revision: October 2011

2

dismantling and replacing a portion of the top concrete slab on top of the culvert and replacing the pavement. In addition, the Town will remain at risk of erosion along the steep roadway embankment adjacent to Messer Brook. In addition, safety will not be improved.

Note that two years ago the Town spent \$133,970 on erosion repair along Martins Ferry Road. Because the slope between Martins Ferry Road and Messer Brook is so steep, the likelihood of the occurrence of additional erosion remains. This project eliminates the possibility of any significant erosion.

4. Estimated cost?

The estimated cost of the project is \$1,500,000 and will be funded as follows: 1) State's portion comes from one-time funding thought 2022 SB401 and 2023 SB270 for a total of \$375,923. 2) The Town Council has obligated Roadway Impact Fees in the amount of \$385,000. 3) Federal portions of \$89,077 from APRA Local Fiscal Recovery Funds, and 4) a bond in the amount of \$650,000.

Bonding options are based on the July 2023 bond sale from the NH Municipal Bond Bank and are conservative for budgeting purposes.

		Total	Average	Tax
	Interest	Interest	Annual	rate
Options	rate	on Bond	Payment	Impact
5-Year	4.50%	89,375.00	147,875.00	7 cents
10-Year	4.75%	170,625.00	82,062.00	4 cents

5. Is any further information necessary for the deliberation?

If constructed, the bridge will be inspected by the State of New Hampshire Department of Transportation Bridge Inspection Division every two years (at no cost to the Town). In addition, the bridge will qualify for State/Federal Funding for future maintenance.

Putting Messer Brook on its natural course has garnered the support of several natural resource agencies, such as the New Hampshire wetlands bureau, the New Hampshire Natural Heritage Bureau, the New Hampshire Fish and Game Division and the U.S. Army Corps of Engineers.

STAFF REPORT

To: Town Council

Title: Proposed Town Charter Amendments for March 2024 Ballot

Meeting: Town Council - 13 Dec 2023

Department: Administration

Staff Contact: Donna Fitzpatrick, Human Resource Coordinator

BACKGROUND INFORMATION:

On October 26, 2022, Town Council established a subcommittee to review possible Town Charter amendments. The subcommittee held 4 meetings in 2023 including a Public Hearing and brought forth four proposed amendments along with the reasons below:

Eliminating Districts

- The initial reason for creating the districts was that it was feared that one area of town could control direct projects to their area, but that has not materialized.
- It would eliminate the 10-year requirement of the Supervisors of the Checklist to rebalance the districts.
- Reduce the confusion and cost of multiple ballots.
- It gives more flexibility for residents to run for Town Council because there is a limitation of who can run when there are districts.

Reducing Town Council from 9 to 7 members

- Meetings go on longer with more personalities.
- It will be easier to make quorum.
- Seven members still allow for ample coverage on other town committees.

Change the Quorum to a simple majority

- Many meetings we have trouble having a quorum and starting on time having to have a super majority.
- Currently with a super majority and a Council of 9 members, 6 are needed to make quorum, if it is changed to a simple majority, 5 members would be needed for a Council of 9 and 4 members for a Council of 7.

Increase the Town Council stipend by \$500

- Stipend has not increased in a long time and many other Town's have one that is higher.
- Entice candidates to run and reward them for their time.
- If the Council remains at 9 members, the increased cost to the Town would be \$4,500 and if it is reduced to 7 members, it will only be an increase of \$500 over the current budgeted amount.

Legal Counsel has confirmed that Eliminating Districts and Reducing Town Council from 9 to 7 can and should be put on one Article to amend. The Charter Subcommittee agrees and is recommending that as well.

Attached are the sections of the Charter with red-line edits of the proposed changes, the proposed ballot language as well as an informational chart showing comparable communities and their number of members, if they have districts and stipend amounts.

RECOMMENDATION:

- 1. 09/27/2023 = Open Public Hearing, listen to public input, close the public hearing. If there is no further language changes of substantial impact, see steps 2-4. If there are further language changes of substantial impact, another public hearing is required.
- 2. 11/20/2023 = Town Clerk submitted final language from the closed public hearing and received DRA, AG and SOS approval.
- 3. 12/13/2023 = DRA, AG and SOS approved language to be placed on the Town Council Agenda for Council to make a decision on placing on the March Ballot.
- 4. March 2024 = If this item is on the March Ballot, then it will be up to the voters for the Charter Amendment.

SUGGESTED MOTION:

See warrant item under "Old Business" for detailed language on motion to place the charter amendments on the March 2024 ballot

TOWN ADMINISTRATOR'S RECOMMENDATION:

Town Council will need to vote on moving these Charter Amendment items to the ballot.

Title: Accept the unanticipated revenue in the amount of \$85,415.36 from the State of

New Hampshire Highway Block Grant Aid in accordance with RSA 31:95-b, III(a)

Meeting: Town Council - 13 Dec 2023

Department: Finance

Staff Contact: Christine Tewksbury, Finance Director

BACKGROUND INFORMATION:

The NH 2023 legislative session provided state aid to local governments. SB 270 was intended to provide one-time property tax relief through direct payments to cities and towns. This payment is through the Highway Block Grant Aid and will be distributed among the municipalities based on their population in proportion to the entire state's population and the other half is disbursed based on a municipality's Class IV and V road mileage in proportion to the total statewide Class IV and V mileage. The additional funds in the amount of \$85,415.36 were received in early November.

Public Hearing notice was in the December 4, 2023, edition of the Union Leader.

FINANCIAL IMPACT:

\$85,415.36 can be used to fund repairs, maintain, and construct class IV and V roads or acquire the equipment necessary to maintain class IV or V roads. These funds will "supplement not supplant" local budgets, meaning these funds must add to (supplement) and not replace (supplant) local budgets. Staff is recommending to Council, these funds be used towards the Martins Ferry Road reconstruction project.

