AGENDA

CITY COUNCIL Q1 STRATEGY MEETING

Tuesday, February 24, 2026

7:00PM at City Hall

Mayor – Donald Deering

Council Member Place 1 – Mike Laye

Council Member Place 2 – Paul Baker

Council Member Place 3 – Amanda Wilson

Council Member Place 4 – Clayton Laughter

Council Member Place 5 – Derrick Little

Q1 STRATEGY MEETING

1. **Call to Order and Declaration of Quorum –**

Time:

2. **Invocation -**

3. **Pledge of Allegiance to the United States of America -**

I pledge Allegiance to the flag, of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with Liberty and Justice for all.

Pledge of Allegiance to the Texas Flag -

Honor the Texas flag, I pledge allegiance to thee, Texas, one state under God, one and indivisible.

4. **Public Comment -**

Citizens are invited to address the City Council with public comments. Comments regarding items for which notice has not been given will be limited to three minutes, prior to discussion of agenda items, and Council responses shall be in accordance with Sec. 551.042 of the Texas Government Code. Comments regarding an item on the agenda may be given before or during discussion of that item. An intentional act intended to disrupt a government meeting is prohibited.

Q 1 STRATEGY AGENDA

5. Deliberation and take any appropriate action on approving the Cancellation of May 2, 2026, General Election as outlined in Ordinance No. 2026-3. This ordinance officially calls for the General Election to be cancelled on May 2, 2026.

Summary: An ordinance declaring unopposed candidates in the May 2, 2026, general city election of city officials elected to office; canceling the election; providing a severability clause; and providing an effective date.

6. Deliberate and take any appropriate action regarding the City of Nevada's Infrastructure.

Summary: The City Council will review, discuss, and evaluate matters related to the City of Nevada's infrastructure and may take any appropriate action based on the discussion.

7. Deliberate and take any appropriate action regarding future community events and cultural initiatives.

Summary: The City Council will discuss future community events and cultural initiatives, including proposed ideas, goals, community involvement, scheduling, budgetary considerations, and may take any appropriate action deemed necessary.

8. Deliberate and take any appropriate action on matters related to public safety within the city limits.

Summary: The City Council will deliberate on matters related to public safety within the City of Nevada, including law enforcement and overall community safety concerns.

9. Deliberate and take any appropriate action on the future Corridor Plan prepared by Collin County and the Texas Department of Transportation.

Summary: The City Council to review the Corridor Plan provided by Collin County and the Texas Department of Transportation.

10. Deliberate and take any appropriate action recommending amendments to the City's Comprehensive Zoning Ordinance and Zoning Map to comply with the new Texas statute requiring all municipalities to permit HUD-code manufactured homes within the municipality's boundaries under at least one residential zoning classification, residential zoning district, or dedicated zoning classification.

Summary: The City Council will consider recommending amendments to the Comprehensive Zoning Ordinance and Zoning Map to ensure compliance with new Texas law regarding the placement of HUD-code manufactured homes and any other areas of town needing zoning.

11. Deliberate and take any appropriate action regarding the Annexation of right-of-way within the city limits.

Summary: City Council will consider the annexation of right-of-way areas within the city limits. The City Attorney, Jim Shepherd, will provide information regarding new regulations governing the annexation of right-of-way.

12. Deliberate and take any appropriate action regarding a recap of the results of the 2025 City of Nevada Resident Survey and the 2025 Economic Development Corporation Survey.

Summary: The City Council will review a detailed recap of the 2025 City of Nevada Resident Survey and the 2025 Economic Development Corporation Survey, including feedback from participants, and may take appropriate action based on the results.

13. Deliberate and take any appropriate action regarding the implementation of the Keep Nevada Beautiful Program.

Summary: The City Council will review and discuss the proposed implementation of the Keep Nevada Beautiful Program. Mayor Pro Tem will provide insight and share details providing an overview of what the program will include.

14. Deliberate and take any appropriate action regarding the City of Nevada's branding, mission, and slogan.

Summary: The City Council will review and discuss the City of Nevada's branding, mission, and slogan, including potential updated or amendments and decide on any next steps.

15. Deliberate and take any appropriate action regarding grant writing and whether the city should prepare and submit grants in-house or pursue professional grant writing services.

Summary: The City Council will discuss opportunities for applying for various grants available to the City of Nevada. The discussion will also include consideration of whether grant applications should be prepared by City staff or if the city should seek outside professional services to assist with grant writing and administration.

16. Deliberate and take any appropriate action on possible amendments to the Future Land Use Map.

Summary: The City Council to review and discuss possible amendments to the Future Land Use Map, including changes to zoning, land use, and planning goals.

17. Deliberate and take any appropriate action regarding the auction process and required notices for the sale of city-owned property specifically located at 307 Kerens Street and 407 Collin Street, Nevada, Texas 75173.

Summary: Jim Shepherd, City Attorney, to brief the City Council on the legal requirements for the auction process and the required notices for the sale of city-owned property.

18. Deliberate and take any appropriate action regarding Emergency Warning System needs for the City of Nevada.

Summary: The City Council will discuss the potential purchase of a tornado siren for the City of Nevada, including available equipment options, estimated costs, funding considerations, and the operational and maintenance requirements associated with the system.

FUTURE AGENDA ITEMS

19. Future Agenda Item -

Future agenda items shall be designated by the mayor. In addition, a motion and a second from any two Councilpersons shall be sufficient to add an agenda item for a future meeting. Staff and council shall have prior consent from the mayor to add an agenda item for a future meeting.

- 1.
- 2.
- 3.
- 4.
- 5.

As authorized by Section 551.071 (2) of the Texas Government Code, this meeting may be convened into closed Executive Session for the purpose of seeking confidential legal advice from the City Attorney on any agenda item listed herein.

20. Executive Session –

Time:

21. Regular Session: Reconvene from Executive Session –

Time:

22. If required, take any action deemed necessary as the result of any executive session deliberations.

23. Adjournment / Closing -

Time:

CERTIFICATION

This meeting will be conducted pursuant to the Texas Government Code Section 551.001 et seq. At any time during the meeting, the Council reserves the right to adjourn into executive session on any of the above-posted agenda items in accordance with the sections 551.071 [litigation and certain consultation with attorney], 551.072 [acquisition of an interest in real property], 551.073 [contract for gift to City], 551.074 [certain personnel deliberations] or 551.076 [deployment/ implementation of security personnel or devices] 551.087 [deliberation regarding economic development negotiations].

The City of Nevada is committed to compliance with the Americans with Disabilities Act. Reasonable modifications and equal access to communications will be provided upon request. **Please call the City Secretary at (469) 788-7473 Ext: 101 for information.** Attendance by Other Elected or Appointed Officials: It is anticipated that members of other city boards, commissions and/or committees may attend the meeting in numbers that may constitute a quorum of the other city boards, commissions and/or committees. Notice

is hereby given that the meeting, to the extent required by law, is also noticed as a meeting of the other boards, commissions and/or committees of the City, whose members may be in attendance. The members of the other boards, commissions and/or committees shall not deliberate or decide any matters relating to items listed on this agenda and no minutes shall be prepared.

A member or member of the government body holding this meeting may attend via videoconference pursuant to the provisions of Tex. Gov't Code 551.127. In the event that a member or members of the government body holding this meeting attends via videoconference, a quorum of the government body holding this meeting will be physically present at the location identified above.

I certify that the above agenda for this meeting of the City Council of the City of Nevada, Texas, was posted on the bulletin board at City Hall, in Nevada, Texas, **Wednesday, February 18, 2026, by 5:00pm** pursuant to Chapter 551 of the Texas Government Code.

AGENDA ITEM

#5

ORDINANCE NO. 2026-3
(Cancellation of May 2, 2026, General Election)

**AN ORDINANCE DECLARING UNOPPOSED CANDIDATES IN THE
MAY 2, 2026, GENERAL CITY ELECTION OF CITY OFFICIALS
ELECTED TO OFFICE; CANCELING THE ELECTION; PROVIDING A
SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.**

WHEREAS, a General City Election was called for May 2, 2026, for the purpose of electing members to the City Council; and

WHEREAS, the City Secretary has certified in writing that there is no proposition on the ballot, that no person has made a declaration of write-in candidacy, and that each candidate on the ballot is unopposed for election to office (Exhibit A); and

WHEREAS, under these circumstances, Title 1, Chapter 2, Subchapter C, Texas Election Code, authorizes the City Council to declare the candidate's election to office and cancel the election;

**NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE
CITY OF NEVADA TEXAS AS FOLLOWS:**

Section 1. The following candidates, who are unopposed in the May 2, 2026, General City Election, are declared elected to office, and shall be issued certificates of election following the time the election would have been canvassed:

<u>Candidate</u>	<u>Place</u>
Donald Deering	Mayor
Michael Laye	Alderman Place 1
Paul Baker	Alderman Place 2

Section 2. The May 2, 2026, General City Election is cancelled, and the City Secretary is directed to cause a copy of an Order of Cancellation to be posted on Election Day at each polling place that would have been used in the election. (Exhibit B)

Section 3. Should any word, sentence, paragraph, subdivision, clause, phrase or section of this Ordinance be adjudged or held to be unconstitutional, illegal, or invalid, the same shall not affect the validity of this Ordinance as a whole, or any part or provision thereof other than the part so decided to be invalid, illegal or unconstitutional.

Section 4. This Ordinance shall take effect upon its final passage.

ADOPTED this 24th day of February 2026 by the City Council of Nevada, Texas.

APPROVED:

Donald Deering, Mayor

ATTEST:

Heather Schell, City Secretary

APPROVED AS TO FORM:

City Attorney, James E. Shepherd

Exhibit A - Certification of Unopposed Candidates

**INTERLOCAL AGREEMENT
BETWEEN COLLIN COUNTY AND THE CITY OF NEVADA
FOR LAW-ENFORCEMENT SERVICES**

1. **Parties and Authority.** Collin County and the City of Nevada enter this interlocal agreement for the County to provide law enforcement services to the City of Nevada under the Interlocal Cooperation Act, Texas Gov't Code, Chapter 791. The City of Nevada may contract for officers under Sections 791.011 and 791.003(4)(A), Gov't Code.

2. **Term.** This agreement is effective as of the date signed by the last party to sign it (the Effective Date), and its initial term will continue until September 30 in the next calendar year. The initial term may be a partial year. Afterwards, the agreement will renew for one-year periods between October 1 and September 30, unless terminated under section 6. *See* Gov't Code, § 791.011(f), (i).

3. The County's Obligations

3.1 **Law-Enforcement Services.** Through the Sheriff's Office, the County will provide the City of Nevada with law-enforcement services, including traffic enforcement within the City limits and issuance of citations within the discretion of the deputy provided such are filed with the JP2 Court and not the Nevada Municipal Court, in accordance with the Sheriffs Office's policies and procedures; this agreement; and local, state, and federal law.

