4. All uniforms and equipment furnished by the City, with the exception of T-shirts, shall remain the property of the City and be returned or replaced if the employee terminates.

D. Uniform Policies and Advisory Committee:

1. The present uniform and clothing policies, as delineated in this Article, shall remain in effect. Either party may seek to meet and confer over a change to the policy during the term of this MOU. All safety clothing and uniforms required by the City to be worn by employees during working hours shall meet all applicable State and Federal regulations relating to said clothing and, with the exception of station uniforms, be of a high quality, fire resistant material.
2. A uniform advisory committee composed of two (2) members appointed by the Association and two (2) representatives appointed by the Fire Chief, shall make recommendations on the uniforms to be worn, the method of said uniforms will be provided and obtained and further recommendations on safety clothing and uniforms may be required during the term of this MOU.

- E. Reportable to PERS - The City will report as special compensation, in accordance with Title 2, California Code of Regulations, Section 571(a)(5) to the California Public Employees' Retirement System (CalPERS), for each classification the average annual cost of uniforms provided by the City as well as the physical fitness uniform described in Subsection (B). For employees who are not actively employed for an entire payroll calendar year, a prorated cost of uniforms shall apply. Upon request, the City will inform HBFA of the amounts reported as special compensation under this provision. For "new members" as defined by the Public Employees' Pension Reform Act of 2013, the cost of uniforms will not be reported as compensation earnable to CalPERS.

ARTICLE VII – HOURS OF WORK/OVERTIME

A. Work Schedule:

1. All twenty-four (24) hour shift employees shall work an average of fifty-six (56) hours per week pursuant to the current schedule of five (5) twenty-four (24) hour shifts in a fifteen (15) day period with six (6) consecutive days off. Effective February 2, 2019, employees shall work the 48/96 work schedule in which they are scheduled to work two (2) consecutive days on followed by four (4) consecutive days off.
2. All twenty-four (24) hour shift employees shall be on a fifteen (15) day work period consistent with the 7(K) exemption set forth in the Fair Labor Standards Act (FLSA). Effective February 2, 2019, all twenty-four (24) hour shift employees shall be on a twenty-four (24) day work period consistent with the 7(K) exemption set forth in the Fair Labor Standards Act (FLSA).

The parties agree that the 48/96 work schedule will be in effect for a trial period of exactly 360 days (fifteen (15) twenty-four (24) day work periods) at which time it will sunset unless the parties both agree to continue it. In the 90 day period prior to the expiration of the trial period, the parties shall inform each other if they want the 48/96 work schedule to end or continue. If both parties agree that it should continue (and therefore become the work schedule in effect for 24-hour shift employees) it shall continue unless and until it is changed in the future through labor negotiations. If either party wishes the 48/96 work schedule to end at the end of the trial period, it shall end. However, the parties agree to meet and discuss their respective positions prior to terminating the schedule to try to resolve any issues causing the desire to terminate the schedule.

3. Fire Prevention staff and administrative work schedules are to be forty (40) hours per week on a four (4) day workweek, ten (10) hours per day, twenty eight (28) day 7(K) FLSA work period.

B. Hours of Work - Defined:

1. Hours worked shall be defined as actual time worked, approved vacation, sick leave, compensatory time off, bereavement leave, and industrial injury or illness leave, with the exception of exchange of shift not being included.
2. Exchange of shifts (aka as shift trades) shall occur at 0800 hours each day and comply with Fire Department Rules and Regulations, Policy B-2.
3. Meal periods are paid as hours worked for personnel who are subject to call for emergency duty.
4. The maximum time allowed within the forty (40) hour workweek (for employees assigned to work 40 hours per week) schedule for physical fitness shall not exceed four (4) hours within any given workweek. All physical fitness activities considered to be

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

work activities shall be conducted on duty at the fire stations or as provided in the current fitness policy D-9. Fitness activities shall be conducted under supervision as appropriate.

5. An employee who is held over beyond the end of his/her regular shift shall be compensated for the actual time he/she is required to remain on duty, computed to nearest quarter (1/4) hour. If an employee works seven minutes or less, the time will be rounded down and if eight minutes or more will be rounded up to the nearest quarter (1/4) hour.
6. Exchanges of time (aka shift trades) count as hours worked for the employee whose shift was worked, not for the employee who worked the shift. These hours count as hours worked for FLSA purposes only.
7. An employee shall be considered to be working if he/she is ordered to duty by the Fire Chief or his/her sworn designee.