POLICY IMPLICATIONS:

None

RECOMMENDATION:

After consideration of public input, accept unanticipated revenue from NH Highway Block Grant Aid.

SUGGESTED MOTION:

Motion to accept the unanticipated revenue in the amount of \$85,415.36 from the State of New Hampshire Highway Block Grant Aid in accordance with RSA 31:95-b, III(a).

TOWN ADMINISTRATOR'S RECOMMENDATION:

I concur with the suggested motion.

Title: Establishment of the Municipal Transportation Improvement Fee

Meeting: Town Council - 13 Dec 2023

Department: Finance

Staff Contact: Christine Tewksbury, Finance Director

BACKGROUND INFORMATION:

Municipal Transportation Improvement (MTI).

Under RSA 261:153 VI communities can establish a fee up to \$5.00 per motor vehicle registration. The fee is set aside in a municipal transportation improvement capital reserve fund, which is used exclusively for improvement to the local and regional transportation systems. The MIT fee is a unique option that enhances the Town's control over operating and capital cost of public transportation systems. By placing this fee on auto registrations, it focuses the cost of transportation on the users instead of the property owners. Attached to this staff report is a 2015 study by Vital Communities, which looks at this fee.

The Town Council can determine the amount of the fee. The RSA allows for a maximum of \$5.00 per registration on all vehicles, both passenger and commercial, with the exception of all terrain vehicles, antique motor vehicles, farm tractors and motorcycles. Data collected from other communities shows the majority are charging \$5.00. The estimated annual collection for this fee is \$100,000. (\$5.00 x 20,000 registration).

The Town Council can limit what the municipal transportation fee is used for. The RSA allows for "improvements in the local or regional transportation systems including roads, bridges, bicycle and pedestrian facilities, parking and intermodal facilities, electric vehicle charging stations, and public transportation. The fund can be used for engineering, right-of-way acquisitions, and construction costs of transportation facilities, including electric vehicle charging stations, and for operating and capital cost of public transportation."

If Council would like to move forward with establishing this fee. The RSA requires a public hearing before it can be placed on the ballot. The public hearing would be held on the Council meeting of January 10, 2024, to meet the require deadlines. After the public hearing, Council can modify the fee and the use of the funds or not move forward with the fee at all.

RECOMMENDATION:

I recommend setting the fee at \$5.00 and not limiting the allowable uses.

SUGGESTED MOTION:

Motion to recommend setting the Municipal Transportation Improvement Fee to \$_	
Motion to limit the use of the Municipal Transportation Improvement fee to	

Motion to move the establishment of the Municipal Transportation Improvement to a public hearing on January 10, 2024.

TOWN ADMINISTRATOR'S RECOMMENDATION:

Town Council discussed pursuing this program for the upcoming fiscal year.

TITLE XXI MOTOR VEHICLES

CHAPTER 261 CERTIFICATES OF TITLE AND REGISTRATION OF VEHICLES

Municipal Permits for Registration

Section 261:153

261:153 Fees for Registration Permits. -

I. The treasurer of each city, or such other person as the city government may designate, and the town cierk of each town shall collect fees for such permits as follows: on each vehicle offered for registration a sum equal to 18 mills on each dollar of the maker's list price for a current model year vehicle, 15 mills on each dollar of the maker's list price for the second preceding model year vehicle, 9 mills on each dollar of the maker's list price for the third preceding model year vehicle, 6 mills on each dollar of the maker's list price for the fourth preceding model year vehicle, and 3 mills on each dollar of the maker's list price for the fourth preceding model year vehicle, and 3 mills on each dollar of the maker's list price for the fifth preceding model year vehicle and any model year prior thereto. In no event, however, shall the fee be less than \$5. Registration permit fees for construction equipment, as defined in RSA 259:42, shall be governed by RSA 261:64. The director shall make the final determination of any vehicle model year in any case in which a dispute arises. The fee collected hereunder for a vehicle used only in the manner and for the purposes specified in RSA 261:82 and for an agricultural/industrial utility vehicle, as defined in RSA 259:2-a, shall be \$5; and provided further, that the fee collected hereunder for a farm tractor shall be \$5. In cases of doubt, the director may investigate for the purpose of determining eligibility for limited purpose registrations.

II. In all cases the manufacturer's list price shall be rounded off to the nearest \$100 and the actual permit fee shall be rounded off to the nearest dollar.

III. If the permit is issued for a vehicle specified in RSA 261:141, III in a month other than the month in which the anniversary of the owner's birth occurs, the amount of the permit fee shall be changed as follows:

(a) If the month in which the anniversary of the owner's birth occurs will be one of the next 4 months, the permit fee shall be increased by

1/12 for each whole month or part thereof remaining until the end of the month in which such anniversary will occur and the owner shall not be required to obtain a permit for the next registration period.

(b) In all other cases for vehicles specified in RSA 261:141, III the permit fee shall be determined by multiplying 1/12 of the permit fee for the vehicle times the total number of whole months and any part of a month remaining until the end of the month in which the anniversary of the owner's birth occurs, and the owner shall be required to obtain a permit for the next registration period.

IV. Each designated city official as the city government may designate and the town clerk of each town shall use the straight line method in computing fees stipulated in paragraph I for any registration. The straight line method means that no registrant shall pay less or more than 12 months at each stipulated mill rate, whether such 12 months extend over one or more registration periods. The mill rate to be charged on a vehicle originally offered for registration by a registrant shall be based on the year of manufacture of the said vehicle and shall continue for the next 12 months, including the month of registration. For each successive 12 months registration of the same vehicle thereafter, whether or not such 12 months registration extends beyond one or more registration periods, the fees to be charged shall be computed successively at the next lower mill rate; provided, that the minimum rate to be charged for any registration shall always be 3 mills on each dollar of the maker's list price of a vehicle.