"Law-enforcement services" means the services the Sheriff's Office provides to fulfill a sheriff's or a peace officer's duties under Texas law, such as the Code of Criminal Procedure, to keep the peace, intervene to prevent or suppress crime, execute lawful process issued by a judge, and accept custody of persons committed to the county jail. These services include patrolling, responding to calls for police assistance, investigating offenses, enforcing state traffic law, and operating the county jail. *See Weber v. City of Sachse*, 591 S.W.2d 563 (Tex. Civ. App.-Dallas 1979, writ dismissed). "Law-enforcement services" *exclude* the (1) enforcement of rules, regulations, or permit requirements enacted by the City of Nevada or a home-owners' association, or restrictions in property deeds, (2) enforcement of regulations or prohibitions on vehicular travel on private property or private roads within the meaning of Section 542.005, Transportation Code, or Section 49.217(c), Water Code, (3) enforcement of county or other traffic regulations that may later be extended to roads in the City of Nevada under an agreement under Section 151.151(b), Transportation Code, or as a result of a petition and order under Sections 542.007-542.0081, Transportation Code, or similar provisions (that is, the City or a district or subdivision and County would have to follow those provisions in the future for such traffic enforcement), (4) provision of detention services beyond taking custody of persons accused of violating state law under Articles 2.17 and 2.18, Code of Criminal Procedure (that is, the Sheriff will not accept custody of persons accused of a local Class C misdemeanor, *see* Tex. Att'y Gen. Op. No. JM-0151 (1984) (the City of Nevada and the County would have to sign a separate jail-services agreement for such services)), (5) provision of a school resource officer, *see* Subchapter M, Chapter 1701, Occupations Code, or similar services, and (6) provision of specific security services, such as security at construction sites in the City of Nevada to prevent or deter theft.

3.2 Dedicated Patrol Services. Through the Sheriff's Office, the County will dedicate two patrol deputies to provide services to the City of Nevada. The Sheriff's Office will schedule these deputies to patrol in the City of Nevada during their shifts or duty time. Ordinarily only one deputy will patrol in the City of Nevada in one shift. The County will structure shifts and work hours to provide the best coverage and service to the City of Nevada, in light of the City's requests and the history and pattern of service calls, reports or occurrences of crime, and other law-enforcement or emergency circumstances.

Patrol deputies work 84 hours in a 14-day work period. Each dedicated deputy may use vacation, compensation (comp), personal, and sick time accrued or allowed by County policy, and the Sheriff's Office may require a dedicated deputy to attend specific training. The County will not ordinarily provide alternate personnel during a dedicated deputy's time off. But the County will use reasonable efforts to coordinate the scheduling and time off of the dedicated deputies to provide regular service to the City of Nevada.

During a shift or other duty time, a dedicated deputy will use reasonable efforts to devote full time and attention to serving and patrolling within the City of Nevada. A dedicated deputy may, however, leave the City's limits to respond to emergency calls for service or to respond to calls to assist other deputies or officers. In addition, other deputies or officers may assist a dedicated deputy as needed in the City of Nevada.

The City of Nevada may also confer with the County about increasing the number of dedicated patrol deputies. The County would likely require 12-18 months to hire and train new deputies to start additional dedicated deputies. The County would adjust the City of Nevada's annual reimbursement amount under section 4.

3.3 Liquidated Damages. To fulfill its obligation to dedicate patrol deputies to work inside the City's boundaries, the County will make a substantial investment by hiring and training new deputy sheriffs to provide those services or by reassigning current deputy sheriffs to provide the services and hiring new deputy sheriffs to backfill. The compensation for these new deputy sheriffs may fall within the scope of SB 23, 87th Legislature, Reg. Sess. 2021 (Local Gov't Code, Chapter 120). If the City terminates the agreement or this amendment or otherwise reduces the number of deputy sheriffs patrolling within its borders (including by materially breaching and forcing the County to terminate), then the City will pay the County liquidated damages. Liquidated damages will equal the total compensation (salary and benefits) for each deputy sheriff removed from patrolling in the City multiplied by three (approximately three years of compensation). At FY24 levels (including 9 months of a 5% increase, which will take effect just after January 1, 2024), this amount could be approximately \$600,000 thousand, if all two were removed (full compensation of \$68,422 + \$29,314 (for a deputy sheriff (556) on 84-hour schedule) = \$97,736 x 2 deputies x 3 years= \$586,416). This calculation is a reasonable forecast of just compensation in light of the County's investment and its lessened authority to adjust its budget under SB 23 (87(R)).

3.4 Additional Definitions. A "peace officer" means a deputy sheriff licensed under Chapter 1701, Occupations Code, with a commission or appointment carried by the Sheriff's Office.

"To provide patrol services" includes all reasonably necessary equipment and training for a peace officer to provide patrol services, including a patrol vehicle.

"Full-time work or duty schedule" means an officer's complete work schedule under the FLSA before eligibility for overtime or comp time under 29 CFR Part 553, less the reductions in this duty time under Collin County's personal-time-off or other leave policies. Or short periods away from duty to attend mandatory training, answer emergency calls or assist other peace officers as required.

3.5 Extra Services. If the City of Nevada wants the Sheriff's Office to provide services in addition to those services listed in sections 3.1 and 3.2, such as security during a special event, the City of Nevada will contact the County's liaison officer (sections 3.9 and 10). The parties may discuss the Sheriff's Office's ability to accommodate the request or whether the City should use another means, such as hiring deputies or other peace officers for off-duty work.

3.6 Personnel, Planning, and Supervision. The County will employ qualified and licensed peace officers to perform services under this agreement. The County will plan, organize, and supervise all tasks and matters that are part of its performance under this agreement. The County will assign, allocate, direct, supervise, and discipline County personnel.

3.7 Requests from the City of Nevada. The County will promptly consider all requests from the City of Nevada received through the liaison officer or the Sheriff's Office communications division (Dispatch) for law-enforcement services. The County will make every reasonable effort to comply with these requests consistent with (1) this agreement, (2) the Sheriff's Office's policies and procedures, and (3) local, state, and federal law.

3.8 Suspension of Services. In the case of emergency, *force majeure* events, or public safety reasons, the Sheriff may suspend the provision of dedicated patrol services under this agreement. The City of Nevada's reimbursement obligation will be adjusted under section 4.3.

3.9 The County's Liaison Officer. The City of Nevada may confer with the County's liaison officer – a Captain in, or the Assistant Chief of, Operations (section 10)-about the County's performance under this agreement. The Assistant Chief and chain of command will supervise the deputies, officers, and employees who provide the County's performance.

3.10 Reports of Services. The Sheriff's Office will provide the City of Nevada with written reports of law-enforcement activity within the City's borders in form and content consistent with the Sheriff's Office's policies and procedures.

3.11 Patrol Vehicles. The County will provide the patrol vehicle or vehicles necessary to equip the deputies providing dedicated patrol services. The County will equip each vehicle and mark it with appropriate decals. During the agreement's term or a vehicle's patrol life, the County will retain title to the vehicle and will be responsible for the warranty, if any, insurance, service and maintenance, and fuel. The County alone will decide when a vehicle is no longer fit for patrol service. Typically, the Sheriff's Office operates a patrol vehicle for about 110,000 miles before removing it from service. This figure may be higher, depending on the schedule for vehicle delivery.

3.12 Option for the City of Nevada to Order and Take Title to a Patrol Vehicle. Currently, the

County uses an SUV (*e.g.*, Explorer) or pickup truck (*e.g.*, F-150 Responder) as patrol vehicles. If the City of Nevada meets its payment obligations related to a patrol vehicle under section 4, then the County will transfer the patrol vehicle to the City of Nevada at the end of its service. “Transfer” includes transferring possession of the vehicle, as well as the vehicle's title and ownership of the warranties or other plans that cover the vehicle or equipment. The County will not transfer rights in breach of a contract with another party, such as those for proprietary licenses or software, incident-reporting systems, or licenses or software that would give the City of Nevada access to county or restricted databases or infrastructure. At its expense, the County will de-badge a vehicle and remove software or electronic data as reasonably necessary to meet the County's obligations to protect criminal justice or other confidential information. The City of Nevada will bear the costs of transferring a vehicle's title and all other costs associated with the transfer. The parties intend to comply with Chapter 791, Government Code, and Section 263.152, Local Government Code, related to the disposition of surplus property.

3.13 Body-Worn Cameras. When the Sheriff’s Office implements a policy to equip patrol deputies with body-worn cameras, *see* Occupations Code, §§ 1701.651-1701.663, then the deputies who provide services under this agreement will receive the same equipment.

The County alone will be responsible for complying with state body-worn-camera law, including the provisions related to deputy training, policy, data retention, release of recordings or other information, and reporting, and the County will own all data and recordings. In an incident involving the City of Nevada, the County and Sheriff’s Office will provide the City of Nevada’s officials and their attorneys and experts with reasonable viewing of any relevant recordings – including those made by in-vehicle or body-worn cameras--consistent with investigative, law-enforcement, or criminal- or civil-defense requirements, including those in Section 1701.660 of the Occupations Code. The Sheriff alone will make all decisions about public or other release of records, including decisions under Sections 1701.660-1701.663, Occupations Code, or the Public Information Act, Texas Gov't Code, Chapter 552.

The County alone will retain all body-worn-camera property at this agreement's end.

3.14 Public Information Act Requests. If the County receives a request under the Public Information Act, Chapter 552, Gov't Code that relates to the City of Nevada the County will notify the City of Nevada in accordance with requirements under Section 552.305, Gov't Code.

4. The Obligations of the City of Nevada

4.1 Payments. The City of Nevada will pay the County the reimbursement amount set out in sections 4.2 and 4.3 each contract year. The City of Nevada may pay the amount in four quarterly installments or in fewer payments.

4.2 Amount

The amount of the City of Nevada's annual payments is the amount necessary to compensate–reimburse–the County for the cost of providing the services under this agreement for the contract

year. *See* Gov't Code, § 791.011(e). The County's costs include the annual compensation of each dedicated patrol deputy (salary and benefits), the cost of a deputy's equipment, and the cost of a patrol SUV (*e.g.*, Explorer) or patrol pickup (*e.g.*, F-150 Responder) with equipment, and each vehicle's annual fuel and maintenance. The County's costs will not include indirect costs. The County will document all reimbursable costs each contract year.

For calculating a dedicated patrol deputy's annual compensation, the County's fiscal year is from October 1 to September 30. However, the Commissioners Court may adjust the compensation of county employees after January 1 each year. If so, the County will adjust the City of Nevada's payment amount for the portion of the contract year to which the compensation adjustment applies.

