SUPPLEMENT NO. 1 TO DEVELOPMENT AGREEMENT

(Oakland Technology Center and Pontiac Woods Residential Community Project)

This Supplement No. 1 to Development Agreement (the "Supplement") is made as of 1, 2001, among Eltel Associates LLC (successor to Arco Construction Company ("Arco")), a Michigan limited liability company whose address is 25200 Telegraph Road, Suite 410, Southfield, Michigan 48034 (the "Developer"), the City of Pontiac Tax Increment Finance Authority, a Michigan public body corporate, whose address is 8 North Saginaw Street, Third Floor, Pontiac, Michigan 48342 (the "Pontiac TIFA") and the City of Pontiac, Michigan, a Michigan municipal corporation, whose address is 47450 Woodward Avenue, Pontiac, Michigan 48342 (the "City").

RECITALS

A. The City established the Pontiac TIFA and the Pontiac Tax Increment Finance Authority District (the "District") which includes Development Area No. 3 described in Exhibit A attached hereto ("Development Area No. 3") on May 12, 1981, pursuant to Act 450, Public Acts of Michigan, 1980, as amended (the "Act") to develop areas within the District, to halt and prevent property value deterioration within the District, and to encourage economic development and the creation of jobs within the District.

B. As part of its plan to revitalize and promote economic growth in Development Area No. 3, the City has adopted the Tax Increment Financing Plan and Development Plan (Development Area No. 3), as amended, pursuant to the requirements of the Act (The "TIFA Plan No. 3").

C. The TIFA Plan No. 3 provides for, among other things, the mixed use redevelopment, including high technology office, office, retail commercial, multi-family and single family residential components, and related facilities (collectively the "Development") of a tract of land (the "Property"), comprising approximately 216 acres (excluding existing public rightsof-way) bounded on the south and east by Elizabeth Lake Road and N. Johnson Ave., respectively, on the north by the Grand Trunk Western Railroad ROW, and on the west by the shopping center premises situated at the northwest corner of the intersection of Elizabeth Lake Road and Telegraph Road, in the City, as more particularly shown and described on Exhibit B, attached hereto (also the "Re-Development Area").

D. The parties hereto have entered into a Development Agreement, dated July 27, 2001 (the "Agreement") to implement the Development.

E. The Agreement provides that the Pontiac TIFA will use its best efforts to provide financing for a portion of the Infrastructure, as hereinafter defined.

F. The parties are entering into this Supplement to set forth the terms and conditions under which (i) the Pontiac TIFA will finance all or a part of the Infrastructure which constitutes

"public facilities" and other qualifying financeable items under the Act and (ii) the City will finance that portion of the Infrastructure constituting water and sewer system facilities with revenue bonds pursuant to Act 94, Public Acts of Michigan, 1983, as amended ("Act 94") (the "City Bonds").

G. Under the Agreement, the City has elected to implement the Development by designating the Pontiac TIFA to acquire the Property from the State of Michigan (the "State") and causing the Pontiac TIFA to convey the same to the Developer, and the Developer has agreed to acquire the Property from the Pontiac TIFA and develop the same in accordance with and subject to the terms of the Agreement, including complying with development scheme set forth in the TIFA Plan No. 3.

H. The City and Developer have agreed that Developer, or its permitted successors and assigns, shall be primarily and substantially responsible for the development of a high technology office development (the "Office Development") on approximately forty percent (40%), but in no event more than forty-five percent (45%) of the Property and a single family residential development (the "Residential Development") on the remaining land, consisting of approximately fifty-five to sixty percent (55-60%) of the Property, all as more particularly described in the Agreement.

I. The Developer has agreed to be responsible for using proceeds of the 2001 Bonds to finance the acquisition, construction and installation of the infrastructure of roads, utilities and other improvements constituting "public facilities" under the Act (collectively, the "Infrastructure"), as described in Phase I on Exhibit C, attached hereto and made a part hereof, required to service the Development.

J. The Infrastructure will be located on the property described on Exhibit D (the "Site") which is located within Development Area No. 3.

K. The Pontiac TIFA will use its best efforts to issue and sell under authority of the Act a series of tax exempt tax increment revenue bonds (the "2001 Bonds") on a negotiated basis or at public competitive sale. The 2001 Bonds shall be secured solely by a pledge of the Tax Increment Revenues (as hereinafter defined) and additionally may be payable from municipal bond insurance or other credit enhancement. The 2001 Bonds shall not be secured by any pledge of the full faith and credit of the City. The 2001 Bonds shall be issued under Section 15(1) of the Act. It is contemplated that the Pontiac TIFA will seek an investment grade rating on the 2001 Bonds.