V. Beginning July 1, 1989, in addition to each registration fee collected under paragraph I, there may be collected an additional fee for the purposes of a town reclamation trust fund as established in RSA 149-M:18. Of

this amount, \$.50 shall be retained by the city official designated by the city government or by the town clerk for administrative costs and the remaining amount shall be deposited into the reclamation trust fund established by the town for the purpose of paying collection and disposal fees for the town's motor vehicle waste and paying for the recycling and reclamation of other types of solid waste. For the purposes of this paragraph, "motor vehicle waste" means "motor vehicle waste" as defined in RSA 149-M:18. A town which collects such additional fees shall not charge a disposal fee for motor vehicle waste at the town's solid waste disposal facility. If a town finds the additional fee is not sufficient to cover fees for collection and disposal of town motor vehicle waste, it shall notify the office of planning and development. The office shall study the fee in accordance with RSA 12-O:53 and make recommendations, if necessary, for increases in the fee. The additional fee schedule shall be graduated by class of vehicle as follows:

- (a) The fee for heavy vehicles, including mobile homes and house trailers, heavy trucks and truck-tractors whose gross weight exceeds 18,000 pounds, and buses shall be \$5.
- (b) Unless otherwise provided, the fee for automobiles, light vehicles including trucks, and commercial motorized vehicles including tractor trailers, shall be \$3.
- (c) Unless otherwise provided, the fee for special use vehicles including all-terrain vehicles, agricultural and farm vehicles, and antique vehicles and for 2-wheeled vehicles including mopeds, motorcycles, and automobile utility trailers, shall be \$2.
- VI. (a) Beginning on July 1, 1997, in addition to the motor vehicle registration fees collected under paragraphs I and V, the legislative body of a municipality may vote to collect an additional fee for the purpose of supporting a municipal and transportation improvement fund, which shall be a capital reserve fund established for this purpose and governed by the provisions of RSA 34 and RSA 35 for cities and towns, respectively. Of the amount collected, up to 10 percent, but not more than \$0.50 of each fee paid, may be retained by the local official designated by the municipal government or by the town or city clerk for administrative costs. The remaining amount shall be deposited into the municipal transportation improvement fund established to allow a community to fund, wholly or in part, improvements in the local or regional transportation system including roads, bridges, bicycle and pedestrian facilities, parking and intermodal facilities, electric vehicle charging stations, and public transportation. The funds may be used for engineering, right-of-way acquisition, and construction costs of transportation facilities, including electric vehicle charging stations, and for operating and capital costs of public transportation only. The funds may be used as matching funds for state or federal funds allocated for local or regional transportation improvements. Such funds shall not be used to offset any other non-transportation appropriations made by the municipality.
- (b) The maximum fee charged under this paragraph shall be \$5. The municipality shall establish the required fee, up to the maximum amount allowable, based on anticipated funding needs for transportation improvements. The additional fee shall be collected from all vehicles, both passenger and commercial, with the exception of all terrain vehicles as defined in RSA 215-A:1, I-b and antique motor vehicles, farm tractors, or motorcycles, as defined in RSA 259:4.
- (c) Any town or city may adopt the provisions of subparagraphs (a) and (b) for an optional additional motor vehicle registration fee to fund municipal transportation improvements in the following manner:
- (1) In a town, the question shall be placed on the warrant of a special or annual town meeting under the procedures set out in RSA 39:3, and shall be voted on by ballot. In a city, the legislative body may consider and act upon the question in accordance with their normal procedures for passage of resolutions, ordinances, and other legislation. The legislative body of a city may vote to place the question on the official ballot for any regular municipal election, or in the alternative, shall place the question on the official ballot for any regular municipal election upon submission to the legislative body of a petition signed by 5 percent of the registered voters.
- (2) The selectmen or city council shall hold a public hearing on the question at least 15 days but not more than 30 days before the question is to be voted on. Notice of the hearing shall be posted in at least 2 public places in the municipality and published in a newspaper of general circulation at least 7 days before the hearing.
- (3) A town or city may choose to restrict the use of the municipal transportation improvement fund to one or more of the transportation system modes provided for in paragraph VI(a). Any such restriction shall be so stated in the wording of the question.
- (d) If a majority of those voting on the question vote "Yes," the additional motor vehicle registration fee shall apply within the town or city on the date set by the selectmen or the city council.
- (e)(1) A town or city may consider rescinding its action in the manner described in subparagraph (c). The

wording of the question shall be the same as that was adopted by the town or city, except the word "adopt" shall be changed to "rescind."

(2) If a majority of those voting on the question vote "Yes," following the action taken to rescind, the additional motor vehicle registration fee shall not apply within the town or city.

Local Financing for Transportation Projects in New Hampshire

A Look at the Municipal Vehicle Registration Fee

Author: Aaron Brown, Transportation Program Manager 802.291.9100 – <u>UVTMA@VitalCommunities.Org</u>

About the Upper Valley TMA

The Upper Valley Transportation Management Association (TMA) is a member-based program of Vital Communities, a regional nonprofit that works in 69 towns across Vermont and New Hampshire on a variety of quality of life issues. The Upper Valley TMA's mission is to reduce reliance on driving alone, and its members include five transit companies, three regional planning commissions, five municipalities, 10 major employers, transportation consultants, and interested citizens.

• •

Background

Members of the Upper Valley TMA have long recognized the need for more diverse and reliable transportation funding at the local and state levels. New Hampshire does not collect sales or income taxes, and the legislature has prioritized the widening of a section of Interstate 93 over all other transportation projects in the state. This situation limits the amount of state funding available for local transportation needs, and is further complicated by the federal government's failure to pass a long-term transportation funding bill for nearly a decade.