The City of Nevada will reimburse the County for the full cost of a dedicated patrol vehicle that the Sheriff's Office puts into service within the City in that contract year. If the Sheriff's Office first puts the dedicated patrol vehicle in service at a time when the City of Nevada cannot adjust its budget and meet its obligation to pay for the vehicle in that contract year, then the City of Nevada may postpone paying for the vehicle to the City's next budget year. The estimated costs of the deputies and vehicles, with maintenance and fuel, for fiscal year 2024 include:

Deputy Salaries and Benefits (two positions)	\$222,164
Vehicle, Fuel & Maintenance (two patrol vehicles)	\$327,582
Total Estimated Costs for FY 24	\$549,746

4.3 Pro Rata Adjustments. The County will reduce the amount of the City of Nevada's annual payment for any time during the year in which the Sheriff's Office determines that it is unable to dedicate one of the agreed patrol deputies to work in the City of Nevada.

4.4 Annual Procedure

Each year, the County and the City of Nevada will confer about their expectations for the calculation of the City's payment amount in the upcoming contract year. The parties will confer in time for both parties to appropriately plan for their budget years. The County will share expected compensation, equipment, and vehicle costs. The City of Nevada, however, understands that the County will not know of any deputy compensation changes until after January 1 of each year.

4.5 Maps. The City of Nevada will reasonably provide the Sheriff's Office with accurate and current maps of its territorial limits and extraterritorial jurisdiction, if any.

4.6 Cooperation. The City of Nevada will make reasonable efforts to provide at least part-time office space and internet connection for the dedicated patrol deputies to write and submit reports and make phone calls as part of their work as peace officers.

5. Notice and Conference; Suspension of Services

5.1 Notice & Conference. If a party believes that the other party has not met, or is not meeting, an obligation, the party will contact the other's liaison officer to discuss the issue. If the aggrieved party does not believe that this informal contact, discussion, and ensuing efforts have fixed the issue, then the party will notify the other's liaison officer in writing of the party's belief or complaint

with reasonable detail to permit the other party to address the issue. The other party will then have a reasonable time to address the issue and improve its performance. The parties should assess a "reasonable time" under the relevant circumstances and with regard to the issue's nature.

5.2 Suspension. If the City of Nevada fails to make a payment as required within 30 days of the due date, the County may suspend service until it receives payment, or the County may terminate the agreement under section 6.

5.3 Notice of Suspension. If the County decides that it will suspend service to the City of Nevada for any reason, then the County will notify the City's liaison officer by telephone and in writing of the date the County will suspend service. The County will use reasonable efforts to provide advance notice of at least five calendar days.

6. Termination

6.1 Notice & Conference. Before a party tries to terminate this agreement, the party must follow the notice-and-conference procedures in section 5.1.

6.2 Termination. A party may terminate this agreement by giving 90 days' written notice to the other party.

6.3 Recoveries & Remedies. The County will make a substantial investment in this agreement, particularly in hiring and training new deputies to provide dedicated patrol services and buying patrol vehicles. The City of Nevada must reimburse the County for all patrol vehicles purchased for service under this agreement, regardless of when this agreement ends or is terminated.

If the agreement ends before the end of a contract year, then the City of Nevada must pay a prorated amount of reimbursement for deputy compensation for the portion during which the County provided services.

If the City of Nevada terminates the agreement, then the City of Nevada will make all payments due within 30 days of the termination.

If the County terminates the agreement in contract year 1, then the City of Nevada may pay the reimbursement amount for each patrol vehicle under the terms for repayment in year 1, even if the parties do not otherwise perform under the agreement. In other words, if the County terminates in contract year 1, then the City of Nevada's rights to pay reimbursement on the terms of section 4 survive.

6.4 Final Reports. At this agreement's expiration or termination, the County will provide all reports that are outstanding under section 3.10 within 15 business days of the expiration or termination.

7. Compliance with Laws. Each party will comply with all federal, state, and local laws and regulations applicable to its conduct. A party's violation of law that affects the parties' relationship or rights under this agreement is a breach of this agreement as well.

8. Limitation of Extraordinary Remedies. While the parties are entitled to the benefit of their bargain, the parties are not liable to each other for damages in excess of the benefit of the bargain,

whether identified as consequential, incidental, indirect, special, punitive, or exemplary damages or for damages that arise from special circumstances. A party will not sue for such damages. This provision does not affect either party's rights to remedies set out in this Agreement, including the rights in sections 3.10, 3.12, 3.13, 3.14, 4.2, 4.3, 6.3, 6.4, 7, 13, 14, 15, and 16, and the County's rights to reimbursement amounts for patrol vehicles and deputy compensation for all periods the County performed under this agreement.

9. No Third-Party Beneficiaries. The City of Nevada and the County do not intend to create or confer a benefit on any person or entity, who is not a party to this agreement. The parties do not intend to create a claim in favor of any person or entity, who is not a party to this agreement.

To the extent that a party uses insurance or similar coverage or assistance in performing under this agreement, then "the City of Nevada," "the City," and "the County" will be interpreted to include the insurance company or other relevant entity.

10. Sheriff's Office's Liaison Officer. The City of Nevada may contact a Captain or the Assistant Chief in Operations in the Sheriff's Office, 972.547.5100, as the County's liaison officer for purposes of discussing services or making requests under this agreement.

11. The City of Nevada's Liaison Officer. The County will confer with the City of Nevada's liaison officer—the City Manager of the City of Nevada—about this agreement.

12. Other. Each party represents and warrants that the person or persons signing this agreement have the requisite authority under Section 791.011(d)(1), Gov't Code. Each party paying for the performance of a governmental function or service must make those payments from current revenues available to it under Section 791.011(d)(3), Gov't Code. The parties are not forming a partnership or joint venture by signing this agreement, and the parties waive no form of immunity. *See* Gov't Code, § 791.006(c), (d). The parties will treat a photocopy of this agreement as an original for all purposes.

13. Choice of Law and Venue. Texas law will govern this agreement and the relationship between, and the claims and defenses of, the parties. *See* Gov't Code, § 791.012. Courts in Collin County will have exclusive jurisdiction.

14. No Additional Waiver. No waiver or waivers of any breach of default by either party of any term, condition, covenant, or liability under this agreement, or of performance by the other party of a duty under this agreement will be construed to be a waiver of subsequent breaches or defaults of any kind, under any circumstances.

15. Immunity not Waived. The parties do not waive any form of immunity by signing this agreement. This agreement does not create any form of personal liability on the part of any official, officer, employee, or agent, who is an individual, of a party.

16. Modification. The parties will modify this agreement with a writing signed by each party's governing body under section 791.011(d), Gov't Code. A party will not try to enforce an ostensible modification that does not meet section 791.11(d), Gov't Code.

17. Severability. The agreement's provisions are severable, and if a court holds any word, phrase,

clause, sentence, paragraph, section, or other part or its application to a person or circumstance to be invalid or unenforceable, the remainder of the agreement will not be affected.

18. **Assignment.** A party will not try to assign its rights or duties under this agreement to another person or entity without the other party's consent.

19. **Notices.** A party will send any notice required under this agreement by the U.S. Postal Service, Certified Mail to:

If to the City of Nevada:

COOPERATIVE PLANNING AGREEMENT

STATE OF TEXAS §

COUNTY OF TRAVIS §

THIS COOPERATIVE PLANNING AGREEMENT ("Agreement") made by **Texas Department of Transportation**, an agency of the State of Texas ("TxDOT"), and **Collin County**, a county of the State of Texas (the "County") is effective on the date it is fully executed by both parties.

RECITALS

WHEREAS, Section 201.619 of the Texas Transportation Code authorizes TxDOT and a county to enter into an agreement that identifies future transportation corridors within the county, which must be derived from existing transportation plans; and

WHEREAS, if all or part of a subdivision which requires a plat is located within a future transportation corridor as identified in an agreement under Section 201.619 of the Texas Transportation Code and as shown in a final environmental decision document, Section 232.0033 of the Texas Local Government Code authorizes the commissioners court of the county in which the land is located to either (i) refuse to approve the plat for recordation, or (ii) approve the plat on the condition that it states that the subdivision is within that area of alignment; and

WHEREAS, TxDOT and the County desire to identify future transportation corridors in Collin County, Texas and establish the preferred method of managing plat requests for subdivisions within future transportation corridors;

AGREEMENT

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements of the parties hereto to be by them respectively kept and performed as hereinafter set forth, it is agreed as follows:

1. IDENTIFICATION OF FUTURE TRANSPORTATION CORRIDORS

TxDOT and the County hereby identify the corridors (as that term is defined in Texas Transportation Code §201.619) described in Exhibit A, attached and incorporated into this Agreement by reference, as future transportation corridors in Collin County, Texas (each, a "Future Transportation Corridor").

2. NOTICE OF AGREEMENT

Upon execution of this Agreement by TxDOT and the County, and upon the execution by both parties of any amendment to this Agreement, TxDOT shall publish in the Texas Register and a newspaper of general circulation in Collin County, Texas a Notice of Agreement in substantially the form attached as Exhibit B and incorporated into this Agreement by reference.

3. COUNTY PLAT APPLICATIONS

TxDOT and the County recognize that if all or part of a subdivision for which a plat is required under Chapter 232 of the Texas Local Government Code is located within the area of a Future Transportation Corridor (such a subdivision, a "Corridor Subdivision"), the County has the authority to approve or disapprove the plat for recordation in any manner permitted by Section 232.0033 of the Texas Local Government Code. TxDOT and the County however agree that the preferable manner for managing Corridor Subdivision plats will be for the County to refuse to approve the plat if all or part of the Corridor Subdivision is located within the area of alignment of a transportation project as shown in the applicable final environmental decision. The County shall establish policies and procedures to identify and review Corridor Subdivision plats in accordance with the terms of this Agreement. The County shall train all applicable staff to determine whether each subdivision for which a plat is submitted for approval is a Corridor Subdivision, and to follow County policies and procedures for reviewing Corridor Subdivision Plats.

4. CHANGES TO FUTURE TRANSPORTATION CORRIDORS

TxDOT and the County shall reevaluate this Agreement at least once every 12 months to determine whether Exhibit A to this Agreement needs to be amended. If TxDOT and the County determine that any Future Transportation Corridor identified in Exhibit A is no longer planned as a future transportation corridor or that one or more Future Transportation Corridors should be added to Exhibit A, TxDOT and the County shall execute an amendment to this Agreement which revises Exhibit A accordingly. Changes to the alignment, width or limits of any Future Transportation Corridor shall not require an amendment to Exhibit A, but should be reflected on Exhibit A the next time a corridor is added to or deleted from Exhibit A.

