City of Pontiac Resolution for Pontiac SUN TimeBank

- WHEREAS,** Historically, Pontiac is the birthplace of the General Motors automobile manufacturing plants; and,
- WHEREAS,** increased automation in manufacturing and a trend towards globalization, beginning in the 1970's left many blue-collar laborers without work; and,
- WHEREAS,** due to an exodus of the automobile industry, the City of Pontiac has experienced significant economic decline; and,
- WHEREAS,** without sustainable jobs and income, health care and services had become harder to afford and access; and,
- WHEREAS,** resources for the people of Pontiac were further reduced by the enactment of drastic austerity measures brought about by an appointed emergency manager; and,
- WHEREAS,** while initiatives have been taken to address health inequities in marginalized communities, there is still a lack of equitable access and affordability in health and human services in areas such as Pontiac; and,
- WHEREAS,** the priority for Pontiac residents might not be direct services; it could be a single mother relying on a fellow community member to drive her and her child to the doctor's office, it could include rescuing elderly members of the community from the clutches of social isolation and depression and enhancing their mental well-being, it could mean strengthening the bonds that hold the Pontiac community together, one hour at a time; and,
- WHEREAS,** the Sun TimeBank has the ability to help bridge the disparity in health and human services and promote mental well-being in the City of Pontiac; and,
- WHEREAS,** the Sun TimeBank operates under five core values; assets, redefining work, reciprocity, social networks and respect,
