**SOME THINGS YOU SHOULD KNOW**

- Complete the application below and submit by mail or fax and obtain a permit before you operate your alarm system; failure to do so may result in a \$100 fine. Alarm permits are transferable.
- Changes in permit information must be submitted in writing within 30 days.
- Audible alarms that sound for more than 15 minutes may result in a \$100 fine.

**AVOIDING FINES**

Most alarms can be easily prevented by following these guidelines:

- Make sure all alarm users and key holders are trained to use the system, and know the code to arm and disarm the system, including how to cancel a false alarm.
- Be sure doors and windows are properly closed and locked before arming the system. Unsecured doors and windows are easily jarred, resulting in false alarms.
- Be sure motion sensors are adjusted correctly, especially if you have pets.
- Have an arming delay of at least 60 seconds and arrange with your alarm company NOT to call the police if the system goes off immediately after it has been armed. Frequently, people take too long to exit the premises, or set the system off by re-entering.
- If your alarm system is easily set off by thunderstorms or power outages, have it repaired or adjusted.
- Periodically check the batteries and test your alarm system.
- Read and follow the instructions in your operator's manual.

Call (706) 883-2648 or contact your alarm company, if you have any questions.