5. MODIFICATION - ASSIGNMENT OF AGREEMENT

This Agreement may only be modified by written mutual agreement, as described herein. Modifications shall be formalized by an appropriate written amendment signed by authorized representatives of each party. This Agreement shall not be

transferred, assigned or conveyed to a third party, whether a governmental entity or otherwise, without the prior written approval of the parties.

6. NO AGENCY/EMPLOYEE RELATIONSHIP

Each party acknowledges that this Agreement does not render it an agent, servant or employee of the other, and that each party is responsible for its own acts and deeds and those of its own agents and employees.

7. NO THIRD PARTY BENEFICIARIES

This document does not create or confer any rights, privileges, or benefits to any person or entity other than the parties hereto. Nothing in this Agreement shall be construed as creating any liability in favor of any third party against the State or the County. Additionally, this Agreement shall not be construed as relieving any third party from any liability to the State or the County.

8. LEGAL CONSTRUCTION

In case one or more of the provisions contained in this Agreement shall for any reason be held invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any provision hereof and this agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been contained in this agreement.

9. NOTICES

All notices required under this agreement shall be mailed or hand delivered to the following respective addresses:

EXHIBIT A

FUTURE TRANSPORTATION CORRIDORS

The Collin County Outer Loop, in Collin County, Texas, consisting of five segments as described below. Additional details of the proposed Outer Loop and proposed alignments may be viewed at the Collin County Engineering Department, 825 N. McDonald Street, Suite 160, McKinney, Texas 75069, or the Texas Department of Transportation Dallas District Office, 4777 East Highway 80, Mesquite, Texas 75150.

The following Segment descriptions are listed in order, beginning at the Denton County line, continuing east and then south to the Rockwall County line.

- **Segment 3 – From Dallas North Tollway (DNT) east to US 75:** This is a 13.8 mile, 500' wide technically preferred alignment. The alignment starts at the DNT where it intersects with CR 51. The alignment follows CR 51 for approximately 0.7 miles then heads northeast for approximately 2.6 miles where it bisects CR 87. It then heads east/southeast for 1.8 miles until it intersects with FM 2478. It continues straight east for approximately 4.1 miles where it crosses FM 543. It then heads northeast for 1.9 miles where it intersects with CR 206. It runs east/northeast for another 2.7 miles to connect to US 75.
- **Segment 1 – From US 75 east to SH 121:** This is a 4.2 mile, 500' wide technically preferred alignment. The alignment starts at US 75 approximately where CR 366 intersects with US 75. It continues east for approximately 1.4 miles to bisect SH 5. It continues east for another 1.8 miles where it crosses CR 419. It then heads south/southeast for 1.0 mile to connect to SH 121.
- **Segment 5 – From SH 121 east and south to US 380:** This is a 21 mile, 500' wide technically preferred alignment. The alignment starts at SH 121, approximately half a mile north of CR 1220. The alignment runs southeast for 0.5 miles to intersect with CR 472 then heads east/northeast for approximately 2.8 miles where it crosses FM 2862 near CR 506. The alignment heads almost straight east for an estimated 5.8 miles to intersect with CR 671. Then it curves south/southeast for approximately 2.2 miles for FM 981 (2 miles west of the Hunt/Collin County line). It then heads south for 2.0 miles where it crosses CR 668 (0.2 miles east of CR 825). The alignment heads south/southeast for an estimated 1.4 miles to cross at CR 618 (0.4 miles east of CR 655). It then continues south/southwest 3.5 miles where it intersects FM 2194. Then heads straight south another 2.8 miles to US 380 (approximately 2.2 miles west of the Hunt/Collin County line).

- **Segment 4 – From US 380 to FM 6:** This is a 7.3 mile, 500' wide technically preferred alignment. The alignment starts at US 380 and continues straight south for 0.7 miles and turns southeast for approximately 1.3 miles. At a point 0.5 miles west of CR 697, the alignment turns and heads straight south for 1.4 miles to intersect at CR 647 (approximately 1.7 miles west of the Hunt/Collin County line). From there the alignment heads south/southwest for approximately 1.8 miles where it crosses FM 1778 (approximately 2.7 miles west of the Hunt/Collin County line). It straightens out and heads south for 2.1 miles to FM 6.
- **Segment 2 – From FM 6 to Rockwall County Line:** This is a 6.5 mile, 500' wide technically preferred alignment. The alignment heads south from FM 6, 1.8 miles where it intersects with CR 1040 and then heads south/southwest for 2.7 miles to a point where CR 800 intersects FM 1138 (approximately 1 mile west of the Royse City municipal limits). From there the alignment follows FM 1138 south for approximately 2.0 miles to the Rockwall/Collin County line.

EXHIBIT B

FORM OF NOTICE OF AGREEMENT

NOTICE OF AGREEMENT

The Texas Department of Transportation and Collin County, Texas executed that certain Cooperative Planning Agreement, which became effective on _____, 2013. The Cooperative Planning Agreement identifies the following corridors as future transportation corridors in Collin County, Texas.

The Collin County Outer Loop, in Collin County, Texas, consisting of five segments as described below. Additional details of the proposed Outer Loop and proposed alignments may be viewed at the Collin County Engineering Department, 825 N. McDonald Street, Suite 160, McKinney, Texas 75069, or the Texas Department of Transportation Dallas District Office, 4777 East Highway 80, Mesquite, Texas 75150.

The following Segment descriptions are listed in order, beginning at the Denton County line, continuing east and then south to the Rockwall County line.

- **Segment 3 – From Dallas North Tollway (DNT) east to US 75:** This is a 13.8 mile, 500' wide technically preferred alignment. The alignment starts at the DNT where it intersects with CR 51. The alignment follows CR 51 for approximately 0.7 miles then heads northeast for approximately 2.6 miles where it bisects CR 87. It then heads east/southeast for 1.8 miles until it intersects with FM 2478. It continues straight east for approximately 4.1 miles where it crosses FM 543. It then heads northeast for 1.9 miles where it intersects with CR 206. It runs east/northeast for another 2.7 miles to connect to US 75.
- **Segment 1 – From US 75 east to SH 121:** This is a 4.2 mile, 500' wide technically preferred alignment. The alignment starts at US 75 approximately where CR 366 intersects with US 75. It continues east for approximately 1.4 miles to bisect SH 5. It continues east for another 1.8 miles where it crosses CR 419. It then heads south/southeast for 1.0 mile to connect to SH 121.
- **Segment 5 – From SH 121 east and south to US 380:** This is a 21 mile, 500' wide technically preferred alignment. The alignment starts at SH 121, approximately half a mile north of CR 1220. The alignment runs southeast for 0.5 miles to intersect with CR 472 then heads east/northeast for approximately 2.8 miles where it crosses FM 2862 near CR 506. The alignment heads almost straight east for an estimated 5.8 miles to intersect with CR 671. Then it curves

south/southeast for approximately 2.2 miles for FM 981 (2 miles west of the Hunt/Collin County line). It then heads south for 2.0 miles where it crosses CR 668 (0.2 miles east of CR 825). The alignment heads south/southeast for an estimated 1.4 miles to cross at CR 618 (0.4 miles east of CR 655). It then continues south/southwest 3.5 miles where it intersects FM 2194. Then heads straight south another 2.8 miles to US 380 (approximately 2.2 miles west of the Hunt/Collin County line).

- **Segment 4 – From US 380 to FM 6:** This is a 7.3 mile, 500' wide technically preferred alignment. The alignment starts at US 380 and continues straight south for 0.7 miles and turns southeast for approximately 1.3 miles. At a point 0.5 miles west of CR 697, the alignment turns and heads straight south for 1.4 miles to intersect at CR 647 (approximately 1.7 miles west of the Hunt/Collin County line). From there the alignment heads south/southwest for approximately 1.8 miles where it crosses FM 1778 (approximately 2.7 miles west of the Hunt/Collin County line). It straightens out and heads south for 2.1 miles to FM 6.
- **Segment 2 – From FM 6 to Rockwall County Line:** This is a 6.5 mile, 500' wide technically preferred alignment. The alignment heads south from FM 6, 1.8 miles where it intersects with CR 1040 and then heads south/southwest for 2.7 miles to a point where CR 800 intersects FM 1138 (approximately 1 mile west of the Royse City municipal limits). From there the alignment follows FM 1138 south for approximately 2.0 miles to the Rockwall/Collin County line.

Copies of the current Cooperative Planning Agreement and all plans for the future transportation projects referred to by the Cooperative Planning Agreement are available for review at the Collin County Engineering Department, 825 N. McDonald Street, Suite 160, McKinney, Texas 75069, or the Dallas District Office of the Texas Department of Transportation, 4777 East Highway 80, Mesquite, Texas 75150.

THE PUBLIC IS HEREBY NOTIFIED THAT THE STATUS AND ALIGNMENT OF THE FUTURE TRANSPORTATION CORRIDORS IDENTIFIED IN THE COOPERATIVE PLANNING AGREEMENT, AS IT IS AMENDED FROM TIME TO TIME, ARE SUBJECT TO CHANGE. THE PUBLIC MAY INQUIRE AS TO THE CURRENT STATUS AND ALIGNMENT OF ANY FUTURE TRANSPORTATION CORRIDOR BY CONTACTING THE COLLIN COUNTY ENGINEERING DEPARTMENT, OR THE DALLAS DISTRICT OF THE TEXAS DEPARTMENT OF TRANSPORTATION.

Agreement on Identification of Future Transportation Corridors Within Collin County

The Texas Department of Transportation (TxDOT) on February 18, 2024 received a request from Collin County to enter into an agreement under Transportation Code, Section 201.619, to identify future transportation corridors within Collin County based on transportation plans adopted by Collin County.

TxDOT has reviewed the request and all supporting information provided by Collin County and has determined that the future transportation corridors identified in the request, denoted as tollways, freeways, principal arterials, and major arterials in the thoroughfare plan, represent future transportation corridors within the County that are derived from existing transportation plans adopted by Collin County on November 4, 2019.

Collin County and TxDOT agree, in accordance with Transportation Code, Section 201.619, that the corridors depicted in the attachment to this agreement represent future transportation corridors within Collin County and that those corridors are derived from existing transportation plans adopted by Collin County on November 4, 2019. The corridors depicted in the attachment align with TxDOT’s current long-range transportation plans.

This agreement is a planning agreement that is solely for the purposes of Transportation Code, Section 201.619. This agreement does not obligate or prevent future adjustments by either party to the corridors identified in the agreement. Any significant revision to the location of one or more of those corridors will require a revised agreement to ensure compliance with Section 201.619.

RE: Transportation Corridor Agreement

Dear Mr. Campbell:

The Collin County Thoroughfare Plan, adopted by the Collin County Commissioners Court on November 4, 2019, represents the County's planned future transportation corridors. These corridors are denoted in the legend of the Thoroughfare Plan as "Tollway, Freeway, Principal Arterial and Major Arterial" and shown on the map in their corresponding colors.