L. The Infrastructure shall be limited to those items that constitute "public facilities" or which may be undertaken by the Pontiac TIFA under the Act and which may be financed with tax-exempt bond proceeds under the Internal Revenue Code of 1986, as amended and the regulations promulgated thereunder (the "Code"). Proceeds of the 2001 Bonds may also be used to pay for capitalized interest, if any, and also for the costs and expenses of the parties hereto relating to this Supplement and the issuance of the 2001 Bonds, including underwriter's discount, rating agency fees, legal, financial and other professional expenses of the Pontiac TIFA and the Developer and the expenses related to the fees, bond insurance or other credit enhancement, if any. The net proceeds available from the 2001 Bonds for the Infrastructure shall

not exceed \$23.5 million. A list of the proposed Infrastructure items and a current estimate of the cost thereof is set forth in Phase I of Exhibit C attached. The Developer shall have the right to substitute items of the Infrastructure listed on Phase I of Exhibit C but only to the extent that the replacement items constitute public facilities under the Act and subject to the prior approval of the Finance Director of the City with the advice of bond counsel for the 2001 Bonds. The resolution of the Pontiac TIFA authorizing the issuance of the 2001 Bonds (the "Bond Resolution"), will provide, among other things, that the net proceeds of the 2001 Bonds shall be deposited in a Construction Fund established under the Bond Resolution (the "Construction Fund") shall be disbursed from the Construction Fund to the appropriate party for costs and expenses it incurs relating to this Supplement and the issuance of the 2001 Bonds and to the Developer from time to time during the construction of the Project for the costs it incurs for the Infrastructure upon presentation of satisfactory documentation to the Pontiac TIFA and the trustee for the 2001 Bonds, if any.

M. The Pontiac TIFA and the City have determined that it is in the best interests of the City, the District and Development Area No. 3 to adopt and approve certain amendments to the TIFA Plan No. 3 to expand the boundaries of Development Area No. 3 and to make other additions related to, among other things, the Project, the Infrastructure and additional improvements in Development Area No. 3 (the "Amended Plan").

N. The 2001 Bonds shall be secured solely by a pledge of and lien on the tax increment revenues from Development Area No. 3 which shall be collected and retained by the Pontiac TIFA from taxing units other than the Pontiac School District and the Intermediate School District (collectively, the "Tax Increment Revenues"). The lien on the Tax Increment Revenues in favor of the 2001 Bonds shall be a first lien of equal standing and priority as to the Tax Increment Revenues with other additional tax increment revenue bonds for TIFA Development Area No. 3 issuable in the future in accordance with the requirements.

O. An estimate of the Tax Increment Revenues to be collected and retained by the Pontiac TIFA during the term of the 2001 Bonds shall be set forth in the Bond Resolution.

P. In order to implement the terms and conditions set forth in this Supplement, the Pontiac TIFA, the City and the Developer understand that they must take action on the matters on the dates as the set forth in the "Proposed Schedule of Events" attached as Exhibit E. The agreement of the City and the Pontiac TIFA to undertake to approve the Amended Plan and to seek approval of the 2001 Bonds as provided in this Supplement will enable the Developer to initiate work on the Project, and seek reimbursement for qualifying Infrastructure costs it has incurred promptly after the 2001 Bonds are sold.

In consideration of the Premises and the mutual covenants contained in this Supplement, the Developer, the City and the Pontiac TIFA hereby covenant and agree as follows:

Debt Service requirements of the Lake Angelus Bonds will be payable from and secured by a lien on the Tax Increment Revenues of equal standing and priority with the debt service requirements on the 2001 Bonds. The Pontiac TIFA reserves the right to issue additional bonds payable from the Tax Increment Revenues within the limitations prescribed by the Act to finance additional infrastructure improvements related to the Development, the Lake Angelus Project or other projects in Development Area No. 3 so long as the rights of Developer under the Agreement and this Supplement are not materially adversely affected.

to exceed \$23.5 million for the costs of the Infrastructure. The proceeds of the 2001 Bonds shall be disbursed to the Developer from time to time during the construction of the Project upon delivery by the Developer to the Pontiac TIFA of (1) the architect's and/or engineer's acceptance and authorization to pay the invoices for the Infrastructure which have been acquired and installed or constructed together with the contractor's separate certification of the Infrastructure costs thereof separate from the rest of the Project, (2) copies of all paid invoices for the costs and expenses of the parties hereto relating to this Supplement and the issuance of the 2001 Bonds, and (3) such other proofs, certifications, sworn statements as the Pontiac TIFA or the City shall require; and upon the satisfaction of the conditions to disbursement as are set forth in the Disbursement Agreement attached hereto as Exhibit F.

The 2001 Bonds shall be term bonds and/or serial bonds, maturing in each year in amounts to be determined by the Finance Director of the City at the time of issuance thereof; provided, however, that the final maturity of the 2001 Bonds shall not exceed the weighted average useful life of the Infrastructure components financed with proceeds of the 2001 Bonds. The Developer and the Pontiac TIFA acknowledge and agree that the City Bonds may be issuable in one or more series of water revenue bonds and sewer revenue bonds under Act 94 and that a portion of the proceeds thereof may be used by the City to finance other water and sewer projects in the City. The Pontiac TIFA and the Developer will work with the City's Department of Public Works and Engineers to coordinate the financing, acquisition and installation of the Water and Sewer Improvements with the construction plans for the Development.

Section 205. <u>Schedule for Issuance of Bonds</u>. So long as the City and Pontiac TIFA are proceeding diligently and in good faith, the failure to accomplish any action on the date set forth in Exhibit E, shall not constitute a default hereunder. The Pontiac TIFA and the City shall use their best efforts to issue the 2001 Bonds and the City Bonds, provided, however, that neither the Pontiac TIFA nor the City shall incur any liability to Developer in case the 2001 Bonds are not sold, due to reasons beyond the control of Pontiac TIFA and the City.