One mechanism that New Hampshire municipalities can use, however, is an optional \$5 vehicle registration fee to create a local transportation fund.

Under RSA 261:153 VI:

"[I]n addition to the motor vehicle registration fees collected under paragraphs I and V, the legislative body of a municipality may vote to collect an additional fee for the purpose of supporting a municipal and transportation improvement fund"; a "municipality [may] establish the required fee, up to the maximum amount allowable, based on anticipated funding needs for transportation improvements," such as "roads, bridges, bicycle and pedestrian facilities, parking and intermodal facilities and public transportation."

The municipal vehicle registration fee is a unique option that enhances local control over transportation projects without raising property taxes. It differs significantly from road-toll revenue ("gas taxes") because it can be used for non-capital projects, such as transit operating expenses. The law allows municipalities to restrict the use of the fund to particular modes of travel (e.g., a sidewalk fund). No more than 10 percent of funds collected under the statute may be used for administrative costs.

The Purpose of This Study

The Upper Valley TMA steering committee, including state Representative Patricia Higgins (Grafton-District 12), urged staff members to conduct a study on the optional fee to document the following:

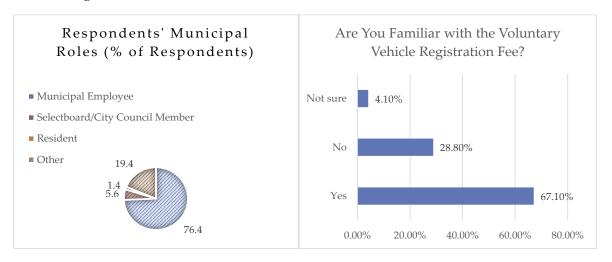

- (1) Which municipalities currently assess the fee
- (2) How much funding municipalities collect
- (3) What projects municipalities have funded with vehicle registration revenue
- (4) Whether other municipalities are interested in adopting the fee.

This research intends to improve our overall understanding of ways that municipalities can meet local transportation revenue needs. The report is also timely because Representative Higgins has filed a bill that would raise the \$5 cap on the fee to \$10.

• •

Methodology

Vital Communities administered a survey to all New Hampshire municipalities in summer 2015. In total, 73 people responded, representing 67 different municipalities or 29 percent of all New Hampshire towns and cities. Of those surveyed, 13 reported assessing the vehicle registration fee and several respondents said that their community is actively looking at adopting it. Despite repeated email requests for their participation, we did not receive responses from several towns that administer the fee, including Nashua, Manchester, and Portsmouth.

The vast majority of respondents (76.4 percent) were municipal employees, and eight of the 14 people who identified as "Other" were elected tax collectors or elected town clerks. Municipalities that participated in the study ranged greatly in population size, and they included small towns such as Landaff (415) and Errol (291) and larger communities such as Concord (42,419) and Keene (23,419). A majority of survey respondents were familiar with the voluntary fee allowed under RSA 261:153. Respondents who were unaware of the fee tended to represent smaller communities, such as Cornish and Sugar Hill.

Twenty-eight respondents fell into the category of "aware of the fee but do not collect it." Eight of these respondents said their communities had considered adopting the fee, 14 said they had not considered it, and the remaining six were unsure or did not answer the question. Some of these respondents had favorable thoughts on the optional fee. One remarked, "This could help with road improvements." Another said he intended to bring the option to local leaders. Some survey takers offered nuanced reasons why their community considered the fee but did not adopt it. For example, one said that "[the Select] Board did not approve the fee based on the impact on large commercial fleet entities."

• •

Current Vehicle Registration Fee Collectors

Most participating municipalities use the vehicle registration fee revenue for general road and bridge work, but some have programs for specific modes. The City of Lebanon, for example, uses its funding to support local bus company Advance Transit. The nearby Towns of Hanover and New London use vehicle registration fees to support local bicycle and pedestrian projects, such as bike-friendly drain grates and sidewalk maintenance.

Municipalities that collect the fee seem to have a favorable view of it. Claremont's respondent called the source "an integral part of our road program" and said "wish I was aware of it sooner!" Below is a summary table of the communities that collect the fee and how they use it.

	Municipa	lities that Collect \$5 Veh	icle Registration Fee
City/Town	Population	Estimated Amount Collected ¹	Uses of Funding
Claremont	13,355	\$25,000-\$99,999	Roads and bridges, winter maintenance. Respondent noted, "This has been an integral part of our road program. Wish I was aware of it sooner!"
Concord	42,695	\$200,0002	Annual road maintenance
Derry	33,109	\$100,000-\$499,000	Roads and bridges
Franklin	8,477	\$25,000-\$99,999	Roads and bridge, parking, bicycle and pedestrian projects, match for federal funds.
Greenland	3,549	\$5,000-\$24,999	Roads and bridges. Respondent added, "We opted to collect \$2.50 rather than full \$5.00 allowed."
Hanover	11,260	\$25,000-\$99,999	Roads and bridges, bicycle and pedestrian projects. Respondent noted, "Paving projects involving bike and ped improvements as part of the overall project; pedestrian improvements; bike friendly storm drain grates, etc."
Keene	23,409	Not yet known. Keene passed the resolution in 2015.	Roads and bridges, bicycle and pedestrian projects, match for federal funds. Resolution prohibits use of funds on parking.

Conclusion

The municipal vehicle registration fee allowed under RSA 261:153 has helped over a dozen New Hampshire communities raise funds for local transportation projects. While most communities that administer the fund use the revenue for traditional road and bridge projects, some have supported local transit, bicycle infrastructure, and sidewalks. The New Hampshire legislature will consider raising the cap on how much municipalities can add to their vehicle registration fees. This move could make an already important funding mechanism even more effective in generating local dollars and control over transportation projects.