We will be happy to answer any questions you may have.

- Principal Arterial (120' ROW)¹
- Major Arterial (120' ROW)¹

1 All Principal and Major Arterials require at least 120 feet of right-of-way (TXDOT may require more on their roadways). All developments will be required to dedicate their share of the right-of-way when platting new subdivisions. The actual size/number of lanes of the arterial (usually 6 lanes or 4 lanes) will be determined at the appropriate time when the governing agency is developing a specific plan for that roadway.

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, Texas Department of Transportation (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through your DocuSign, Inc. (DocuSign) Express user account. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. For such copies, as long as you are an authorized user of the DocuSign system you will have the ability to download and print any documents we send to you through your DocuSign user account for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of your DocuSign account. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use your DocuSign Express user account to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through your DocuSign user account all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact Texas Department of Transportation:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:

To contact us by email send messages to: kevin.setoda@txdot.gov

To advise Texas Department of Transportation of your new e-mail address

To let us know of a change in your e-mail address where we should send notices and disclosures electronically to you, you must send an email message to us at kevin.setoda@txdot.gov and in the body of such request you must state: your previous e-mail address, your new e-mail address. We do not require any other information from you to change your email address..

In addition, you must notify DocuSign, Inc to arrange for your new email address to be reflected in your DocuSign account by following the process for changing e-mail in DocuSign.

To request paper copies from Texas Department of Transportation

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an e-mail to kevin.setoda@txdot.gov and in the body of such request you must state your e-mail address, full name, US Postal address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with Texas Department of Transportation

To inform us that you no longer want to receive future notices and disclosures in electronic format you may:

- i. decline to sign a document from within your DocuSign account, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;
- ii. send us an e-mail to kevin.setoda@txdot.gov and in the body of such request you must state your e-mail, full name, IS Postal Address, telephone number, and account number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

Operating Systems:	Windows2000? or WindowsXP?
Browsers (for SENDERS):	Internet Explorer 6.0? or above
Browsers (for SIGNERS):	Internet Explorer 6.0?, Mozilla FireFox 1.0, NetScape 7.2 (or above)
Email:	Access to a valid email account
Screen Resolution:	800 x 600 minimum
Enabled Security Settings:	<ul style="list-style-type: none">• Allow per session cookies

	<ul style="list-style-type: none"> • Users accessing the internet behind a Proxy Server must enable HTTP 1.1 settings via proxy connection
--	---

** These minimum requirements are subject to change. If these requirements change, we will provide you with an email message at the email address we have on file for you at that time providing you with the revised hardware and software requirements, at which time you will have the right to withdraw your consent.

Acknowledging your access and consent to receive materials electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please verify that you were able to read this electronic disclosure and that you also were able to print on paper or electronically save this page for your future reference and access or that you were able to e-mail this disclosure and consent to an address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format on the terms and conditions described above, please let us know by clicking the 'I agree' button below.

By checking the 'I Agree' box, I confirm that:

- I can access and read this Electronic CONSENT TO ELECTRONIC RECEIPT OF ELECTRONIC RECORD AND SIGNATURE DISCLOSURES document; and
- I can print on paper the disclosure or save or send the disclosure to a place where I can print it, for future reference and access; and
- Until or unless I notify Texas Department of Transportation as described above, I consent to receive from exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to me by Texas Department of Transportation during the course of my relationship with you.

Chapter 1181

S.B. No. 785

AN ACT

relating to the regulation of new HUD-code manufactured housing.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 1201.008, Occupations Code, is amended by amending Subsections (b) and (d) and adding Subsections (d-1), (g), and (h) to read as follows:

(b) Subject to Subsection (g), on [On] application, the municipality shall permit the installation of a HUD-code manufactured home for use as a dwelling in any area determined appropriate by the municipality, including a subdivision, planned unit development, single lot, and rental community or park. An application to install a new HUD-code manufactured home for use as a dwelling is considered to be granted unless the municipality in writing denies the application and states the reason for the denial not later than the 45th day after the date the application is received.

(d) Except as approved by the department and subject to Subsection (d-1), a local governmental unit may not require a permit, a fee, a bond, or insurance for the transportation and installation of manufactured housing by a licensed retailer or installer. This subsection does not prohibit the collection of actual costs incurred by a local governmental unit that result from the transportation of a manufactured home.

(d-1) A municipality may not require a specific use permit or

other permit that serves a similar purpose to a specific use permit for a new HUD-code manufactured home if:

(1) the home has been constructed in accordance with federal law and this chapter; and

(2) the municipality does not require a specific use permit for other residential property in the same zoning classification.

(g) Except as provided by Subsection (h), a municipality with zoning regulations or zoning district boundaries:

(1) shall permit the installation, by right, of a new HUD-code manufactured home for use as a dwelling within the municipality's boundaries under at least one:

(A) residential zoning classification;

(B) type of residential zoning district; or

(C) dedicated zoning classification for residential HUD-code manufactured homes;

(2) shall ensure at least one of the residential zoning classifications or districts described by Subdivision (1) has been adopted and applies to an area of land within the municipality's boundaries; and

(3) if the municipality has a comprehensive zoning classification map, shall indicate on the map the areas within the municipality's boundaries that comply with Subdivision (2).

(h) Subsection (g) does not:

(1) limit the authority of a municipality to adopt or enforce an ordinance, rule, or other measure to protect historic landmarks or include properties within the boundaries of a local

1 historic district;

2 (2) affect deed restrictions established before
3 January 2, 2025; or

4 (3) apply to a municipality:

5 (A) in which all areas zoned for residential use
6 have deed restrictions on September 1, 2025, prohibiting the
7 placement of manufactured homes; or

8 (B) that does not have any areas or districts
9 zoned for business or industrial use.

10 SECTION 2. This Act takes effect September 1, 2026.

S.B. No. 785

President of the Senate

Speaker of the House

I hereby certify that S.B. No. 785 passed the Senate on April 10, 2025, by the following vote: Yeas 28, Nays 2; and that the Senate concurred in House amendment on May 30, 2025, by the following vote: Yeas 30, Nays 1. _____

Secretary of the Senate

I hereby certify that S.B. No. 785 passed the House, with amendment, on May 27, 2025, by the following vote: Yeas 96, Nays 41, two present not voting. _____

City of Nevada Survey Results

How satisfied are you with your overall quality of life in Nevada?

59 responses

How long have you lived in Nevada?

59 responses

How well do you feel your community is served by city services like police, fire, public works, etc.? (Rating scale - 1 is the worst, with 5 being the best)

59 responses

How would you rate Nevada as a place to live, raise a family, and do business?

59 responses

How would you rate the sense of community in Nevada?

59 responses

How would you rate the condition of the streets, sidewalks, and public spaces in your area?

59 responses

How safe do you feel in our city during the day and at night?

59 responses

Please check what is following city services are most important to you.

57 responses

Have you ever attended a city council meeting or other public forum? (Yes/No)

59 responses

Are there any specific areas in your neighborhood that you feel are particularly unsafe or need improvement?

33 responses

Brooks dr street is falling apart

No

I think all the roads need improvement.

643 road needs lots of work.

593/Eugene Lane in front of Nevada lakes all the way to 6 needs desperate repairs. The patches don't work or last.

Downtown area is a pig sty

Fire Department should be give a space to grow

Speed bumps

Roads

N Greenville Ave. the "city owned" houses need to go if there's nothing being done with them.

Just the roads

I feel safe in our neighborhood but not out side our city limits not do much

The roads near our home are pretty bad. We have a lot of potholes.

There needs to be a veoway store built with all the houses being built

All of downtown Nevada near Collin's st need new roads

The dollar general right in the middle of town is a major eyesore with his poorly they take care of the property. Complaints are never addressed.

Re-pave Eugene!!!

Potholes on Eugene & 593

Fix our roads!! 590-591, etc!!!

Roads are in terrible shape.

Eugene rd, especially as you approach Nevada Lakes. Stop light at Eugene and hwy 6 needs to be finished.

Pot holes

The roads are severely depleted and theft crimes appear to be on the rise. Also, maybe not for this survey but the whole Islamic city is a HUGE downside to living in this area.

Let more houses be. Built.

Speed limit sign

Do something about the savage yards. That is a main entrance to the city. They should have to have additional screening and landscaping. Terrible eyesore for a main thoroughfare.

Probably Kerens and Collin St

CR593

Yes, 589,541

Several roads are horrible

All areas in downtown

What are your thoughts on the current budget allocation for various city services? (Open-ended) 15 responses

I love that we still try to maintain the country with 1 acre lots.

I feel like the Fire Department is all volunteer and the equipment and gear are getting old. They could use a new bigger building that would allow them to grow and service us better

How can I locate the proposed budget?

Would like to keep small town feel

I don't know the budget amount. But I do understand that small communities have small budgets. We don't expect a lot, nor would we demand a lot, as residents, from a small town. We moved here 8 years ago because we loved the small town and feeling of community.

Not sure what they are

I don't know.

I don't know what the city budget allocations are at this time.

Not informed on this

With the tax rollback, our growth and being able to service the community are not in good shape. The communities around us are prospering.

Unsure what the current budget is, so I cannot provide an informed answer

Joke

City is foing the best they can with what they have

Terrible thoughts

Are there any additional services the city should consider providing?

18 responses

Code Enforcement

A new power grid, I am no done with loosing power if the wind blows.

A WALMART

Police

Fix the roads

I think economic development would be great. I also think some type of health services for older citizens would be nice.

Bringing businesses to the city

Grocery store

A Rec center

Possible park/splash pad/ single fountain/community area

Full-time police, EMS, Fire and road maintenance

Are there any community parks?

Safety on roads

No

Consider adopting 1 or more of the Lake Lavon parks. They get no federal funding and are all in various stages of disrepair. There isn't a working boat dock on the entire east side of the lake. Little Ridge and Lavonia would be great candidates, add to the park inventory without the expense of building them. They could just be improved.

Not an oil change place. Drive 10 minutes to Royse City for that.

Over-65 property tax relief.

A park would be nice

What are some ideas you have for improving your community?

28 responses

Mostly just maintaining the country feel even if the cities around would rather have all the houses and money.

stop adding housing developments

The city should be a little stricter on the home builders, Cope Homes is driving the prices up on Nevada and they are not of quality. Nevada is not a million-dollar community. Would like to see Nevada keep the small-town feel. That's one of the major reasons for moving here. A small grocery store would be nice.

Need infrastructure to support retail establishments

Stop all the building, until you have a way for us that have been here all our lives to get to work without adding an extra 20 min. To get to planò!!!