C. Level Pay Plan:

1. Twenty-four (24) Hour Shift Personnel – The 15 day FLSA work period for each employee shall begin at 8 a.m. on the first shift worked by the A shift following six days off. All hours worked in excess of 114 hours in an FLSA work period shall be compensated at the premium rate (one and one half times the regular rate of pay).

All regularly scheduled non “lost time” hours shall be counted as hours worked. Each employee assigned to twenty-four hour shifts for a full FLSA work period shall receive 106.4 hours of regular pay and 5.6 hours at the overtime rate of pay, as defined in subsection D.1.a. of this Article, in each bi-weekly pay period, which shall compensate the employee for FLSA overtime for regularly scheduled shift work. The intent of this system is that all FLSA overtime hours worked shall be compensated by the first payday following the end of the 15 day FLSA work period. In the event that an employee receives FLSA overtime on a payday before that employee has actually worked FLSA overtime hours, the amount received shall be credited for FLSA purposes toward the next occasion on which the employee works FLSA overtime. If an employee who is paid FLSA overtime in advance of working FLSA hours leaves City employment, there shall be an adjustment in his/her final paycheck to reflect such advance payment.

The 24 day FLSA work period for each employee shall begin at 8 a.m. All hours worked in excess of 182 hours in an FLSA work period shall be compensated at the premium rate (one and one half times the regular rate of pay).

All regularly scheduled non “lost time” hours shall be counted as hours worked. Each employee assigned to twenty-four hour shifts for a full FLSA work period shall receive 106.15 hours of regular pay and 5.85 hours at the overtime rate of pay, as defined in subsection D.1.a. of this Article, in each bi-weekly pay period, which shall compensate the employee for FLSA overtime for regularly scheduled shift work.

2. In addition to the overtime pay as provided in subsection 1 above, twenty-four (24) hour shift employees shall receive pay at the overtime rate for hours worked in excess of regularly scheduled hours unless the employee has “lost time” in a regularly scheduled shift. If there

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

is "lost time" in any regularly scheduled shift, the employee shall receive overtime pay for only those overtime hours worked in excess of the number of lost time hours in the bi-weekly pay period.

3. Lost Time Defined – "Lost time" is defined as time when the employee does not work when regularly scheduled to do so and does not receive a leave of absence with pay.
4. Forty (40) Hour Work Week – Personnel who are not assigned to twenty-four hour shifts but are assigned to work forty (40) hours per week shall have a twenty-eight (28) day FLSA work period, which shall correspond to exactly two City pay periods and shall begin at the same time as a City pay period. Forty (40) hour personnel shall continue to receive overtime pay for working hours in excess of their regularly scheduled hours.
5. 4/10 Work Schedule Defined – The 4/10 work schedule shall be defined as working four (4) days at ten (10) hours per day in an FLSA designated work week. Meal periods are regarded as hours worked for personnel who are subject to call for emergency duty. All employees on the 4/10 work schedule are subject to be called to work any time to meet any and all emergencies or unusual conditions which, in the opinion of the City Manager, Department Head or designee may require such service from said employees.

D. Overtime/Compensatory Time Off:

1. Paid Overtime:

- a. All employees covered by this MOU shall be eligible for overtime pay at one and one-half (1½) times their regular rate of pay, as defined by the FLSA, for all actual work performed in excess of the employees' scheduled hours in their declared work period. Employees assigned to fire suppression duties are scheduled to work 120 hours in the declared 15 day FLSA work period.

Effective February 2, 2019, while the 48/96 work schedule is in effect, employees assigned to fire suppression duties are scheduled to work 192 hours in the declared 24 day FLSA work period.

- b. Any employee who works overtime in either a higher or lower classification shall be compensated at the rate of pay consistent with the classification worked. However, if an employee is force hired to work in a lower classification (e.g., a Fire Engineer is force hired to work as a Firefighter) the employee shall be compensated at the rate attendant to his/her regular classification.
- c. The City will maintain and adhere to the callback staffing system as set out in the most current Policy D-3 executed by the parties. The callback staffing system and/or Policy D-3 may be modified by mutual agreement of the parties at any time during the term of the MOU.