STAFF REPORT

To: Town Council

Title: IRS penalty assessment for late filing of the 2021 Form W-2

Meeting: Town Council - 13 Dec 2023

Department: Finance

Staff Contact: Christine Tewksbury, Finance Director

BACKGROUND INFORMATION:

In July of 2023, the Town received a penalty notice 972CG, 2021 stating the 2021 W-2s was not received until 05/07/2022. The deadline for filing these forms was January 31, 2022. I know I mailed the forms on or before the deadline, but I have no proof of the mailing.

So, I completed the instruction on the penalty notice requesting an adjustment and disagreeing with the proposed penalty and wrote a letter dated August 2, 2023, explaining that the W-3(mailed with the W-2) for that year was signed on 1/21/2022 and that I would have mailed the W-2 shortly thereafter. What I failed to mention was that I would have mailed it out by the January 31st deadline, which I have done since 2016. For the eight years prior to 2016, I would have mailed it by the February 28th deadline.

Then I received IRS letter 854C dated Nov. 13, 2023, I was very disappointed and shocked that the request for the penalty adjustment was denied. I immediately reached out to the Hooksett Post Office and received the attached email dated 11/15/2023. I believe this email at least raises the possibility that the delay may have been caused by the United States Postal Services (USPS).

I issued a second letter to the IRS, requesting an appeal based on the Town history of timely filings and the possibility of the USPS being responsible for the delay.

To ensure this never happens again, all future correspondence with the IRS will have USPS Tracking.

The penalty was calculated on the number of W-2s filed that year, which was $189 \times 110 = 20,790.00$

FINANCIAL IMPACT:

There are no budgeted funds for these types of penalties.

RECOMMENDATION:

To avoid interest charges, I recommend paying the penalty using the ARPA State, Local Fiscal Recovery Funds. If the Town wins the appeal, the IRS will refund the penalty.

SUGGESTED MOTION:

Motion to pay the IRS penalty in the amount of \$20,790.00 from ARPA State and Local Fiscal Recovery Funds.

TOWN ADMINISTRATOR'S RECOMMENDATION:

I concur with the suggested motion.

Dear Christine Tewksbury,

This is in response to your recent inquiry regarding your delayed mail.

I was disappointed to learn of the situation you have encountered with your postal service. It is my understanding that in January. 2022, you mailed a letter to the IRS. Unfortunately, the article was not delivered until July, 2022.

Because the item did not contain any tracking information we are unable to provide any detailed information of why the delay occurred. We are unaware of any specific incident reports.

Please be assured that this occurrence is not typical of the service we normally provide. Every effort will be made to serve your future needs in a manner more consistent with your expectations and our standards.

While I realize that an apology is no substitute for good service, please accept ours in the spirit in which it is offered. It is my hope that this email will be of assistance in explaining these unfortunate circumstances to your creditor.

Sincerely,

Charles Abbott 204b Supervisor Hooksett Post Office 603-623-0373

AGENDA OVERVIEW

PUBLIC HEARINGS

- T. Tsantoulis opened the Public Hearings at 6:38.
- 8.1 Public Hearing to accept Overtime Reimbursement from the FBI, during Federal fiscal year 2024. Reimbursement is not to exceed \$20,707.50 to the Town of Hooksett for the Hooksett Police Department per RSA 31:95-b (IIIa).

No Public Comment

- 8.2 Public Hearing to accept donations up to and over \$10,000 for the Light up the Village Event per RSA 31:95-b, III (a)
- J. Sullivan- they have a good event planned for December 1st. We are doing a pre acceptance of the donations.

No public comment.

- 8.3 Public Hearing to Discuss Amending the Tax Increment Finance Plan
- B. Thomas- there is no action required here tonight.

The purpose of this agenda item is to hold a public hearing on October 25, 2023, at the regularly scheduled Town Council meeting to present and take public comment on amending the March 23, 2017 adopted TIF district plan (that was revised on January 26, 2022) in accordance with NH RSA 162-K.

TOWN COUNCIL PUBLIC MINUTES

10-25-2023

The Town is contemplating the amendment of the current Tax Increment Finance (TIF) District plan to incorporate the following: Remove parcel 17-39 off Cross Road as listed and as shown on the attached plan. This lot is zoned LDR (Low Density Residential). It was added to the TIF District on January 26, 2022, because it was deemed necessary to place utilities on the lot to service the Granite Woods development. The utility work has since been completed and both water and sewer utilities have been installed on the abutting property. The TIF Committee recommended the removal at their meeting of November 21, 2022. Based on the information above, there is no need for this property to remain in the TIF District.

D. Boutin motioned to close the Public Hearing; seconded by J. Pinard.

SPECIAL RECOGNITION

Hooksett Municipal Employee - New Hire

A. Garron- no changes this week.

PUBLIC INPUT - 15 MINUTES

T. Tsantoulis- we have recently been having issues with the public input section. I want to read the following to refresh those of the rules.

PUBLIC INPUT RULES

- Two 15-minute Public Input sessions will be allowed during each Council Meeting. Time will be divided equally among those wishing to speak; however, no person will be allowed to speak for more than 5 minutes.
- 2. No person may address the council more than twice on any issue in any meeting. Comments must be addressed to the Chair and must not be personal or derogatory about any other person.
- 3. Any questions must be directly related to the topic being discussed and must be addressed to the Chair only, who after consultation with Council and Town Administrator, will determine if the question can be answered at that time. Questions cannot be directed to an individual Councilor and must not be personal in nature. Issues raised during Public Input, which cannot be resolved or answered at that time, or which require additional discussion or research, will be noted by the Town Administrator who will be responsible for researching and responding to the comment directly during normal work hours or by bringing to the Council for discussion at a subsequent meeting. The Chair reserves the right to end questioning if the questions depart from clarification to deliberation.
- 4. Council members may request a comment be added to New Business at a subsequent meeting.
- 5. No one may speak during Public Input except the person acknowledged by the Chair. Direct questions or comments from the audience are not permitted during Public Input.