We need any actual place to meet and hold events like josephine and farmerville

Getting a budget together to repair roads (Huge Potholes)

Making sure it has what it NEEDS

Retail stores

We would be interested in more all-community resident events—BBQs, some type of get-togethers. We have attended the Nevada Fire Dept BBQ fundraisers and would attend other community-type events.

In the future would like to see a community center where the residents can rent for events. And where the city can put events on.

Fix the roads.

It would be nice if we had events that bring people in the community together.

Clean up some areas of opportunity and bring some essential businesses to the town

Stop building so many houses

Code enforcement to require surrounding businesses and homes to maintain their properties

Adding a place for families and neighbors to meet up, some sort of way for neighbors to communicate (not nextdoor).

We need to grow.

Keep large lot size requirement

Slow down the building of new homes especially along Hwy 6.

Enhance infrastructure, make room for local businesses, increase community parks, and engage the community.

Stop houses until roads improved

Update our current roads & don't bring in new roads

Consider adopting 1 or more of the Lake Lavon parks. They get no federal funding and are all in various stages of disrepair. There isn't a working boat dock on the entire east side of the lake. Little Ridge and Lavonia would be great candidates, add to the park inventory without the expense of building them. They could just be improved.

More small businesses and support for Small businesses.

Assist, or at least get out of the way, of those wishing to provide retail services to citizens.

Minimum 1 acre lots to prevent overcrowding

Raise taxes

If you would be interested in volunteering, please provide name and best form of contact.

Subject: Grants & Planning Session
Date: Wednesday, July 30, 2025 9:12:13 PM

Hi Heather,

Is it possible to add to the agenda for this coming meeting, if not would be interested in adding for next month?

Below are the topics:

- *Interested in having a discussion about the below grants and if we want to attempt to send on our own or start to look for a grant writing service for these and others?*
- Texas Public Safety Grants
- County Essential Services Grant (FY2025)
- Texas Community Development Block Grant (TxCDBG)
- U.S. DOT Rural & Tribal Assistance Pilot (RTA)
- Federal Infrastructure Investment & Jobs Act (IIJA)
- USDA Rural Infrastructure Grants (e.g., Community Facilities)
- Community Project Funding via Congressional Office
- *Would like to move forward with holding a planning session for 1- 5 year mission and strategic goals. This is something also discussed on EDC meetings. Goal is to have team members from various areas of the city and outside consultants.*

Thanks,
Amanda

clients.

sales by auction of excess real estate owned by the city.

From jim@jshepherdlaw.com <jim@jshepherdlaw.com>

Date Tue 2026-02-17 9:06 PM

To Heather Schell <citysecretary@cityofnevadtx.org>

Cc Don Deering <mayor@cityofnevadtx.org>; Amanda Wilson <councilman3@cityofnevadtx.org>

Heather,

The Local Government Code section on selling city real estate is attached below, with my comments inserted.

This applies to land owned by the city that is not a park, or a road right of way, or other exceptions.

Property foreclosed within the same action as the county foreclosing on behalf of all

the taxing entities would have the same process. However, if the county foreclosed on behalf of the city, county, school district, college district total taxes, then property on the county roll may show the property as belonging to the city, when in fact its ownership is a pro rata proportion of the amount of city taxes due when the property was foreclosed.

That would normally mean the school district, with by far higher tax rate than the city, would own a greater percentage of the property than would the city.

If you can send me the addresses, property numbers, tax account numbers, or other information that clearly identifies each property, I will check the titles.

Sec. 253.008. SALE OF REAL PROPERTY BY PUBLIC AUCTION.

(a) The governing body of a municipality may sell real property owned by the municipality by public auction or by sealed bid under Section 272.001.

(b) To sell real property by public auction,

- 1. the governing body of a municipality shall publish notice of the auction before the 20th day before the date the auction is held. The notice for sale of the real property must be published once a week for three consecutive weeks before the date the auction is held in a newspaper of general circulation in the county in which the municipality is located.**

The Collin County Commercial Record would be fine since it is our official newspaper.

- 2. (Not applicable to Nevada) and, if the real property is located in another county, in a newspaper of general circulation in the county in which the real**

property is located.

- 3. The notice must include a description of the real property, including its location, and the date, time, and location at which the auction is to be held.**

I would suggest the properties be clearly marked with a sign during the three week notice period. The location of the auction could be on one of the properties, or in city hall, or any other location. There are auctioneers that specialize in city equipment who might be interested in doing the auction for you, and advertising it to their client lists.

Please let me know if you have any questions.

TAX DEED
(Private Re-Sale)

STATE OF TEXAS

§
§
§

KNOW ALL MEN BY THESE PRESENTS

COUNTY OF COLLIN

THAT WHEREAS, the below described Properties were bid off and sold at public sale to the City of Nevada, et al, Trustees (hereinafter the "Grantors"), pursuant to judgments and orders of sale in delinquent tax suits described herein below; and,

WHEREAS The City of Nevada (hereinafter "Grantee") has offered to purchase the Property by private sale for \$4.00; and,

WHEREAS all of the taxing units entitled to receive the proceeds of the sale of the Property under the judgment have consented to the private sale, as required by Section 34.05(i) of the Texas Property Tax Code, to wit: The City of Nevada, acting by and through its City Council on December 3, 2013; Collin County, acting by and through its Commissioners Court on February 3, 2014 (Court Order No. 2014-067-02-03), Community Independent School District, acting by and through its Board of Trustees on November 18, 2013; and Collin County Community College District, acting by and through Ralph Hall, its District Vice President of Administration, written notice received on April 17, 2014.

THEREFORE, the Property is hereby sold and struck off, for the sum of \$4.00, to the Grantee:

City of Nevada
424 FM 6
Nevada, TX 75173

NOW, THEREFORE, in consideration of the premises aforesaid, and of the payment of the aforesaid sum, the receipt of which is hereby acknowledged, Joe Poovey, as Mayor of the City of Nevada, acting on behalf of the Grantors, have Granted, Sold, and Conveyed, and by these presents do Grant, Sell, and Convey unto the said grantee(s) all of the estate, right, title, and interest to said property being located in Collin County, and described as follows:

PROPERTY DESCRIPTION

Tract 1. That tract of real property described as Nevada-Original Donation, an addition to the City of Nevada, Blk 3, Lot 9, ~0.16 Acres, [Tax Account No. R-0946-003-0090-1], per the records of the Collin Central Appraisal District, and the plat records of Collin County, Texas, bid off to the taxing units at public sale on June 5, 2012 pursuant to the judgment and order of sale in Cause No. 401-02068-2009, City of Nevada v. Green Tree Servicing, and conveyed to the City of Nevada, Trustee in Instrument No. 20120919001178810, Collin County, Texas Deed Records, recorded on September 19, 2013.

Tract 2. That tract of real property described as Nevada-Original Donation, an addition to the City of Nevada, Blk 3, Lot 10, ~0.16 Acres, [Tax Account No. R-0946-003-0100-1], per the records of the Collin Central Appraisal District and the plat records of Collin County, Texas, bid off to the taxing units at public sale on June 5, 2012 pursuant to the judgment and order of sale in Cause No. 401-02068-2009, City of Nevada v. Green Tree Servicing, and conveyed to the City of Nevada, Trustee in Instrument No. 20120919001178810, Collin County, Texas Deed Records, recorded on September 19, 2013.

Tract 3. That tract of real property described as Nevada-Original Donation, an addition to the City of Nevada, Blk 3, Lot 11, ~0.16 Acres, [Tax Account No. R-0946-003-0110-1] per the

records of the Collin Central Appraisal District and the plat records of Collin County, Texas, bid off to the taxing units at public sale on April 5, 2011 pursuant to the judgment and order of sale in Cause No. 416-02704-2009, City of Nevada v. J. I. Page, and conveyed to the City of Nevada, Trustee in Instrument No. 20110711000714880, Collin County, Texas Deed Records, recorded on July 11, 2011.

Tract 4. That tract of real property described as Nevada-original Donation, an addition to the City of Nevada, Blk 3, Lot 12, ~0.16 Acres, [Tax Account No. R-0946-003-0120-1], per the records of the Collin Central Appraisal District and the plat records of Collin County, Texas, bid off to the taxing units at public sale on April 5, 2011 pursuant to the judgment and order of sale in Cause No. 416-02704-2009, City of Nevada v. J. I. Page, and conveyed to the City of Nevada, Trustee in Instrument No. 20110711000714880, Collin County, Texas Deed Records, recorded on July 11, 2011.

TO HAVE AND TO HOLD the above described premises, together with all and singular the rights, privileges, and appurtenances thereto in any manner belonging unto the said grantee(s), his heirs and assigns forever, the aforesaid premises or appurtenances, or any part thereof, as fully and absolute as I, Joe Poovey, as Mayor of the City of Nevada aforesaid, can convey;

SUBJECT HOWEVER to the following covenant(s), condition(s) and restriction(s): NONE.

Conveyance of the property herein is made "as is" and Grantor make no warranty or representation as to the title, condition, suitability for any use, or location of the property.

This conveyance is made expressly subject to any existing right of redemption remaining in the former owner(s) of the property under the provisions of law and also subject to any recorded restrictive covenants running with the land, and valid easements of record as of the date of this sale.

IN TESTIMONY WHEREOF, and executed this 6th day of May, 20 14.

February 6, 2026

Lana Carroll, Assistant City Secretary
City of Nevada
424 East FM 6
Nevada, Texas 75173

Regarding: Storm Warning System

Dear Ms. Carroll:

Sentry Siren, Inc., has been building storm warning sirens since 1905. Currently, they manufacture 11 different models of storm warning sirens. As the regional representative for Sentry, my company has over 35 years of experience designing and installing Sentry storm warning systems. We have supplied and installed nearly 2000 sirens regionally and over 400 in the State of Texas.

You will find below a proposal on a system of AC-only sirens for the Nevada. This proposal is based on the FEMA guidelines for outdoor warning.

Superior Siren Quality

Each Sentry siren is custom made using parts cast from the same metal ingot which means that the components expand and contract in the heat and cold at the same rate. This ensures significantly closer tolerances and longer operational life.

Unlike most competitive sirens, all Sentry sirens are covered by a **complete 7-year parts and labor warranty**. Sentry is able to offer such a long warranty because they use superior components in the construction of each siren. For example, each Sentry siren uses a continuous-duty, series-wound motor rather than a permanent-magnet motor. The benefit of a series-wound motor is two-fold: as the load on the motor increases, the magnetic field from the coils in the motor increases at the same time, allowing more torque to be generated; and the series-wound motor tends to be more energy efficient and lasts significantly longer than a permanent-magnet motor. **ALL SENTRY SIRENS ARE PROUDLY MANUFACTURED IN THE UNITED STATES OF AMERICA.**

Storm Sirens, Inc.

www.stormsirens.com

info@stormsirens.com

Phone: 1-800-527-6375

Fax: 405-329-0542

Omnidirectional vs. Rotating

The proposed sirens are omni-directional. As stated in the FEMA, Outdoor Warning-Systems, Technical Bulletin (Version 2.0), January 12, 2006, omni-directional sirens are considered superior to rotating sirens:

4.1 General Considerations for Outdoor Warning Systems, Page 28

"Omni-directional sirens provide greater area coverage than do rotating or directional devices. They provide a more constant signal that improves public alerting in areas with highly fluctuating ambient noise, along with the reinforcing effect of multiple sound sources (up to a 3 dB increase for two adjacent sound sources in the same environmental setting)."

