Hudson Roots Report
Prepared by Greater Hudson Promise Neighborhood
November 1st, 2024

The Greater Hudson Promise Neighborhood was pleased to continue supporting families to maintain stable housing in the Hudson community through the Hudson Roots program. Responding to the lack of other rental assistance programs, GHPN was able to work directly with landlords and tenants to ensure that evictions were halted and back rent was paid.

- Households served: 44
    - Total number of people impacted: 107
    - Of all individuals/families served GHPN is aware of only one eviction

- Greater Hudson Promise Neighborhood received a total of $50,000 from the Hudson Roots Program. Assistance amounts ranged from $95-$4,000, total amount disbursed was $49,981 (including administration fee). Funds were dispersed between January 2024 and October 2024.

- Type of assistance: Rent assistance (either for the current month or back rent)

- Other assistance received/notes: Rent relief funds are becoming less available through other agencies and with the increase in rent costs and stagnant wages, we are seeing more and more families facing eviction. This type of rental assistance is crucial to keep families housed in the Hudson community.