Wayne Gortell- 33 Park Lane- thank you for your service. I'm here regarding the revaluation. The letter stated just the new value and had to do the research on my prior assessment and found it went up 70%. There is this huge void of how this information came to be and I think there is an opportunity for the Town to publish some information on how the assessment process works. I went to the Town Assessor and the town's value increased significantly in value. I am asking the town to publish a meaningful draft of the assessment process and provide an example of what this means to them. A void need to be filled. Goffstown has a great example on their website of what they did.

J. Pinard- the town receives a USPAP manual that does document the process and what went into the assessments.

Jason Hyde 36 Edgewater Drive- I don't know if the Town is aware that the Sewer Commission is suing the Town, they don't feel that the Budget Committee has authority over their budget. I have been subpoenaed to go to court. It has cost us \$19,000 over this. I and other Budget Committee members have had to take days off from work to attend these hearings. I don't believe that a Board that is servicing the Town has the right to sue a Town. I believe that a Board that is willing to sue a Town that does not want the Town to have oversight over their budget, should not exist. I ask that you have the Town Administrator see what it will take to get the Sewer Commission under his purview. My thought is that it will take a Warrant Article. If it will only take a Warrant Article, then I ask that you put one further and have the Sewer Commission under you.

Casey Robinson- I am currently homeless, family service is trying to work with me on that. I am currently unable to work with Patricia Carusso. I am unable to be here without police presence. The municipality that worked very hard to keep me safe has also been undermining my safety in keeping me safe. My request to meet with the Town Administrator has been denied and I feel it has been an abuse of power. I have been sleeping in my truck for the past 13 days with my 2 service dogs. I filled out a new application on the 18th. I also filled out one on the 20th when Mr. Flynn was taken out of retirement. I am here today that at 2:45 Mr. Flynn was unable to provide me with shelter. I do intend to sue if we are unable to resolve these issues. I am due my rights to be given assistance within 72 hours.

T. Tsantoulis- I don't know what to say to you today, I will follow up. I am saddened to see the state that you are in right now.

Casey- I was told that the former Family services director still has authority over my case. The RSA states you have to assist me within 72 hours.

TOWN ADMINISTRATOR'S REPORT

A. Garron- there was a public information session held with NHDOT taking a lead on the Route 3 project. We had a really good turnout of 40 people, and a lot of concerns were raised.

Dave Smith Project Manager from NHDOT for Route 3- last year we did present to the public. We have had several working groups to find the right solution. We had a very lively discussion. We heard last night was concern for a few aspects of the project which was the raised median and the roundabout. What it warrants is to take a step back and look at the improvements and revisit the scope of

TOWN COUNCIL PUBLIC MINUTES 10-25-2023

improvements and re-ask the questions. Do we need a 5-lane typical; do we need a 3-lane typical is the roundabout appropriate. We are trying to engage the public. The discussion last night warrants a revisit.

- D. Boutin I want to raise concerns about how traffic is going to be managed there and having an island there is a serious impediment.
- A. Garron- one of the things that came out of last night was to add to the working group. We presented the options before the Council already and ultimately that's what the Council supported to move forward. The DOT was amendable to expanding the working group to accommodate a local business owner to sit on the group.
- D. Boutin how much land will be taken for the roundabout.
- D. Smith- there will likely be strip acquisition, I don't have exact numbers.
- D. Boutin- is the roundabout a single or double lane?
- D. Smith- it is a hybrid.
- R. Duhaime- why is this getting pushed out.
- D. Smith- because of the public input concerns.
- R. Duhaime- what is it going to take to get this moving along?
- D. Smith- we put a survey out to find that right solution, and we thought we had that solution, and that 5-lane solution is what we presented last night and got significant opposition to that approach.
- A. Garron- I would strongly suggest that at the next meeting you come. We want to move this forward. When we are at the meeting, we get to see the data and a snapshot of that. Last night we had a lot of good comments, and it makes you want to pause and think about how we proceed in the future, and a lot of good feedback was given. There were about 30-40 people in attendance who live and work in that corridor.

11.2 Debie Clayton, HealthTrust Benefits Advisor - CY2024 Health Insurance Renewal Rates

D. Fitzpatrick- we will be going over our CY 2024 benefits from HealthTrust. HealthTrust is our broker and Anthem and Delta Dental are our providers. We are in a group pool of 300 members.