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

2. Compensatory Time Off:

- a. Non-Exempt – All overtime worked by non-exempt employees shall be compensated at the employee's overtime rate of pay and shall not be compensated by compensatory time off.
- b. Staff Personnel – For all employees in the classification of Administrative Fire Captain, in lieu of compensation by cash payment for overtime as provided in this Article, such employees may, at their option and with the approval of the Fire Chief or designee, be compensated by compensatory time off at time and one half for each overtime hour worked.
 - 1) Compensatory time off may be accumulated to a maximum of one hundred-twenty (120) hours. Compensatory time off may be taken on an hour-for-hour basis, with the approval of the Fire Chief or his/her sworn designee. Permission shall be granted unless granting the request will unduly disrupt the Department, or unless denying the request will violate the FLSA.

Until December 31, 2018, upon his/her request, any employee may elect to convert all or a portion of compensatory time to a cash payment at the employee's regular rate of pay. Any such payment shall be made on the next regular payday, following the request, provided the request is made by the end of the previous payroll period.

Effective for calendar year 2019 and every year thereafter the previous paragraph is eliminated and the following shall apply: By December 15 (the first year being 2018) of each year, an employee may make an irrevocable election to cash out compensatory time off hours which he/she may earn in the following calendar year. An employee will receive the cash for the compensatory time off (assuming he/she has earned it) he/she irrevocably elected to cash out in the following calendar year. He/she can either receive the cash all in the first pay period in December or half the cash in the second pay period in July and the other half in the first pay period in December. However, if the employee has not earned the compensatory time off for which he/she elected to cash out (either in July or December) the employee will receive cash for the amount of compensatory time off he/she has accrued in the calendar year.

If an employee makes an irrevocable election to cash out compensatory time off in the following calendar year and uses compensatory time off in that subsequent year, the compensatory time off used will come from annual leave the employee had earned prior to January 1 of the year the employee has elected to cash out annual leave. This is to ensure that assuming an employee had a compensatory time off balance prior to January 1, the compensatory time off used will not result in a reduction in the amount of compensatory time off the employee will be eligible to cash out.

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

In addition to the above, starting in calendar year 2019, an employee who has an "unforeseen emergency" (defined as an unanticipated emergency that is caused by an event beyond the control of the employee and that would result in severe financial hardship to the employee if early withdrawal were not permitted) shall be entitled to make a request to the Director of Human Resources for a payoff of accrued compensatory time. The amount of compensatory time off which may be paid off is limited to the amount necessary to meet the emergency. The maximum payoff the employee can receive for an emergency what is in his/her compensatory time off bank.

- 2) Compensatory time off may not be received in lieu of a cash payment for time worked during major emergencies when, in the opinion of the Fire Chief or his/her sworn designee, the City may be eligible for reimbursement from another agency for said cash payment.
- c. Compensatory Time Paid Off – Immediately prior to the time of any change in the salary schedule, any accumulated time, which has not been used or paid off, shall be eligible to be paid in cash at the regular rate of pay based upon the salary schedule for forty (40) hour per week personnel in effect prior to the change.
3. Callback – Employees who are ordered to return to duty on other than their regularly scheduled shift shall receive a minimum of two (2) hours compensation at the employee's overtime rate of pay.
4. Mandatory Standby – Any employee may be placed on "mandatory standby" by the Fire Chief or his/her sworn designee. Employees on mandatory standby must remain available for immediate response during the designated standby period. All personnel placed on mandatory standby shall receive a minimum of two (2) hours compensation for each twelve (12) hours of off duty standby time or fraction thereof.
5. Electronic Communication Devices – Recognizing that electronic communication devices are part of the Fire Department's business and emergency alerting system, electronic communication devices shall be issued and worn only on a voluntary basis with the exception of members who are placed on mandatory standby who may be required to wear an electronic communication device while on such standby. An employee placed on mandatory standby may voluntarily wear an electronic communication device, and if so, shall receive a minimum of two (2) hours compensation for each twenty-four (24) hours of off duty standby time or fraction thereof. Electronic communications devices, as described above, shall not include cell phones.

Members assigned to special staff or prevention duties and voluntarily receiving other types of consideration (i.e., twenty-four (24) hour assigned vehicle) may be required to wear pagers and respond while off duty when within pager call range.

6. Required Training Attendance – An employee who is required to attend a class or seminar to maintain his/her current position shall have his/her related expenses paid by the City. If attendance occurs at a time when the employee is not scheduled to work, he/she shall be compensated on an hourly basis.

