## BUILDING FEES

### Determination of Valuation for Fee-Setting Purposes

• Project valuations shall be based on the total value of all construction work, including all finish work, roofing, electrical, plumbing, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment. If, in the opinion of the Building Official, the valuation is underestimated on the application, the permit shall be denied, unless the applicant can show detailed estimates to meet the approval of the Building Official. Final building permit valuation shall be set by the Building Official. For determining project valuations for new construction, and improvements to existing construction, the Building Official may use data published by the International Code Council (ICC) (building valuation data table, typically updated in February and August of each year) and/or data published by Marshall Swift Valuation Service. The final building permit valuation shall be set at an amount that allows the City to recover its costs of applicant plan check, permit and inspection activities.

**Note: For construction projects with permit fees calculated using Section B, additional fees apply for permit issuance. Additional fees may apply for services provided by other City Departments (e.g. Planning Review), and Fees Collected on Behalf of Other Agencies (e.g. State of California). Additional fees apply for plan review, when applicable.**

44	For Services Requested of City Staff which have no fee listed in this Master Fee Schedule, the City Manager or the City Manager's designee shall determine the appropriate fee based on the following hourly rates for staff time involved in the service or activity (per hour)	\$190	Per Hour		Y

[a] Good for ten years.

[b] Fee is intended to align to amount authorized by FCC. If FCC authorized amount changes, the amount(s) authorized by the FCC shall superseded the amount shown in this fee schedule.

[c] Calculation examples: if seven units, fee is "fee x 2"; if 20 units, fee is "fee x 4".

[d] Base fees include up to three rounds of plan review (initial submittal, plus two rounds of feedback). The City will bill hourly for additional reviews.

[e] Fee applies for requests for written responses. For all other research, no charge for initial hour of research. Fee(s) apply for additional hours after first hour.

[f] Availability/capacity to be determined by Director.

[g] In addition to the fee amounts listed, the City will pass-through all costs of outside agencies and contract service providers (e.g., LAFCO, County Recorder, Department of Fish and Wildlife, etc.).
