

**(Council/PC/DDA/ZBA)**

North Branch is a Certified Community and active participant in the [Redevelopment Ready Communities \(RRC\)](#) process which supports communities’ efforts to foster economic and community development through a predictable and proactive approach to planning and development. One component of the RRC framework is to establish yearly training goals for development-related boards and commissions. This strategy outlines the village’s training expectations and framework and establishes priorities for each board. It will be updated at the beginning of each year to stay relevant to changing trends.

**TRAINING FRAMEWORK**

**Funding:** The village establishes funding for each board. For the 2023--2024 fiscal year, funding was \$300 for Council, \$1,600 for the Clerk (who handles development requests), \$300 for the Planning Commission. Funding requests will be most favorably considered when directly related to a priority topic established in this strategy.

**Consistent Encouragement:** The Village includes training as a reoccurring agenda item. This offers a chance to remind members of upcoming training, allow time for at-meeting training, and encourage report outs from recently attended training. This practice will continue.

**Sharing Outcomes:** Village officials are expected to provide a short verbal report out at the next meeting following any training event and share any materials such as recordings, handouts, etc. This helps increase the Village’s return on investment in terms of time and cost.

**Primary Goals:** For the 2023 year, the Village has established the following goals for training:

1. Provide at least two at-meeting training opportunities for each board.
2. Have every board member complete at least one outside training activity.
3. Better tie training priorities to established plan actions.

**Training Methods:** Village staff will plan for at least two at-meeting events for each board; these could be short presentations, watching a video together, attending a webinar together, reading and discussing an article, etc. The Village encourages officials to pursue training methods which make the most sense for them individually outside of meetings. Training should be a combination of new information and the basics to help officials stay up to date on existing documents and responsibilities.

**Priority Topics/Events by Board for 2023**

**Village Council**

Village Council is responsible for key aspects of the Village’s developing efforts including adoption of zoning amendments, budgets, approving economic development incentives, and more. Council meets monthly.