Debie Clayton, HealthTrust Benefits Coordinator- Every October the HealthTrust Board of Directors meets to set rates for the following year. The time period used to set rates for calendar year 2024 has seen an unprecedented increase in the overall claims volume and increased severity and volume of high dollar claims. Cancer is currently the most costly treatment group of HealthTrust's population, coming in four times higher than the second highest of chronic kidney disease. Other items, such as the cost and utilization of specialty drugs, newly indicated weight loss drugs, and losses within the investment portfolio due to downturns in the financial market have impacted the level of rate adjustments for next year. Specialty drugs now make up nearly 55% of total drug costs. These medications can be very expensive however we are seeing that they can greatly improve someone's length and quality of life. Also contributing to the 2024 rate change is the fact that while claims were rising higher than projected, the Capital Adequacy Reserve was reduced below our target level that has been adopted by our Board of Directors. To begin the process of rebuilding the Capital Adequacy Reserve, a 5% Capital Risk Charge is included in your rate change. Trend is also a contributing factor in setting rates. Trend is an estimate of the amount that medical costs and utilization will increase from when they were incurred during the experience period to when they will be incurred during the rating period. For this time period, a trend factor of 5.1% was utilized. When rates are set in October of 2023 for the following calendar year, trend is compounded over 20-months which equates to 8.6%. The largest component of contributions continues to be claims, at almost 90%. Overall, our January medical, the average rate change was 12.8% with a low of 3.9% to a high of 25%. – In the January renewal there are a total of 160 Member Groups. 27 of those have over 50 eligible employees and are considered large and are individually rated like yourselves. There are also 133 Member Groups that have fewer than 50 eligible employees and they are part of our small group rating unit. The Medical Rate Change for the Town of Hookset Combo is 11.3% 4.7% Dental (all rated together) It's important to note that Hookset is still lower than the average overall (line graph in staff report) - The overall rate adjustment for all January Groups is 12.8%; Hookset is 11.3% – The six year average for Hookset is 6.7% while the January overall average is 7.2% – Another important thing to note is where your Base Rate lies. All individually rated groups have different rates. For example, the Town's family rate for the Site of Service plan may be \$2500 per month, while another Group might pay \$3200 per month for the same plan. The Town of Hookset's Base Rate is currently 3.4% lower than average. The majority of the Town's enrollment is in the ABSOS20/40, or Site of Service plan with the six-tier prescription drug benefit. This medical benefit is number two in terms of overall HealthTrust enrollment. We see this as a very cost-effective plan as it introduces consumerism in certain areas of coverage, allowing

individuals the opportunity to avoid deductible expenses if they use in-network, lower cost, Site of Service Location Ons. The Town also offers a Health Reimbursement Arrangement or HRA alongside this plan to assist individuals with deductible expenses. From time to time the Town may want to explore other HealthTrust benefit options which is why we always include an option sheet in the rate package. Questions?

- R. Duhaime- do you look at other companies and how they compare?
- D. Fitzpatrick- we did look and switch in 2016 and had a quick increase. You will see that the % increase does go up, but it goes along with claims. Post covid claims are increasing. HT overall is capping at 25%.
- J. Sullivan motioned to continue the current health and dental plan options and for CY2024 for active non-union employees & retirees under 65 years and 65 years of age and older with the one change to increase non-union employee premium contribution for HMO AB201PDED from 15% to 20%. 11.3 Jolene Archambeault - Saturday cease work request

J. Archambeault- Today I'm writing with a plea for a change. We are asking the town for special permission to cease work on US RTE 3 / 1461 Hooksett Road property – Ridgeback Storage project on Saturdays. The property is nestled between residential areas - Granite Hill Condos and Granite Brook MHP. Heavy construction happens on Saturdays. Sometimes all day. (7am till 5pm) Large rocks are dug up, dumped, and moved all day with large equipment. The reverse alarm sound on the construction equipment sounds all day and earthwork echoes through the open areas. It is very disruptive to the people living on Thames Road and Gary Ave Hooksett, NH. We recognize that the noise ordnance 00-32 includes Saturdays. Although, this is a special circumstance, and this project has been delayed many times. In turn, this project has dragged on and the residents haven't had much peace in their own

homes or yards during the week and weekends. Especially, through the summer months when we like to be outside enjoying the weather. In this proximity, it's a substantial amount of loud construction noise, creates dusty air when they dump behind our homes, trucks and tractors expel smelly fumes and is a nuisance without any trees. Would you include our request on the next town council agenda to discuss please? We look forward to working with you to resolve this situation soon and peacefully. There is no buffer here at all, there are no trees, no leaves. The Town recommended that I write in a letter requesting you make them cease operation on Saturday.

- J. Sullivan- it is an ordinance, does the Council have any authority to make an exception to the ordinance? Would it require a change to the ordinance in regard to construction.
- A. Garron- the noise ordinance does fall under the Councils authority. If you make a change to Saturdays, then it affects everyone, not just the one requesting the exception. If the Council were to make a change to the ordinance, then they would have to go through the appropriate channels to make it official.
- T. Tsantoulis- for us to make a change to the ordinance will have large ramifications all around. I understand your concerns and the impact that it has on your community. The larger impact that it has on the community is something that we have to consider.
- D. Boutin- Mr. Chair I am sad you are not sympathetic to the residents here; this is a big issue. This project is affecting these people's lives and we are the only ones who can do anything about it. We are being asked to do something and we need to do something to protect them.
- B. Thomas- sometimes the developers are willing to work with the Towns. The developers may not know there is a complaint and may be willing to work with us if we ask them to possibly adjust their construction work time.
- T. Tsantoulis- please don't leave here thinking we don't care, but we have to make decisions that are prudent.
- D. Boutin- the suggestion that the Town Engineer made makes sense.
- D. Boutin motioned to direct the Town Administrator to work with the Town Engineer to speak with the Developer and ask that he refrain from operating equipment in the am on Saturdays; seconded by J. Durand.

- J. Sargent- This will pay the sum of a five-year lease with one payment. Two and a half years into the contract the body camera company provides completely new equipment. There is strong support for Police Departments to be equipped with body-worn cameras. Nationwide studies have reported that police departments are seeing that the presence of body-worn cameras often improves officer performance as well as the conduct of the community members who are recorded. The Capital Improvement Plan Committee voted to support this request and recommended funding a warrant article in FY 2024- 2025 for this project. The Department would continue to function, however, to provide the Community of Hooksett with the best possible service, the addition of these cameras will bring another level of transparency for the public. Instead of reading a report to see what happened the event will be able to be viewed and listened to for better clarity when fielding complaints or

providing more accurate information to the courts or even if it requested by a member of the public as a right to know request.

