WHEREAS, the Rule further observes that:

The standard allowance provides an estimate of revenue loss that is based on an extensive analysis of average revenue loss across states and localities, and offers a simple, convenient way to determine revenue loss particularly for Coronavirus State and Local Fiscal Recovery Fund's smallest recipients.

This change is intended to promote administrative efficiency and simplify revenue loss calculation for smaller recipients.

WHEREAS, the Rule further clarifies that recipients can use:

SLFRF funds on government services up to the revenue loss amount, whether that be the standard allowance amount or the amount calculated using the [Final Rule four-step process]. Government services generally include any service traditionally provided by a government, unless treasury has stated otherwise.
