Explanation of why questions 1 to 3 are not part of the allocation.

- 1) Days out of work are not considered to be days worked. Unemployment compensation is not taxable and is not reported on your W-2.
- 2) No wage allocation is allowed, because days at home are not considered to be days worked. These days fall under the same category as vacation/sick time.
- 3) No wage allocation allowed unless taxpayer was called in (i.e. worked remotely for hours approximating their regular shift). This appears to fall under many City Regulations as follows: The mere fact that a non-resident employee is subject to call at any time does not permit the allocation of compensation on a seven day per week basis. The mere fact that a non-resident employee is compensated on a seven day per week salary basis, when he/she does not in fact perform work or render services seven days per week, does not permit the allocation of compensation on a seven day per week basis. The mere fact that a non-resident employee takes work home does not permit the allocation of compensation.