4.4.5 Determining Locations Where Outdoor PAS Devices Should Be Avoided, Page 32

"In situations where there are high fluctuations in the ambient noise level, or near the limits of the audible device range, omni-directional devices present a distinct advantage, in terms of their signal consistency, over rotational devices. For example, because of the reduced duration of its peak sound level in any single direction during its 360-degree sweep, a rotational device will have an overall lower dB level when assessed across a given time period than an omni-directional device operating at the same frequency. Additionally, because sound has a reinforcing effect, omni-directional devices can act as sound "boosters" with adjacent audible devices. The effect applies for adjacent omni-directional audible devices as well as to omni-directional devices that are adjacent to rotational or directional devices".

Sirens Running Primarily from AC Power

The Sentry Models 15V1T and 14V-3 are large, omni-directional, AC-only sirens and are not equipped with battery back-up.

The Sentry Model **15V1T** has a dB rating of 124 at 100' and an approximate coverage radius of 4800'. Though available in both 230 VAC, single-phase and 208/230/460 VAC, three-phase electrical power, the Sentry Model 15V1T is proposed here in single-phase only.

The Sentry Model **14V-3** has a dB rating of 127 at 100' and an approximate coverage radius of 5200'+. The Sentry Model 14V-3 is less expensive than the Sentry Model 15V1T; however, it is only available in 208/230/460 VAC, three-phase power.

Proposal

4 Sentry Model 15V1T and 2 Sentry Model 14V-3 Storm Warning Sirens

Under ideal conditions (i.e. no wind, little interference from man-made objects and tree coverage, consistent temperature gradient, etc.), each of the proposed sirens has a greater range

Storm Sirens, Inc.

www.stormsirens.com

info@stormsirens.com

Phone: 1-800-527-6375

Fax: 405-329-0542

than stated; however, as ideal conditions are rare, the enclosed series of maps show the minimum expected distance each of the proposed sirens would provide 70 dB of sound (the FEMA recommended minimum for outdoor warning) to the surrounding areas.

Due to its unique shape, the City of Nevada requires at least 6 sirens to cover the city limits.

The enclosed map shows the approximate coverage the City of Nevada would receive from a siren system consisting of 4 Sentry Model 15V1T and 2 Sentry Model 14V-3 Storm Warning Sirens. Recommendations regarding whether the siren should run and/or charge from existing infrastructure have been made based on each siren location:

- A Sentry Model 15V1T Storm Warning Siren on CR 544, approximately 1120' north of FM 6; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support siren.
- A Sentry Model 15V1T Storm Warning Siren at or near the intersection of Lake Drive & CR 493; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support the siren.
- A Sentry Model 15V1T Storm Warning Siren at or near 424 FM 6, Nevada City Hall; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support the siren.
- A Sentry Model 15V1T Storm Warning siren at or near the intersection of Justin Place & FM 1138; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support siren.
- A Sentry Model 14V-3 Storm Warning Siren on FM 1138, between Central High School and the west stadium parking lot; three-phase power and transformer present on the east side of the road.
- A Sentry Model 14V-3 Storm Warning Siren on South FM 1138, approximately 2500' south of the intersection with South Street; three-phase power and transformer is located on the east side of the road.

Omni-Directional
15 HP Continuous Duty AC Motor
dB Rating @100 ft: 124
Approximate Rang: 4800'+ Radius/9600'+ Diameter
Magnetic Starter in NEMA 3R Enclosure
Pole Mounting Hardware
Shipping |
| Qty. 2 | Sentry Model 14V-3 Stationary Warning Siren
Omni-Directional
14 HP Continuous Duty AC Motor
dB Rating @100 ft: 127
Approximate Rang: 5200'+ Radius/10400'+ Diameter
Magnetic Starter in NEMA 3R Enclosure
Pole Mounting Hardware
Shipping |
| Qty. 6 | CD&F SD2100 AC Radio Decoder
Redundant Cellular Back-Up
Lockable, Weatherproof Cabinet
Programmed |
| Qty. 6 | Installation
Appropriate Size Wooden Telephone Pole
All Material & Labor |

Total Price \$158,500.00, Complete & Installed (Turn-Key)

Turn-Key Installation

The above proposals installation of the Sentry Models 15V1T and 14V-3 on 45' class II wooden telephone poles, which my company would provide, as well as all material and labor needed for the installation. The only items that would need to be provided would be the siren sites, appropriate electrical service to the siren poles, and the radio information necessary to program the radio decoders (analog format, radio frequency, tones, cap codes, timing, etc.).

Storm Sirens, Inc.

www.stormsirens.com

info@stormsirens.com

Phone: 1-800-527-6375

Fax: 405-329-0542

If rock is encountered during the installation, there would be an additional charge to cover the specialized equipment and additional labor needed to set the poles.

In some cases, the poles and setting of the poles and mounting of the sirens have been 'donated' by the community, local electric company, or other entities. If these services can be 'donated' to the installation, the City would receive a credit on the invoice. Some matching grants consider this to be 'payment-in-kind' and count it toward the portion that would need to provide.

Activation

As proposed, each of the sirens is paired with a CD&F SD2100 radio decoder. The radio decoder would allow the siren to be activated remotely by handheld radios or other radio equipment and would require an analog radio frequency such as UHF, VHF, TTS, or DTMF. The radio decoders are capable of multiple functions and have manual activation buttons inside the decoder cabinet.

The radio decoders also feature redundant cellular activation as required in Flash Flood Warning Siren Guide released by the Texas Water Development Board in January 2026:

Requirement 3.4, page 39

"Sirens must have a backup communications method that is sufficient to operate the siren as designed in absence of the primary method.

The siren must provide automatic transition between primary and backup communication methods in the event of a failure."

Redundant cellular is achieved using SMS messaging and would require the City to pay a recurring monthly charge for each siren site.

The City of Nevada would need to determine what functions it would like to run the sirens through. An example would be:

Tornado	3-Minute Steady	1111
Fire	3-Minute Cycle	2222
Test	30-Second Steady	3333
Cancel	Cease Function	####

Some communities only want "on" and "off" functions while others need additional functions for area specific warnings (fire, flood, chemical spill, etc.). Test and cancel functions are recommended.

Storm Sirens, Inc.

Outdoor Warning Coverage Study for the City of Nevada, Texas

Approximate Coverage from the 2 Sentry Model 14V-3 Storm Warning Sirens and 4 Sentry Model 15V1T Storm Warning Sirens

•Siren coverages are approximate and assume perfect conditions.

•Actual coverages may vary based on local terrain, conditions, foliage, structures and other unknown conditions.

•Sentry Siren makes no guarantee that coverage shown will mimic actual, real-world, coverage.

•Coverage area is based on computer generated data and FEMA Guidelines covering atmospheric attenuation.

•Data subject to license and use / reproduction is restricted.

www.stormsirens.com

15V2T

Premium Warning Siren

The Original, extra durable, with a side of longevity.....

SENTRY
SIREN Inc.

- **100% Maintenance Free**, not just the siren, the whole system!
- **Non-Rotating**: Forget the worries of rotating sirens, this unit has only two moving parts and does not require lubrication or any type of scheduled adjustment or maintenance.
- **Compatibility**: This siren will integrate seamlessly with most existing siren systems.
- **5 year Warranty**: rest assured your siren will be functional at all times and enjoy the confidence of free lifetime tech support and the best customer service in the industry.

What does it take to inspire confidence? Trust? Yes, but trust requires experience, and that's exactly what makes the 15V2T special. First installed in 1978, the original 15V2T was intended to be the "go to" siren for larger communities. With over 3,000 units in service world-wide, the 15V2T has no problem inspiring confidence. Like all Sentry Sirens, the 15V2T is 100% FEMA and USDA grant compliant, and with a 15 HP, continuous duty motor pushing two aluminum rotors, this siren produces 124 dB(C) @ 100 ft. continuously*. This rating is not just for 25% of its cycle time, like its rotating competitors, but for 100% of its full RPM run time. A key feature of this 15 HP brute, is its flexibility. It can be ordered in either single or dual tone (460 Hz or 920 Hz.), which allows the user to fine tune the siren's sound to suit their needs.

Therefore, in single, 460 Hz format, it's sound will penetrate obstacles such as trees and wind with greater efficiency than other sirens in it's class. For a mix of penetration and long distance travel, users should select the two tone version or the "2T".

Confidence? Well, like all our products, the 15V2T is backed with the industry's longest warranty and best customer service. The 15V2T's exposed siren components are of powder coated metals, providing the most durable finish available. The siren can be upgraded to Stainless Steel for use in harsh environments. Another state of the art system from Sentry Siren, created with tried and true technology for a winning combination.

ELECTRO-MECHANICAL SIRENS

produce stronger and further reaching sound than electronic sirens while providing far better reliability.

OMNI-DIRECTIONAL DEVICES

"..present a distinct advantage.. over rotational devices," according to FEMA's warning system guide. It says "a rotational device will have an overall lower dB level when assessed across a given time period than an Omni-directional device operating at the same frequency. " (4.4.5 FEMA OWS Technical Bulletin 2.0)

Further, the guide states: "Omni-directional sirens provide a greater area of coverage than do rotating or directional devices. They provide a more constant signal that improves public alerting..." (4.4.5 FEMA OWS Technical Bulletin 2.0)

Fax: 405-329-0542

February 6, 2026

Lana Carroll, Assistant City Secretary
City of Nevada
424 East FM 6
Nevada, Texas 75173

Regarding: Storm Warning System

Dear Ms. Carroll:

Sentry Siren, Inc., has been building storm warning sirens since 1905. Currently, they manufacture 11 different models of storm warning sirens. As the regional representative for Sentry, my company has over 35 years of experience designing and installing Sentry storm warning systems. We have supplied and installed nearly 2000 sirens regionally and over 400 in the State of Texas.

You will find below a proposal on a system of AC-only sirens for the Nevada. This proposal is based on the FEMA guidelines for outdoor warning.

Superior Siren Quality

Each Sentry siren is custom made using parts cast from the same metal ingot which means that the components expand and contract in the heat and cold at the same rate. This ensures significantly closer tolerances and longer operational life.