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

7. Cancellation of Overtime – Any employee who is scheduled by the City to work overtime in advance of the time set forth for such scheduling in Huntington Beach Fire Department Organization Manual, Policy D-3, which is subsequently cancelled less than seventy-two (72) hours in advance of the commencement of the scheduled overtime shift, shall receive a minimum of two (2) hours pay at the employee's overtime rate.
8. Court Time:
 - a. Employees placed on standby for a court appearance involving City business during other than their scheduled working hours shall receive a minimum of two (2) hours base rate of pay for each morning and/or afternoon session.
 - b. Employees appearing in court on City business during other than their scheduled working hours shall receive a minimum of three (3) hours pay at the overtime rate; provided, however, that if such time overlaps with the employee's scheduled working hours, said pay shall be limited to those hours occurring prior to or after the employee's scheduled work time.
 - c. Employees shall not receive both standby pay and overtime pay for the same court session. An employee who is on standby and reports to court will be paid in accordance with (b) above.
9. Pay out of Rank - Subject to the approval of the Fire Chief or his/her sworn designee, an employee may voluntarily work in a classification below his/her rank.
- E. Jury Duty – Employees who are summoned to perform jury service shall be entitled to their regular compensation while serving; provided the fees, except mileage and subsistence allowance, if any, which they receive as jurors, are remitted to the City.

If an employee calls in at night and finds out that he/she must report to jury duty the next day (and are scheduled to be working that day as part of a regular shift or on an overtime basis) he/she must contact his/her Battalion Chief as soon as possible so that coverage can be arranged for his/her shift.

Employees are required to return to work if dismissed by the Court from jury duty. The returning employee will go back to his/her shift and the employee who replaced him/her will be relieved from duty at that time for the remainder of the shift.

F. Shift Exchange/Relief:

The Fire Department shall allow Association members' exchanges of schedule pursuant to the most current Policy D-7 of the Huntington Beach Fire Department Organization Manual that has been executed by the parties. Policy D-7 (Exchange of Work Schedule) may be modified by mutual agreement of the parties at any time during the term of this MOU.

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

1. An employee may be relieved by any other employee who is qualified to relieve him/her at any time by utilizing appropriate leave (i.e., vacation). In addition, the parties acknowledge Department of Labor regulation, 29 CFR section 553.225 which provides:

It is a common practice among employees engaged in fire protection activities to relieve employees on the previous shift prior to (between the hours of 0600 and 0800) the scheduled starting time. Such early relief time may occur pursuant to employee agreement, either expressed or implied. This practice will not have the effect of increasing the number of compensable hours of work for employees employed under section 7(k) where it is voluntary on the part of the employees and does not result, over a period of time, in their failure to receive proper compensation for all hours actually worked. On the other hand, if the practice is required by the employer, the time involved must be added to the employee's tour of duty and treated as compensable hours of work.

- G. Assigned Shift Policy -- Employees of equal rank shall have the option to change assigned shifts on an employee for employee basis upon written request to and approved by the Fire Chief.

- H. Minimum Staffing and Filling Vacancies:

1. Minimum Staffing Levels – The City shall cause apparatus to be staffed with sufficient employees to assure the safety of employees and the control of risk. For these purposes, the minimum staffing of apparatus shall be as defined by Policy D-14, Minimum Staffing and Filling of Vacancies, a copy of which is attached as Exhibit G and incorporated by reference herein.
 - a. Minimum staffing in the Fire Department is set forth in Policy D-14 which is in Appendix G to this MOU.
 - b. If a Rank Paramedic is activated on a Paramedic Engine, the overall number of on-duty Firefighters will increase and the overall number of Firefighter/Paramedics will decrease for each Rank Paramedic. However, the total number of on-duty Paramedics will be no less than 16.
 - c. If the Fire Chief determines the need to convert a Truck Company to a PAU or Paramedic Truck Company, the overall number of on-duty paramedics shall be no less than 16.

- I. Probationary Period:

1. Length of the Probationary Period - Employees in the bargaining unit shall serve a probationary period when initially appointed to a position in the unit and also when they promote into a higher rank. The probationary period shall be one year from the time of initial appointment or promotion into a higher rank.
2. Extension of the Probationary Period - An employee who uses more than 120 hours of leave for any purpose by the last day of his/her probationary period will have his/her probationary period extended by the total amount of leave (paid or unpaid) used during the probationary period.