- K. Judge- do we currently have body cameras in the Police Department?
- J. Sargent- No
- A. Walczyk- I have heard support for this in the community.
- J. Sullivan moved to recommend and place on the ballot a warrant article to establish a Police Equipment Capital Reserve Fund under provisions of RSA 35:1 to replace certain police equipment and to raise and appropriate the sum of \$50,000.00 to be placed in this fund. Further, to name the Town Administrator as agents to expend from said fund; seconded by D. Boutin.

33	
34	C. Hyde- the change of the date was great due to the wind. We have never rescheduled a OHD due to
35	weather. On Sunday when I set up, I could tell the poles had shifted. For next year it is scheduled for
36 37	Saturday September 21, 2024. If it ends up being a windy day, I'd suggest rescheduling it for the Sunday after. For next year I am in contact with groups. It is hard to find volunteers. I also want to work
3 <i>1</i> 38	more with some sponsors and really try and keep it a free event. The expenses were a little over

\$13,000. Plus, the Town puts in additional expenses like the fireworks, stage and porta potties. We lost

 96
 97
       T. Tsantoulis- when HealthTrust was here last week, we talked about opt outs. Is it time for an
 98
       employee to opt out?
 99
100
       C. Tewksbury- that process will start soon. We won't know the impact until the end of open enrollment
101
       which is in December. Only the current employees opted out the numbers would go up. If an employee
102
       opted out of a medical plan, then the cost would go down.
103
104
       D. Fitzpatrick- right now we offer a flat $5,000 for not taking Health Insurance. We increased the
105
       stipends, this year so instead of the flat $5,000 employees can now get $5,000, $7,500, or $10,000.
106

Walczyk Aye 262 R. Duhaime Nay 263 T. Tsantoulis Nay 264 265 Vote fails 1-5-1 266 267 S. Colburn- The goal of this request is to add 2 additional firefighters on a rotating day shift schedule to 268 bring staffing levels to 8 during the day. This proposal Identifies three areas the Fire Department seeks 269 to address- Overtime reduction, apparatus response and maintain staffing levels at a minimum of 7. 270 The Fire Rescue Department realizes that there are financial constraints that affect the Towns decision 271 regarding long term staffing cost. The Fire-Rescue Department is also aware of the critical need for

increased staffing to bring the Department closer to the national standard. NFPA 1710 recommends that each company be staffed with four firefighters, including a company officer, and that the company officer must remain as part of the company. This request would bring Department staffing to 8 firefighters during the day shift hours (0700-1900) in line with NFPA 1710. If the warrant is approved, the overtime line will be reduced by \$35,000. Any day shift time-off request will be filled using the day shift firefighter dropping the shift staffing to 7. Over the last 6 months, 45.08% of our incidents were overlapping incidents. This greatly reduces our availability of resources. Staffing at 7 (24/7) allows the department to staff an additional piece of apparatus to handle the call volume and reduce the need for mutual aid and our residents waiting for emergency personnel to arrive. In 2010 the Town approved hiring additional staffing, bringing the shift complement to 7 on-duty firefighters per shift dropping to a minimum of 6. Over the past 14 years, the call volume has increased 26.12%. with no increases in staffing. This warrant, if passed, will bring daytime on-duty firefighter staffing to 8 with the ability to drop to a minimum of 7 personnel on-duty 24 hours a day, 7 days a week.

A. Garron- the reason I did not support this was I think it is still premature. I applaud the information provided. When we were first talking about this, I didn't have this information. Overtime is always an issue; it is what it is but also having sat on the negotiating team for the last several years was the idea to save money in overtime by having a floater historically the overtime has not gone down and it continues to be an issue we struggle with. Unless we do something dramatic it won't decrease overtime. I think the information they have; I'd like to see how the additional 2 firefighters will do to the operations of the department. I want to see departments doing the proper planning like the Fire Department has. When we look at increases like this, we also need to look at the offsets.

R. Duhaime- we are more of an ambulance service than a Fire department. You have overlapping equipment because you are sending a truck along. I see mutual aid at the scenes as well. With development we are having more services and improvements that make the department's jobs easier.

S. Colburn- we do a lot of services calls, EMS, traffic accidents, ultimately, we are not the big cities. We have people who are trained on a lot of equipment. All our staff are multi trained and we bounce around multi apparatus. We take pride in what we do and the level of service that we provide. We were awarded EMS unit of the year out if the entire state, and I think that speaks to what we do. At some point without additional staffing, we are going to have issues with not being able to answer calls.

R. Lapierre moved to recommend and place on the ballot the sum of \$126,490.00 for an increase in salaries and benefits for non-union full-time and part-time Town personnel; seconded by A. Walczyk.

NEW BUSINESS

14.1 Quarterly Financial Report as of September 30, 2023

C. Tewksbury- we still have to obligate \$97,000 in ARPA funds. The general fund operating budget is 26% spent and that is trending in line toother years. The administration budget is 27% spent and was \$50,000 over last year. The fire rescue budget is 23% spent, the FY23-24 is \$200,00 more than the FY22-23 budget. The majority of that is due to union raises and the rest is operational expenses. We did have a few vacant positions that have since been filled in September. The Police budget is approximately \$300,000 more than last year's budget and that is for 2 cars and the wage increases for employees. The budget is 23% spent and that is a little less than the year before and that is due to unfilled positions. The PW budget is FY23-24 budget is about \$350,000 more than last year's budget and it is related to encumbrances. The general fund revenues are 35% collected and that is up from last year. Interest & penalties are at 6%. In the spring is when we get collections. Lay year we did collect \$120,000 and I will be reducing this to \$150,000. Building permit revenues are going down. Fees collected are going in a downward trend. State of NH revenues come in at different times. Interest on deposits is doing very well. I will increase this to \$425,000 which will be good for the tax rate.