Unlike most competitive sirens, all Sentry sirens are covered by a **complete 7-year parts and labor warranty**. Sentry is able to offer such a long warranty because they use superior components in the construction of each siren. For example, each Sentry siren uses a continuous-duty, series-wound motor rather than a permanent-magnet motor. The benefit of a series-wound motor is two-fold: as the load on the motor increases, the magnetic field from the coils in the motor increases at the same time, allowing more torque to be generated; and the series-wound motor tends to be more energy efficient and lasts significantly longer than a permanent-magnet motor. **ALL SENTRY SIRENS ARE PROUDLY MANUFACTURED IN THE UNITED STATES OF AMERICA.**

Storm Sirens, Inc.

www.stormsirens.com

info@stormsirens.com

Phone: 1-800-527-6375

Fax: 405-329-0542

Omnidirectional vs. Rotating

The proposed sirens are omni-directional. As stated in the FEMA, Outdoor Warning-Systems, Technical Bulletin (Version 2.0), January 12, 2006, omni-directional sirens are considered superior to rotating sirens:

4.1 General Considerations for Outdoor Warning Systems, Page 28

"Omni-directional sirens provide greater area coverage than do rotating or directional devices. They provide a more constant signal that improves public alerting in areas with highly fluctuating ambient noise, along with the reinforcing effect of multiple sound sources (up to a 3 dB increase for two adjacent sound sources in the same environmental setting)."

4.4.5 Determining Locations Where Outdoor PAS Devices Should Be Avoided, Page 32

"In situations where there are high fluctuations in the ambient noise level, or near the limits of the audible device range, omni-directional devices present a distinct advantage, in terms of their signal consistency, over rotational devices. For example, because of the reduced duration of its peak sound level in any single direction during its 360-degree sweep, a rotational device will have an overall lower dB level when assessed across a given time period than an omni-directional device operating at the same frequency. Additionally, because sound has a reinforcing effect, omni-directional devices can act as sound "boosters" with adjacent audible devices. The effect applies for adjacent omni-directional audible devices as well as to omni-directional devices that are adjacent to rotational or directional devices".

Sirens Running Primarily from AC Power

The Sentry Models 15V1T and 14V-3 are large, omni-directional, AC-only sirens and are not equipped with battery back-up.

The Sentry Model **15V1T** has a dB rating of 124 at 100' and an approximate coverage radius of 4800'. Though available in both 230 VAC, single-phase and 208/230/460 VAC, three-phase electrical power, the Sentry Model 15V1T is proposed here in single-phase only.

The Sentry Model **14V-3** has a dB rating of 127 at 100' and an approximate coverage radius of 5200'+. The Sentry Model 14V-3 is less expensive than the Sentry Model 15V1T; however, it is only available in 208/230/460 VAC, three-phase power.

Proposal

4 Sentry Model 15V1T and 2 Sentry Model 14V-3 Storm Warning Sirens

Under ideal conditions (i.e. no wind, little interference from man-made objects and tree coverage, consistent temperature gradient, etc.), each of the proposed sirens has a greater range

Storm Sirens, Inc.

www.stormsirens.com

info@stormsirens.com

Phone: 1-800-527-6375

Fax: 405-329-0542

than stated; however, as ideal conditions are rare, the enclosed series of maps show the minimum expected distance each of the proposed sirens would provide 70 dB of sound (the FEMA recommended minimum for outdoor warning) to the surrounding areas.

Due to its unique shape, the City of Nevada requires at least 6 sirens to cover the city limits.

The enclosed map shows the approximate coverage the City of Nevada would receive from a siren system consisting of 4 Sentry Model 15V1T and 2 Sentry Model 14V-3 Storm Warning Sirens. Recommendations regarding whether the siren should run and/or charge from existing infrastructure have been made based on each siren location:

- A Sentry Model 15V1T Storm Warning Siren on CR 544, approximately 1120' north of FM 6; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support siren.
- A Sentry Model 15V1T Storm Warning Siren at or near the intersection of Lake Drive & CR 493; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support the siren.
- A Sentry Model 15V1T Storm Warning Siren at or near 424 FM 6, Nevada City Hall; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support the siren.
- A Sentry Model 15V1T Storm Warning siren at or near the intersection of Justin Place & FM 1138; single-phase power lines present but no visible transformer; infrastructure may need to be upgraded to support siren.
- A Sentry Model 14V-3 Storm Warning Siren on FM 1138, between Central High School and the west stadium parking lot; three-phase power and transformer present on the east side of the road.
- A Sentry Model 14V-3 Storm Warning Siren on South FM 1138, approximately 2500' south of the intersection with South Street; three-phase power and transformer is located on the east side of the road.

February 6, 2026

Lana Carroll, Assistant City Secretary
City of Nevada
424 East FM 6
Nevada, Texas 75173

Regarding: Storm Warning System

Dear Ms. Carroll:

Sentry Siren, Inc., has been building storm warning sirens since 1905. Currently, they manufacture 11 different models of storm warning sirens. As the regional representative for Sentry, my company has over 35 years of experience designing and installing Sentry storm warning systems. We have supplied and installed nearly 2000 sirens regionally and over 400 in the State of Texas.

You will find below proposals on the Storm Sentry Automatic Activation & Weather Monitoring System and for a CD&F Report Back System.

These systems are designed to augment existing or proposed systems and are not a requirement for a storm warning system to function; however, these systems can assist the City in monitoring rapidly developing weather, timely activation of the City's storm warning system and reviewing siren site statuses.

CD&F Report Back System

The CD&F Report Back System would take the place of the one-way activation system and would provide two-way communication between each siren and a central control station. When polled, the central control station would receive data from each siren, indicating whether there is power, a sound failure or an intrusion into the decoder box.

From the central control station, you would be able to:

- a. Activate all sirens from one button (**one step activation**).
- b. Activate or poll one, a group or all of the sirens and retain polling information until the system is polled again.
- c. Print and save polling data

3801 Harrogate Drive
Norman, Oklahoma 73072

Storm Sirens, Inc.

www.stormsirens.com

info@stormsirens.com

Phone: 1-800-527-6375

Fax: 405-329-0542

- d. Display siren status:
 - a) Poll Failure, indicating that the signal was blocked or that the site has a problem such as no power.
 - b) Sound or Sound Failure, indicated on the display by either a green or red light.
 - c) Intrusion, reported immediately.

The CD&F Report Back System would retain the primary radio activation proposed with the siren systems as well as the cellular back-up; as with the one-way system, the City would need to pay a monthly fee to maintain the SD cards at each siren site in order to retain cellular back-up.

Unless encrypted, the CD&F Report Back system would not prevent siren activation through other devices such as a handheld radio, dispatch or radio car.

The CD&F Report Back System can also incorporate different makes and models of sirens as well as sirens running from various power sources (i.e. AC only, 24 VDC, 48 VDC, 72 VDC).

The following price is the additional cost to add a CD&F Report Back System to the proposed system of 6 Sentry Model 14V-B Storm Warning Sirens.

CD&F Report Back System

Qty. 1	Central Control Station Hardware Software Labor
Qty. 6	Upgrade Decoder to Two-Way Upgraded Two-Way Remote Units Site Labor

Total Cost, Complete & Installed (Turn-Key) \$27,500.00

Storm Sirens, Inc.

info@stormsirens.com

Phone: 1-800-527-6375

Fax: 405-329-0542

Storm Sentry Monitoring & Automatic Activation System

The Storm Sentry Automatic Activation & Weather Monitoring System monitors real-time data from the National Weather Services via both internet and satellite. When programmed to react to NWS alerts for a target area, the Storm Sentry can not only activate the storm warning system but also send text alerts to key personnel.

How the Storm Sentry reacts to an NWS alert is customizable: it can be programmed to both activate the sirens and text key personnel in the event of a tornado warning but only send out a text in the event of destructive winds or a severe thunderstorm warning. The Storm Sentry can be programmed to react to warnings issued at different distances (for example, 5-, 10-, or 15-mile radius of a particular location).

The Storm Sentry can also be used with CodeRed, sending out mass text alerts automatically when a warning is issued.

The Storm Sentry has a one-time price and no subscriptions. Once purchased, the community would own the system and have life-time tech support. Other systems require the community to pay a yearly subscription to retain automatic activation, fees which may not be provided for in the initial grant.

The Storm Sentry, reduced to its basic siren control version, would include:

- Automatic Siren Activation w/Override
- Name Brand PC w/ Windows Software, Speakers & Printer
- 42" Wall-Mounted or 2x 24" Desk-Mounted Computer Screens (recommended)
- Satellite Dish and EMWIN Data Receiver/Ingest Engine
- Siren Encoder & InfoStorm Activation Software
- Gibson Ridge Level 3 Radar Package
- NWS Polygon Warning System Tracking
- Programming, Set-Up & Training
- Lifetime Tech Support
- Onetime Price

Qty. 1	Storm Sentry Automatic Activation System
	Equipment
	Software
	Programming
	Shipping

Qty. 1	Installation
	Labor

Total Cost, Complete & Installed (Turn-Key)

\$25,000.00

STORM SENTRY

BY SENTRY SIREN

Automated Weather Alerting

EMWIN Satellite Data Feed,
Independent of Internet.

InfoStorm Point and Click Siren
Activation Interface.

NWS Topographical Maps for
Weather Tracking.

Weather Message Software for
Monitoring NWS Data.

Gibson Ridge Live Radar Feed

43" Wall Mounted Display

Advantages

- **PC Based Weather Monitoring**

Monitor real-time weather data, including local radar via high speed internet and satellite on the EMWIN network.

- **Real Time Warnings via the NWS**

Be the first to know when severe weather approaches. 2-5 seconds after a warning is issued, it's on your desk.*

- **Automatic Messaging**

Notify emergency personnel, even residents, of emergencies via text, email, telephone, social media or fax automatically without human intervention.

- **Automatic Siren Activation**

Activate your siren system automatically. No need for a person to activate. The computers can control all siren functions.

For years emergency personnel struggled with receiving timely weather warnings from a dedicated and reliable source. The warnings were sometimes late, sometimes false, and worst of all, sometimes not received. This problem lead to the question "when do we activate our sirens, pagers, or emergency action plan?"

The key ingredient in the new **Storm Sentry** Weather Monitoring System is software that interprets and understands weather data. **Storm Sentry** has revolutionized the emergency notification market by making weather / emergency notification

easier, faster, and best of all, **automatic.**

Take all the information from the National Weather Service and put it in one place, your office. Best of all, do all this for one small cost; no monthly or yearly contracts. A one time purchase of the hardware and software buys the user a lifetime of weather security.

Call today and let us help you explore what is possible with the **Storm Sentry**. From Sentry Siren, the makers of the world's most trusted warning sirens, comes the future of early warning technology.