After four (4) years of continuous service to the completion of nine (9) years of continuous service, vacation time shall be accrued at the rate of one hundred thirty-six (136) hours per year for forty (40) hour per week employees, and one hundred and ninety (190) hours per year for fifty-six (56) hour per week employees.

After nine (9) years of continuous service to the completion of fourteen (14) years of continuous service, vacation time shall be accrued at the rate of one hundred sixty (160) hours per year for forty (40) hour per week employees, and two hundred and twenty-four (224) hours per year for fifty-six (56) hour per week employees.

¹ For a detailed explanation regarding conversion refer to Exhibit F

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

After fourteen (14) years of continuous service vacation, time shall be accrued at the rate of one hundred ninety-two (192) hours per year for forty hour (40) per week employees, and two hundred sixty-nine (269) hours per year for fifty-six hour (56) per week employees.

Vacation allowance shall not be accumulated in excess of three hundred forty-two (342) hours for forty (40) hour per week employees, and four hundred and eighty (480) hours per year for fifty-six (56) hour per week employees.

- b. Eligibility and Permission – No vacation may be taken until the completion of six (6) months of employment. No employee shall be permitted to take vacation in excess of actual time earned and no employee shall take vacation that is being accrued while the employee is on vacation. Vacations shall be taken only with permission of the Fire Chief or his/her sworn designee, who shall schedule all vacations with due consideration for the request of the employee and particular regard for the need of the Department.

The Fire Department operates on a three-shift basis, with personnel being assigned to the "A, B or C" Shift for work scheduling purposes. On each such shift, there shall be four (4) available vacation absences (referred to as "vacation slots"). That is, at any one time, there may be four (4) persons absent from duty on each such shift due to vacation. These slots shall be made available by rank, one (1) to Firefighters, one (1) to Fire Engineers, one (1) to Firefighter Paramedics; and one (1) to Captains. Thereafter, each additional employee shall be entitled to receive time off for requested vacation leave, so long as a qualified replacement is available to serve in his/her absence.

- c. Conversion to Cash – Until December 31, 2018, on two (2) occasions during each fiscal year each employee shall have the option to convert into a cash payment up to a total of eighty (80) hours, at the forty (40) hour rate, or one hundred twelve (112) hours at the fifty-six (56) hour rate, of earned vacation benefits during any one (1) fiscal year. The employee shall give two (2) weeks advanced notice of his/her desire to exercise such option.

Effective for calendar year 2019 and every year thereafter the previous paragraph is eliminated and the following shall apply: By December 15 (the first year being 2018) of each year, an employee may make an irrevocable election to cash out up eighty (80) hours (for employees assigned to the 40 hour workweek) at the 40 hour rate, or one hundred and twelve (112) hours (for employees assigned to the 24 hour suppression shift) at the 56 hour rate, which will be earned in the following calendar year. In the following year, the employee can receive the cash for the vacation he/she irrevocably elected to cash out in either two (2) equal increments of half of what he/she elected to cash out or one (1) increment of up the maximum they elected to cash out.

The employee would be paid one half of what he/she irrevocably elect to cash out on both the second pay day in July and the first pay day on December or the employee can elect to be paid the full amount he/she elected to cash out on the first pay day in December. However, if the employee's vacation balance is less than the amount the

HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION

employee elected to cash out (in the prior calendar year) the employee will receive cash for the amount of vacation the employee has accrued at the time of the cash out.

If an employee makes an irrevocable election to cash out vacation in the following calendar year and uses vacation in that subsequent year, the vacation used will come from vacation the employee had earned prior to January 1 of the year the employee has elected to cash out vacation. This is to ensure that assuming an employee had a vacation balance prior to January 1, the vacation used will not result in a reduction in the amount of vacation the employee will be eligible to cash out.

In addition to the above, starting in calendar year 2019, an employee who has an "unforeseen emergency" (defined as an unanticipated emergency that is caused by an event beyond the control of the employee and that would result in severe financial hardship to the employee if early withdrawal were not permitted) shall be entitled to make a request to the Director of Human Resources for a payoff of accrued vacation. The amount of vacation which may be paid off is limited to the amount necessary to meet the emergency. The maximum payoff the employee can receive for an emergency is limited to eighty (80) for forty hour employees and 112 hours for 56 hour employees.

In addition to the employee's election to cash out vacation, any vacation accumulated in excess of three hundred-forty-two (342) hours at the forty (40) hour rate shall be paid in cash at the straight time forty (40) hour rate, or four hundred and eighty (480) hours at the fifty-six (56) hour rate shall be paid in cash at the straight time fifty-six (56) hour rate on the first payday following such accumulation.

- d. Pay-Off at Termination – Except as provided in Section A.1.c. of this Article, no employee shall be paid for unused vacation other than upon termination of employment. Any vacation pay off at termination shall be at the regular rate of pay and the accrual rate the employee is earning at the time of separation.

2. Sick Leave:

- a. Accrual – The conversion factor for sick leave accrual shall be in accordance with Rule 18-9 of the City's Personnel Rules. Employees covered by this MOU shall accrue sick leave at the rate of 3.6923 hours per pay period for 40-hour week employees, and 5.1691 for fifty-six hour (56) week employees. Paychecks will identify the accrued sick leave (Accrued) and accrual rate (Constant) based on their actual work schedule, either a forty (40) hour or fifty-six (56) hour schedule. In the event of a change in work schedules, personnel will have their accrued sick leave (Accrued) and accrual rate (Constant) changed to the new schedule using the conversion factor .7143. Personnel who change from a fifty-six hour (56) schedule to a forty (40) hour schedule shall multiply their accrual rate by .7143, (see Exhibit F). Personnel who change from a forty (40) hour schedule to a fifty-six (56) hour schedule shall divide their accrual rate by .7143.
- b. Pay-Off at Termination – Upon termination for reasons other than for industrial disability retirement, an employee shall have his/her accrued sick leave paid at the regular rate of pay and the accrual rate the employee is earning at the time of

Upon termination for industrial disability retirement, an employee shall have his/her accrued sick leave paid (or have paid on him/her behalf as provided in Article IX.A.3.b) at the regular rate of pay and the accrual rate at the time of separation at twenty-five percent (25%) of unused, earned sick leave from zero (0) through four hundred-eighty (480) hours, and at fifty percent (50%) of all unused, earned sick leave in excess of four hundred-eighty (480) hours.

An employee who has retired from the City shall be entitled to participate in the available medical insurance plans and the City shall contribute toward monthly premiums for coverage in an amount as specified in accordance with this plan, provided:

- A. At the time of retirement the employee has a minimum of ten (10) continuous years of regular (permanent) City service immediately prior to retirement or is granted an industrial disability retirement. Said service must be continuous unless prior service is reinstated at the time of his/her rehire in accordance with the City's Personnel Rules; and
- B. At the time of retirement, the employee is employed by the City; and
- C. Following official separation from the City, the employee is granted a retirement allowance by the California Public Employees' Retirement System.

The City's obligation to pay the monthly premium, as indicated, shall be modified downward or cease during the lifetime of the retiree upon the occurrence of any one of the following:

- 1. On the first of the month in which a retiree or dependent reaches age 65 or on the date the retiree or dependent can first apply and become eligible, automatically or voluntarily, for medical coverage under Medicare (whether or not such application is made), the City's obligation to pay monthly premiums may be adjusted downward or eliminated. Benefit coverage at age 65 under the City's sponsored medical insurance plans shall be governed by applicable plan document.
 - 2. In the event of the death of any employee, whether retired or not, the amount of the retiree medical insurance subsidy benefit which the deceased employee was receiving at the time of his/her death or would be eligible to receive if he/she were retired at the time of death, shall be paid on behalf of the spouse or dependent(s) for a period not to exceed twelve (12) months.
- D. Industrial Disability Retirees -Industrial disability retirees with less than ten (10) continuous years of regular (permanent) service shall receive a maximum monthly payment toward the premium for health insurance of \$121. Payments shall be in accordance with the stipulations and conditions, which exist for all retirees. Payment shall not exceed dollar amount, which is equal to the full cost of premium for employee only.
 - E. Maximum Monthly Subsidy Payments - The payment amounts may be reduced each month as dependent eligibility ceases due to death, divorce or loss of dependent child status. However, the amount shall not be reduced if such reduction would cause insufficient funds needed to pay the full premium for the employee and the remaining dependents. In the event no reduction occurs and the remaining benefit premium is not sufficient to pay the premium amount for the employee and the eligible dependents, said needed excess premium amount shall be paid by the employee.

All retirees, including those retired as a result of industrial disability whose number of years of continuous regular (permanent) service immediately prior to retirement exceeds ten (10) years, shall be entitled to maximum monthly payment of premiums by the City for each year of completed City service as follows:

EXHIBIT D – TILLER CERTIFICATION

Following is the method of application regarding Tiller Certification, Article V, Section E-4 of the Huntington Beach Firefighter's Association MOU:

Article V, Section E-4-Tiller Certification

- a. Tiller Certification -- The Huntington Beach Training Manual identifies the method and requirements for Tiller Certification.
- b. Class A, B, or C California Driver License with a Firefighter Endorsement or Class B Firefighter Restrictive License.--State Department Of Motor Vehicles established.

If the Firefighter was Tiller Certified and had a Class B Firefighter Restrictive License as of September 5, 1998, they will receive the identified compensation effective that date.

- If, after September 5, 1998, a Firefighter obtains Tiller Certification and the Class A, B or C California Driver's License with a Firefighter Endorsement or a Class B Firefighter Restrictive Drivers License, they will be eligible for compensation following application. HUNTINGTON BEACH FIREFIGHTERS' ASSOCIATION
EXHIBIT F - 40/56-HOUR CONVERSION VACATION AND SICK LEAVE ACCRUAL

LEAVE BENEFITS
(EXAMPLE)

Permanent, full-time employees shall accrue annual vacations or sick leave at their appropriate assigned work schedule rate, either 40-hour or 56-hour workweek. The actual accrual, as reflected on their payroll check will also reflect their actual work schedule. In the event of a change in work schedules, personnel will have their accrual rate (Constant) and actual accrual (Accrued) change to the new schedule using the conversion factor, .7143. Paychecks will reflect the accrual rate based on the actual work schedule, either forty (40) or fifty-six (56) hour schedule. All maximum accruals will be modified to reflect the proper number of hours, either 40-hour or 56-hour workweek.

EXAMPLE – CURRENT EXCEPTION

40-HOUR EXAMPLE

Paycheck stub shows 1000 hours accrued sick leave.

Employee uses 24 hours sick time.

$1000 \text{ hours} - 24 \text{ hours} = 976 \text{ hours}.$

56-HOUR FIREFIGHTER PARAMEDIC

Paycheck stub shows 1000 hours accrued sick leave.

Employee uses 24 hours sick time.

$1000 \text{ hours} - 24 \times .7143 = 17.1 \text{ hours} = 982.9 \text{ hours}$

(This mathematical transaction takes place for each exception.)

EXCEPTION

ALL 56-HOUR PERSONNEL

Modify to 56-hour schedule - current accrued hours divided by .7143.

40-hour rate paycheck stub indicates 1000 hours sick leave.

$1000 \text{ hours divided by } .7143 = 1400 \text{ hours}$

1400 hours would be reflected on the employee's 56-hour workweek paycheck stub.

56-hour schedule employee uses 24-hours sick time - hours are taken hour for hour.

$1400 \text{ hours} - 24 \text{ hours} = 1376 \text{ hours remaining}.$

ACCRUAL RATE

Current 40-hour employees - sick leave accrual - 3.6923 hours per pay period.

56-hour Firefighter Paramedic employee would accrue sick leave at 5.1691 (3.6923 divided by .7143 = 5.1691) hours per pay period. This would accurately indicate accrual at the 56-hour rate.

56-HOUR EMPLOYEE ASSIGNED TO A 40-HOUR POSITION

Upon change of 56-hour Firefighter Paramedic employee to a 40-hour employee.

Accrued sick leave = 1400 hours

$1400 \times .7143 = 1000$ hours

1000 hours would be reflected on pay check.

Sick leave accrual would return to 3.6923 per pay period

 - 2) The parties may present opening statements.

Within the time specified respondent may file one or more notices of defense upon any or all of these grounds but all of these notices shall be filed within that period unless the agency in its discretion authorizes the filing of a later notice.

The respondent shall be entitled to a hearing on the merits if the respondent files a notice of defense, and the notice shall be deemed a specific denial of all parts of the accusation not expressly admitted. Failure to timely file a notice of defense shall constitute a waiver of respondent's right to a hearing, but the agency in its discretion may nevertheless grant a hearing. Unless objection is taken as provided in Government Code Section 11506, all objections to the form of the accusation shall be deemed waived.

The notice of defense shall be in writing signed by or on behalf of the respondent and shall state the respondent's mailing address. It need not be verified or follow any particular form.
